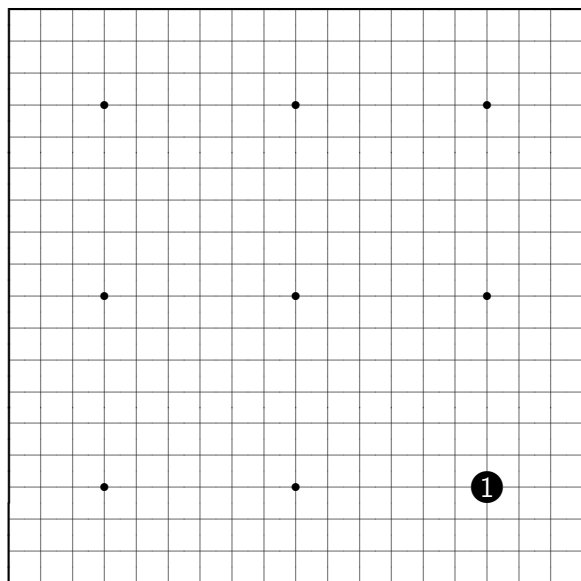

Diagram. 1
(Move: 1)

Kashomon [1k]: Hi Younggil. So I have 3 joseki questions here Younggil [8p]: ok

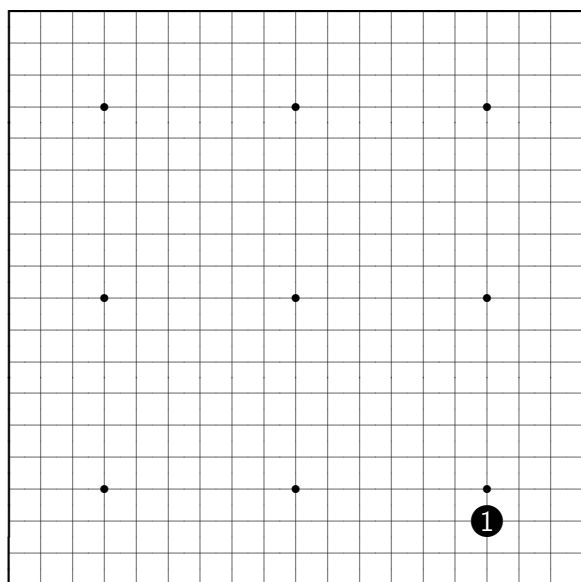

Diagram. 2

Kashomon [1k]: This is related to the game we talked about last time Younggil [8p]: that's why White just connect there Kashomon [1k]: yea

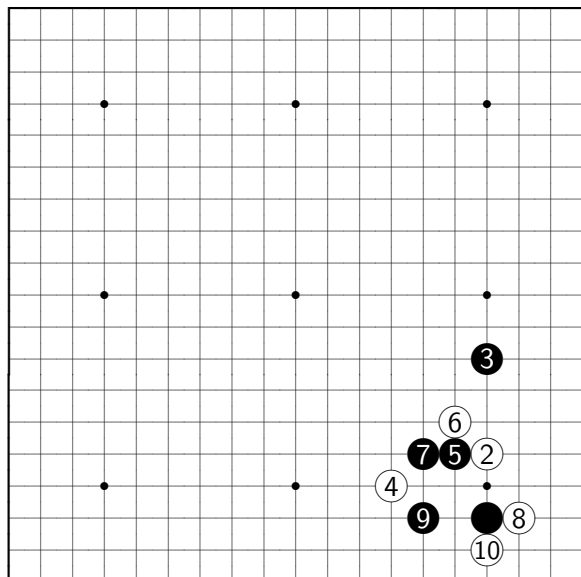

Diagram. 3

Younggil [8p]: i see Kashomon [1k]: I played this Kashomon [1k]: as white

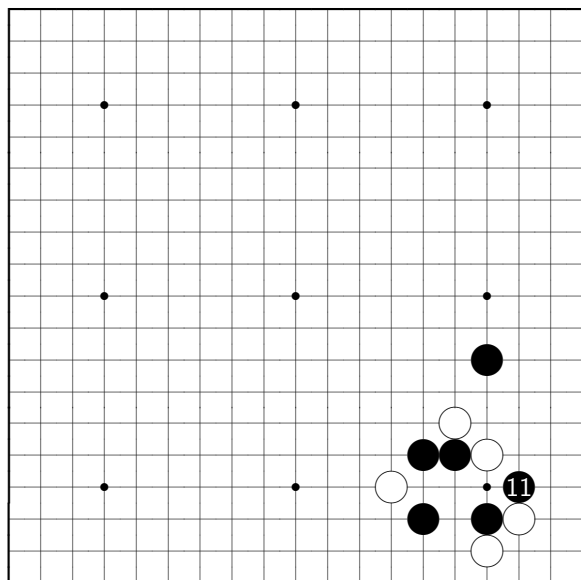

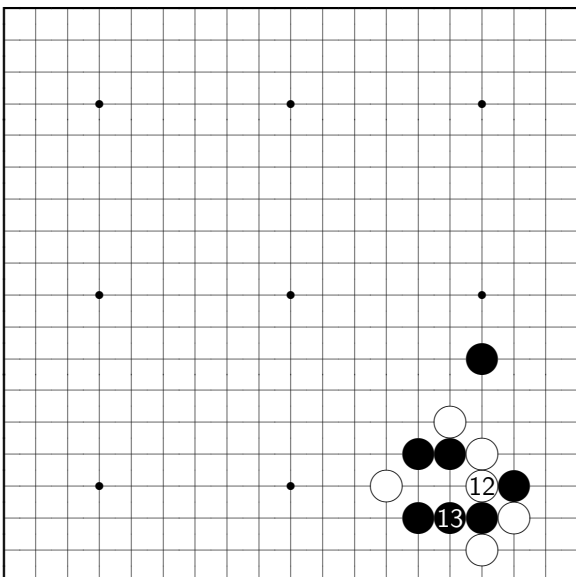

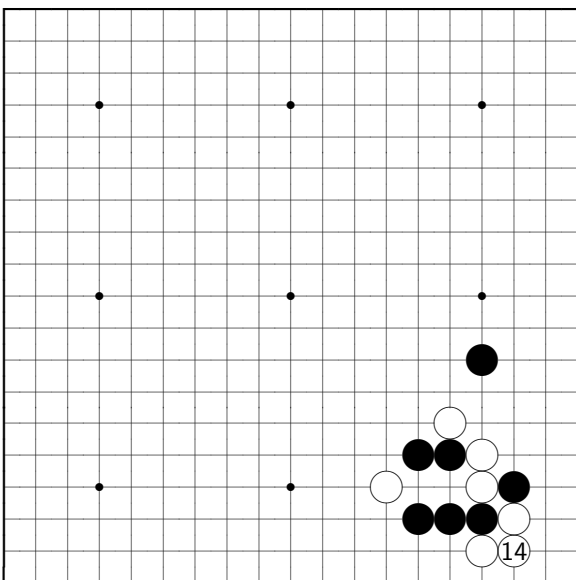

Diagram. 4

Younggil [8p]: good Kashomon [1k]: Black played this Younggil [8p]: so, where did you play in the game?

*Diagram. 5*

Kashomon [1k]: I was also trying to figure out if it was possible to

*Diagram. 6*

Younggil [8p]: you'll learn more about that if you try a couple of times more

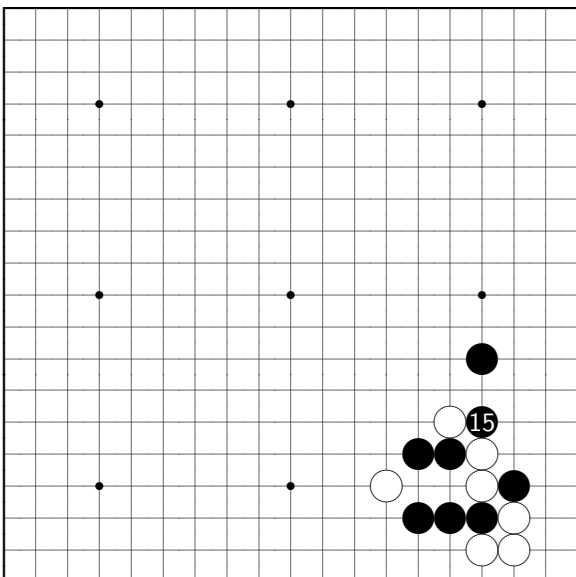

Diagram. 7

Kashomon [1k]: we played this Younggil [8p]:
i see

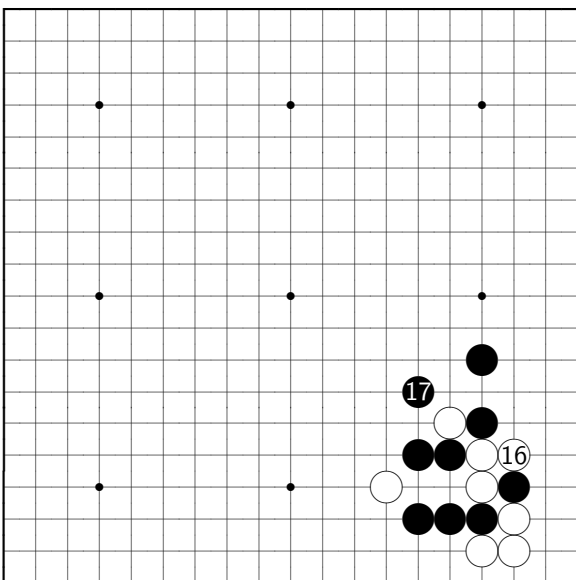

Diagram. 8

Younggil [8p]: so far so good Younggil [8p]:
I see Younggil [8p]: Black player was con-
fused maybe Younggil [8p]: if Black caps
here Younggil [8p]: white can just play some-
where else Younggil [8p]: or even atari at Q7
Kashomon [1k]: I thought this wasn't joseki –
but I didn't know whether to leave the aji or
not Kashomon [1k]: I thought about

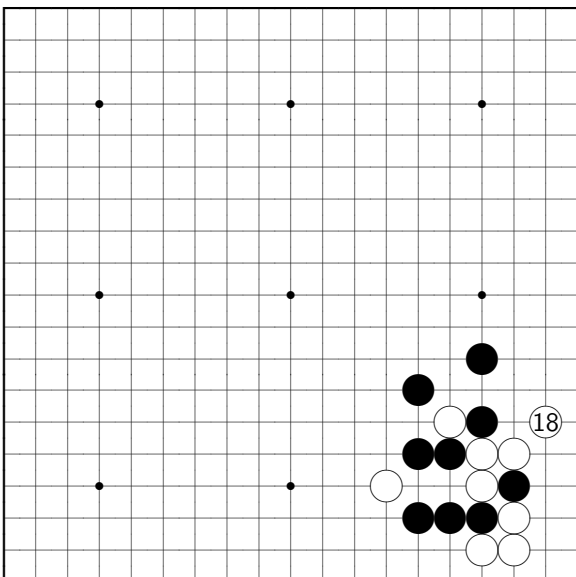

Diagram. 9

Kashomon [1k]: or this Younggil [8p]: that's also fine Younggil [8p]: that's slow Younggil [8p]: White can just tenuki Younggil [8p]: and that'd be the best Kashomon [1k]: yea, in the game I extended along the side Younggil [8p]: because what Balck can do next is blocking at R6 Younggil [8p]: and that's nothing special Kashomon [1k]: I see Younggil [8p]: by the way, I'm happy to see that you tried new joseki Kashomon [1k]: ok, well not much to see here then Kashomon [1k]: =)

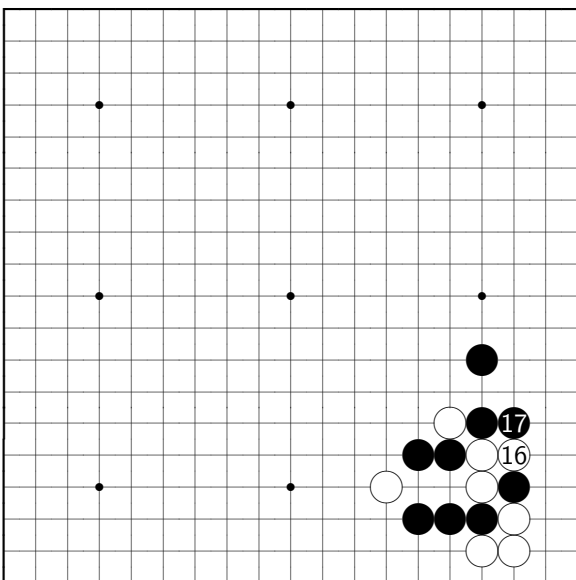

Diagram. 10

Kashomon [1k]: should it be here? Younggil [8p]: yes, that's it Younggil [8p]: and White has sente Kashomon [1k]: I see Kashomon [1k]: In the game

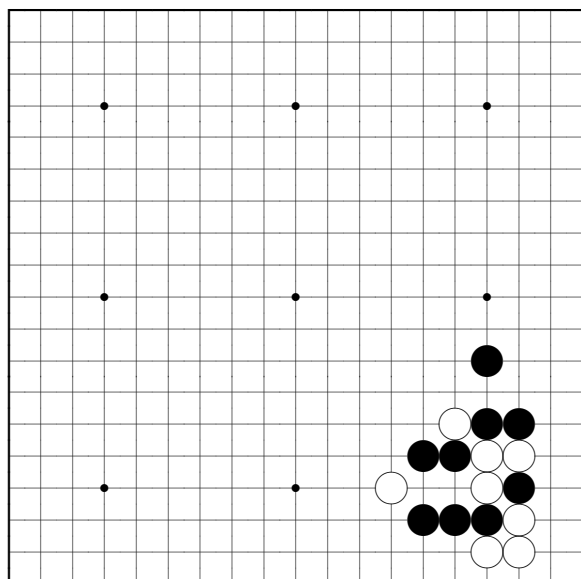

Diagram. 11

Younggil [8p]: after Black's cap Kashomon [1k]: it looks like this Younggil [8p]: i see

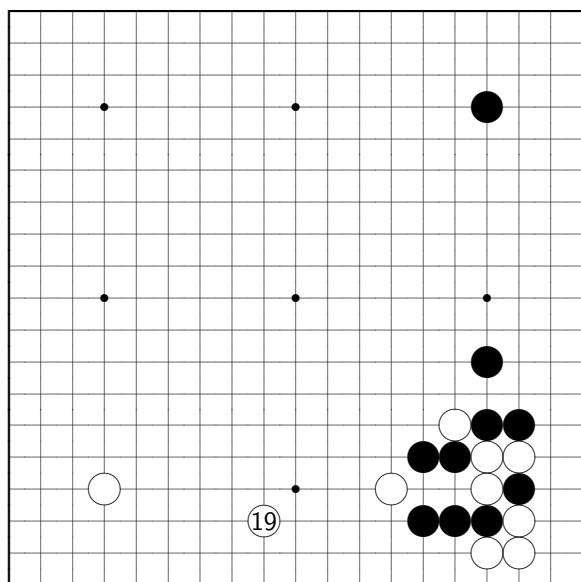

Diagram. 12

Kashomon [1k]: I played here Younggil [8p]: good

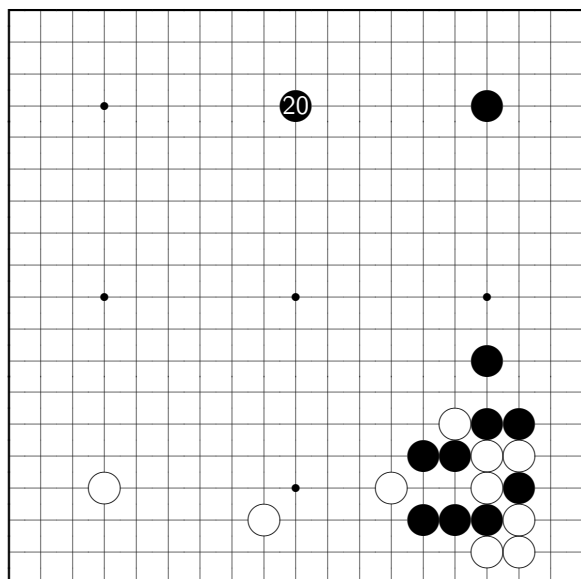

Diagram. 13

Kashomon [1k]: And the other corner was mine Kashomon [1k]: but I don't remember where the stone was Younggil [8p]: i see Kashomon [1k]: maybe the 44 Younggil [8p]: this is a joseki, and was there any problem? Kashomon [1k]: No, but I was wondering

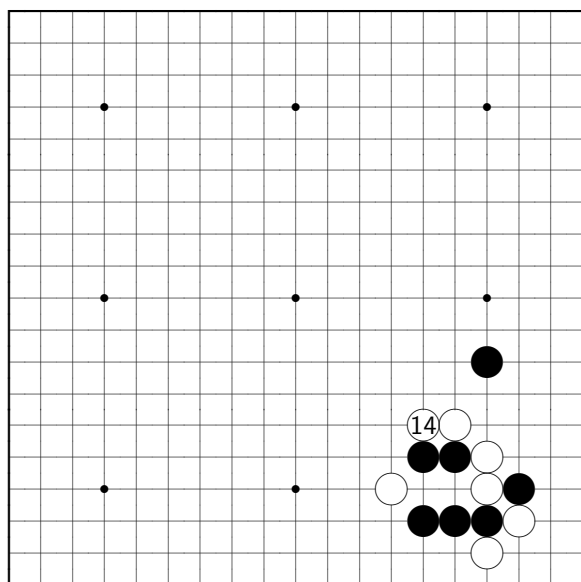

Diagram. 14

Kashomon [1k]: Play here first Kashomon [1k]: first Kashomon [1k]: But I think black takes the corner and it's big Younggil [8p]: hmm Younggil [8p]: yes, Black will get the corner Kashomon [1k]: Where would you play next?

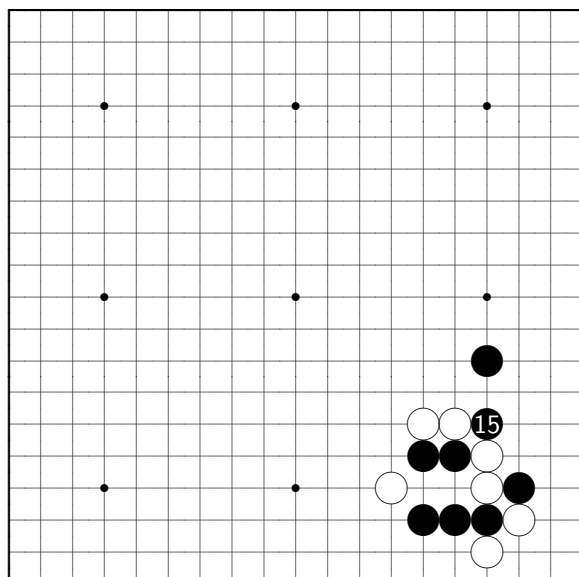

Diagram. 15

Younggil [8p]: that's too much

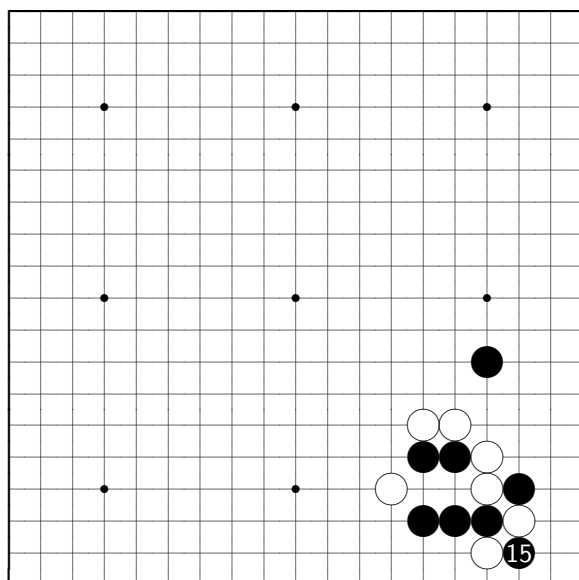

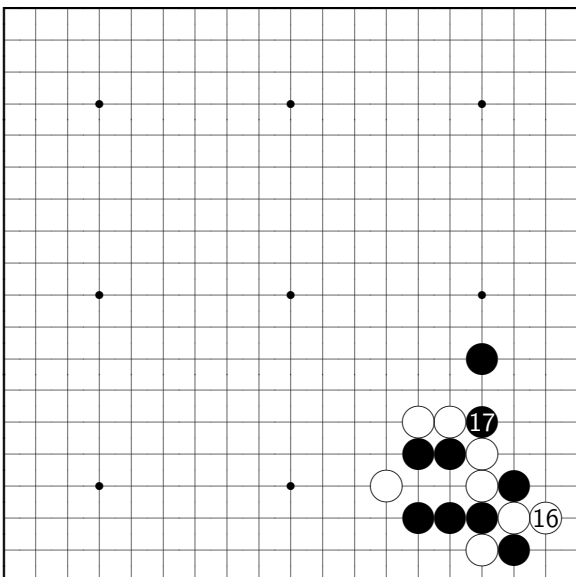

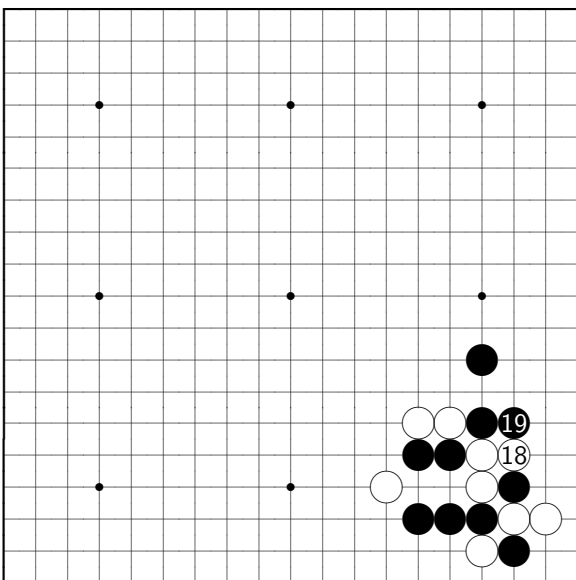

Diagram. 16

Younggil [8p]: can I control?

*Diagram. 17*

Younggil [8p]: yes, black can simply cuts here
Kashomon [1k]: alright

*Diagram. 18*

Younggil [8p]: like this

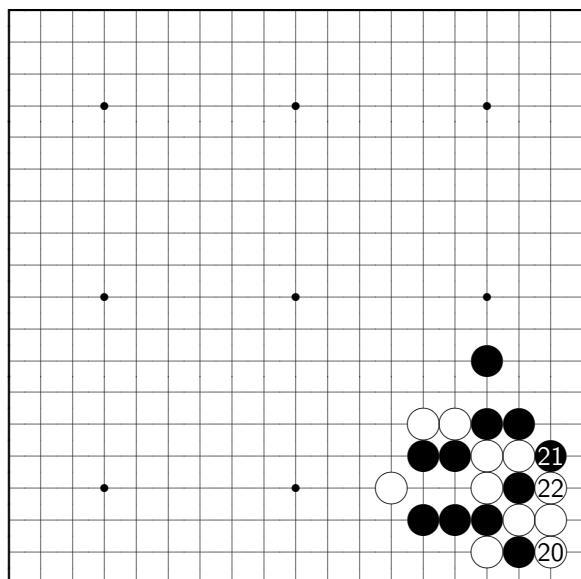

Diagram. 19

Kashomon [1k]: I see

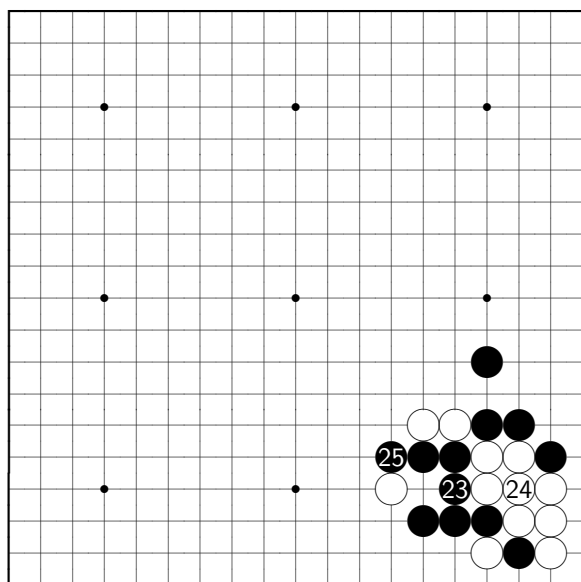

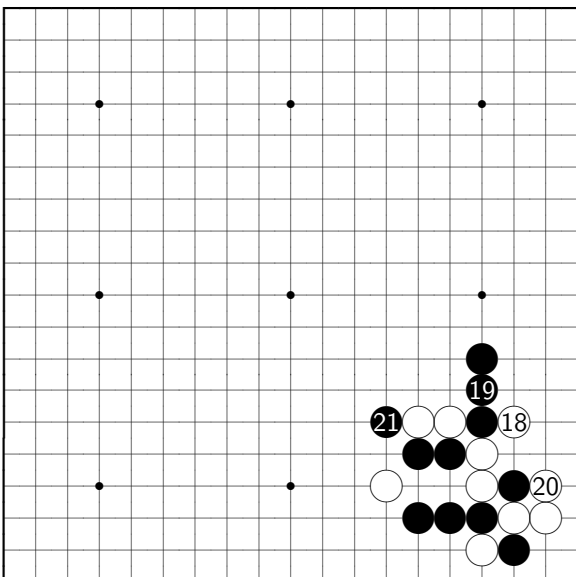

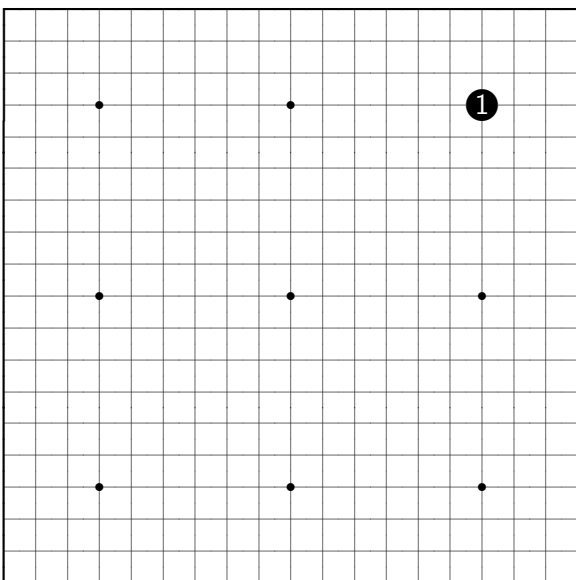

Diagram. 20

Younggil [8p]: better for Black

*Diagram. 21*

Younggil [8p]: also good for Black Kashomon
[1k]: gotcha

*Diagram. 22*

Kashomon [1k]: Ok, the last position was from
the chinese

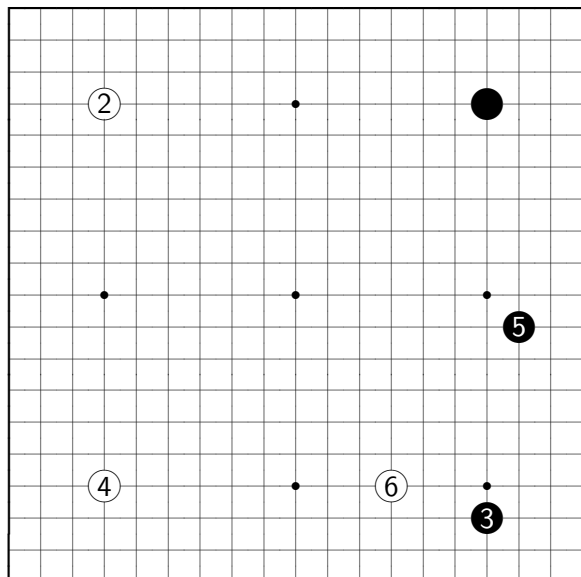

Diagram. 23

Kashomon [1k]: ok, so in the other game Kashomon [1k]: my opponent played Kashomon [1k]: alright. I think that answers my questions about joseki, thanks =) Kashomon [1k]: What do most professional players play now? Younggil [8p]: if you don't like those variations for White, you can simply play at K4 Kashomon [1k]: Do they go for the upper right?

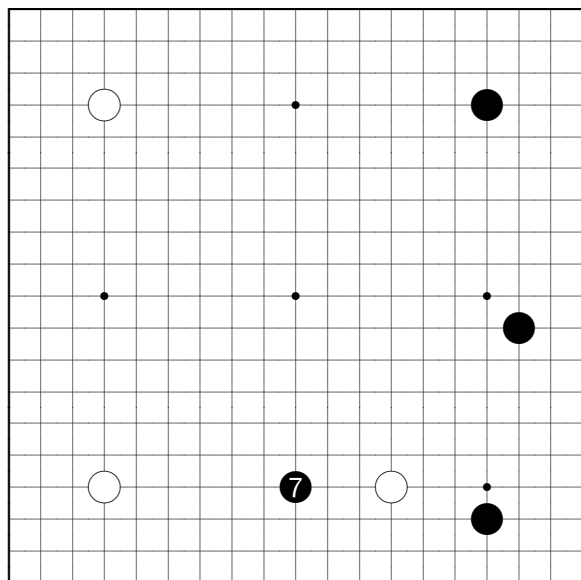

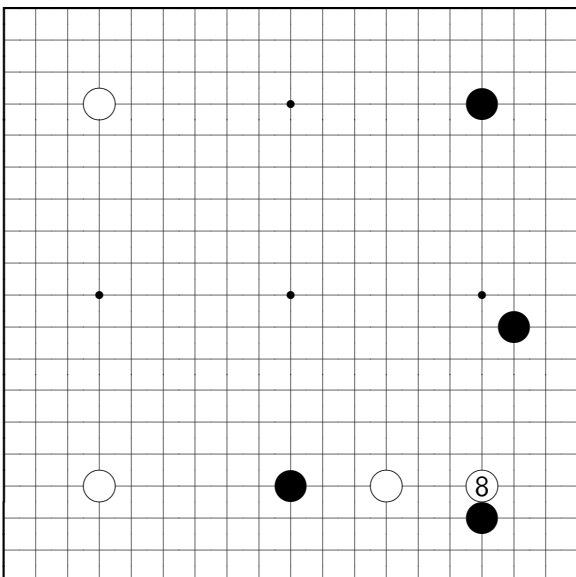

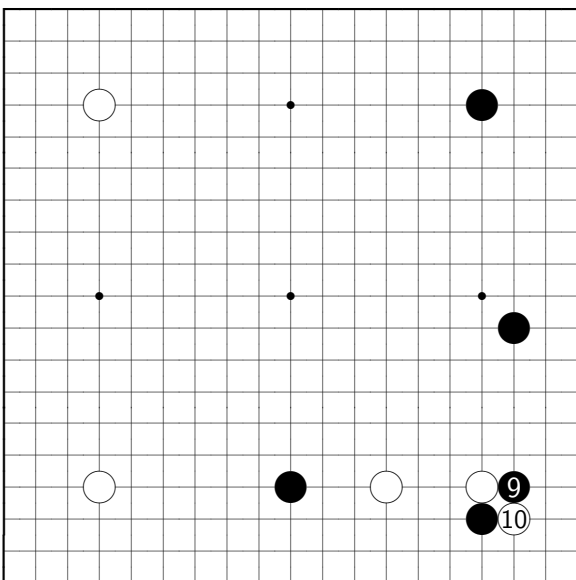

Diagram. 24

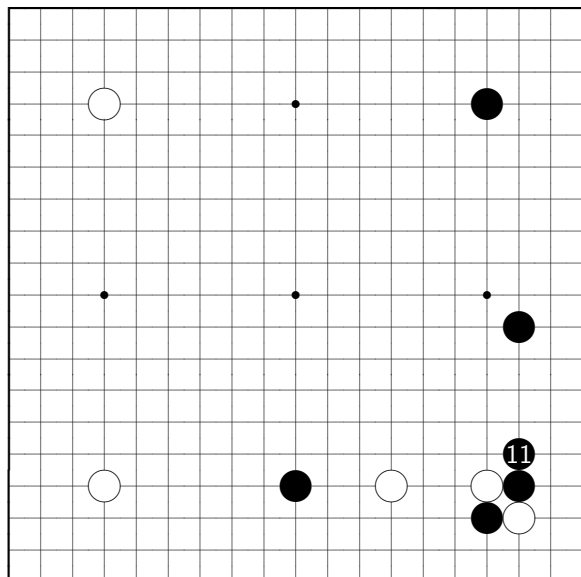

Younggil [8p]: good Kashomon [1k]: So, I played two games from this position Younggil [8p]: are you white? Kashomon [1k]: one as black and one as white Kashomon [1k]: both =) Younggil [8p]: good Kashomon [1k]: in my game as white, I played Kashomon [1k]: After I played this, I looked up some variations

*Diagram. 25*

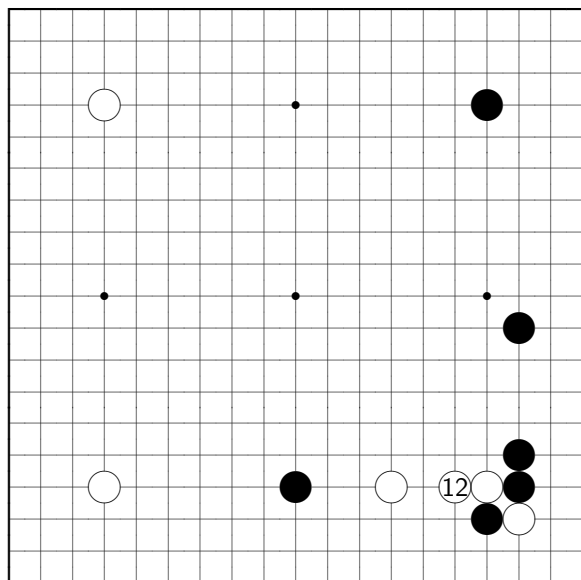

Kashomon [1k]: but couldn't find any for this Younggil [8p]: i see Kashomon [1k]: so maybe it's not played very much? Younggil [8p]: that's probably outdated, Younggil [8p]: not recently Younggil [8p]: because mainly, Black just respond in the bottom right Younggil [8p]: instead of K4 Younggil [8p]: which means, the variations from this attachment would be playable for White

*Diagram. 26*

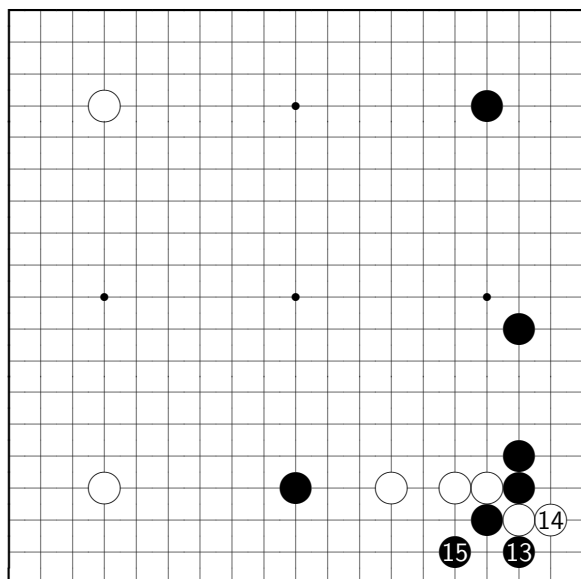

Younggil [8p]: white should do this way Younggil [8p]: or

*Diagram. 27*

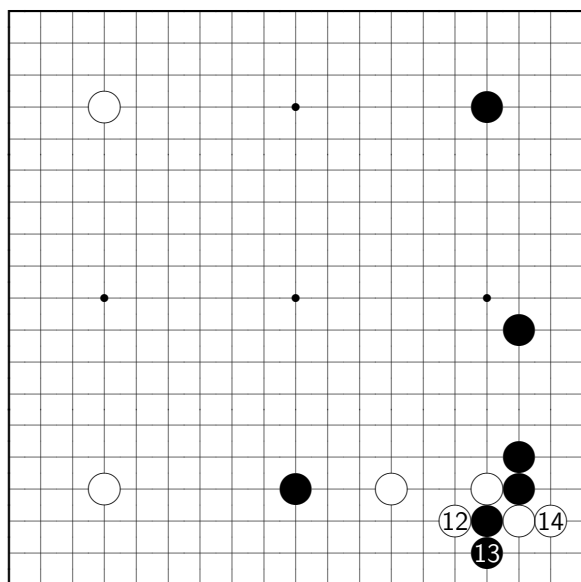

Younggil [8p]: good choice

*Diagram. 28*

Younggil [8p]: oh Younggil [8p]: did you have a look at the game commentary played between Yu Zhiying and Li Qincheng? Younggil [8p]: I explained a bit about this Kashomon [1k]: hm

*Diagram. 29*

Kashomon [1k]: Which doesn't look right
Younggil [8p]: yea

*Diagram. 30*

Younggil [8p]: this is an old fashioned, but still
alright Kashomon [1k]: I thought I did, but I
don't remember the explanation

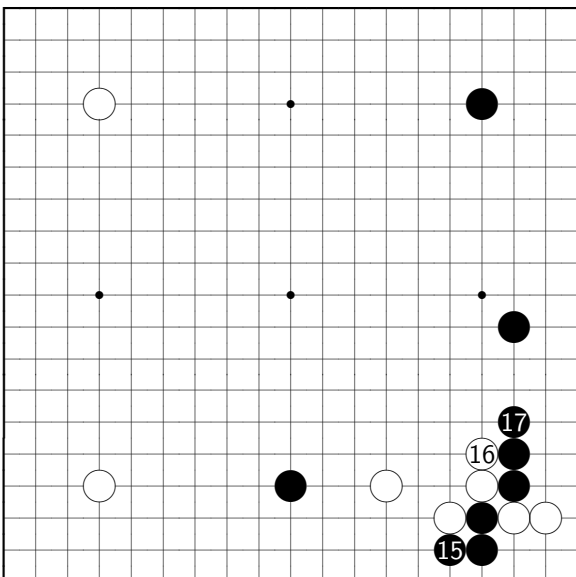

Diagram. 31

Younggil [8p]: I see Younggil [8p]: I'll show you, so don't worry :)

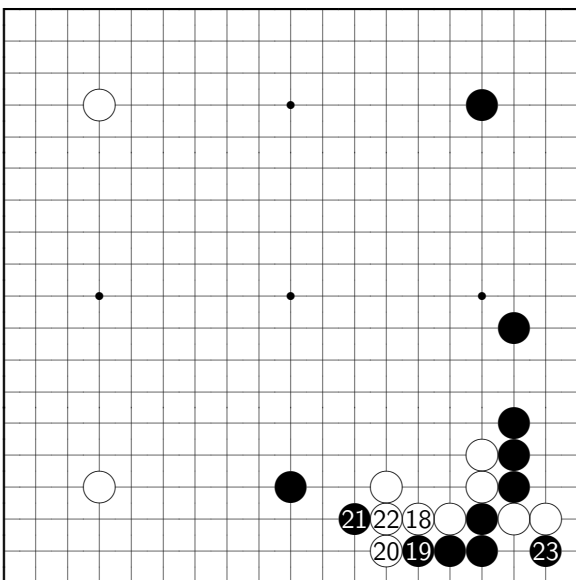

Diagram. 32

Younggil [8p]: Black can capture the two stones

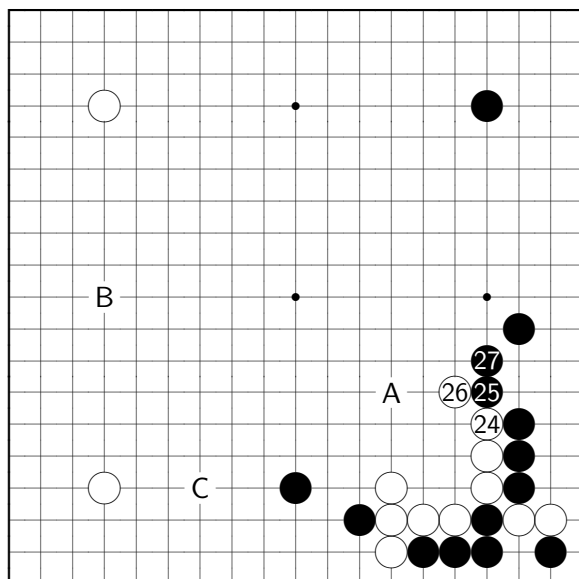

Diagram. 33

Younggil [8p]: and this is sente for White
 Younggil [8p]: and now, where'd you play next? Kashomon [1k]: I think W needs another move. IA looks good

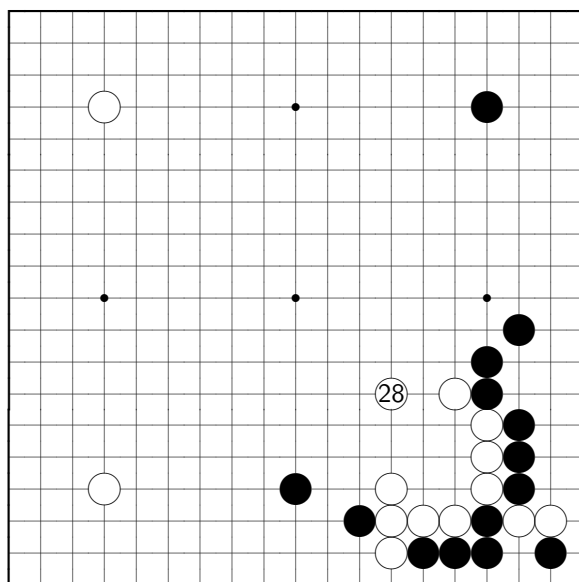

Diagram. 34

Kashomon [1k]: Although, if I were playing
 Kashomon [1k]: I would probably play at O6

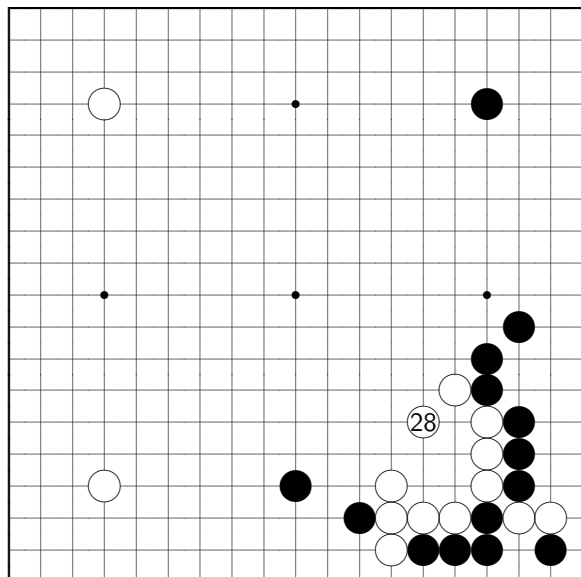

Diagram. 35

Younggil [8p]: that's also ok Younggil [8p]: similar to A

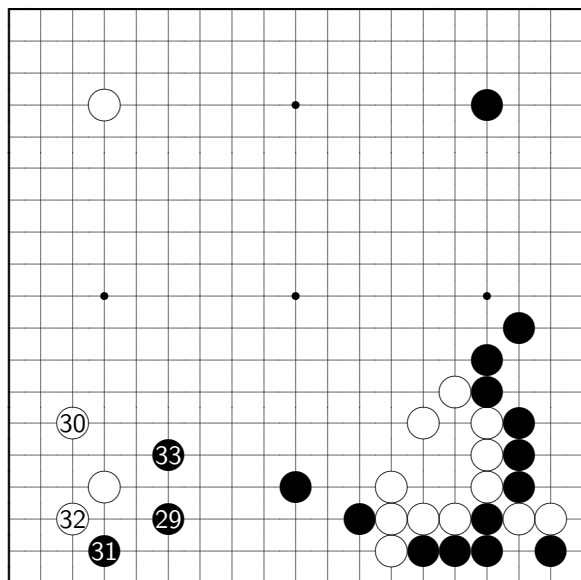

Diagram. 36

Younggil [8p]: if you just take care of yourself Younggil [8p]: black can make a nice position like this Younggil [8p]: so, you'd better remove your opponent's base Kashomon [1k]: yes, that's much better for black Younggil [8p]: and going out towards the center together

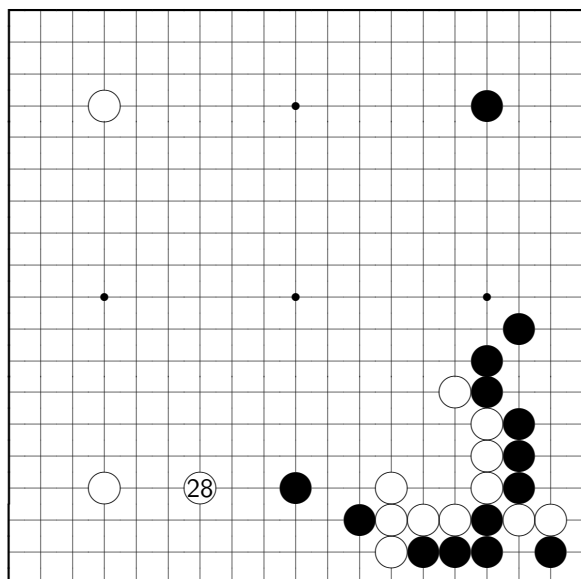

Diagram. 37

Younggil [8p]: btu this is more common
 Younggil [8p]: so this is not only attacking
 move Younggil [8p]: but also help the lower
 side group Younggil [8p]: by the way, that's
 important to know this

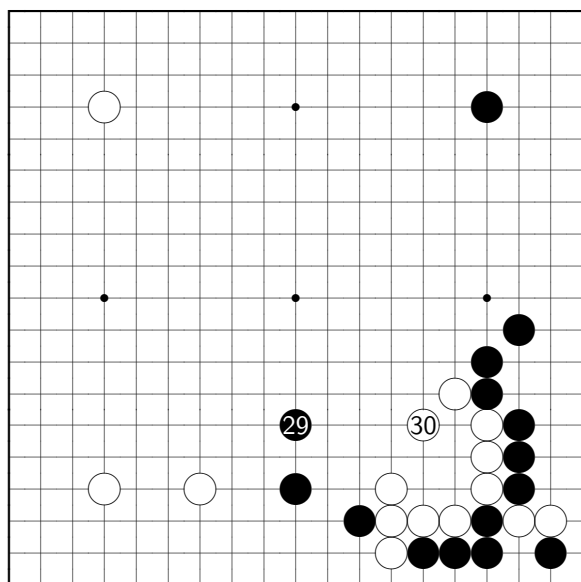

Diagram. 38

Younggil [8p]: like this Younggil [8p]: or even
 White can play somewhere else Younggil [8p]:
 because

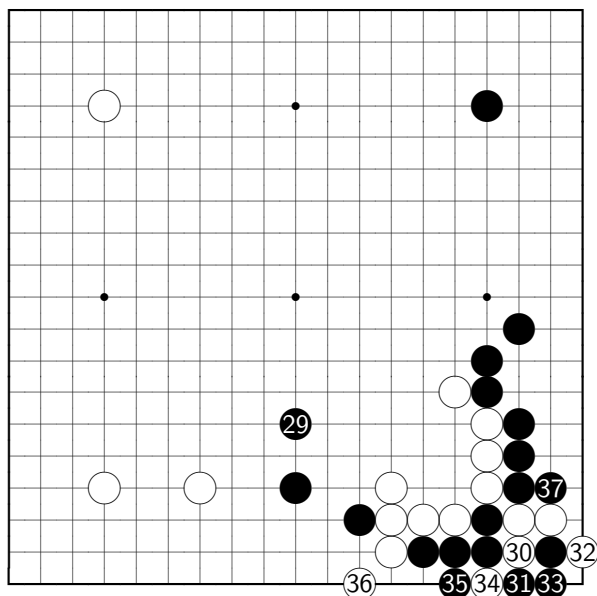

Diagram. 39

Younggil [8p]: this is sente Kashomon [1k]: ah

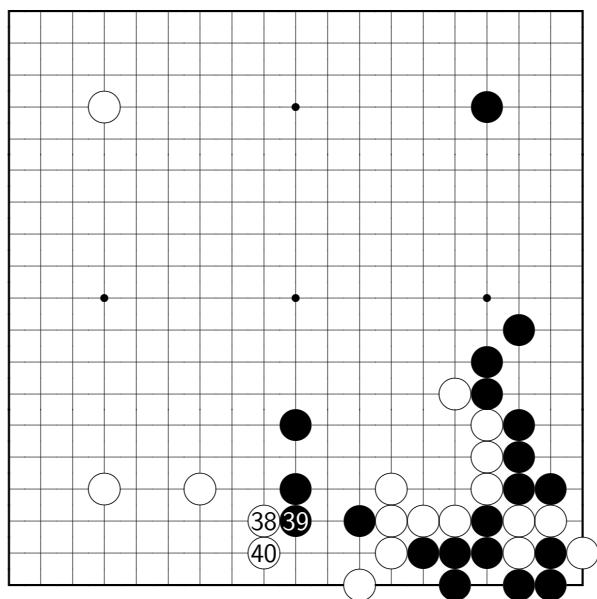

Diagram. 40

Kashomon [1k]: that's pretty cool Younggil [8p]: so white can connect underneath anytime Younggil [8p]: :)

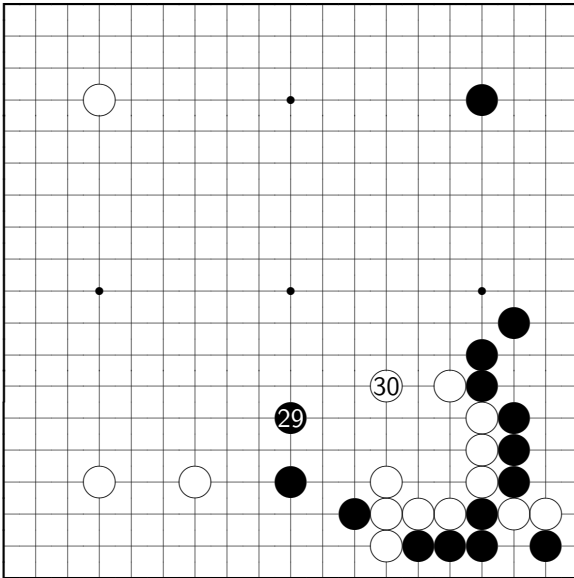

Diagram. 41

Younggil [8p]: this is much better

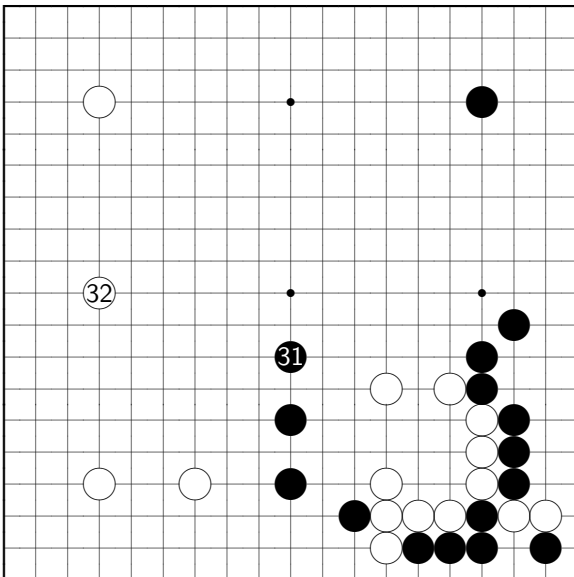

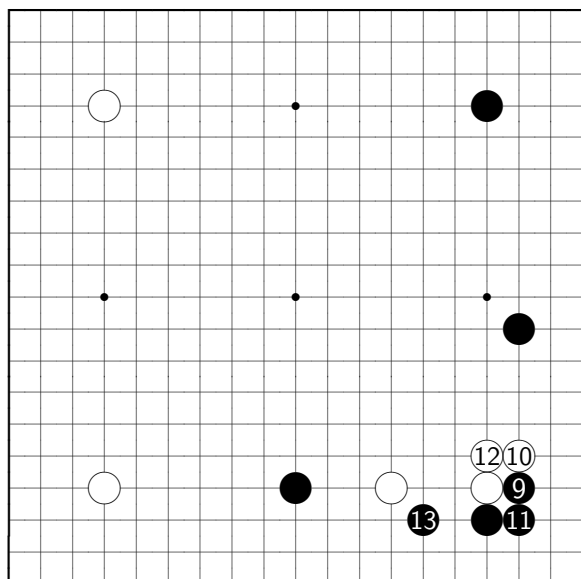

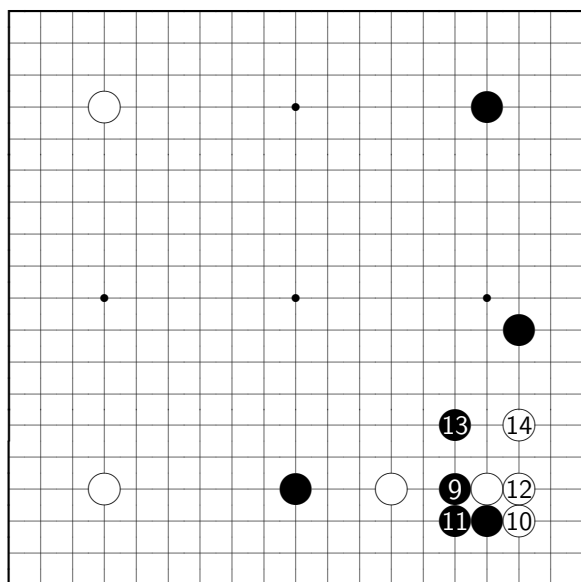

Diagram. 42

Younggil [8p]: like this Younggil [8p]: so this variation is quite easy to remember Younggil [8p]: and also nice and safe Kashomon [1k]: yea Younggil [8p]: any questions about this variation? Kashomon [1k]: nope, thanks Younggil [8p]: good

*Diagram. 43*

Kashomon [1k]: I see Younggil [8p]: this was also played a while ago, but that's better for Black, so White doesn't play anymore Younggil [8p]: but it was played in the final of an international tournament Younggil [8p]: at the time

*Diagram. 44*

Younggil [8p]: this way

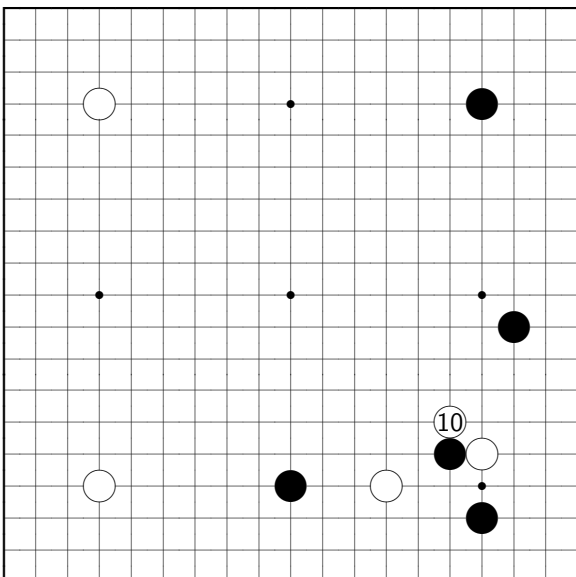

Diagram. 47

Younggil [8p]: very good

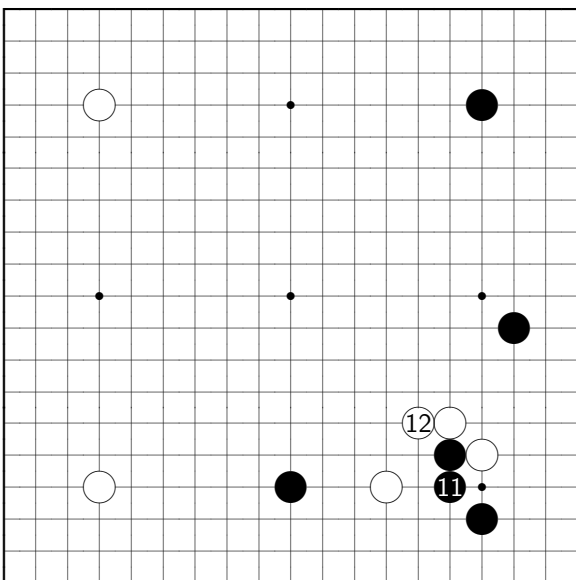

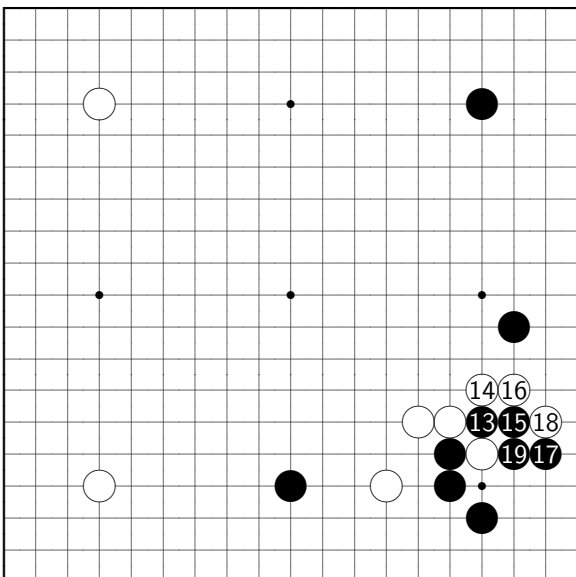

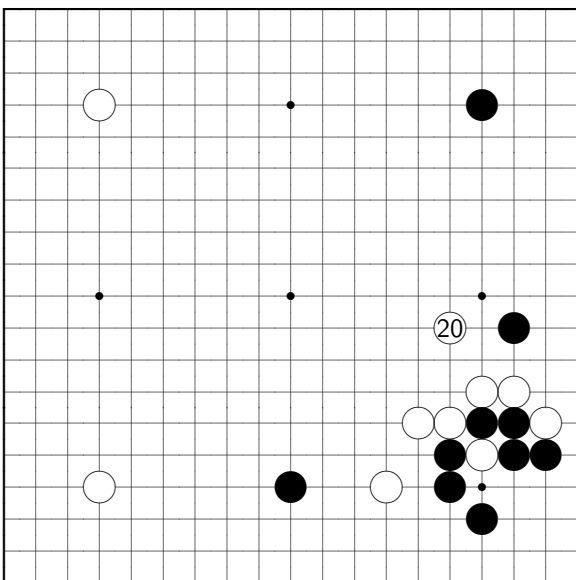

Diagram. 48

Kashomon [1k]: oh

*Diagram. 49*

Kashomon [1k]: this Younggil [8p]: perfect

*Diagram. 50*

Kashomon [1k]: ah Kashomon [1k]: hm

Diagram. 51

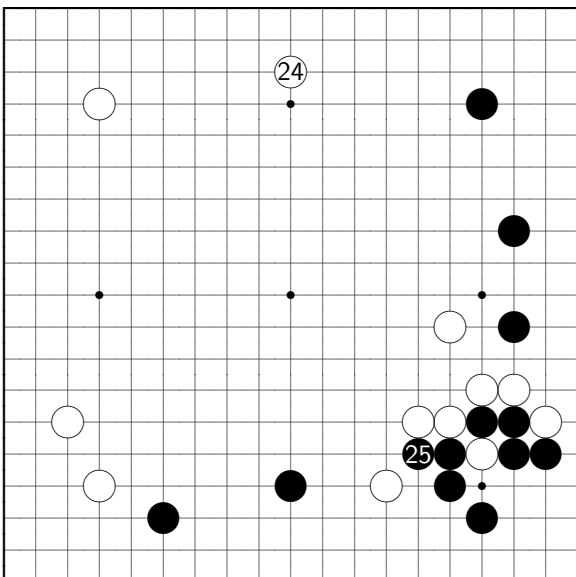

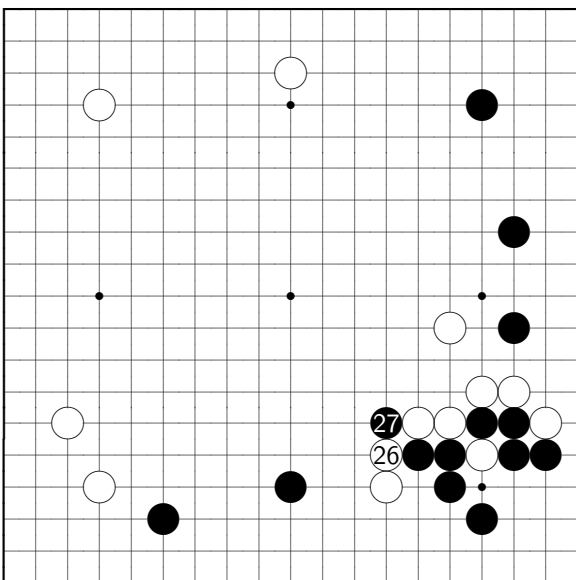

Diagram. 52

*Diagram. 53*

Kashomon [1k]: I see

*Diagram. 54*

Younggil [8p]: and Black can fight like this later

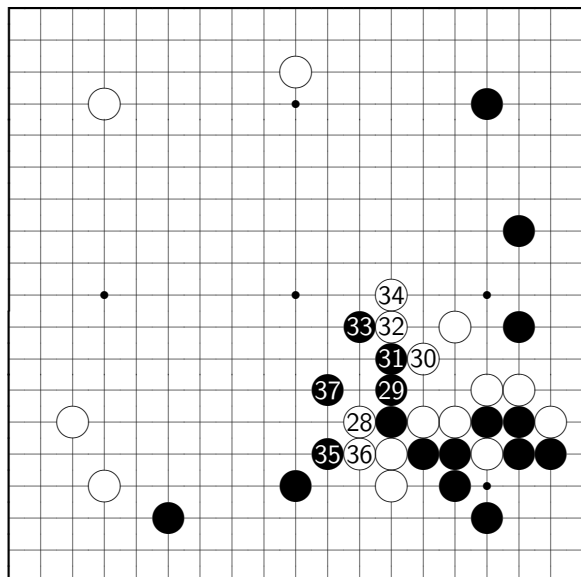

Diagram. 55

Younggil [8p]: something like this Younggil [8p]: or

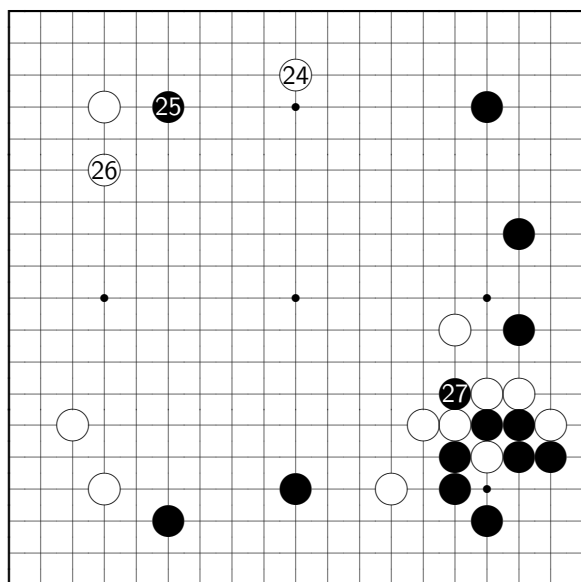

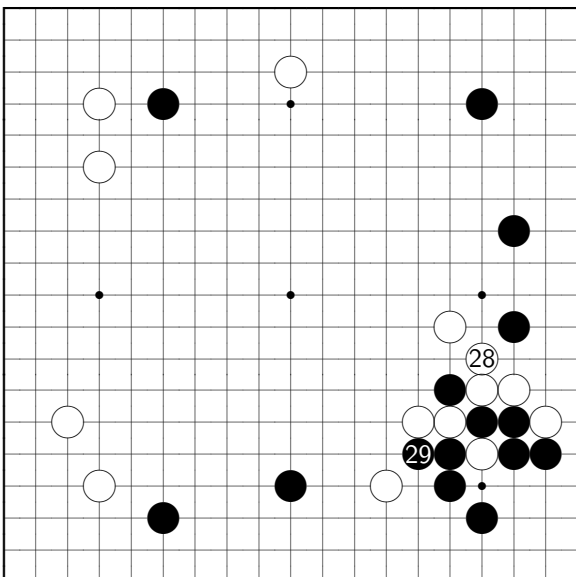

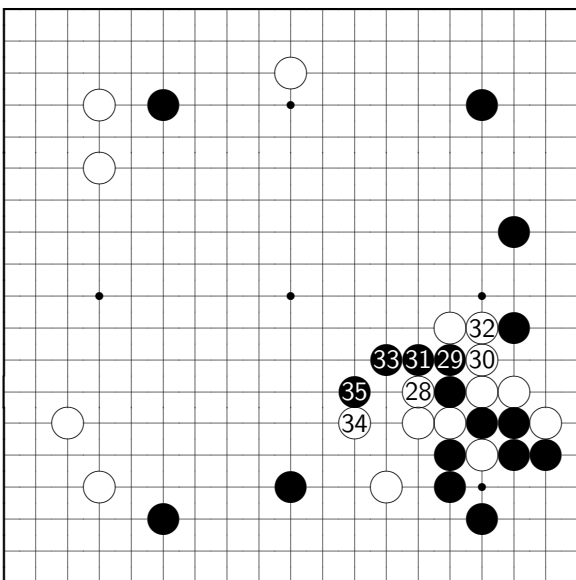

Diagram. 56

Younggil [8p]: when the ladder favors Black, Kashomon [1k]: tircky Younggil [8p]: black can also cut here

*Diagram. 57*

Younggil [8p]: quite hard for White to fight

*Diagram. 58*

Kashomon [1k]: did white misplay? Younggil [8p]: hmm

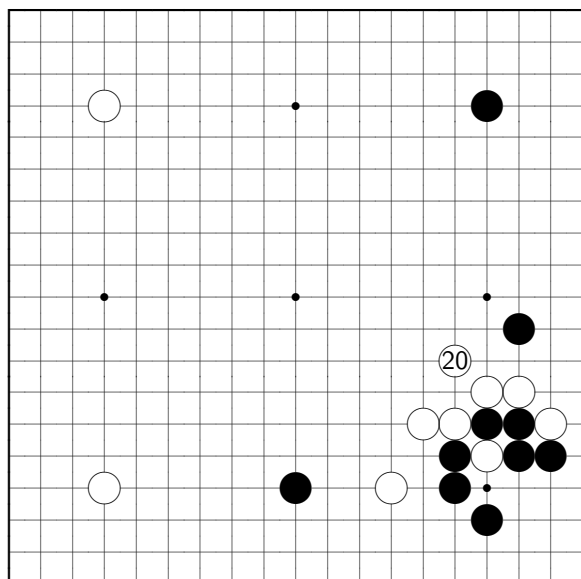

Diagram. 59

Younggil [8p]: and this is the right move for the shape

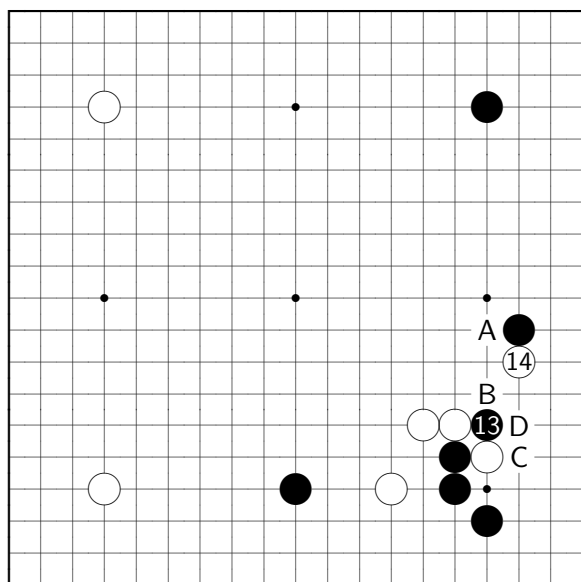

Diagram. 60

Younggil [8p]: this is also possible, but Younggil [8p]: where'd you play for Black next? Kashomon [1k]: hm Kashomon [1k]: If this were a faster game I would try q7 Kashomon [1k]: haha Younggil [8p]: okM

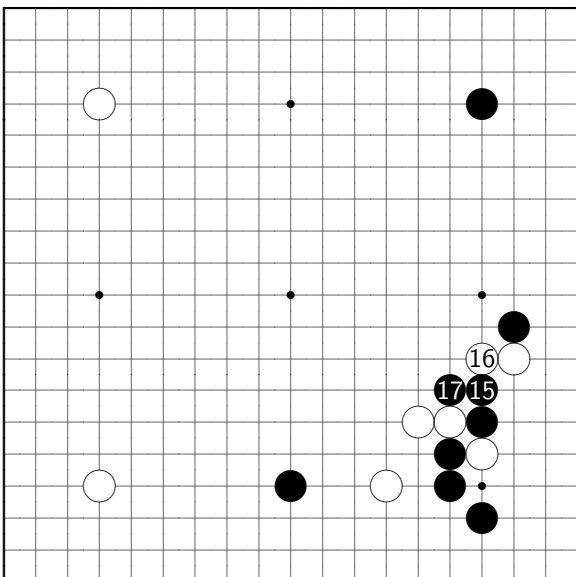

Diagram. 61

Younggil [8p]: this is good Younggil [8p]: or

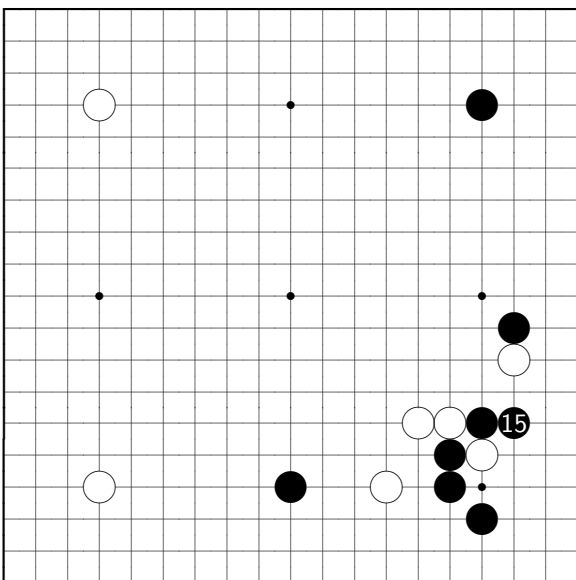

Diagram. 62

Younggil [8p]: this is also ok

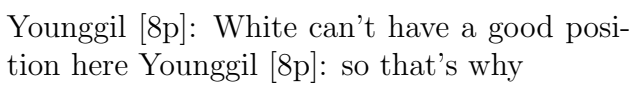

Diagram. 63

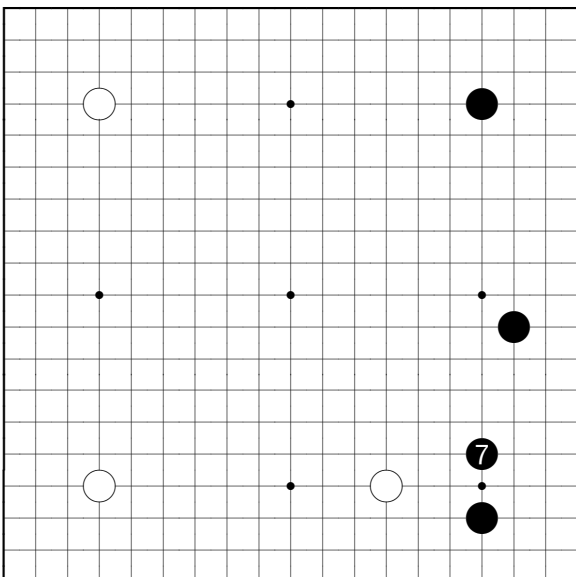

Diagram. 64

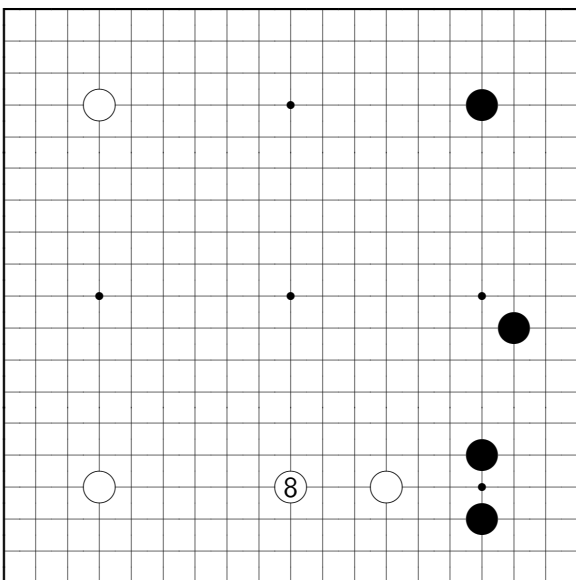

Younggil [8p]: so White doesn't normally play

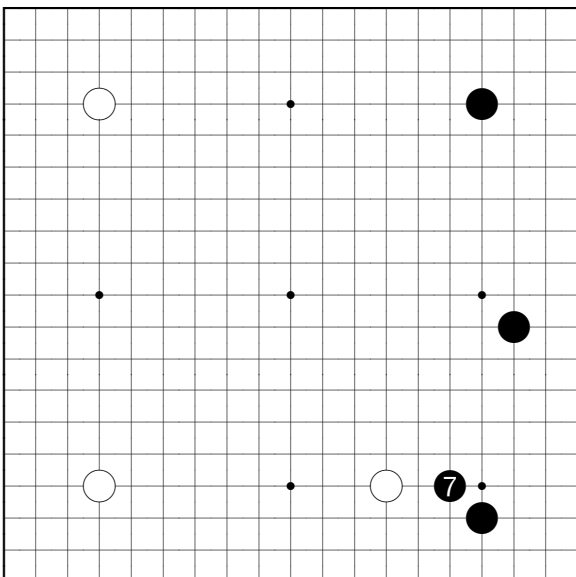

Younggil [8p]: sometimes, white does though

*Diagram. 67*

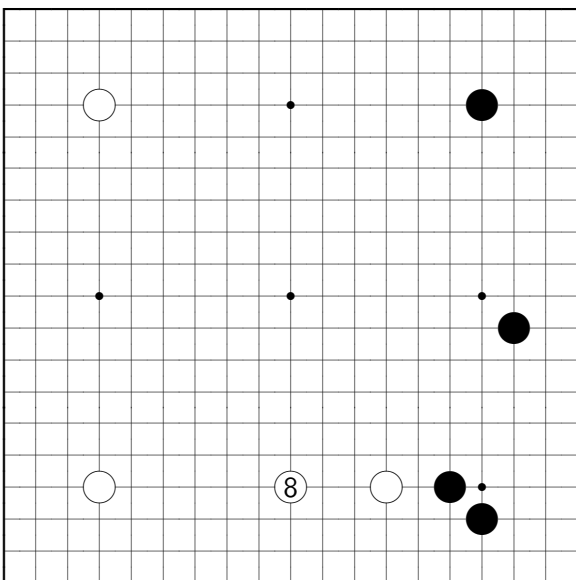

Kashomon [1k]: like this? Younggil [8p]: yes, or at P4

*Diagram. 68*

Kashomon [1k]: or just this? Younggil [8p]: yes this one Younggil [8p]: or P4 for Black

*Diagram. 69*

Younggil [8p]: both of them Younggil [8p]: are alright Kashomon [1k]: I remember seeing this in your video commentary Kashomon [1k]: By the way, while were here Younggil [8p]: oh, Kashomon [1k]: not the exact same Younggil [8p]: yea, for Black's move, I got it Kashomon [1k]: but a diagonal move for closing the corner Younggil [8p]: yes right Younggil [8p]: ok

*Diagram. 70*

Younggil [8p]: Iyama's game Kashomon [1k]: Right. Kashomon [1k]: Is this still good? Younggil [8p]: yes Younggil [8p]: sure Kashomon [1k]: alright Kashomon [1k]: thanks for the comments! Would you like to look at a gam? Younggil [8p]: yes

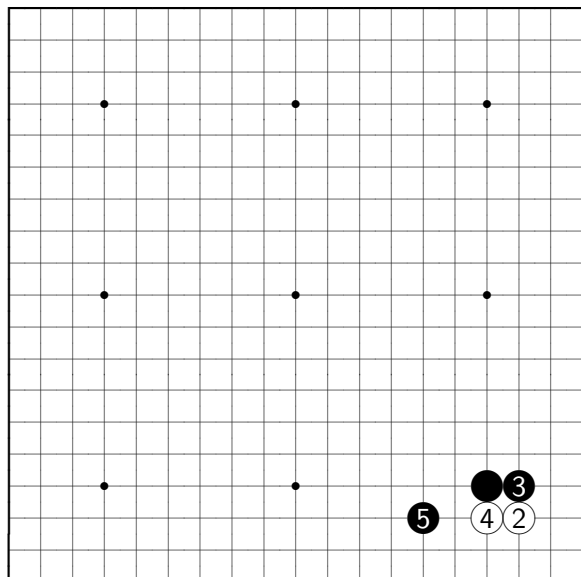

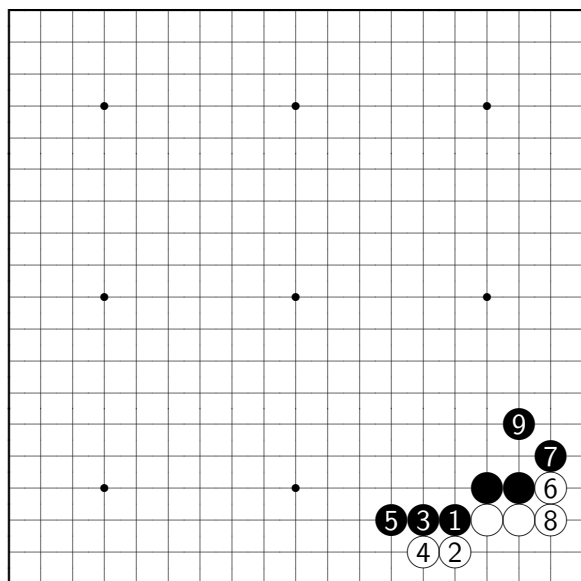

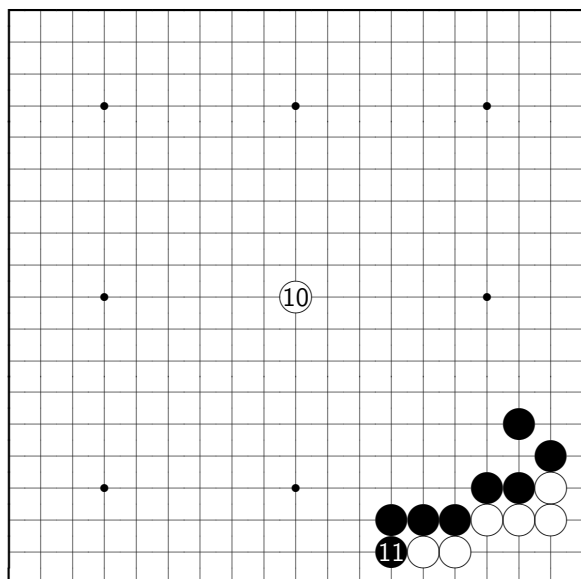

Diagram. 71
(Moves: 2-5)

Kashomon [1k]: yea, right here Younggil [8p]:
this one? Kashomon [1k]: uh Kashomon [1k]:
yeah

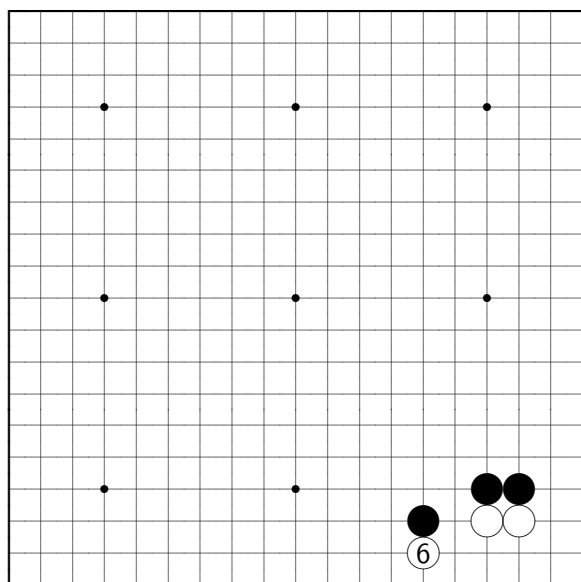

Variation. 1 from ④

Younggil [8p]: with this Younggil [8p]: lower
side is open now Younggil [8p]: and

Variation. 2 from ④

Younggil [8p]: even if Black blocks here
 Younggil [8p]: there's nothing Black can do
 later Younggil [8p]: White's corner is complete
 Younggil [8p]: but

*Diagram. 72
 (Move: 6)*

Kashomon [1k]: as opposed to black playing
 at P3

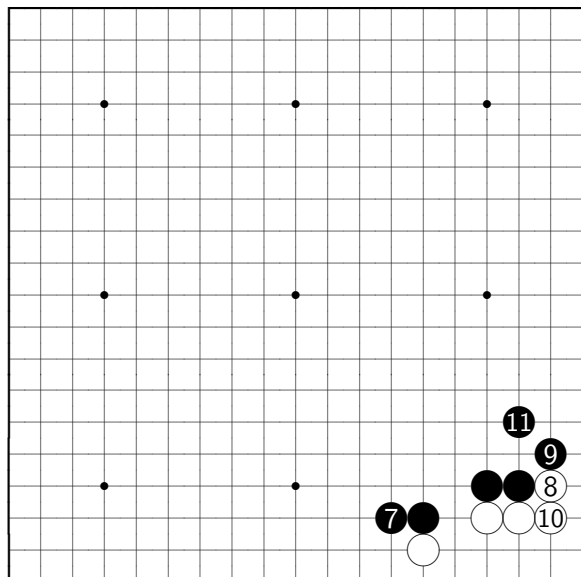

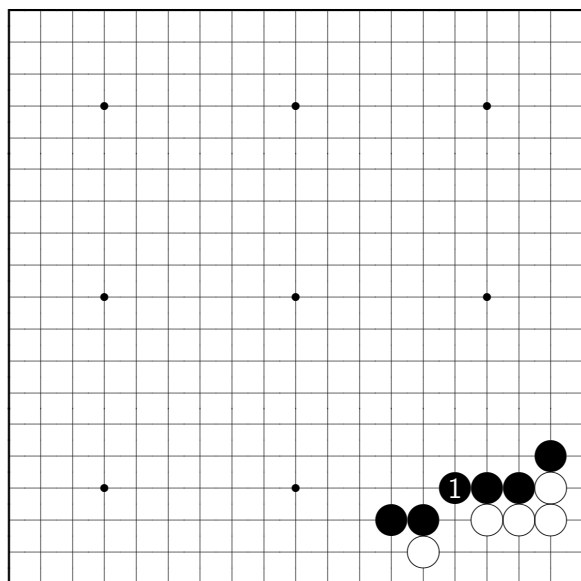

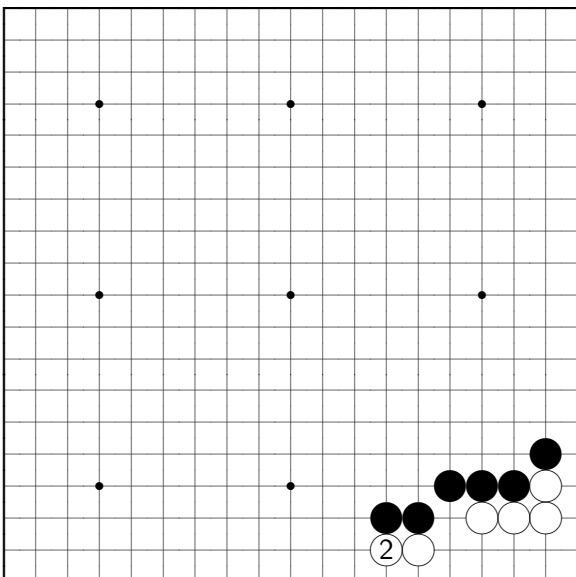

Diagram. 73
(Moves: 7-11)

Kashomon [1k]: The top is a standard invasion
Kashomon [1k]: so is this correct? Younggil
[8p]: yes it is Kashomon [1k]: I see. hm. I
thought that white could punish with the vari-
ation

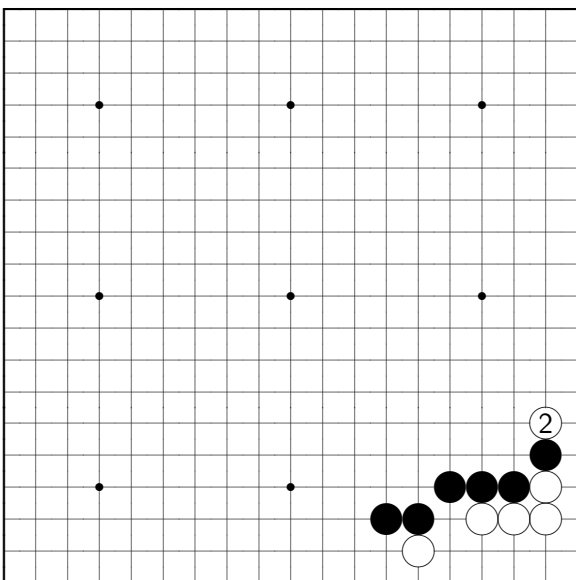

Variation. 3 from ⑩

Kashomon [1k]: maybe this? Younggil [8p]:
that's also possible Younggil [8p]: but not
quite common Younggil [8p]: where'd White
play next? Kashomon [1k]: hm Kashomon
[1k]: N2?

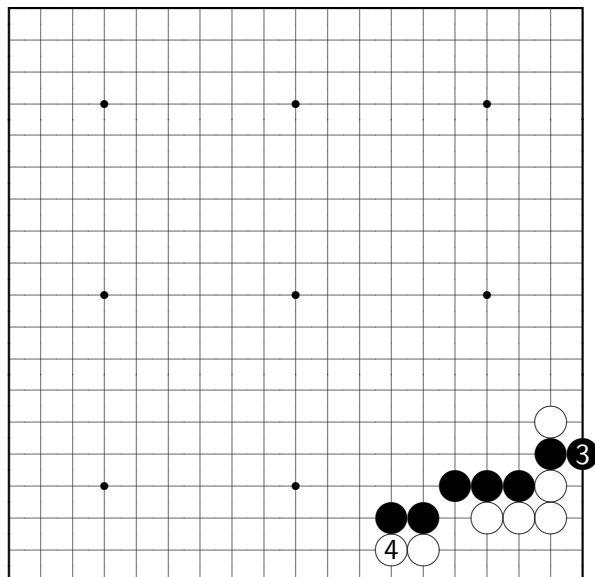

Variation. 4 from ⑩

Younggil [8p]: yes good Younggil [8p]: the right side is quite thin, so this isn't a good way for Black to do

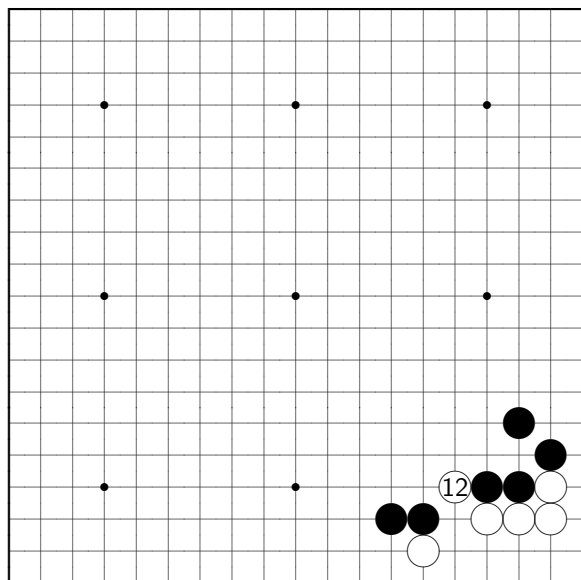

Variation. 5 from ⑩

Kashomon [1k]: this no longer works Younggil [8p]: or White can also attach here first

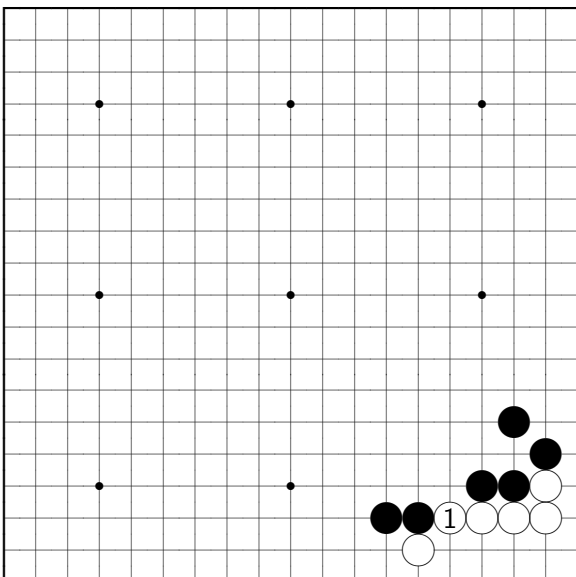

Variation. 6 from ⑩

Younggil [8p]: like this Kashomon [1k]: I see
Kashomon [1k]: and then R6 later? Younggil
[8p]: Black should play on the right side soon
anyway Younggil [8p]: yes

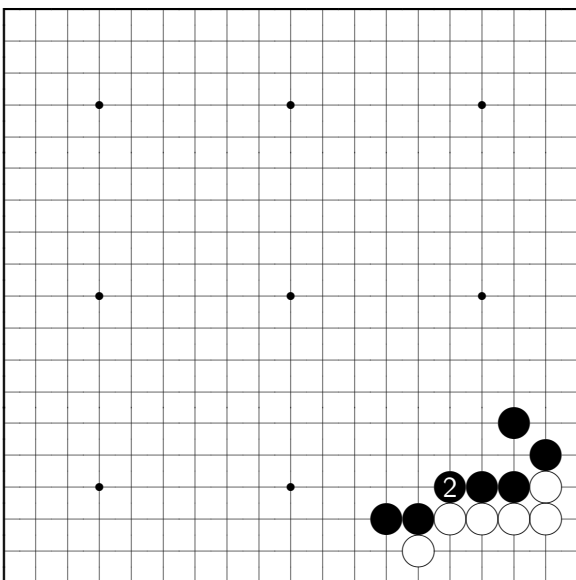

*Diagram. 74
(Move: 12)*

Younggil [8p]: this is quite rare to see

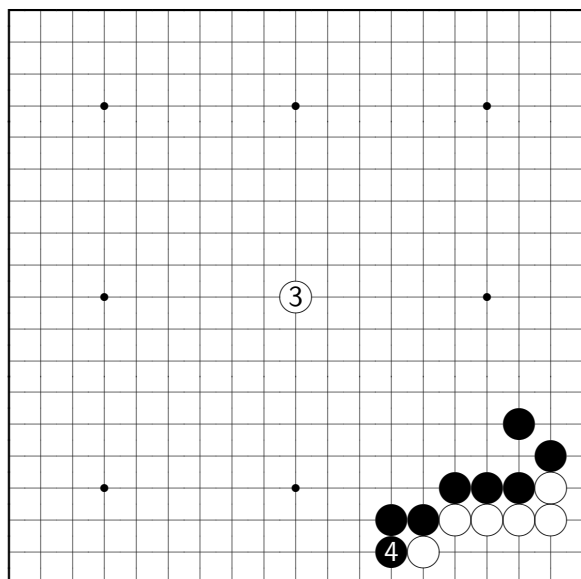

Variation. 7 from 11

Younggil [8p]: does it make sense?

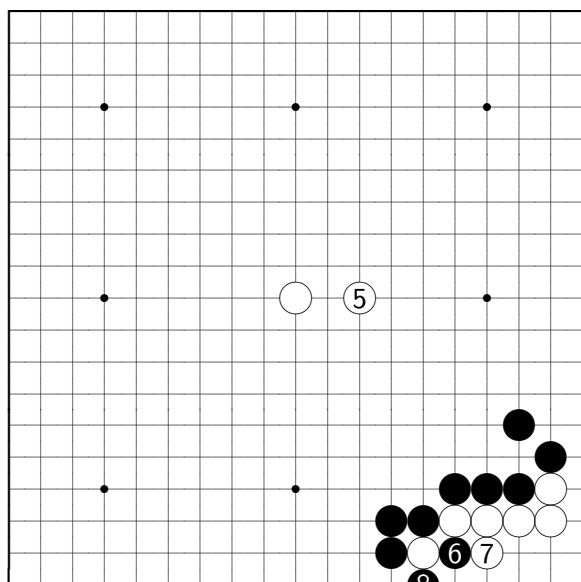

Variation. 8 from 11

Kashomon [1k]: In the game, I played this
 Kashomon [1k]: I was black Younggil [8p]:
 yes, this is that Kashomon [1k]: But it seems
 wrong Younggil [8p]: nice joseki :) Young-
 gil [8p]: what's wrong? Kashomon [1k]: I
 was thinking that I would get sente somehow
 Younggil [8p]: this is just fine :) Kashomon
 [1k]: I guess I should ask then: what's the
 meaning behind jumping to O2

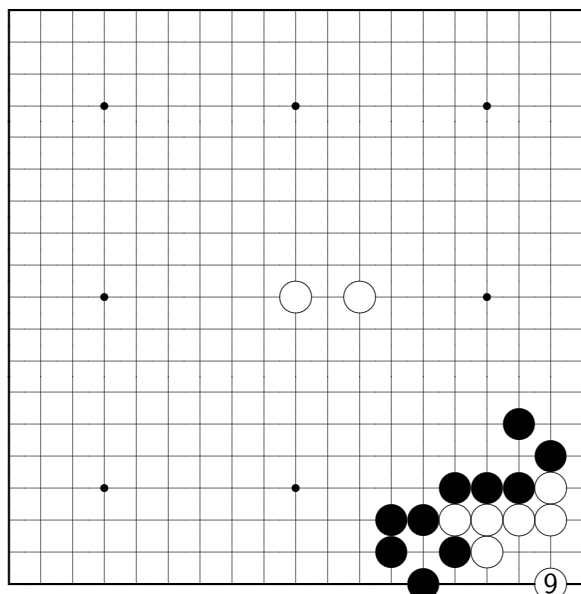

Variation. 9 from 11

Younggil [8p]: with this Younggil [8p]: blocking at N2 becomes very big Younggil [8p]: because

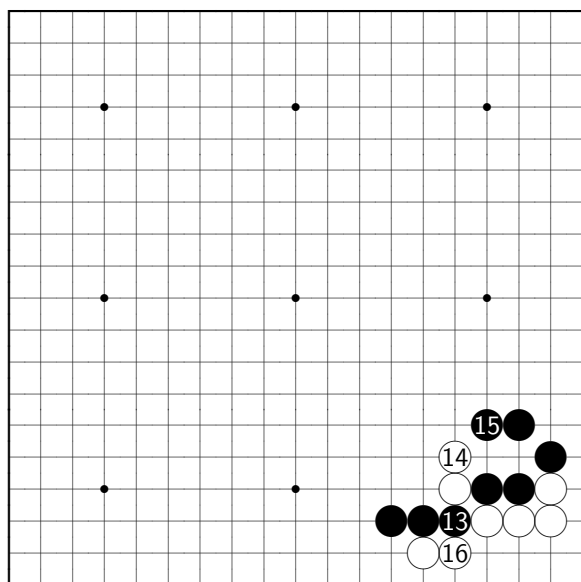

Variation. 10 from 11

Younggil [8p]: black can capture White's stone in sente Kashomon [1k]: I see

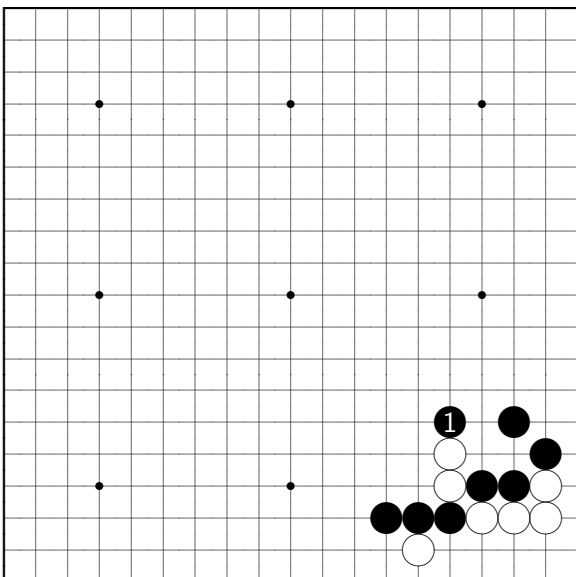

Variation. 11 from 11

Kashomon [1k]: 6 pts in sente? Younggil [8p]: that's the meaning Younggil [8p]: yes right Younggil [8p]: so, when Black wants to take sente Younggil [8p]: or, when there's Black stone at around A, Black chose O3

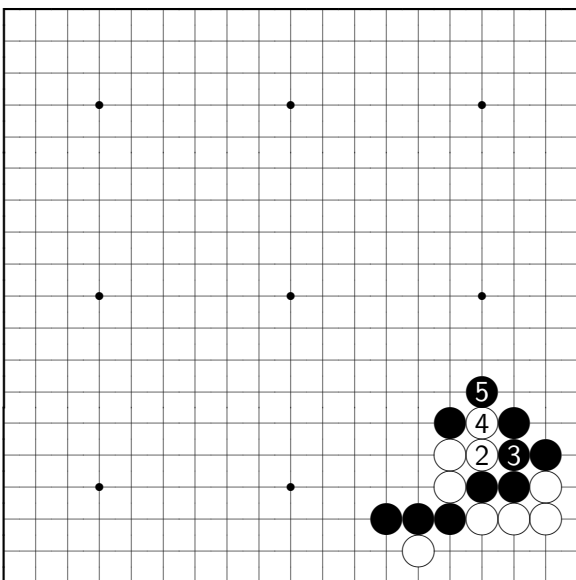

*Diagram. 75
(Moves: 13-16)*

Younggil [8p]: oh Kashomon [1k]: this one Younggil [8p]: hmm Younggil [8p]: Black has a better move instead of Q6

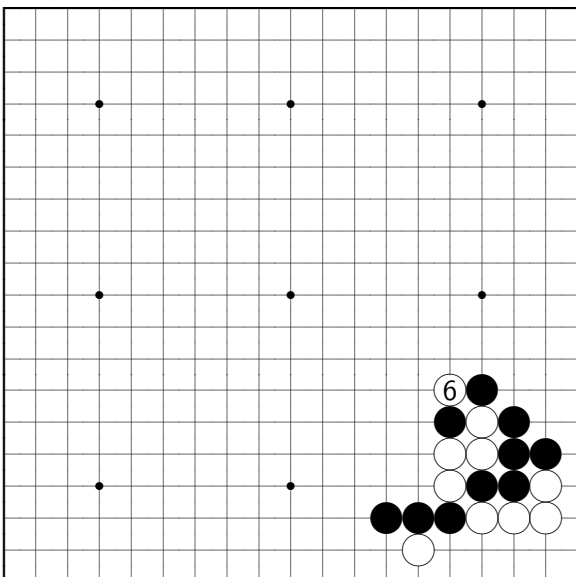

Variation. 12 from ⑭

Younggil [8p]: yes that's it

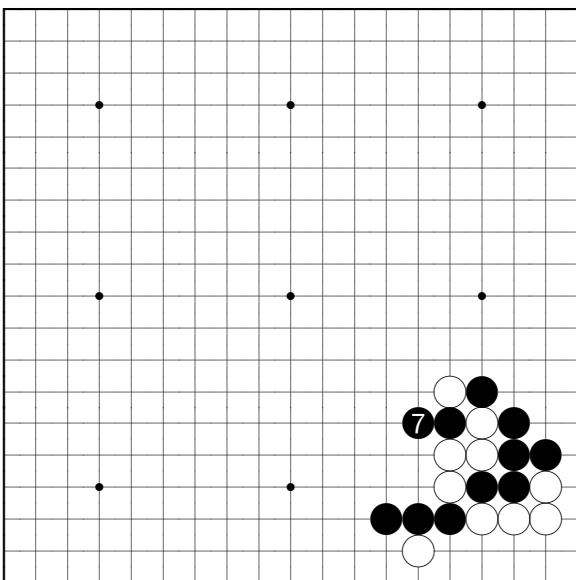

Variation. 13 from ⑭

Younggil [8p]: right Kashomon [1k]: hm

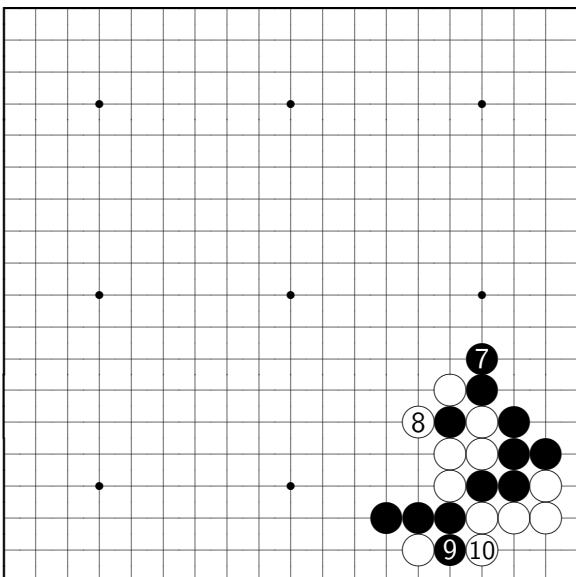

Variation. 14 from ⑭

Younggil [8p]: White shape is a bit heavy
Younggil [8p]: too much Younggil [8p]: so

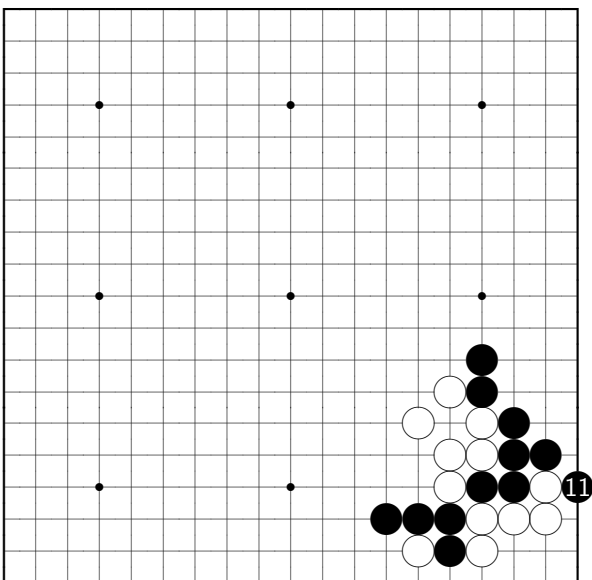

Variation. 15 from ⑭

Younggil [8p]: no

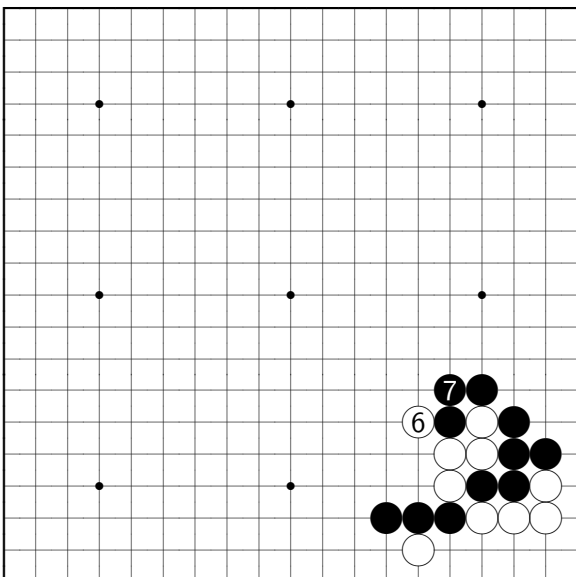

Variation. 16 from ⑭

Kashomon [1k]: ah

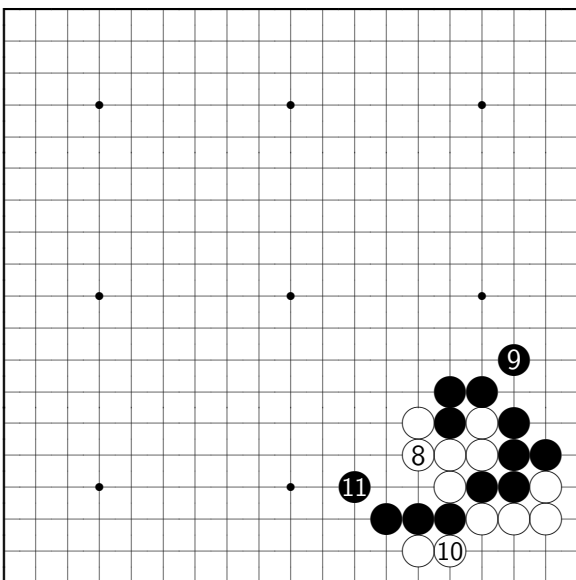

Variation. 17 from ⑭

Younggil [8p]: Black can capture the corner

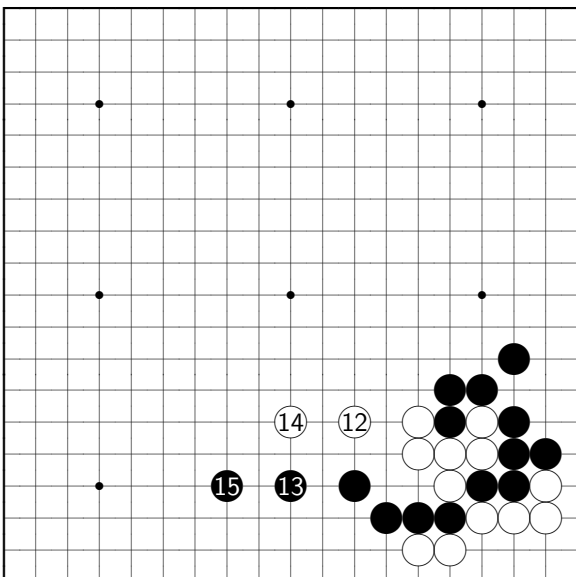

Variation. 18 from ⑭

Kashomon [1k]: I see

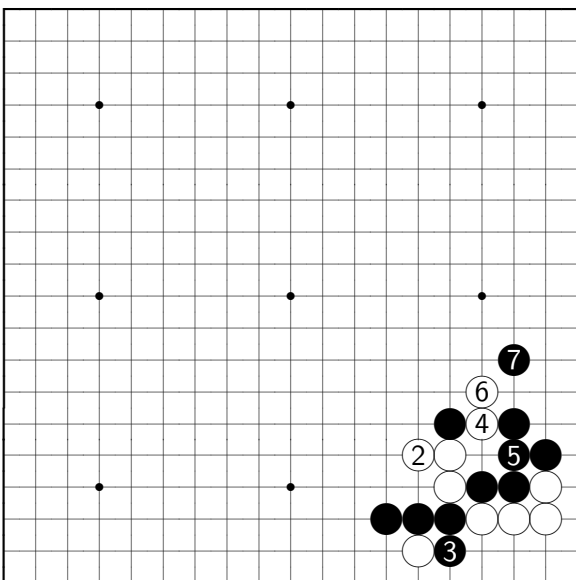

Variation. 19 from ⑭

Younggil [8p]: this might be right for White, but the center group is heavy

Variation. 20 from ⑭

Younggil [8p]: like this Kashomon [1k]: I see
Younggil [8p]: that's why Black doesn't need
to worry about White's hane at P4

Variation. 21 from ⑭

Younggil [8p]: if White just bend, Black can
still capture the corner like htis Kashomon
[1k]: I see Younggil [8p]: anyway, that's a good
question :) Kashomon [1k]: thanks Kashomon
[1k]: shall we look at the next one? Younggil
[8p]: yes

Kashomon [1k]: Hello Younggil [8p]: hi Kashomon [1k]: Would you mind if I got some tea?
Younggil [8p]: no, take your time Kashomon [1k]: (so i can stay awake =>) Younggil [8p]:
good

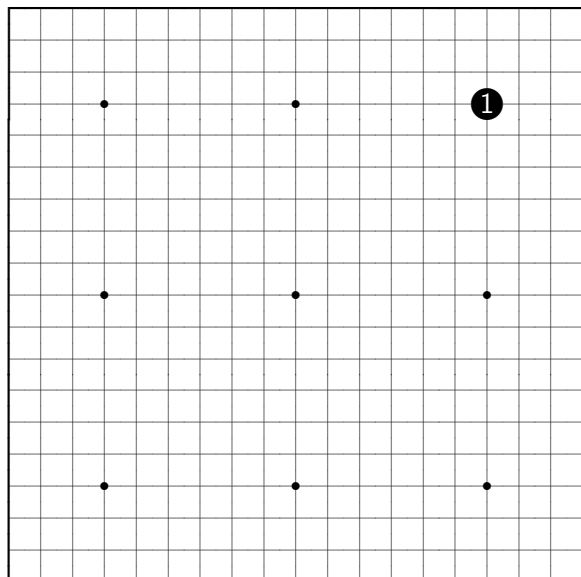

Diagram. 76
(Move: 1)

Kashomon [1k]: hello Younggil [8p]: hi Younggil [8p]: nice game! Kashomon [1k]: So, as you can see, I won this game. This was another correspondence game Younggil [8p]: let's have a look Younggil [8p]: i see Kashomon [1k]: I'll write up feedback again and send it => Younggil [8p]: alright

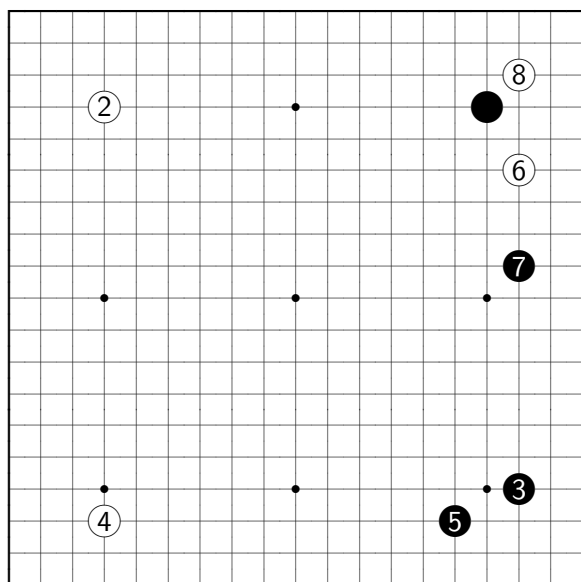

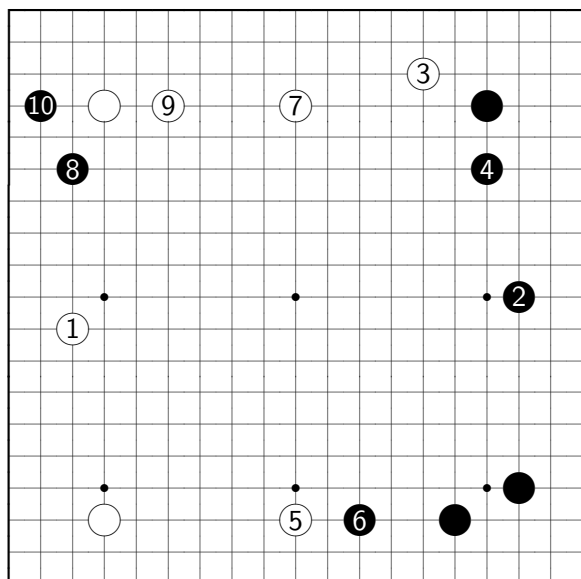

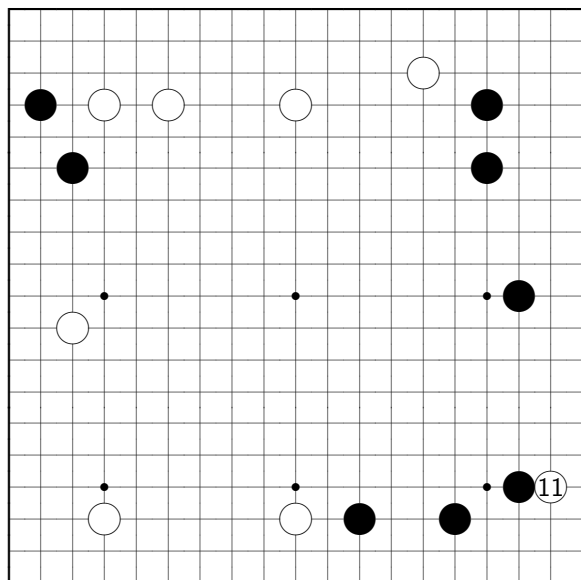

Diagram. 77
(Moves: 2-8)

Kashomon [1k]: It really helps me to learn from lessons to do so

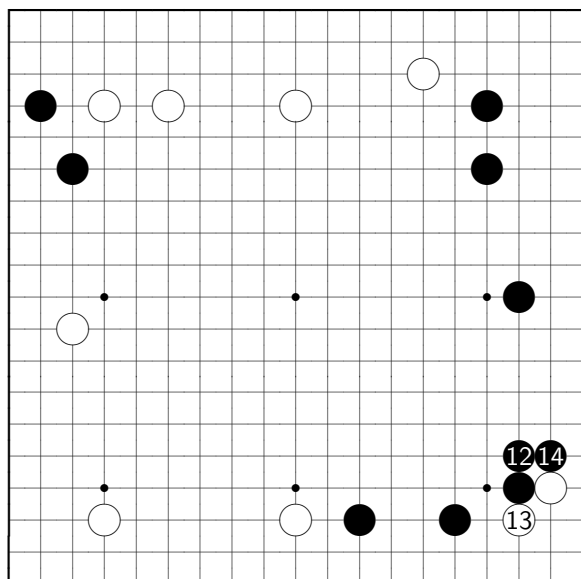

Younggil [8p]: maybe now

Variation. 22 from ⑤

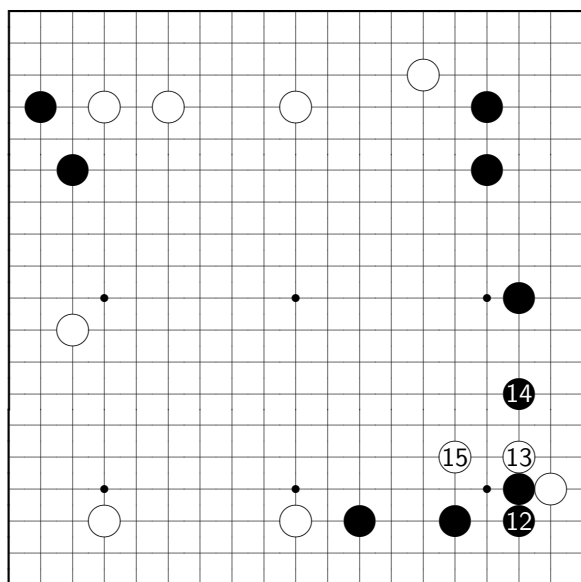

Younggil [8p]: white can attach here

Variation. 23 from ⑤

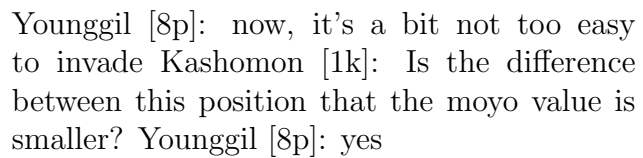

Variation. 24 from ⑤

Younggil [8p]: in this case, White can make a ko in the corner later Younggil [8p]: or

Variation. 25 from ⑤

Younggil [8p]: White can try to escape like this

Variation. 26 from **5**

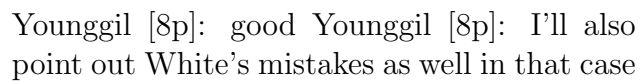

Diagram. 78
(*Moves: 9-12*)

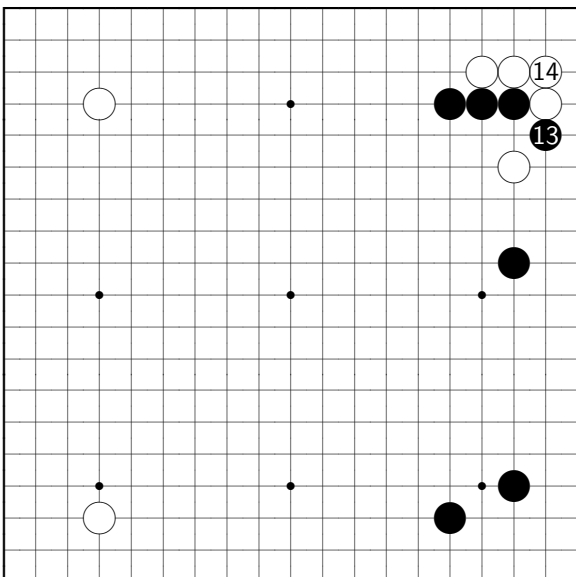

Diagram. 79
(Moves: 13-14)

Kashomon [1k]: great!

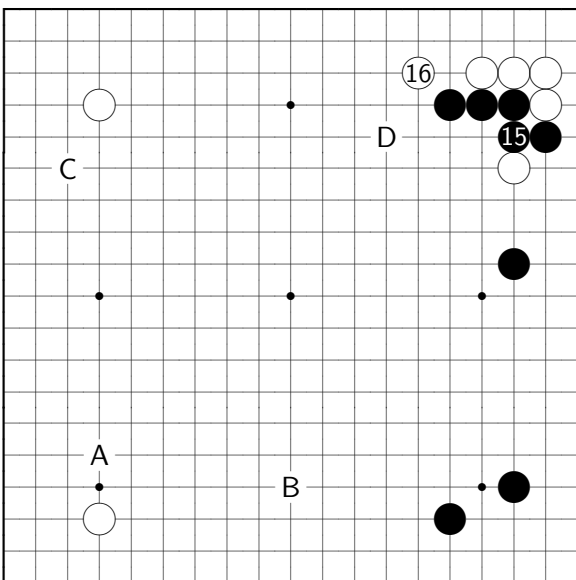

Diagram. 80
(Moves: 15-16)

Younggil [8p]: now Younggil [8p]: in the very opening Younggil [8p]: normally. big places are first Younggil [8p]: where's the biggest point on the board? Kashomon [1k]: I would say B Younggil [8p]: good Younggil [8p]: B is fine Younggil [8p]: but A is more common

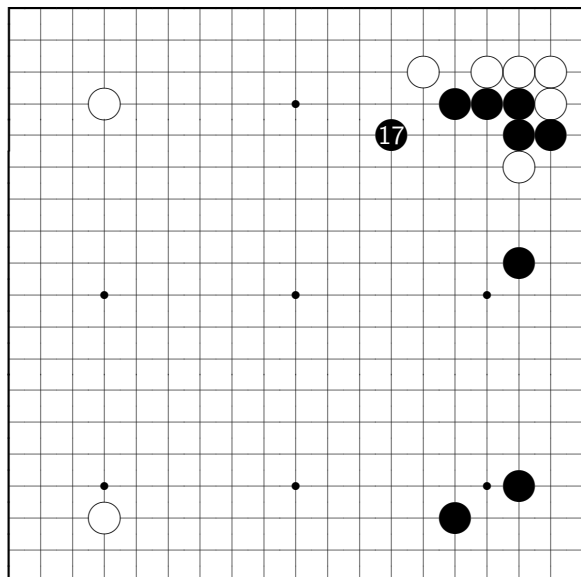

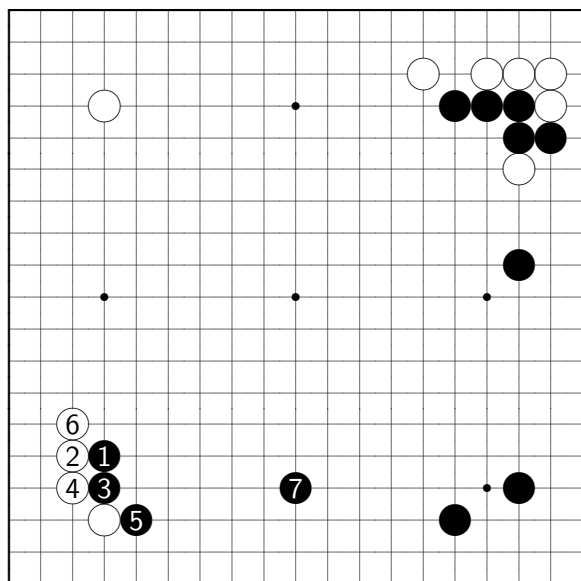

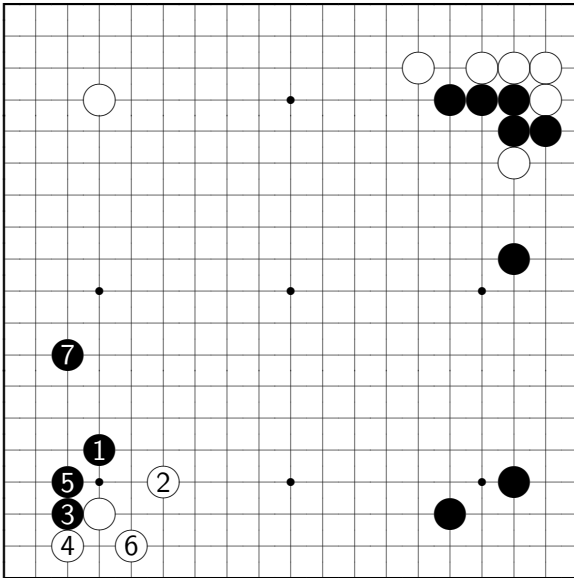

Diagram. 81
(Move: 17)

Kashomon [1k]: the problem I have here
 Younggil [8p]: this is a nice place, but not
 urgent Kashomon [1k]: Is that O15 is really
 annoying Younggil [8p]: when do you mean?
 Kashomon [1k]: and seems like it's a series of
 sente moves Younggil [8p]: this isn't very ur-
 gent yet

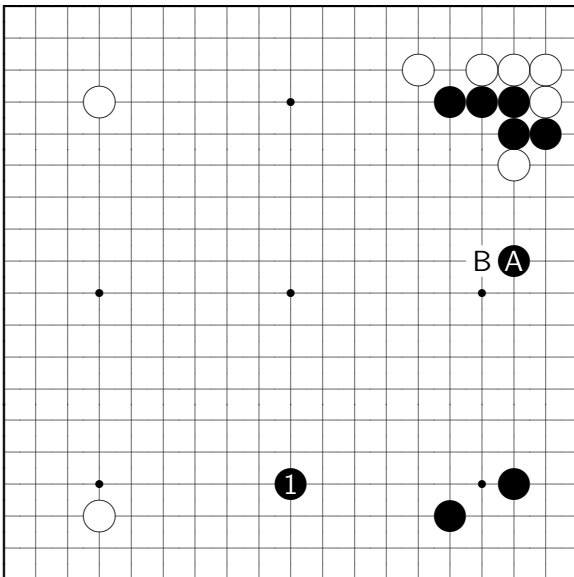

Variation. 27 from 16

Younggil [8p]: after that, you can still play, for
 example

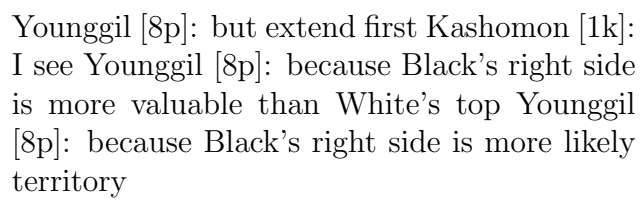

Variation. 28 from ①⑥

Younggil [8p]: if White chooses this one, Black can just settle down

Variation. 29 from ①⑥

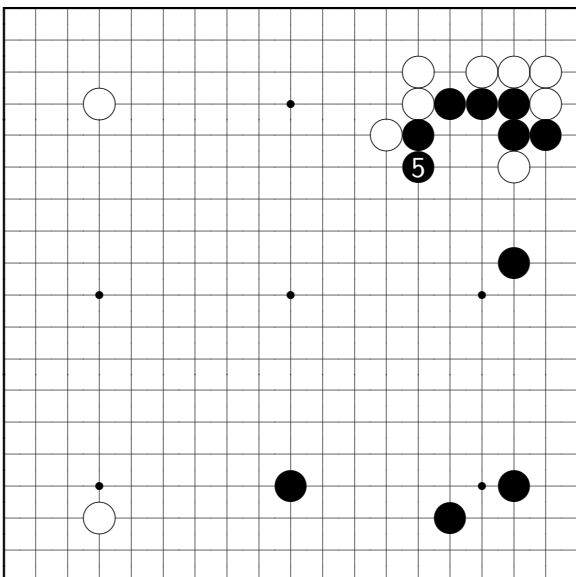

Kashomon [1k]: this was also like a game you commented recently, no? Younggil [8p]: yea
 Kashomon [1k]: was that the iyama game?
 Kashomon [1k]: yea Younggil [8p]: A was at B I think Younggil [8p]: anyway,

Variation. 30 from (16)

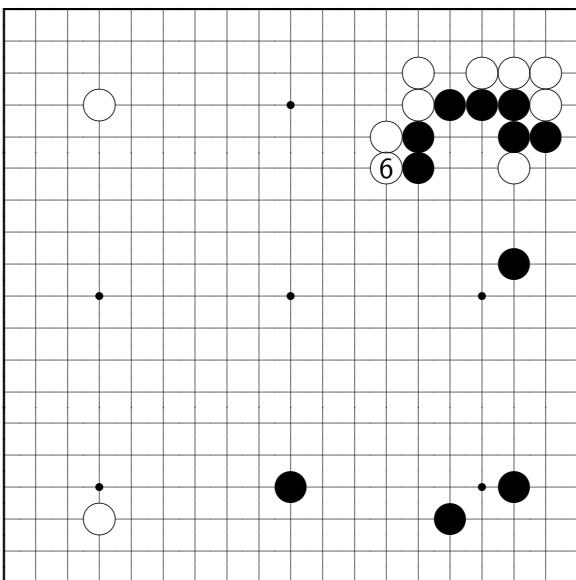

Variation. 31 from (16)

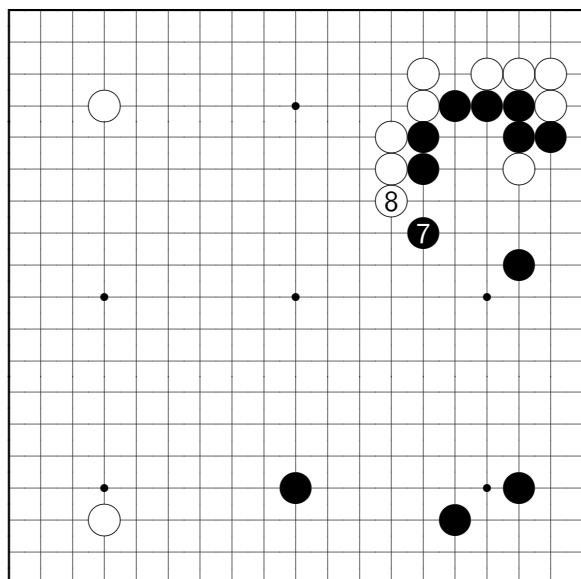

Variation. 32 from ⑩

Younggil [8p]: at N13 Younggil [8p]: O14

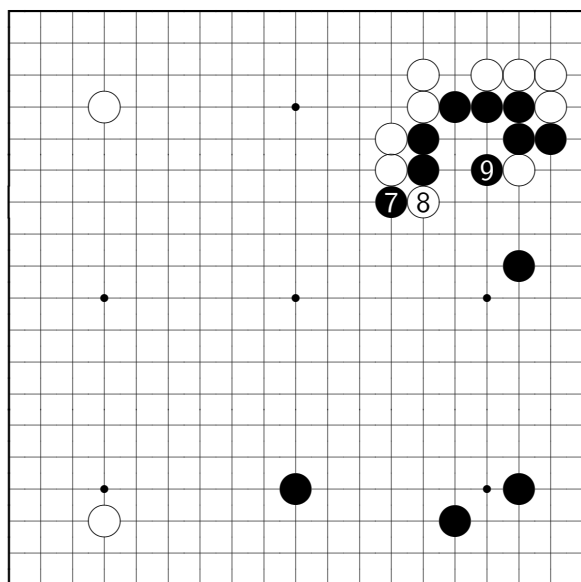

Variation. 33 from ⑩

Younggil [8p]: i see Younggil [8p]: and hane

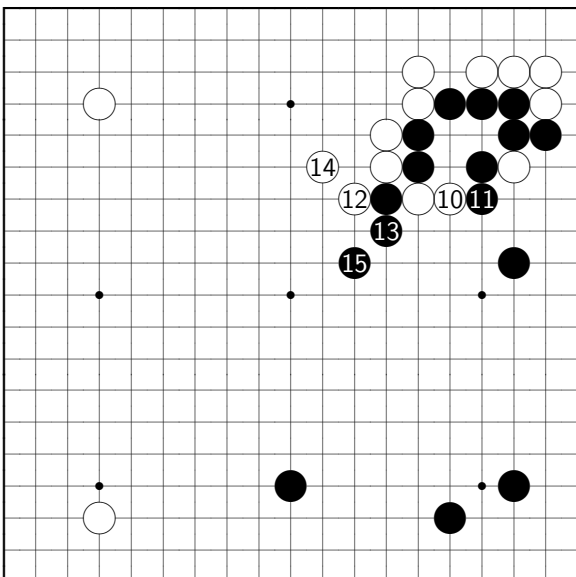

Variation. 34 from ⑩

Younggil [8p]: Black can hane

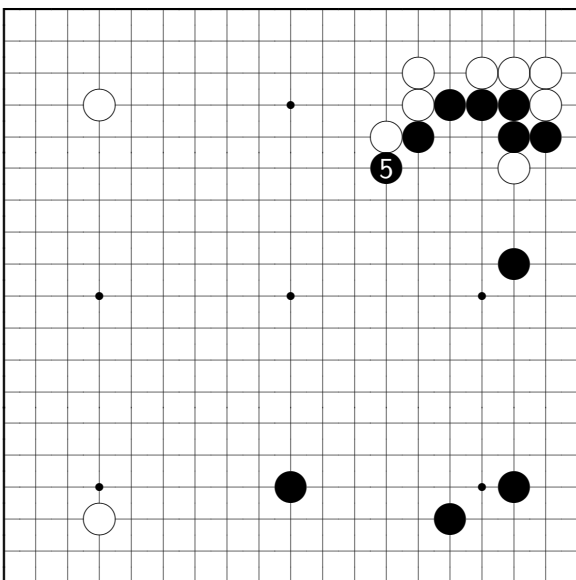

Variation. 35 from ⑩

Younggil [8p]: or like this

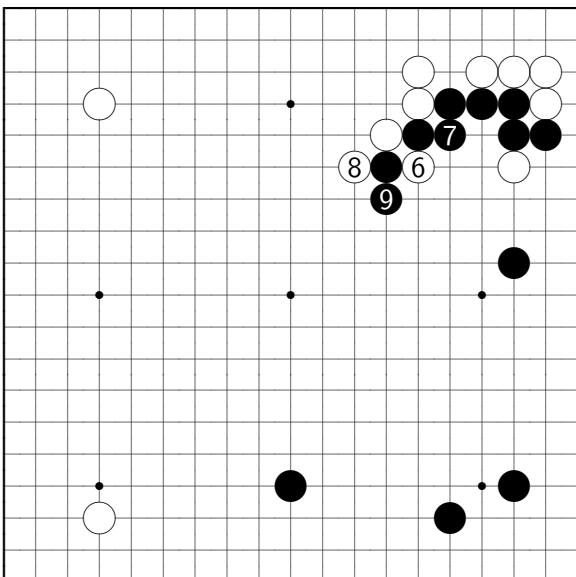

Variation. 36 from ⑩

Younggil [8p]: something like this Younggil
[8p]: or

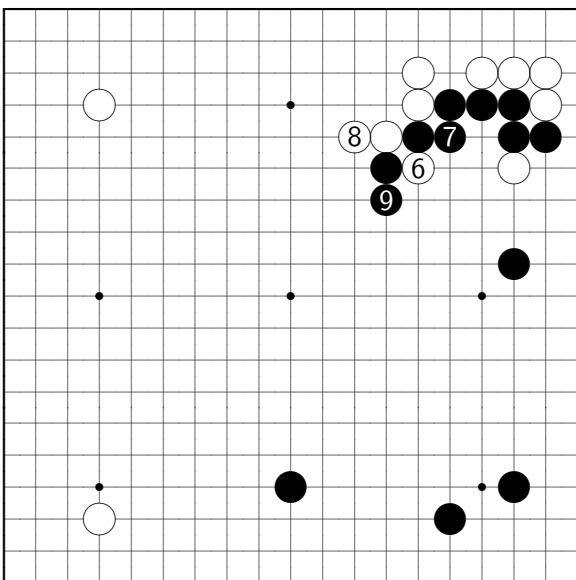

Variation. 37 from ⑩

Younggil [8p]: that's also possible

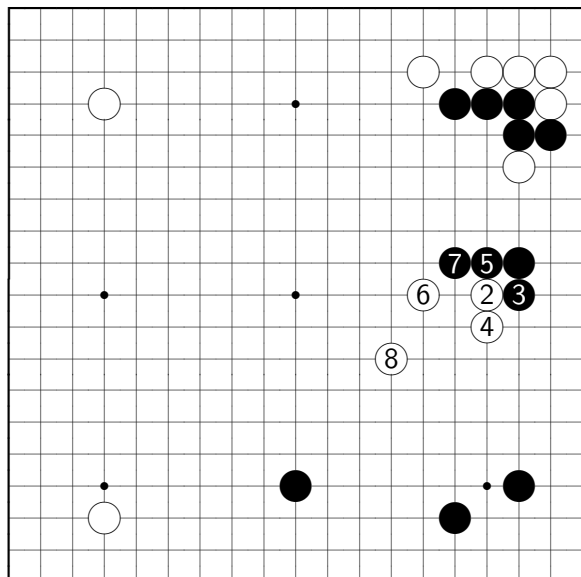

Variation. 38 from ⑩

Kashomon [1k]: like this? Younggil [8p]: this is also possible

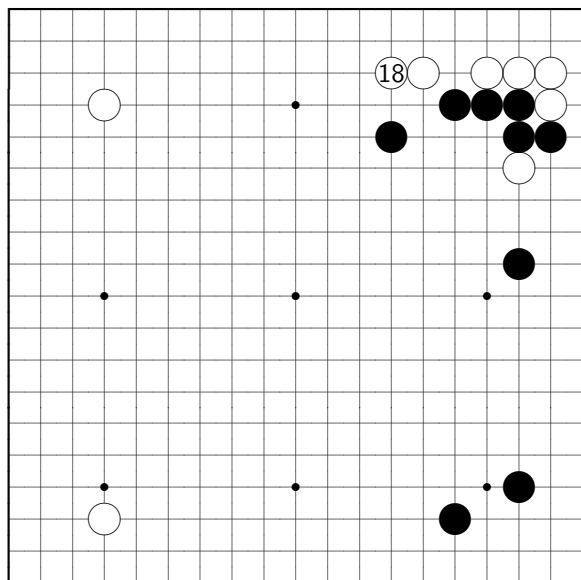

Variation. 39 from ⑩

Younggil [8p]: this is also ok Younggil [8p]: White doesn't normally push up at O15

Variation. 40 from ⑩

Younggil [8p]: so White might play like this
Younggil [8p]: or

*Diagram. 82
(Move: 18)*

Kashomon [1k]: can I ask a brief tangent?
Younggil [8p]: yes Kashomon [1k]: Should
white attach at S4 as a probe? Kashomon [1k]:
When is it reasonable to do so? Younggil [8p]:
hmm Younggil [8p]: that's a bit subtle Young-
gil [8p]: and when it's hard for White to invade
on the right Younggil [8p]: S4 could be a good
idea Younggil [8p]: for example Younggil [8p]:
can I control? Younggil [8p]: anyway, here

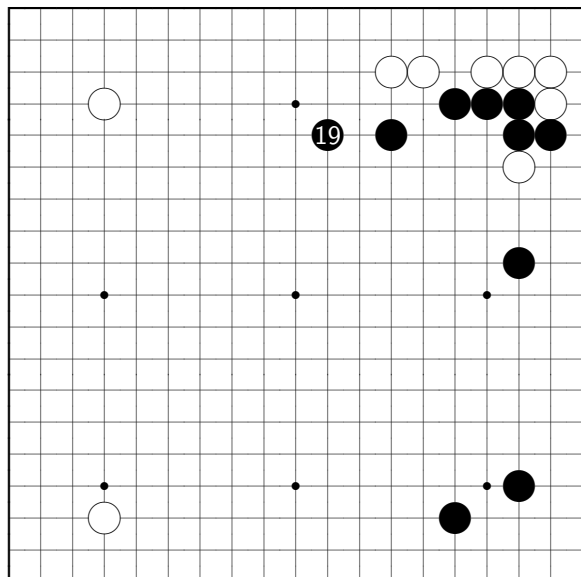

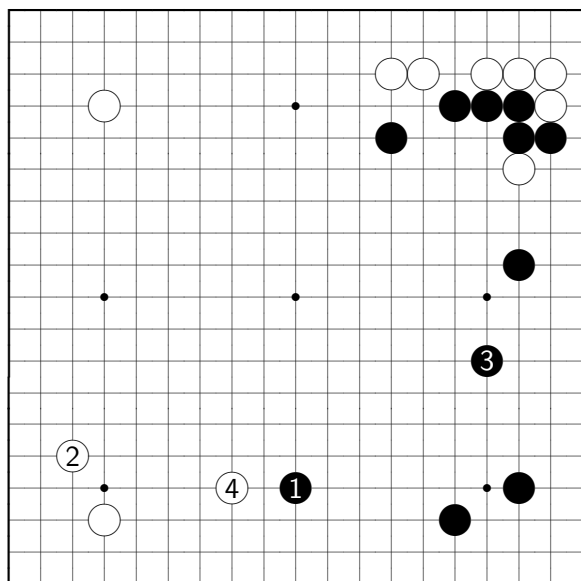

Diagram. 83
(Move: 19)

Younggil [8p]: but this sort of jump was a bit too early Younggil [8p]: you can play here later on Kashomon [1k]: I see

Variation. 41 from 18

Kashomon [1k]: Thanks for the feedback! I look forward to cleaning this up into a GPub Book =)

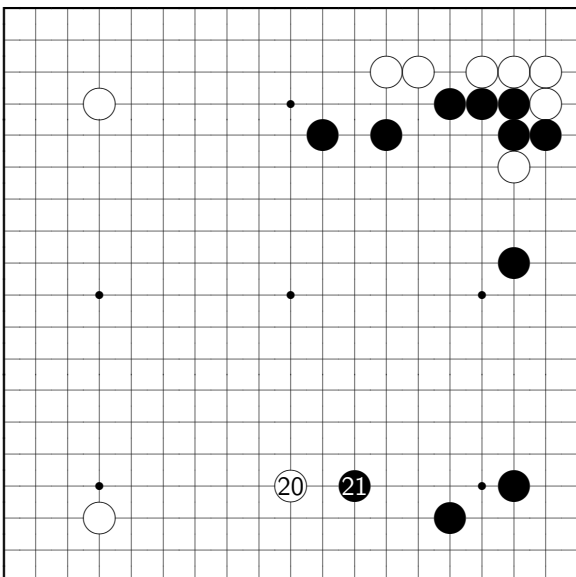

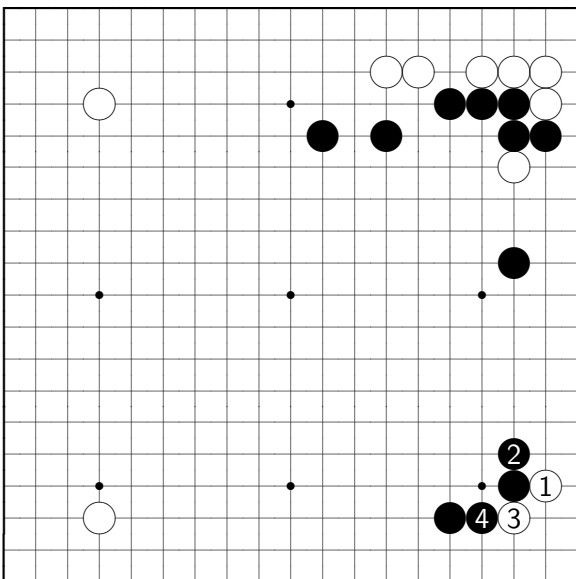

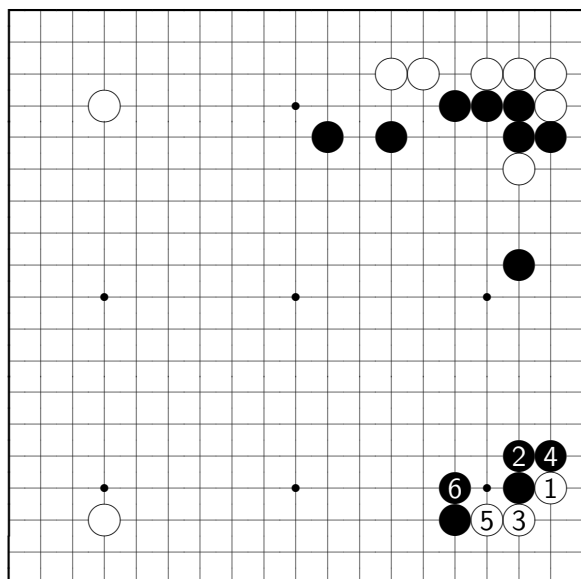

Diagram. 84
(Moves: 20-21)

Kashomon [1k]: I see Younggil [8p]: Black's right side is already limited

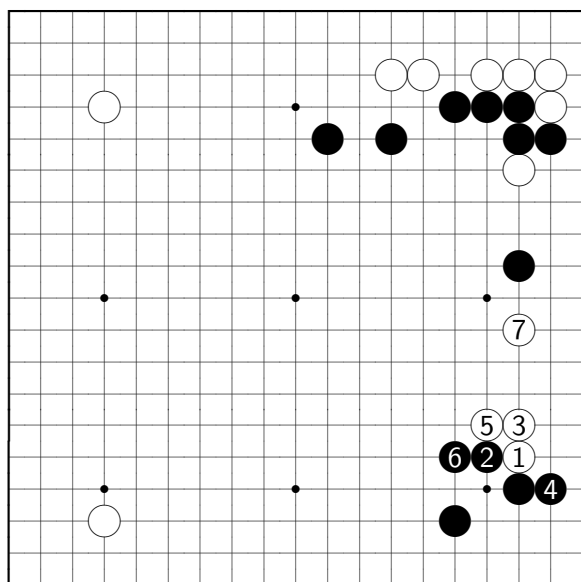

Variation. 44 from 19

Younggil [8p]: that's not a good idea because

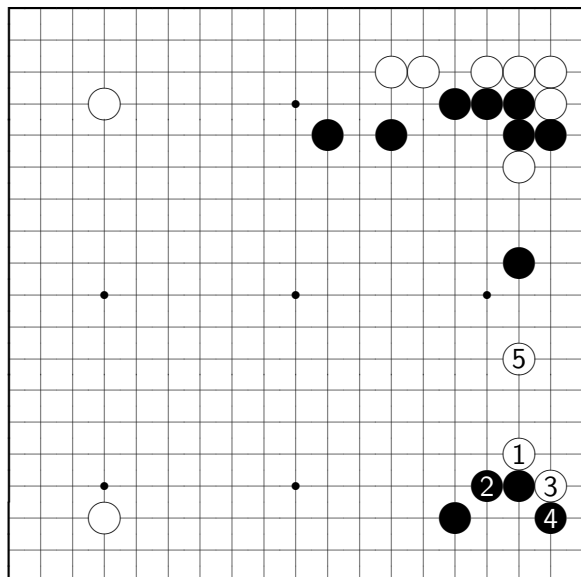

Variation. 45 from 19

Kashomon [1k]: black's happy to make the moyo bigger Younggil [8p]: Black's right side is too big and deep Younggil [8p]: and that helps Black Younggil [8p]: yes right

Variation. 46 from 19

Younggil [8p]: White'd better think about this attachment Kashomon [1k]: I see

Variation. 47 from 19

Younggil [8p]: something like this
 Younggil [8p]: because there's more room on the side
 Kashomon [1k]: Thanks, that's helpful
 Younggil [8p]: no worries

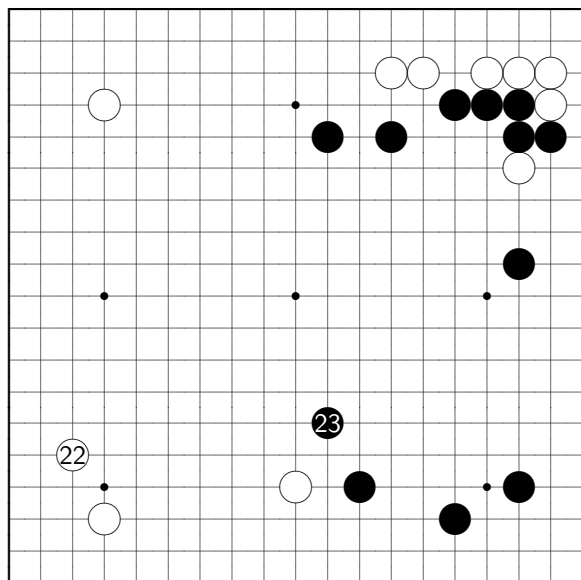

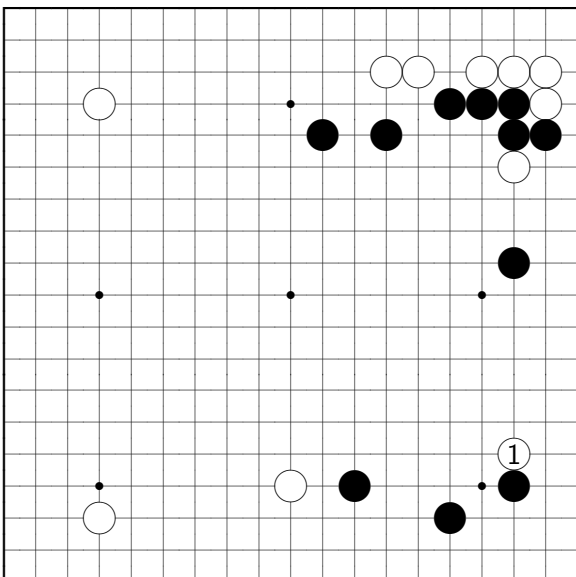

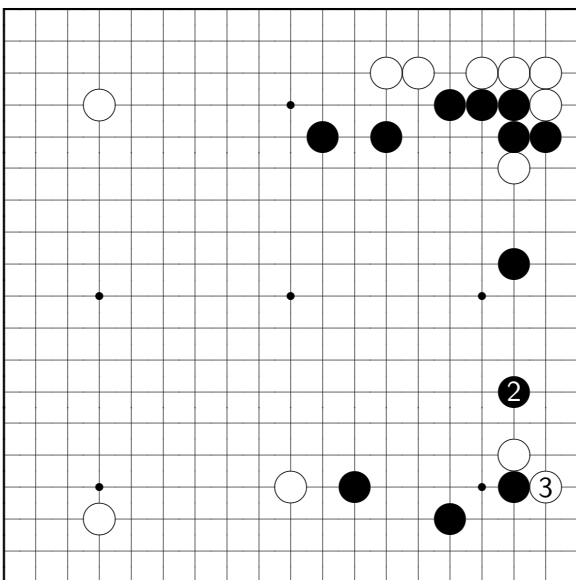

Diagram. 85
 (Moves: 22-23)

Younggil [8p]: this knight's move was very good

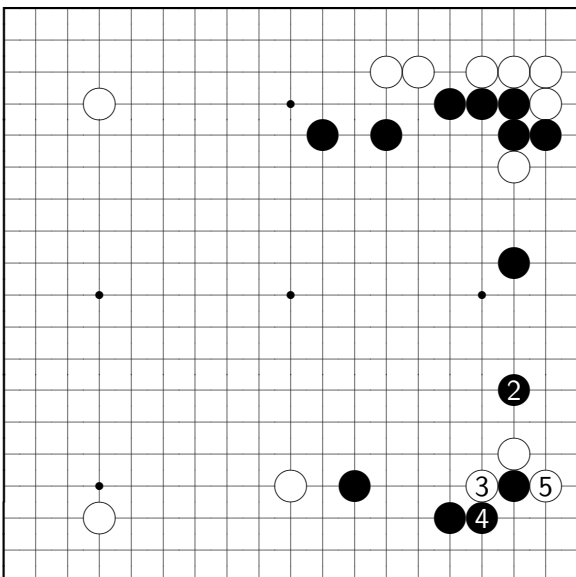

Variation. 48 from (21)

Younggil [8p]: White could also play here
 now Younggil [8p]: where'd you play next?
 Kashomon [1k]: hm Kashomon [1k]: I would
 try R7 or 68

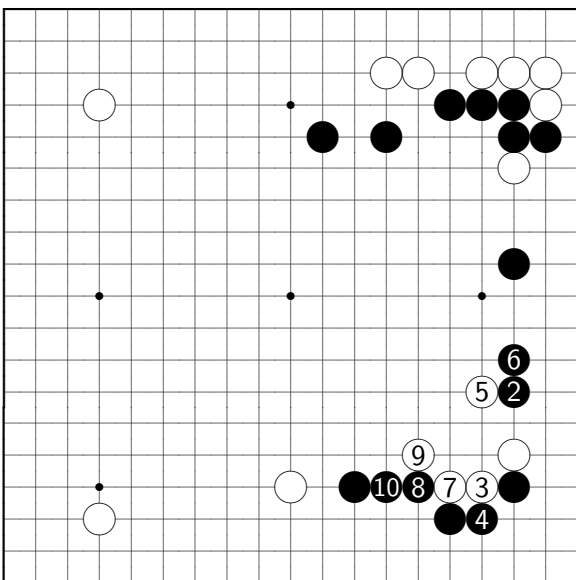

Variation. 49 from 21

Younggil [8p]: very good

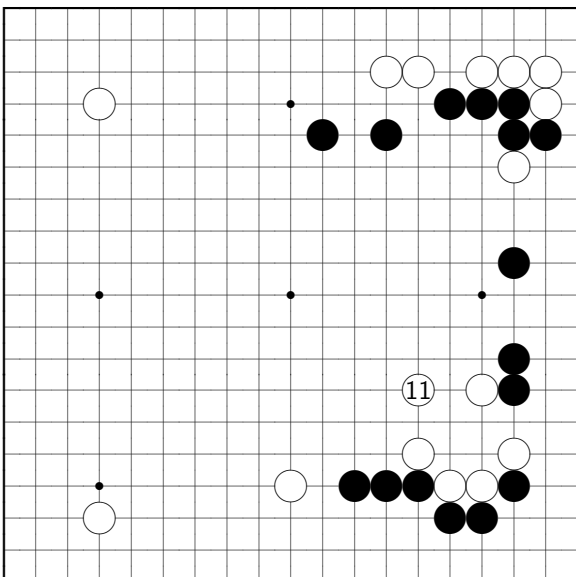

Variation. 50 from 21

Younggil [8p]: this is a better idea for Black

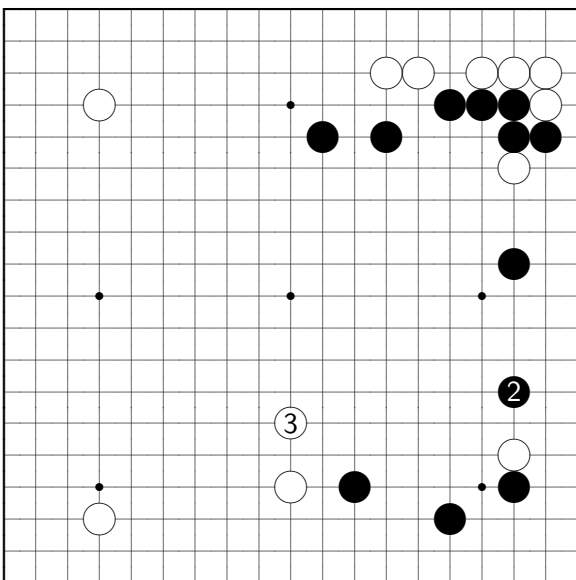

Variation. 51 from 21

Kashomon [1k]: ah

Variation. 52 from (21)

Younggil [8p]: white will play something like this to reduce

Variation. 53 from (21)

Younggil [8p]: or just jump out Younggil [8p]:
there might be some aji in the corner later

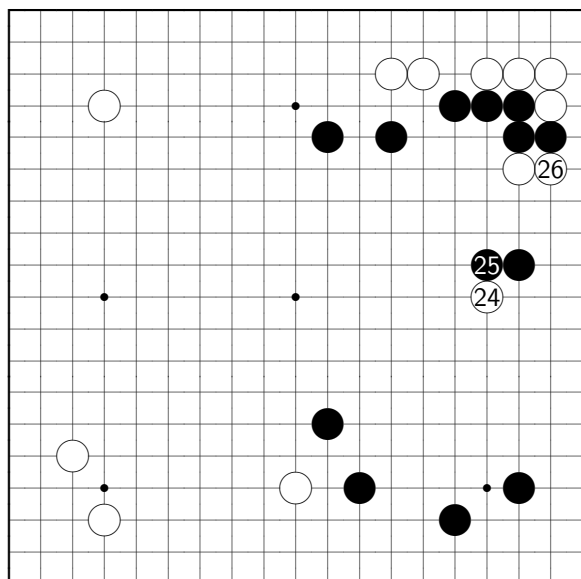

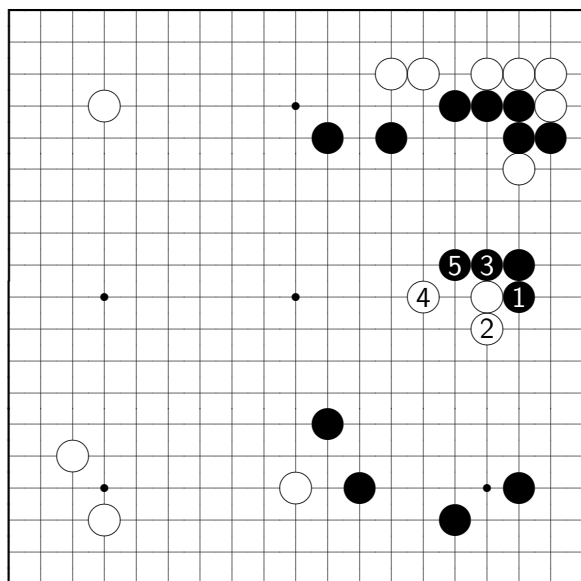

Diagram. 86
(Moves: 24-26)

Younggil [8p]: oh, that's interesting

Variation. 54 from 24

Younggil [8p]: so pushing underneath is more common
Younggil [8p]: no other good alternatives for White

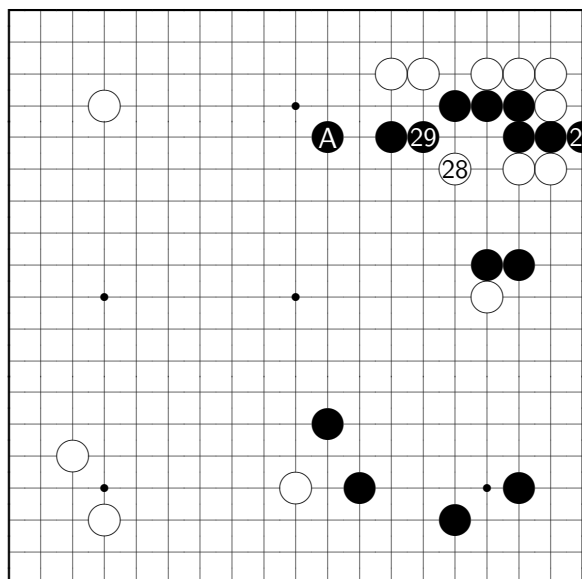

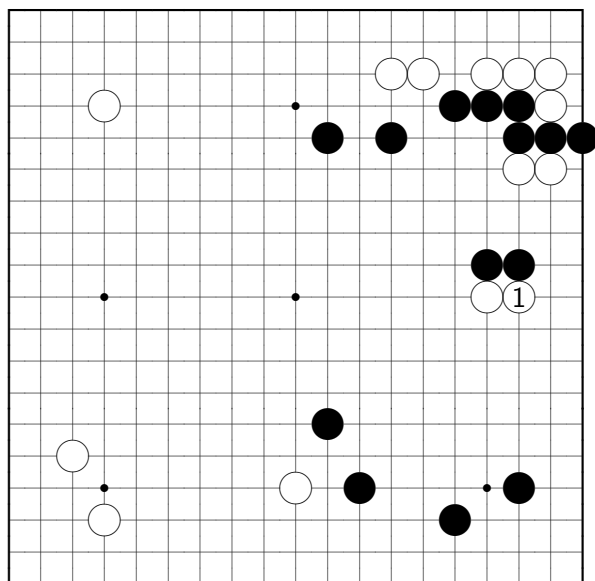

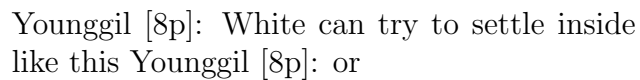

Diagram. 87
(Moves: 27-29)

Younggil [8p]: but maybe a bit overplay for White Younggil [8p]: because these moves make **A** nice Kashomon [1k]: It seemed helpful in the game Younggil [8p]: yes

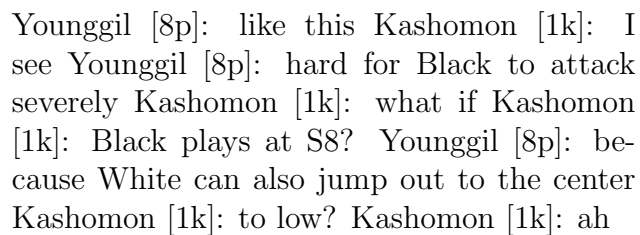

Variation. 55 from 27

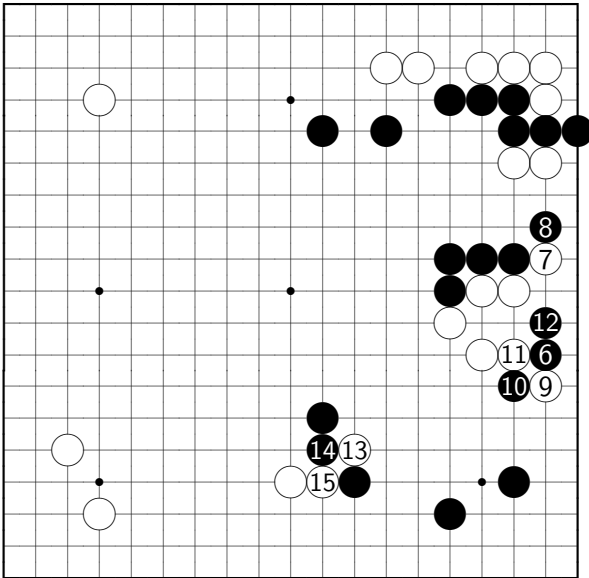

Younggil [8p]: what if White blocks here instead? Kashomon [1k]: hm Kashomon [1k]: I would play Kashomon [1k]: p10

Variation. 56 from 27

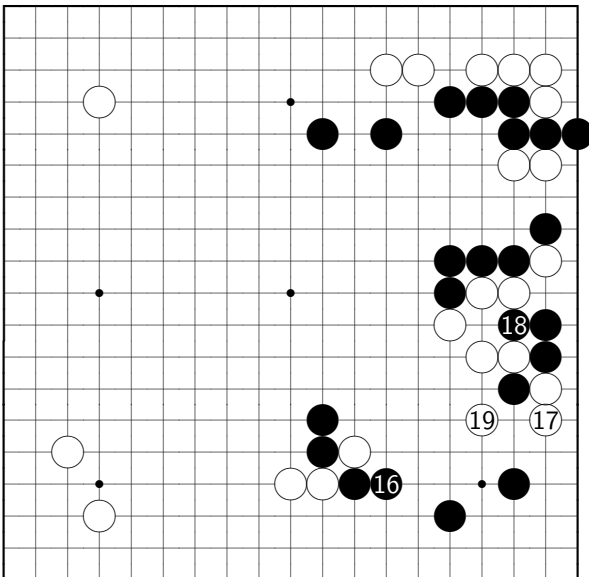

Variation. 57 from 27

Variation. 58 from 27

Younggil [8p]: White can play something like this Kashomon [1k]: hm Younggil [8p]: and it'll be complicated

Variation. 59 from 27

Younggil [8p]: still hard for Black to capture them all Kashomon [1k]: yeah

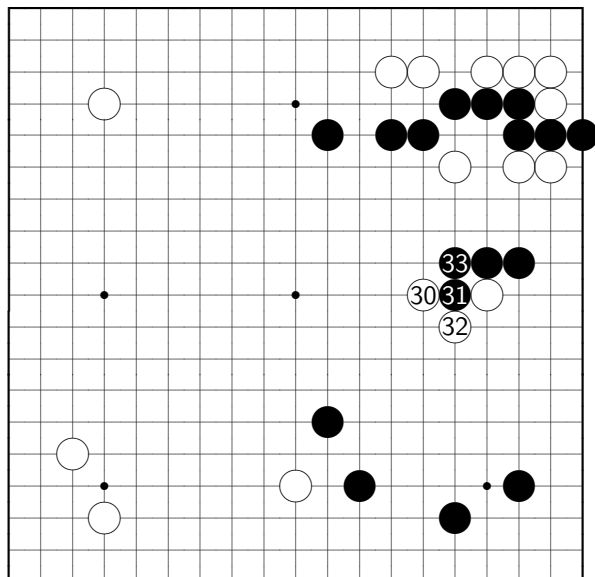

Diagram. 88
(Moves: 30-33)

Younggil [8p]: by the way, this fighting seems to be better for Black Younggil [8p]: did you feel so too? Kashomon [1k]: Yes, but I was surprise how easy it was for W to live later Kashomon [1k]: I think maybe I missed something? Younggil [8p]: haha, let's see

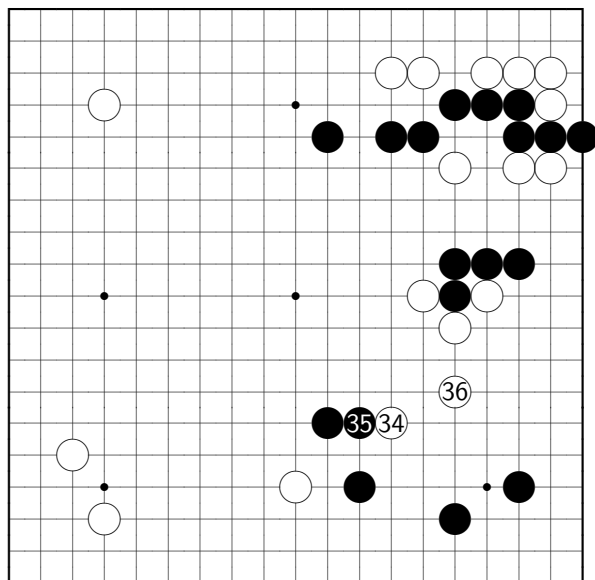

Diagram. 89
(Moves: 34-36)

jrhoak: beautiful move jarstar: Thanks!

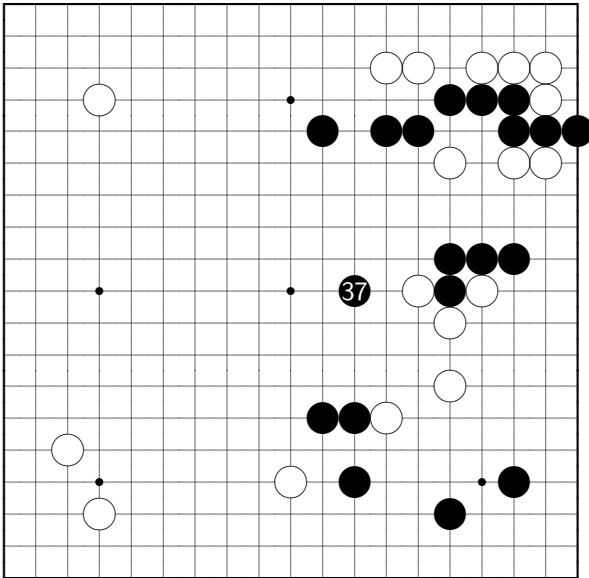

Diagram. 90
(Move: 37)

Younggil [8p]: so far so good

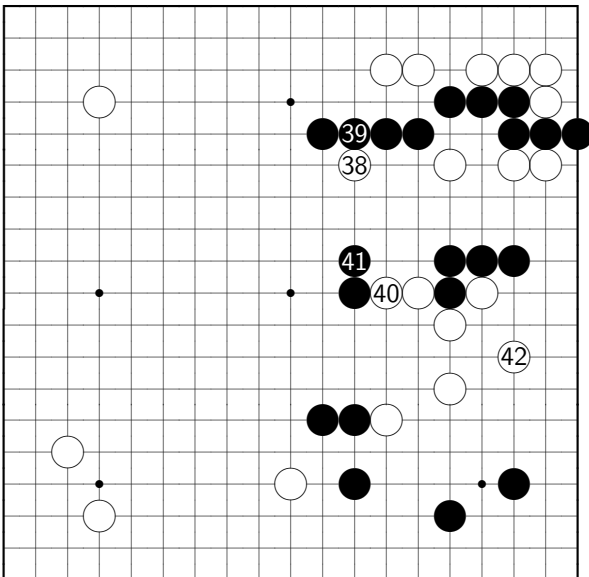

Diagram. 91
(Moves: 38-42)

Kashomon [1k]: I thought white's moves here were nice and light Younggil [8p]: yes Younggil [8p]: this move was very good Younggil [8p]: vital point of the shape

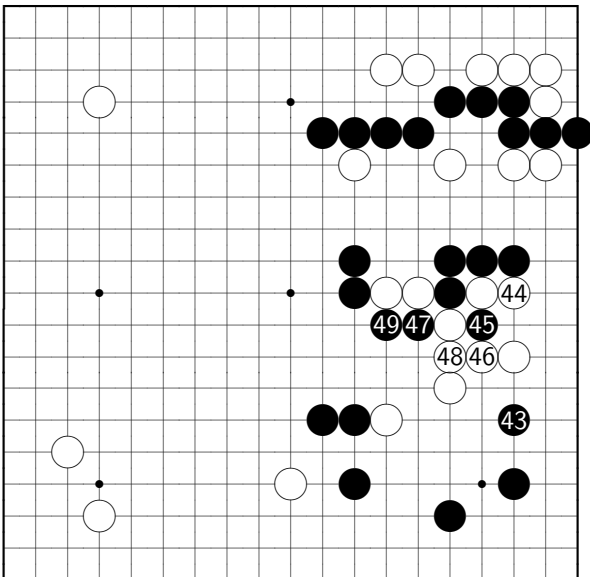

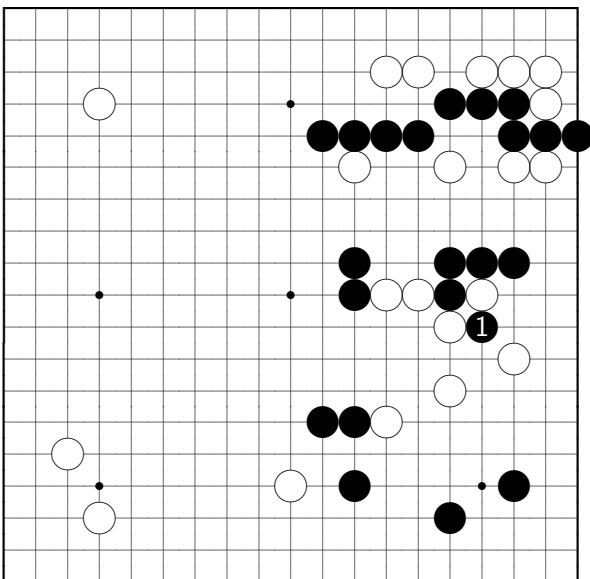

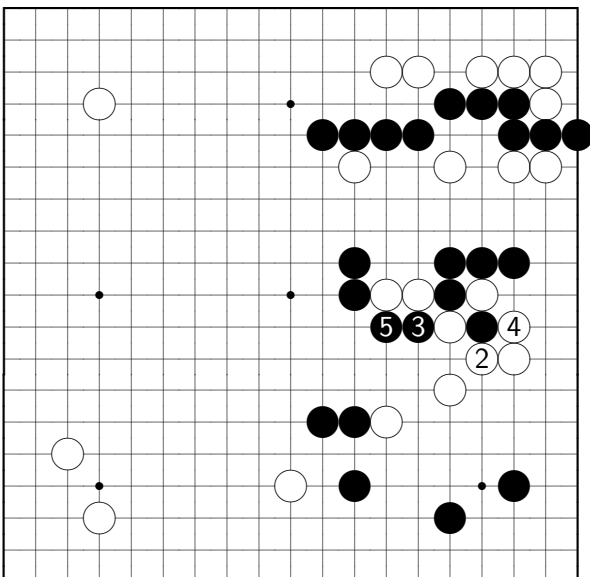

Diagram. 92
(Moves: 43-49)

Younggil [8p]: this was quite successful for Black

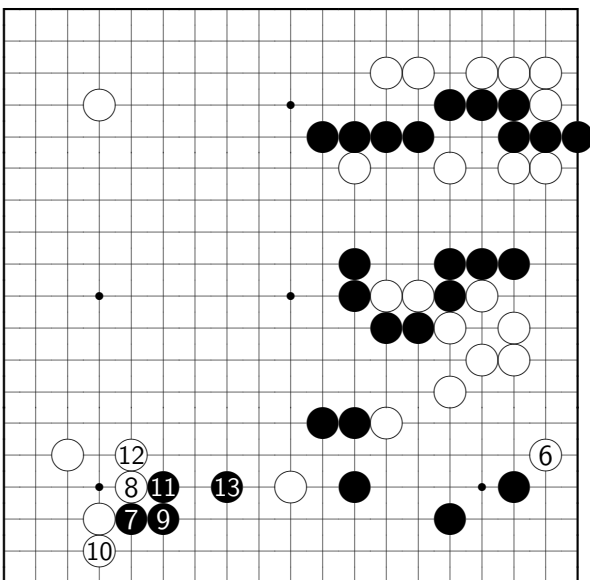

Variation. 60 from 42

Younggil [8p]: So black should cut here first
 Younggil [8p]: and

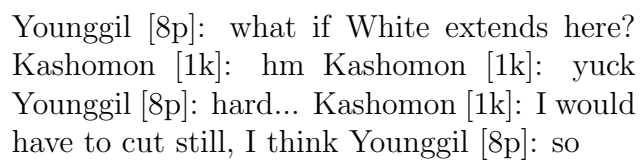

Variation. 61 from 42

Younggil [8p]: this is much better Kashomon [1k]: I see Younggil [8p]: Black's territory is quite big

Variation. 62 from 42

Younggil [8p]: and Black can attack White's K4 like this later Kashomon [1k]: I find that both you and David are better at leaning to attack Kashomon [1k]: (of course) Younggil [8p]: haha, Kashomon [1k]: but it's something I notice in particular Younggil [8p]: yea, that's sometimes more efficient Kashomon [1k]: for example E3 Younggil [8p]: right Younggil [8p]: if you think more about that leaning attack, you can play better I think :) Kashomon [1k]: Yes, I think so too Younggil [8p]: you're already playing much better than before you did

Variation. 63 from 45

Variation. 64 from 45

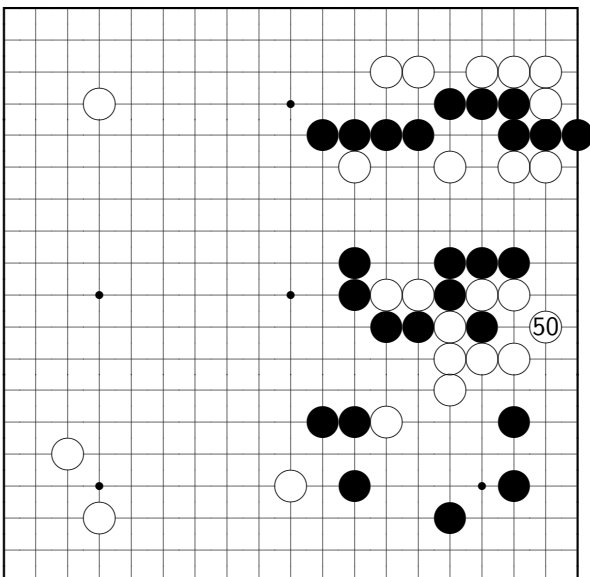

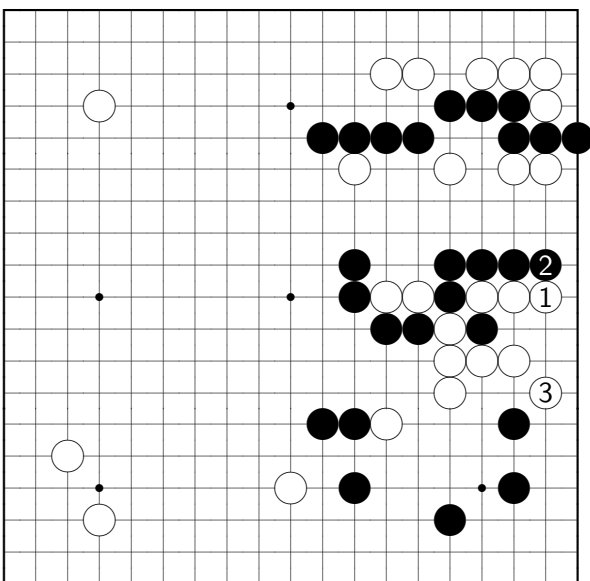

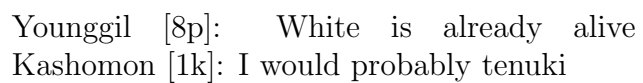

Diagram. 93
(Move: 50)

Younggil [8p]: yes

Variation. 65 from 49

Younggil [8p]: White should play like this at least
Younggil [8p]: and that'd be much better for the endgame
Kashomon [1k]: yea

Variation. 66 from 49

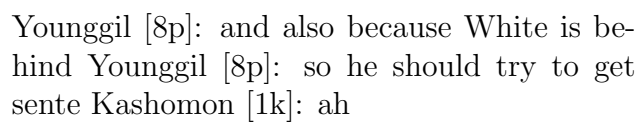

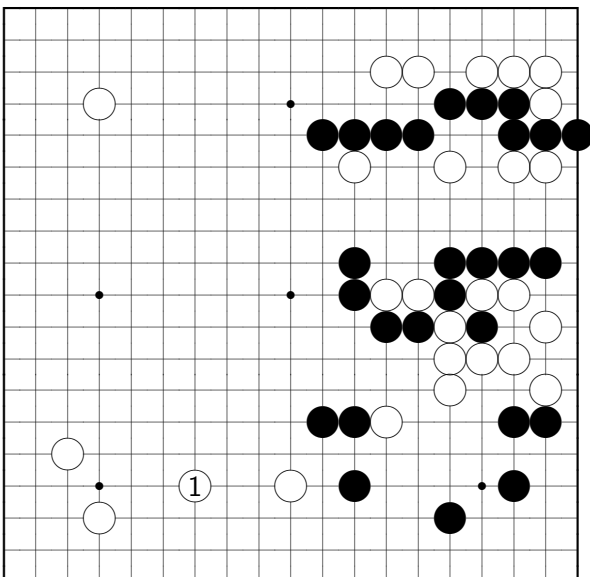

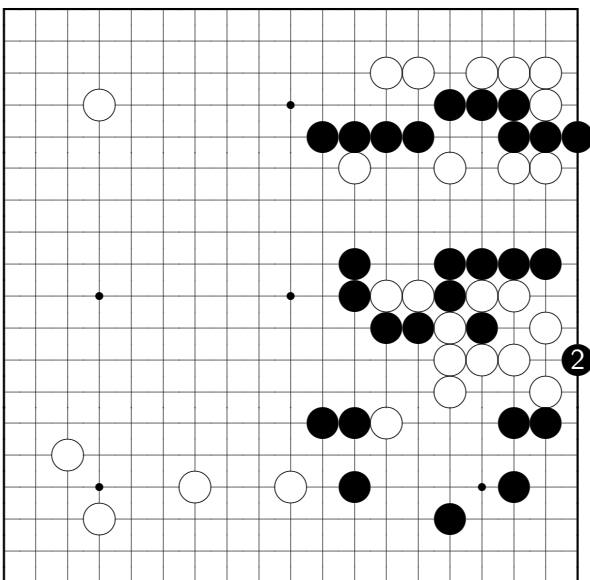

Diagram. 94
(Moves: 51-54)

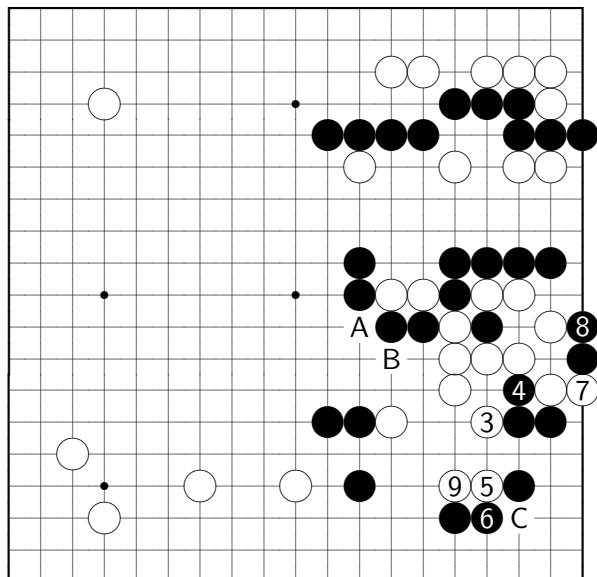

Variation. 67 from 53

Younggil [8p]: White could still tenuki I think
Kashomon [1k]: wow, here?

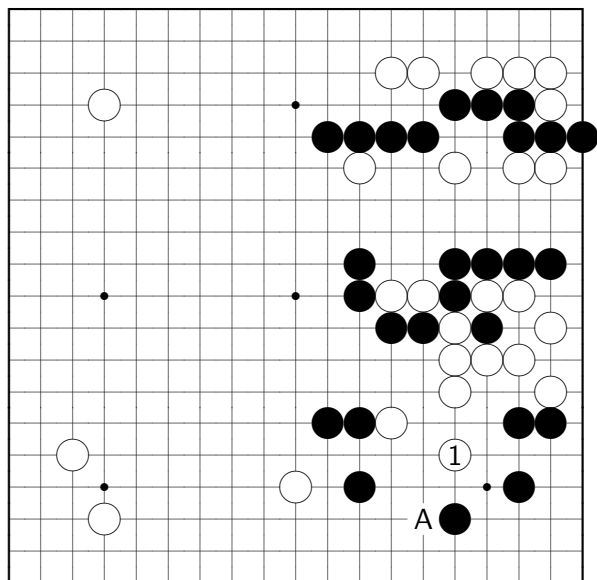

Variation. 68 from 53

Kashomon [1k]: how?

Variation. 69 from 53

Younggil [8p]: yes Younggil [8p]: hard for Black to capture Kashomon [1k]: wow, that's some pro L&D right there Younggil [8p]: there're many weaknesses for Black Kashomon [1k]: yea Younggil [8p]: yea, kinda :)

Variation. 70 from 53

Younggil [8p]: at least, this is much better for the reinforcement Younggil [8p]: because White can attach at A next

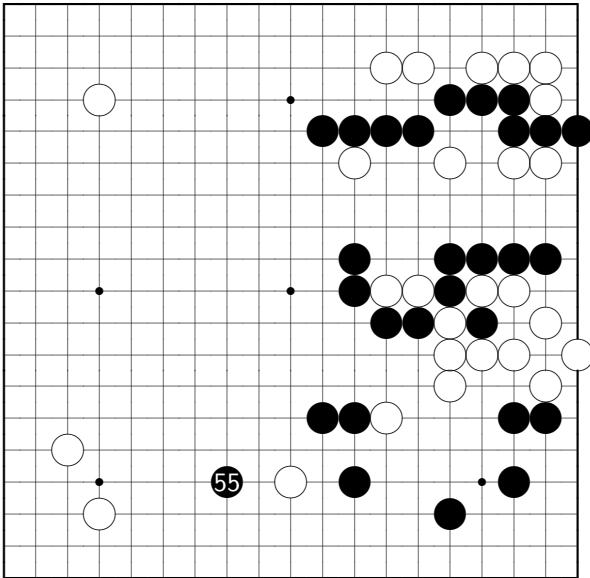

Diagram. 95
(Move: 55)

jarstar: Nice followup

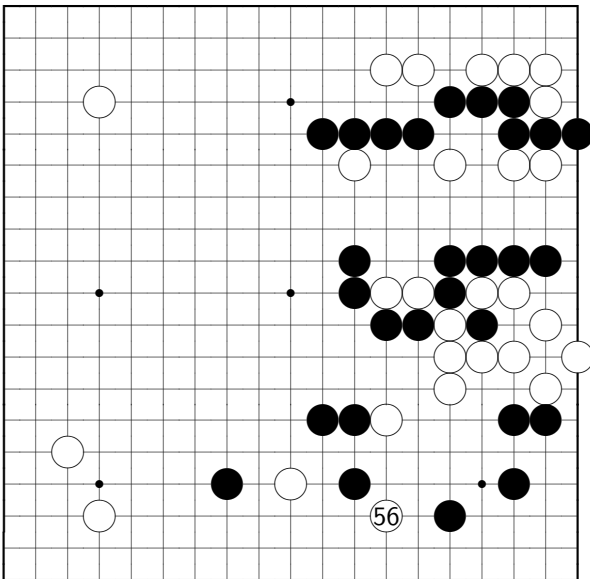

Diagram. 96
(Move: 56)

jarstar: Invade all the things jrhoak: hm
jarstar: Playing on OGS and watching
Haylee's games have really rekindled my in-
terest in Go. jarstar: Thanks for sharing that
youtube channel, by the way!

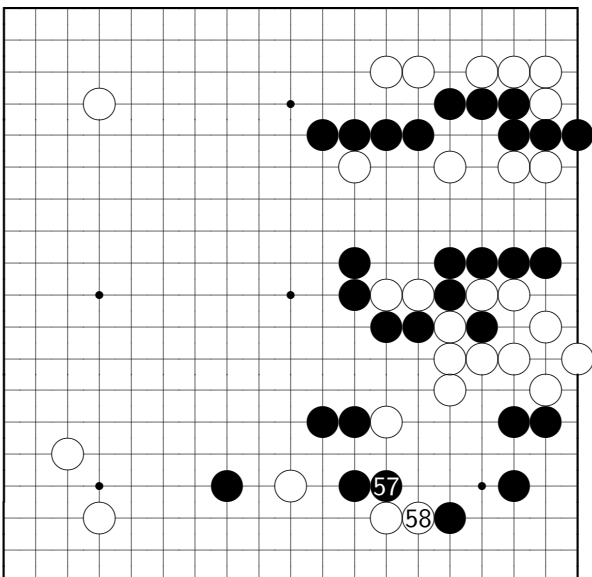

Diagram. 97
(Moves: 57-58)

jrhoak: =)

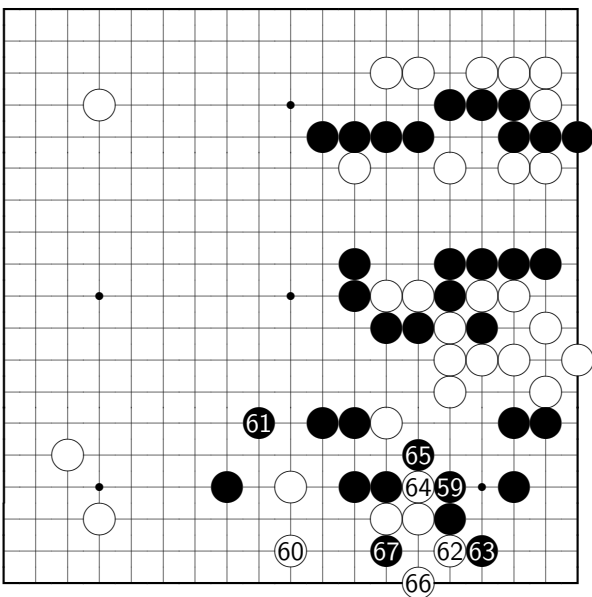

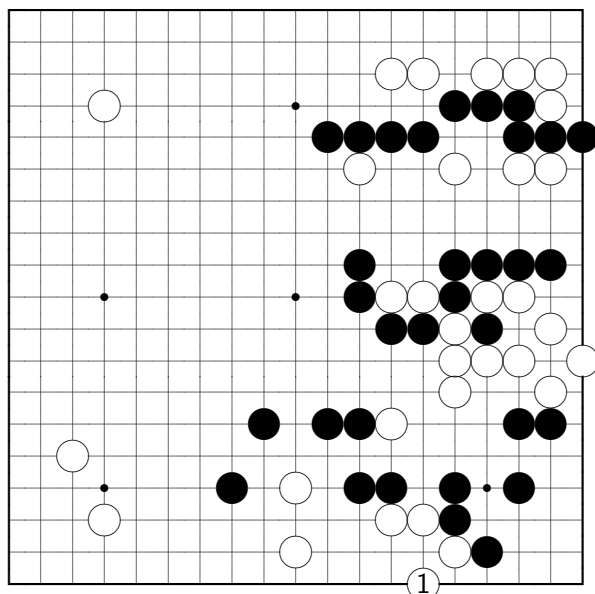

Diagram. 98
(Moves: 59-67)

jarstar: Woah. Didn't expect Kashomon [1k]:
This was an overplay Younggil [8p]: that's a
good idea :) Younggil [8p]: oh, why?

Variation. 71 from 63

Younggil [8p]: White should just play here

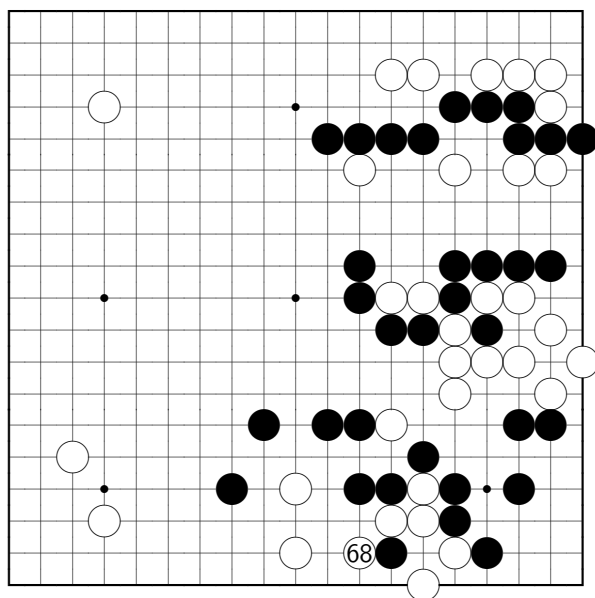

Diagram. 99
(Move: 68)

jrhoak: Not sure if it works =)

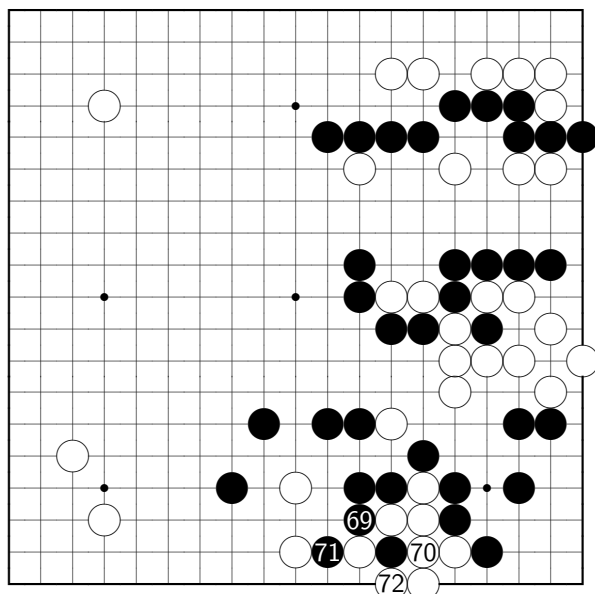

Diagram. 100
(Moves: 69-72)

jrhoak: okaaay

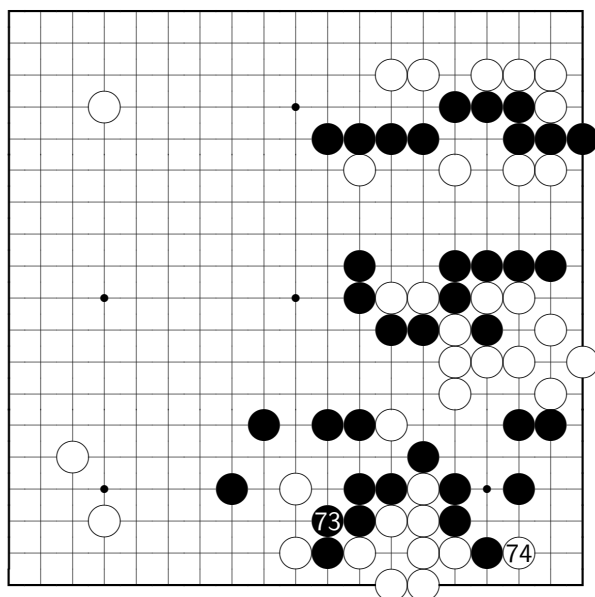

Diagram. 101
(Moves: 73-74)

jrhoak: excellent timing

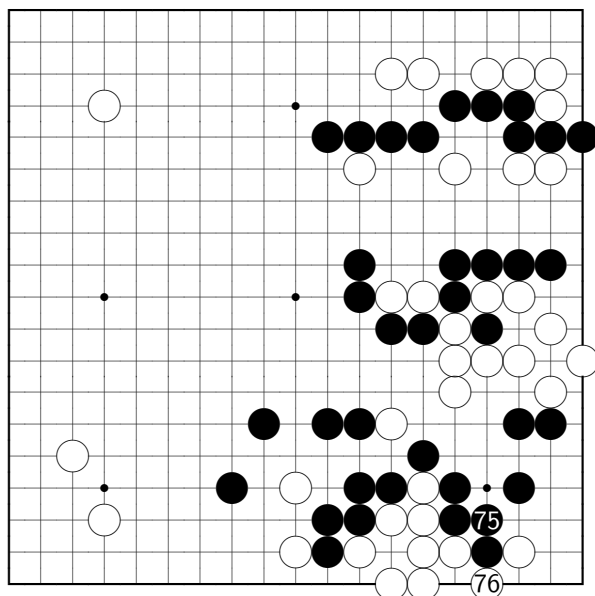

Diagram. 102
(Moves: 75-76)

jarstar: I felt like the left and the right were miai for living jarstar: Well, my reductions lived, but your moyo strategy is still working really well.

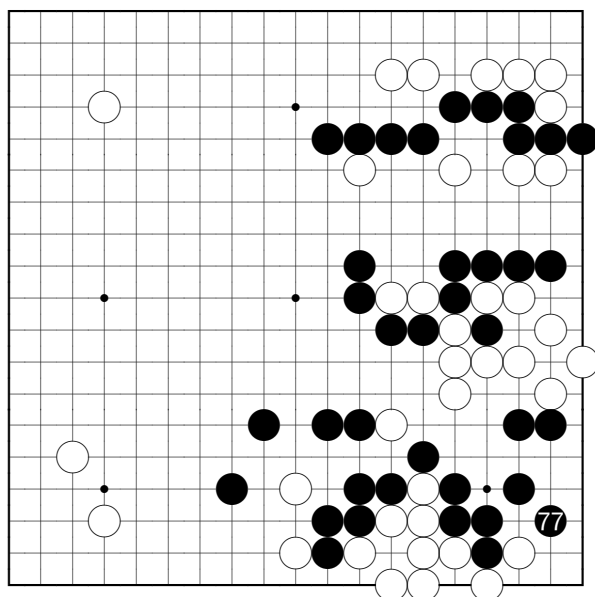

Diagram. 103
(Move: 77)

Kashomon [1k]: because of Black's cutting points

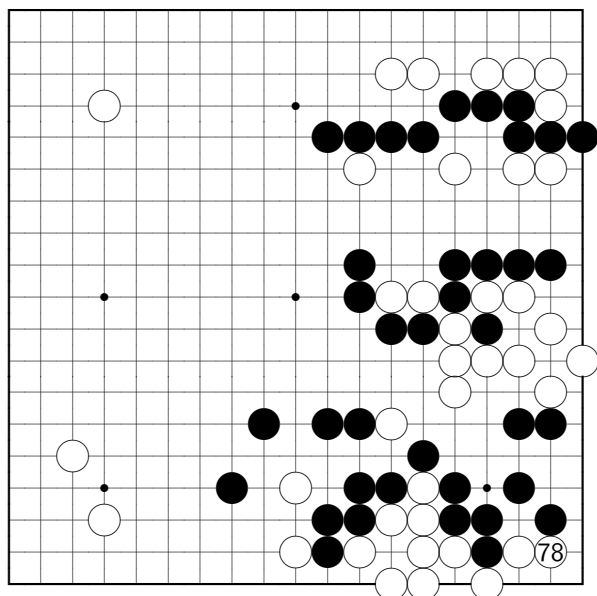

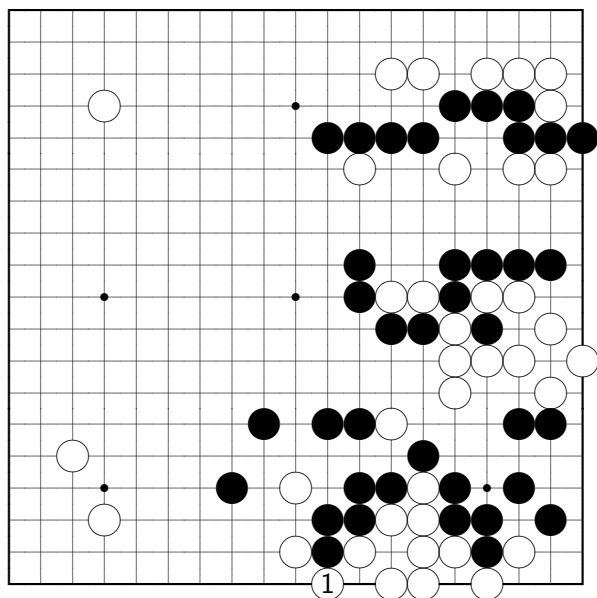

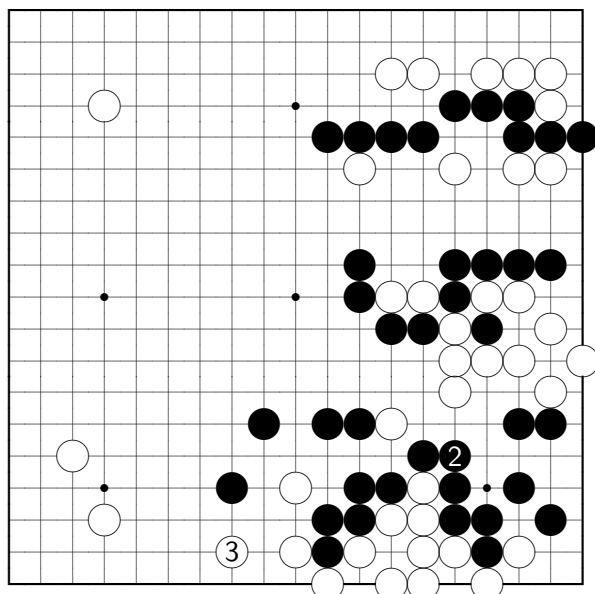

Diagram. 104
(Move: 78)

Younggil [8p]: i see

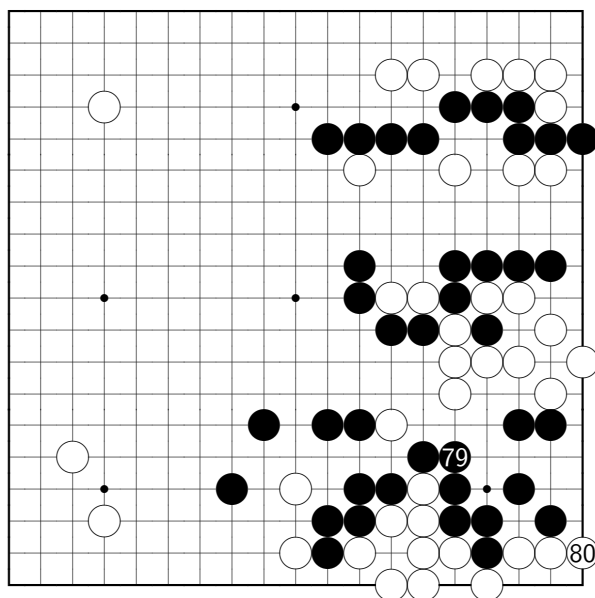

Variation. 72 from 77

Younggil [8p]: even here Kashomon [1k]: I see

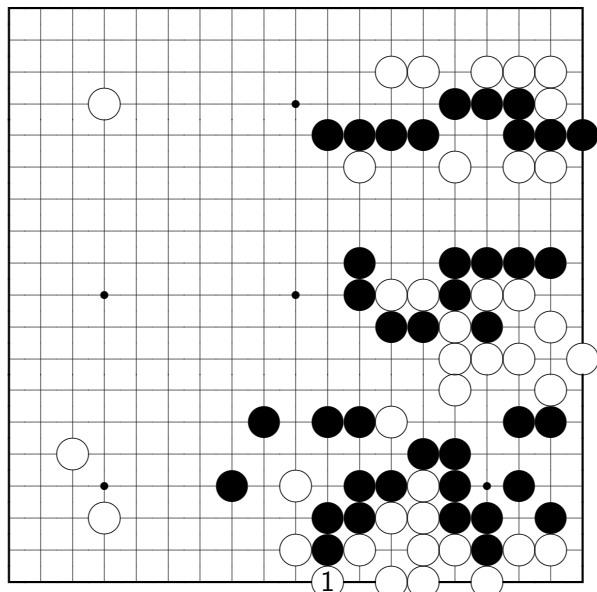

Variation. 73 from 77

Younggil [8p]: much better maybe

*Diagram. 105
(Moves: 79-80)*

jarstar: I was worried you were going to go for the ko
Younggil [8p]: I understand that

Variation. 74 from 79

Younggil [8p]: but White should still connect under here first

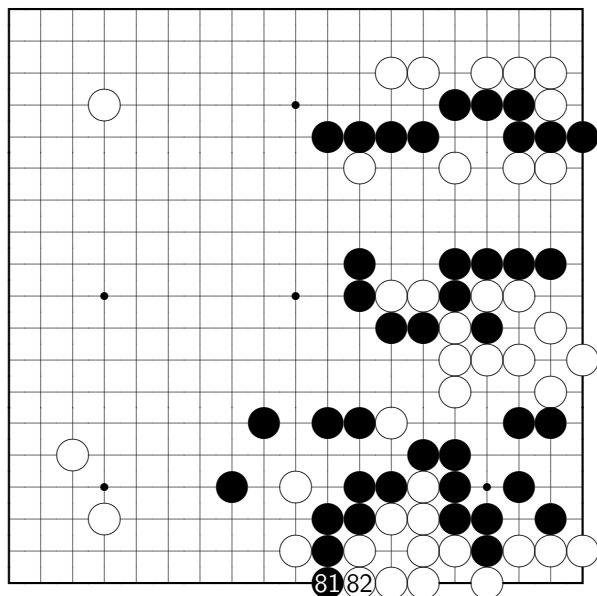

Diagram. 106
(Moves: 81-82)

jrhoak: Didn't look good to me given the internal threats
jarstar: icic jrhoak: ugh. I hate to make this move, but I can't find a way around it

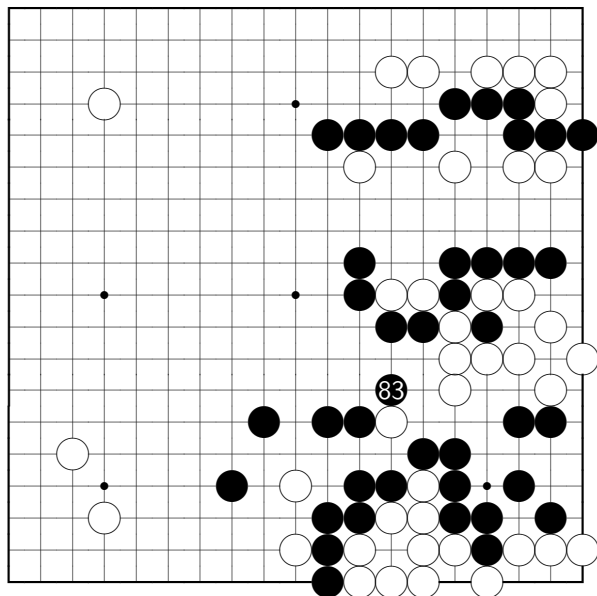

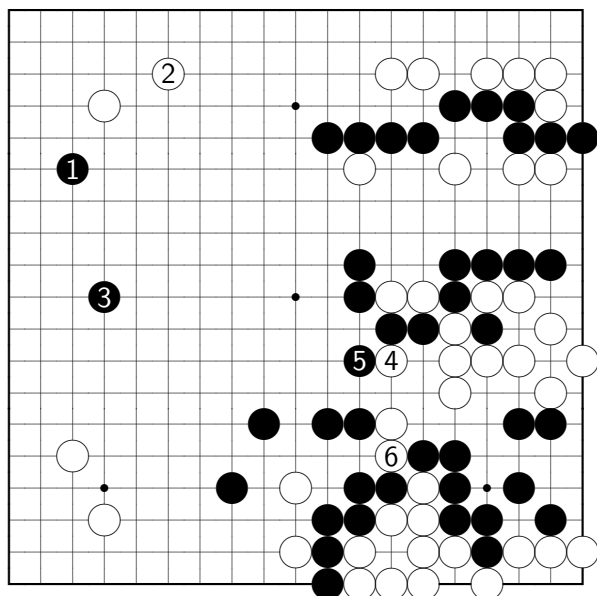

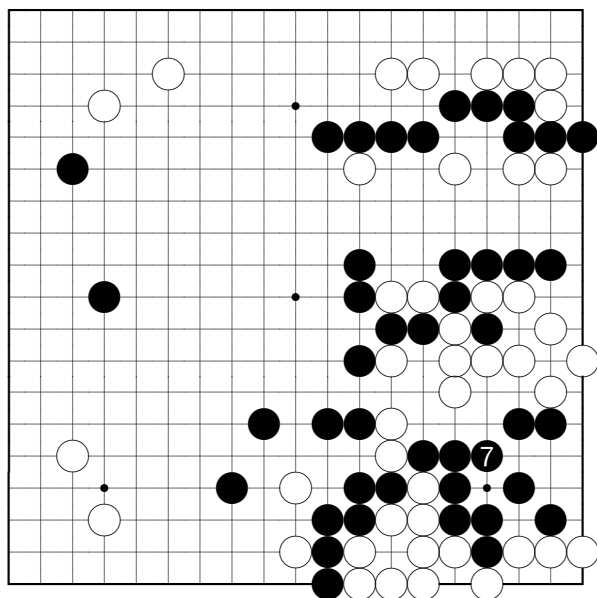

Diagram. 107
(Move: 83)

jarstar: This is an important moment jarstar:
Tough to decide where to go Kashomon [1k]:
maybe N7 was slow? Younggil [8p]: the result
was still satisfactory for Black, right? Young-
gil [8p]: yes, a bit Younggil [8p]: looks like
necessary Younggil [8p]: very good Kashomon
[1k]: haha Younggil [8p]: the game is certainly
good for Black now :)

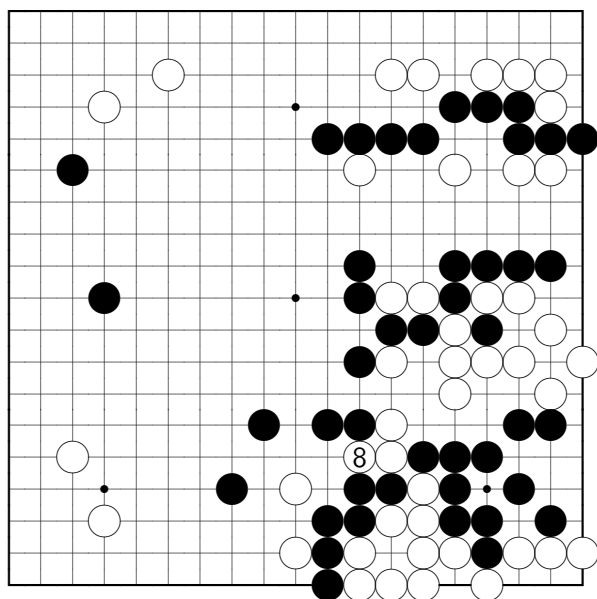

Variation. 75 from 82

Kashomon [1k]: I was worried about this yea

Variation. 76 from ⑧2

Younggil [8p]: Black's already alive

Variation. 77 from ⑧2

Kashomon [1k]: hm Kashomon [1k]: and here?
Younggil [8p]: oh, but some bad aji here

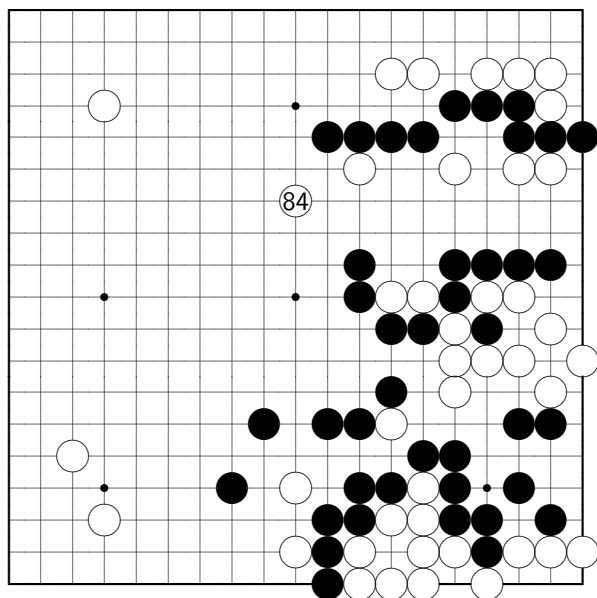

Diagram. 108
(Move: 84)

jrhoak: hm

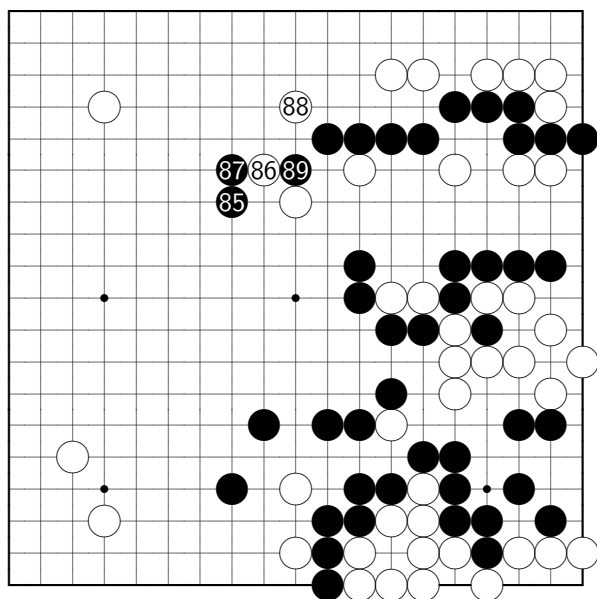

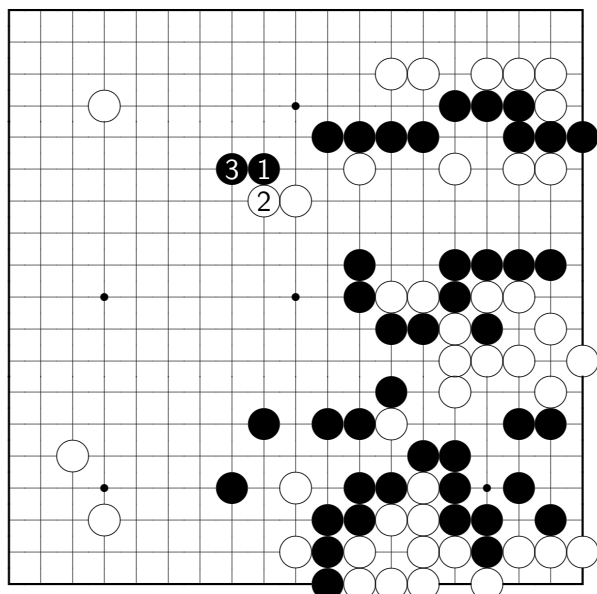

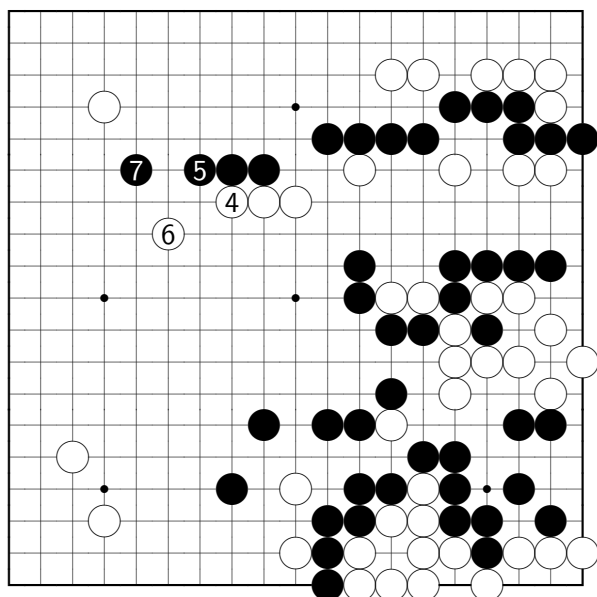

Diagram. 109
(Moves: 85-89)

Younggil [8p]: good Younggil [8p]: this is a nice tesuji to cut

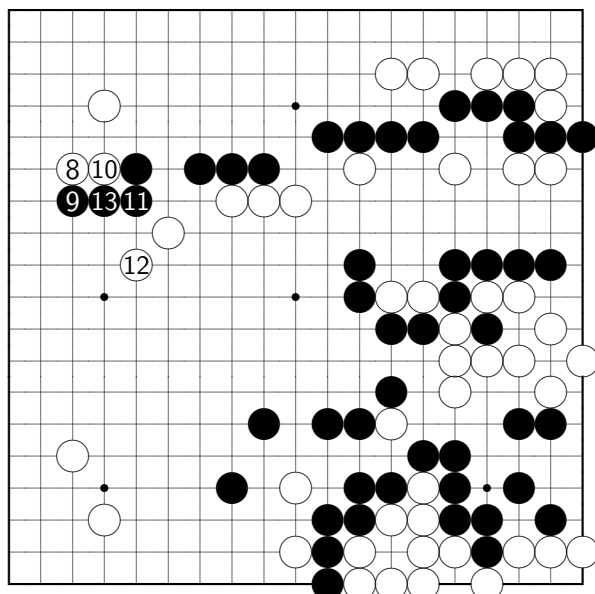

Variation. 78 from ⑧4

Younggil [8p]: this is more common

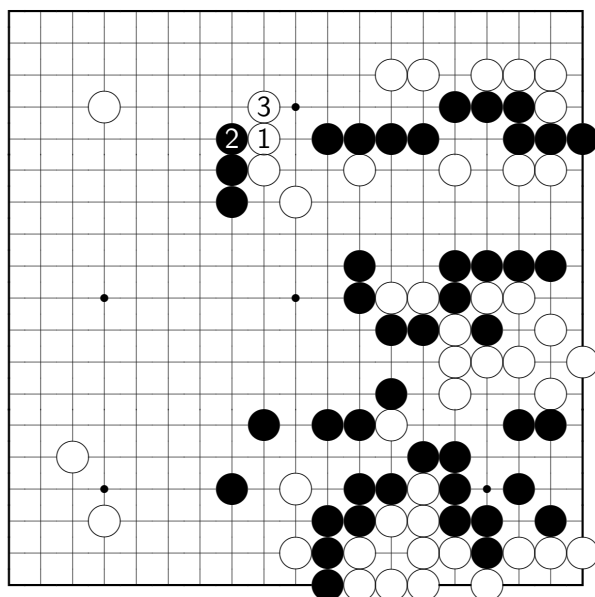

Variation. 79 from ⑧4

Younggil [8p]: going towards the left side, and White can't make any big territory there

Variation. 80 from 84

Younggil [8p]: while White's center group is weak, White can't fight properly Kashomon [1k]: I see

Variation. 81 from 87

Kashomon [1k]: Did I make this mor dangerous than I needed to? Younggil [8p]: White should keep extending Kashomon [1k]: I see

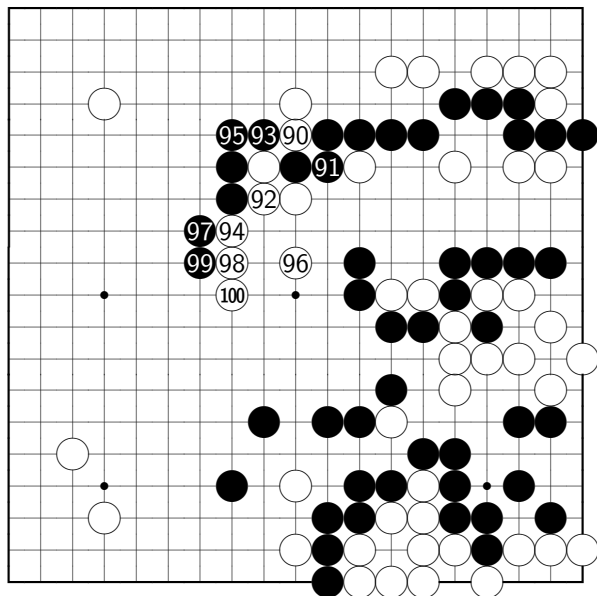

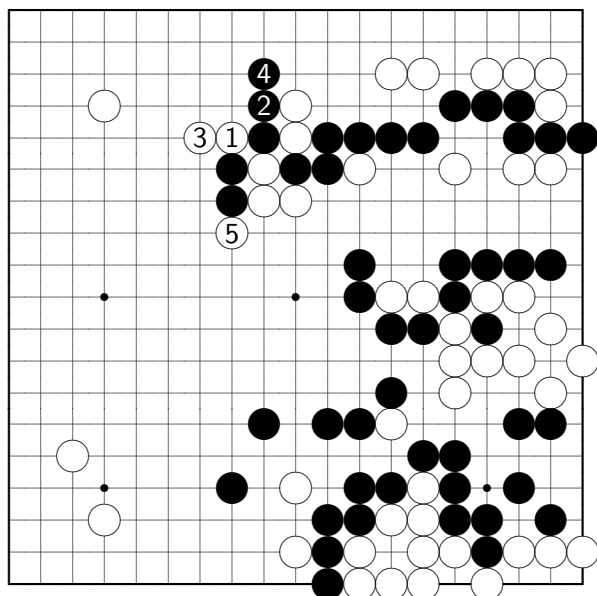

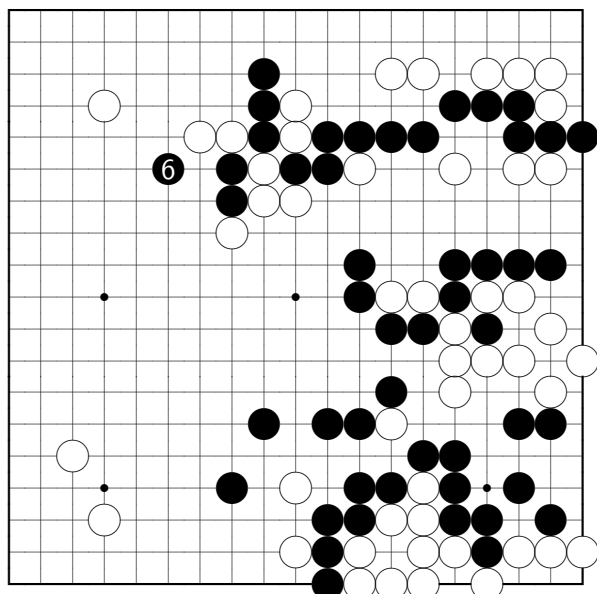

Diagram. 110
(Moves: 90-100)

jrhoak: all the influence! jarstar: Seriously.
jarstar: This has been a tough game for white
Younggil [8p]: normally

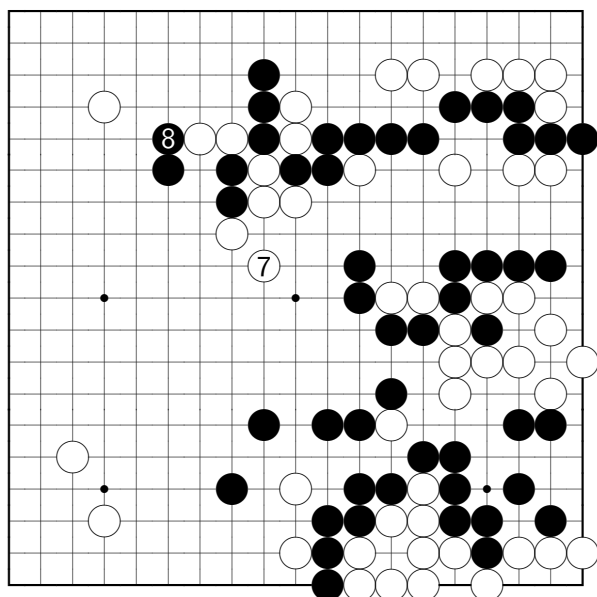

Variation. 82 from 93

Younggil [8p]: White should play like this

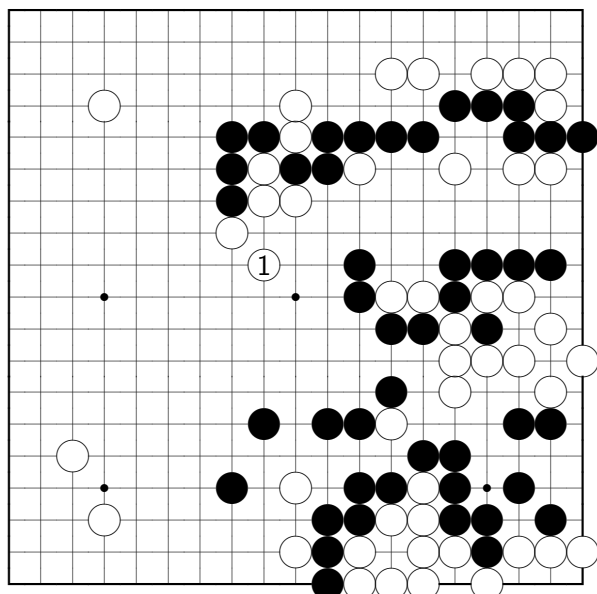

Variation. 83 from 93

Kashomon [1k]: Yeah, looks like a nicer fight this way

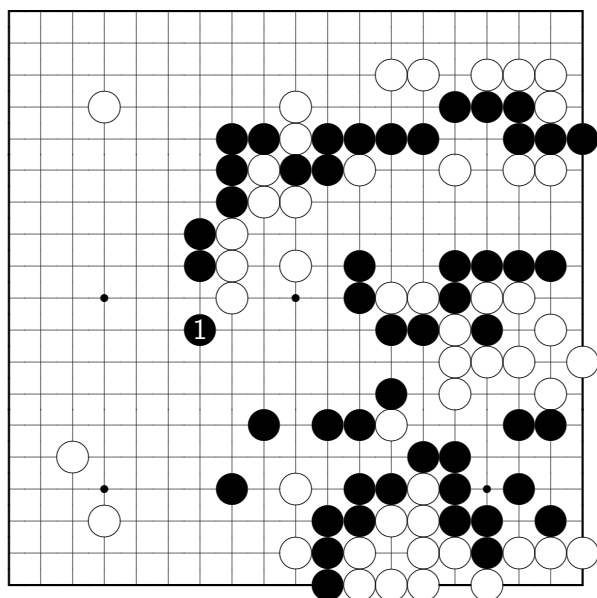

Variation. 84 from 93

Younggil [8p]: but still hard

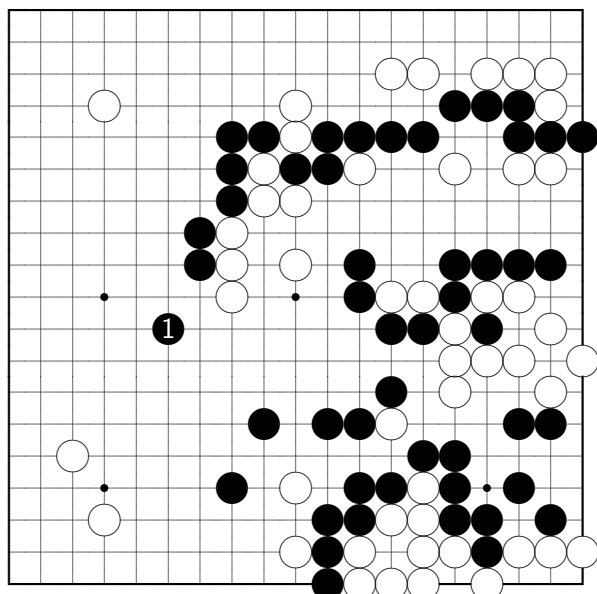

Variation. 85 from 95

Younggil [8p]: or this connection is better to escape

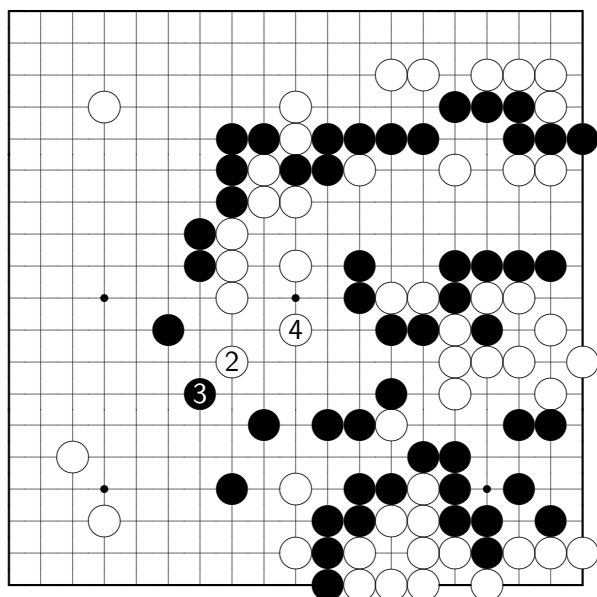

*Diagram. 111
(Move: 101)*

jarstar: Guh, I definitely messed up about fifteen moves ago Kashomon [1k]: ah Kashomon [1k]: here was one Younggil [8p]: this was a mistake

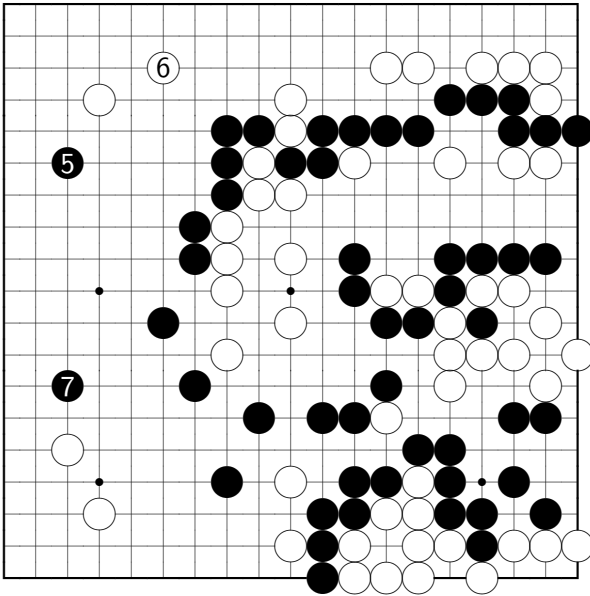

Variation. 86 from (100)

Younggil [8p]: the knight's move is better

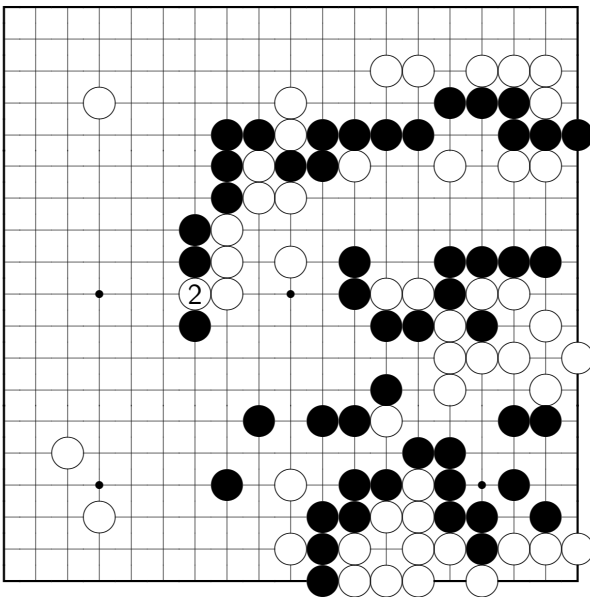

Variation. 87 from (100)

Younggil [8p]: even if White can live somehow

Variation. 88 from (100)

Younggil [8p]: Black is still winning
 Kashomon [1k]: yeah Younggil [8p]: quite a lot now

*Diagram. 112
 (Move: 102)*

Kashomon [1k]: I think I was too worried about killing

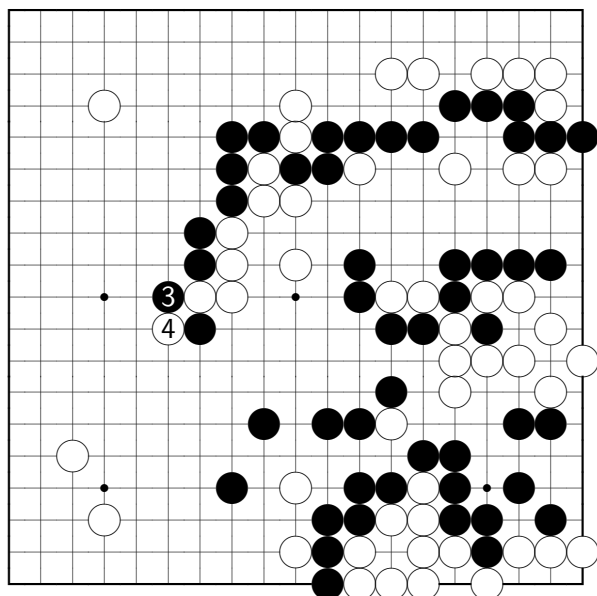

Diagram. 113
(Moves: 103-104)

Younggil [8p]: because of the cutting point
Younggil [8p]: i see Younggil [8p]: Black
doesn't have to kill

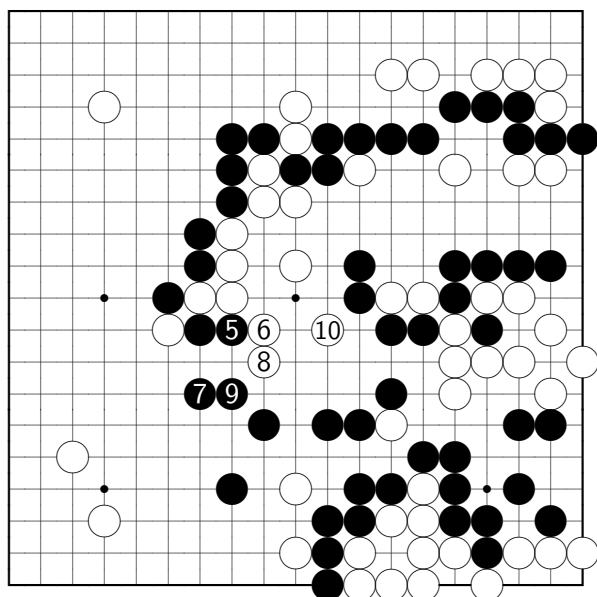

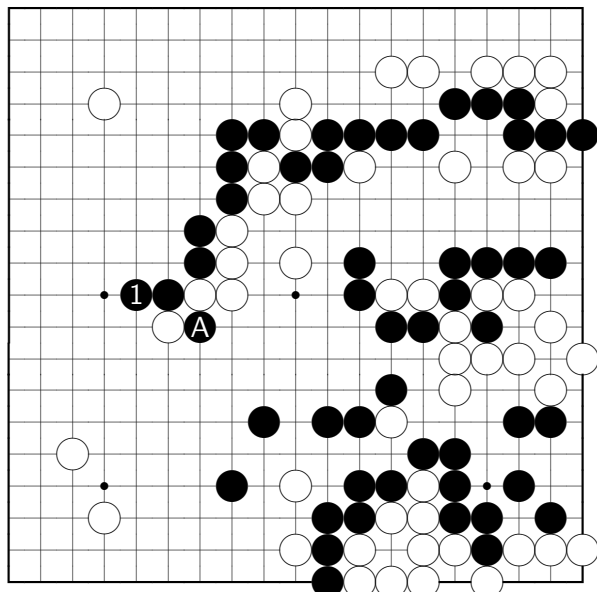

Diagram. 114
(Moves: 105-110)

jrhoak: still tricky L& D

Variation. 89 from 104

Younggil [8p]: this would still be ok Kashomon [1k]: Instead of K8, black should have defended Kashomon [1k]: or this Younggil [8p]: yea, right Younggil [8p]: since White can't capture A, that's still ok

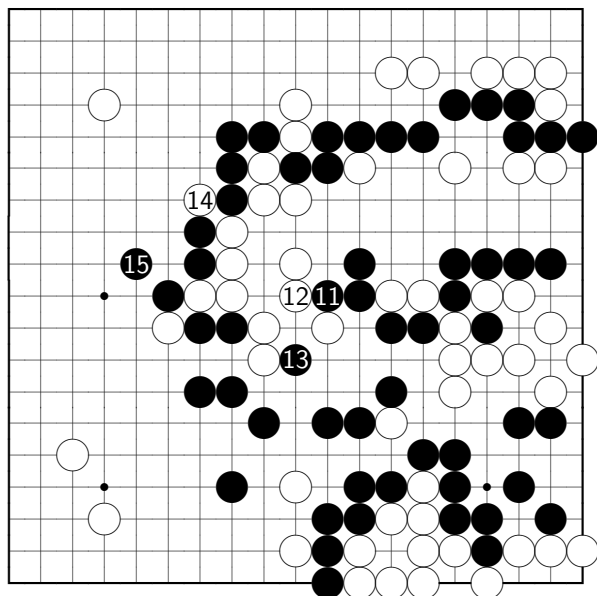

Diagram. 115
(Moves: 111-115)

jrhoak: exciting

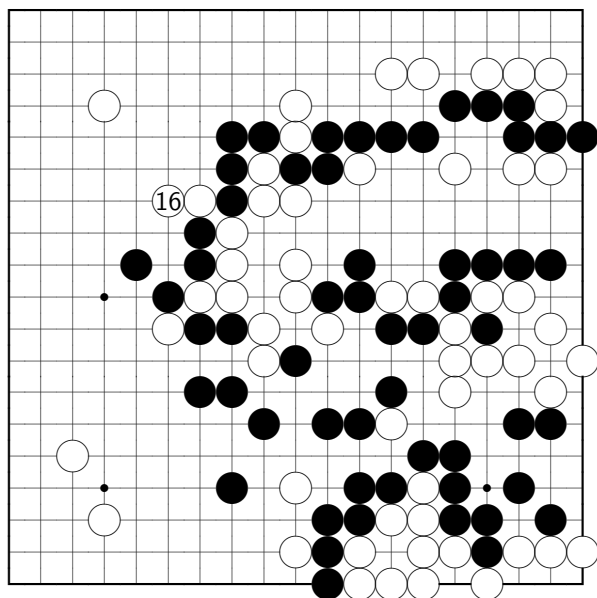

Diagram. 116
(Move: 116)

Younggil [8p]: it's already not that easy
Kashomon [1k]: I see Younggil [8p]: already complicated

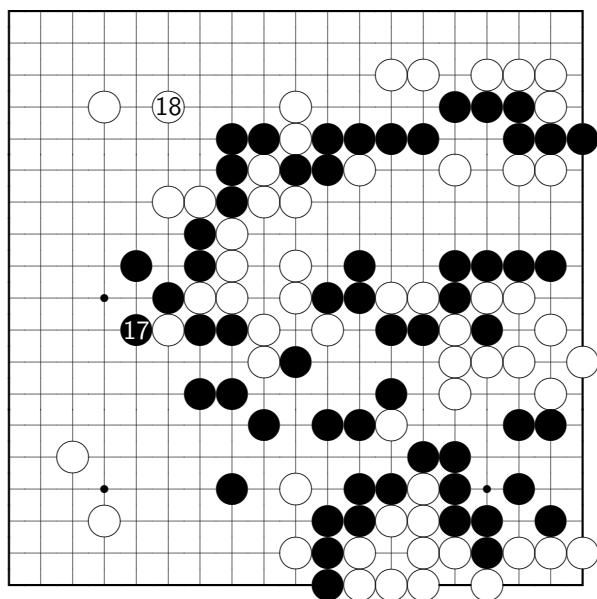

Diagram. 117
(Moves: 117-118)

jrhoak: hey, whey not Younggil [8p]: now, this would be the last fighting

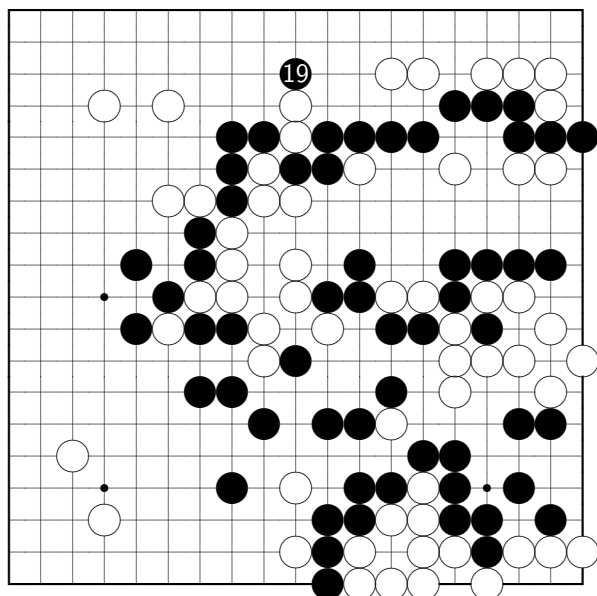

Diagram. 118
(Move: 119)

jarstar: Ho boy. Final showdown Younggil
[8p]: good start

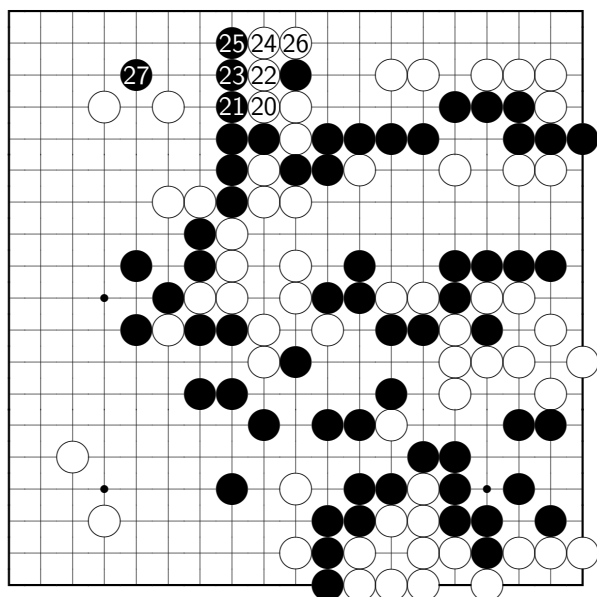

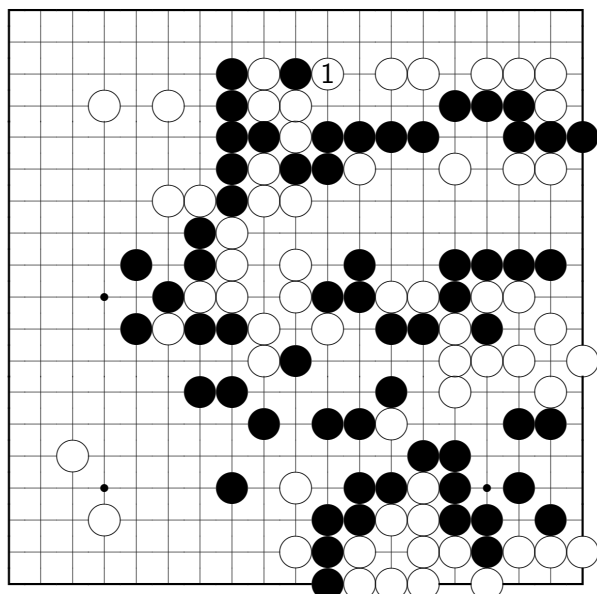

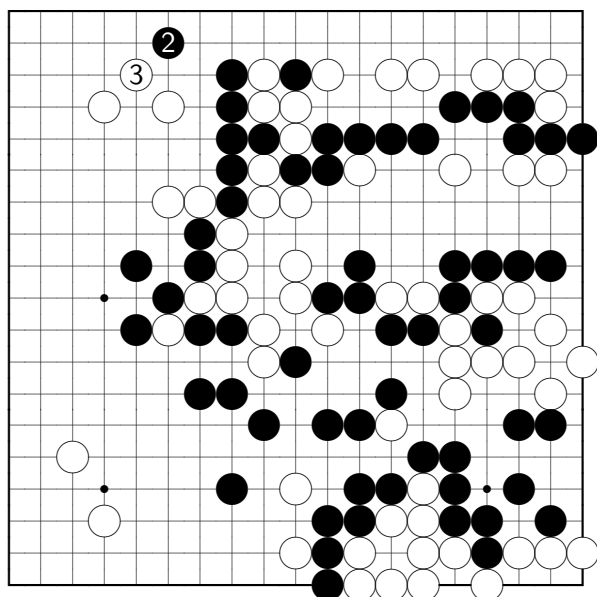

Diagram. 119
(Moves: 120-127)

Kashomon [1k]: this was a mistake here
Kashomon [1k]: to capture the center group
Younggil [8p]: yea Kashomon [1k]: it's not
quite there Kashomon [1k]: I think F18 would
have done it

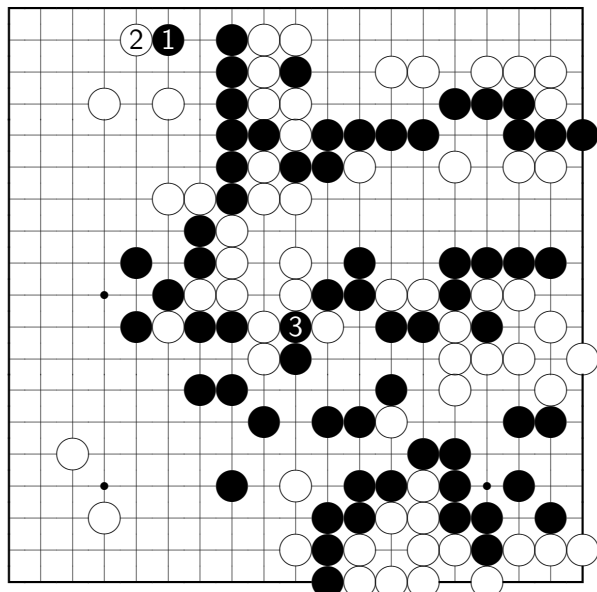

Variation. 90 from 123

Younggil [8p]: this would be better for White

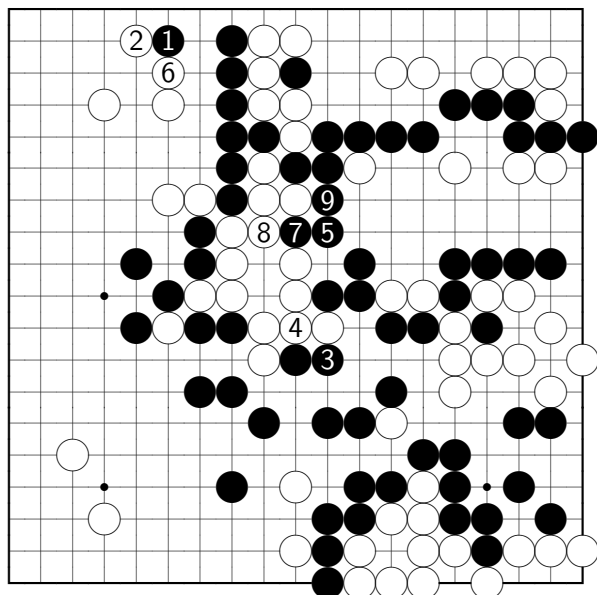

Variation. 91 from 123

Younggil [8p]: Black will be in trouble

Variation. 92 from ⑫⑥

Younggil [8p]: IF this cutting works Younggil [8p]: Black will still capture

Variation. 93 from ⑫⑥

Younggil [8p]: Black has one more liberty
 Kashomon [1k]: hm, maybe I counted wrong
 Younggil [8p]: that's quite tricky to count
 Younggil [8p]: because White might have a
 good move to extend his liberty Younggil [8p]:
 so the way you played was alright

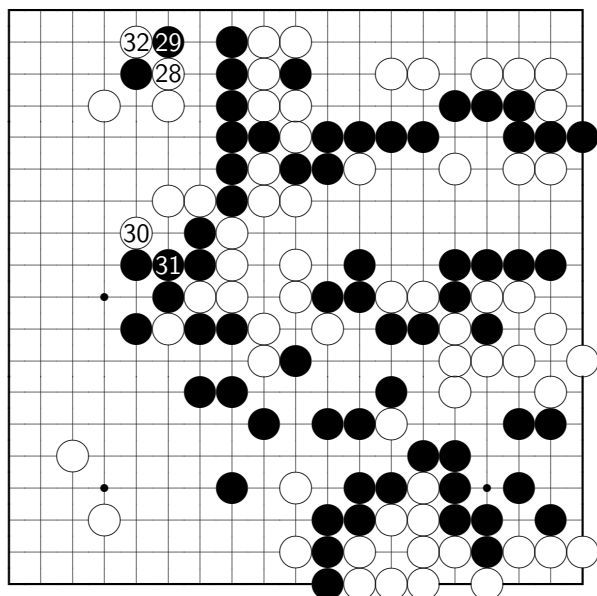

Diagram. 120
(Moves: 128-132)

jrhoak: so very complicated jrhoak: yikes

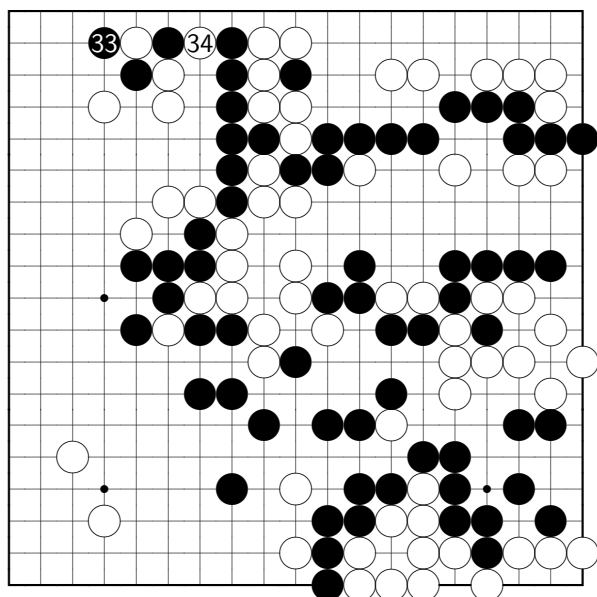

Diagram. 121
(Moves: 133-134)

Kashomon [1k]: as I counted, Black needs 8 liberties

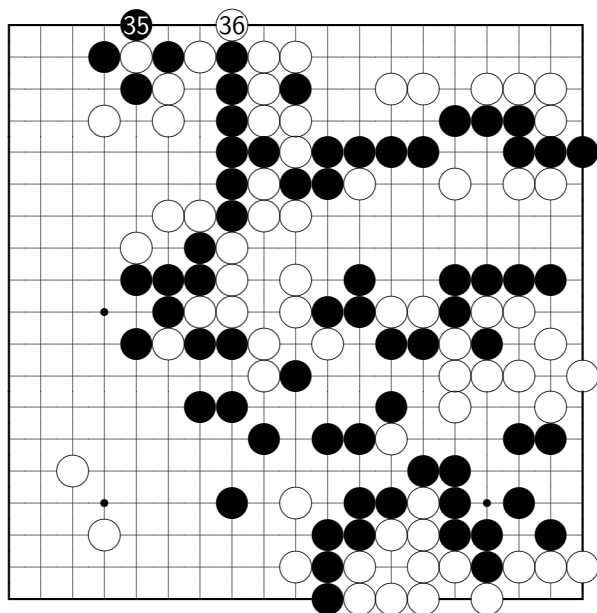

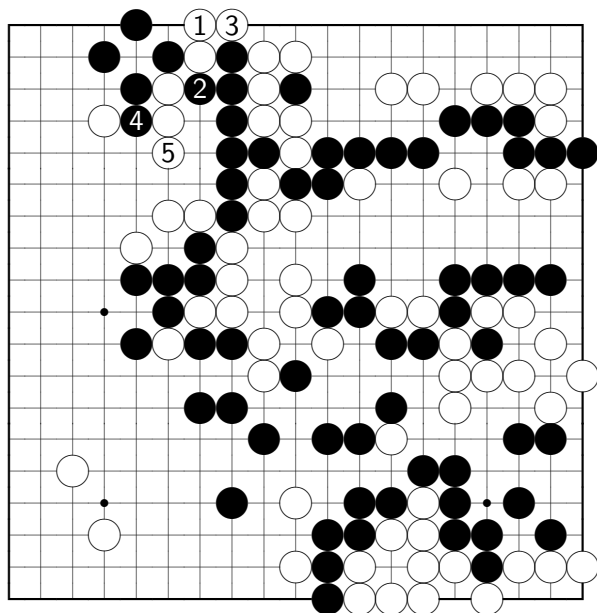

Diagram. 122
(Moves: 135-136)

Younggil [8p]: i see

Variation. 94 from 135

Kashomon [1k]: yeah Younggil [8p]: White could capture

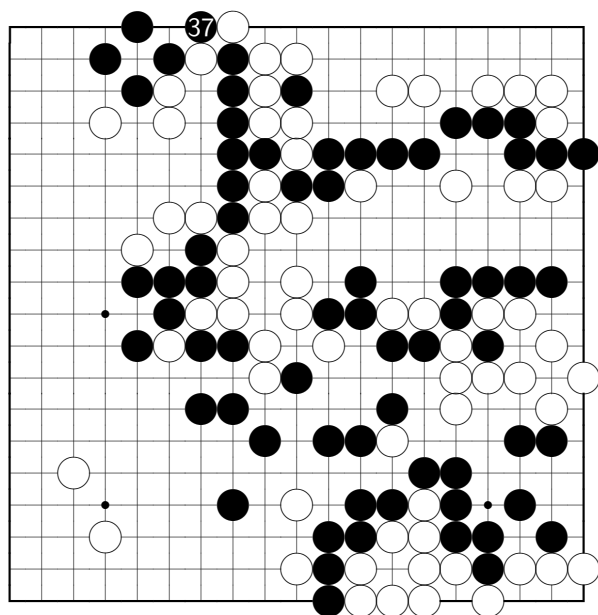

Diagram. 123
(Move: 137)

jarstar: Oh. jarstar: Ko. jarstar: Ugh

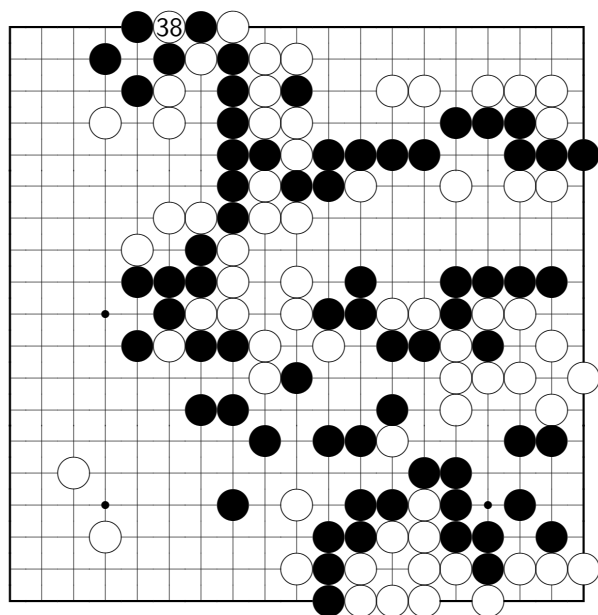

Diagram. 124
(Move: 138)

jrhoak: yup

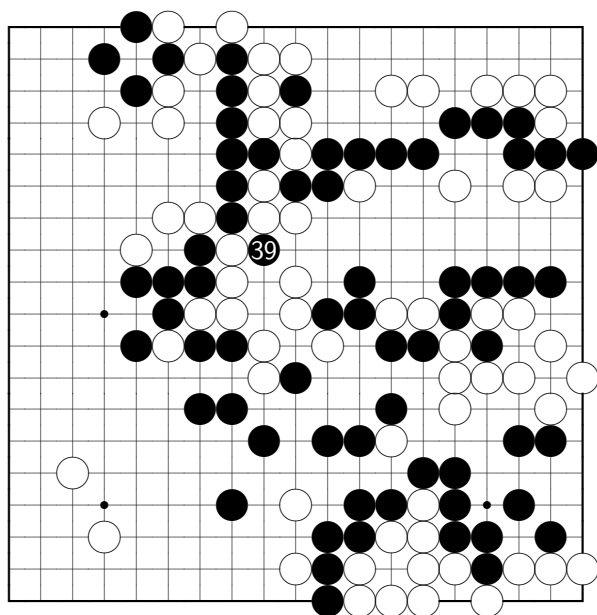

Diagram. 125
(Move: 139)

Younggil [8p]: anyway, you played quite well overall Younggil [8p]: the opening was ok as well

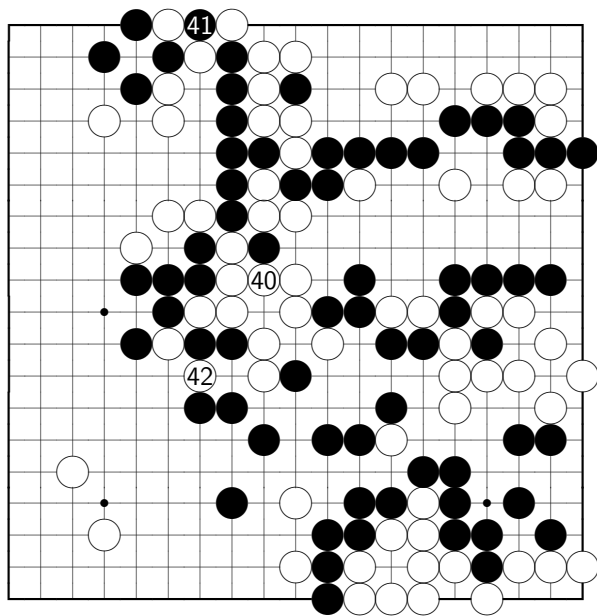

Diagram. 126
(Moves: 140-142)

jrhoak: tempting to take jarstar: I'm looking at whether I could've avoided the ko with G19 instead jarstar: Was there some other response you had in store? jrhoak: oh hm jrhoak: I didn't think about G17 jrhoak: I would probably try to E15 the jrhoak: then jrhoak: that would have been a good move jrhoak: err jrhoak: G19 jarstar: I didn't see it till after I played XD jarstar: Your attack has been really good jrhoak: 19 G17 E14 maybe? jrhoak: Thanks. I think that E17 was an over-play jrhoak: I thin just F18 would have been fine jrhoak: Your stones had 8 liberties jarstar: Yeah jrhoak: after E17 the most I could get was 7 =/ jrhoak: and maybe H18 instead of G18 jrhoak: err jrhoak: G18 instead of H18 jarstar: Oh, that'd be interesting jrhoak: I didn't see how severe F16 was as a counter jrhoak: that was a nice move jarstar: Thanks jrhoak: It works because the F13 stones are well positioned jrhoak: alright, gotta peace out for now jarstar: Later!

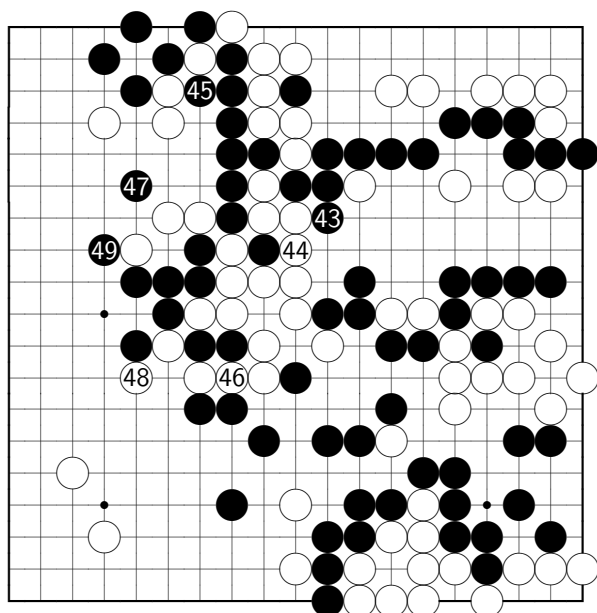

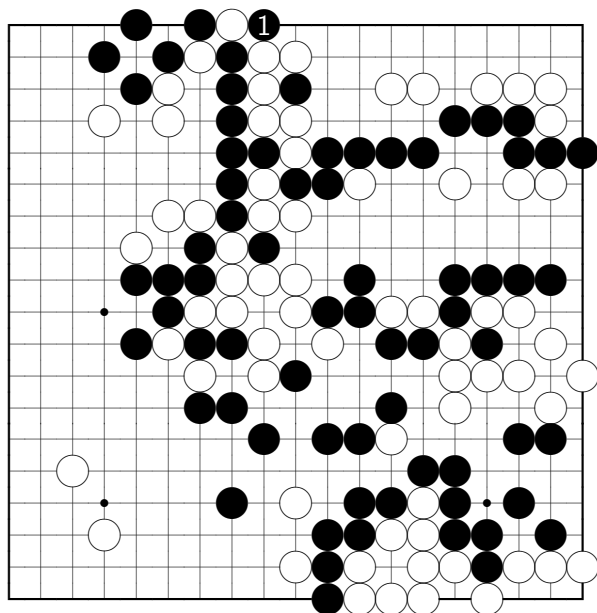

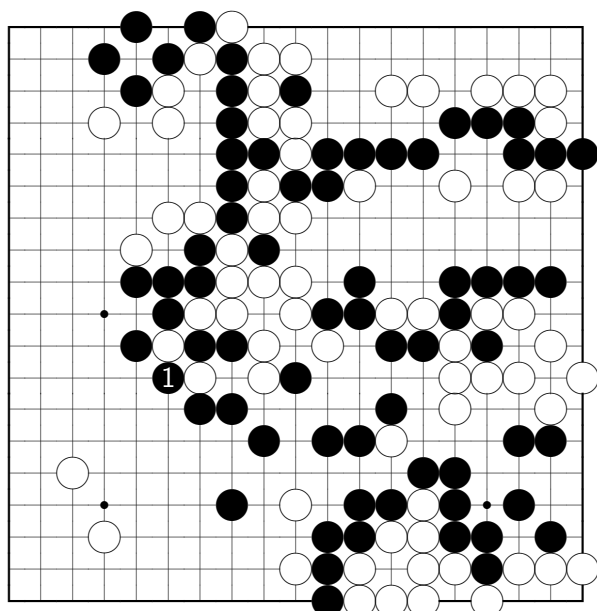

Diagram. 127
(Moves: 143-149)

Younggil [8p]: now, White lost one move
Younggil [8p]: and it's not going well

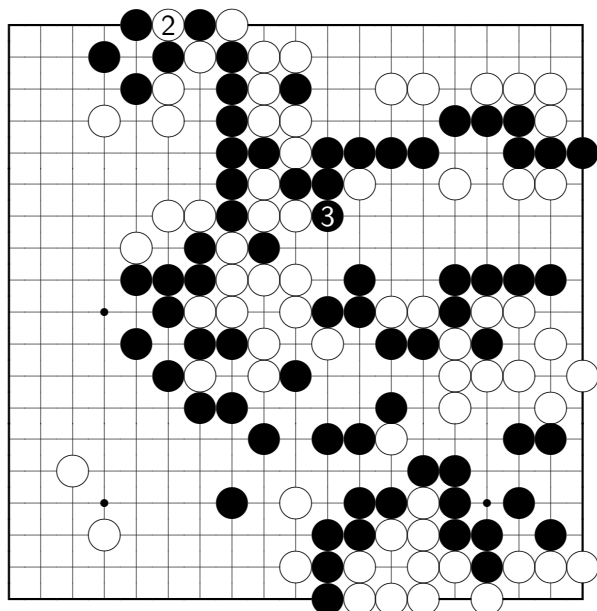

Variation. 95 from 142

Younggil [8p]: so

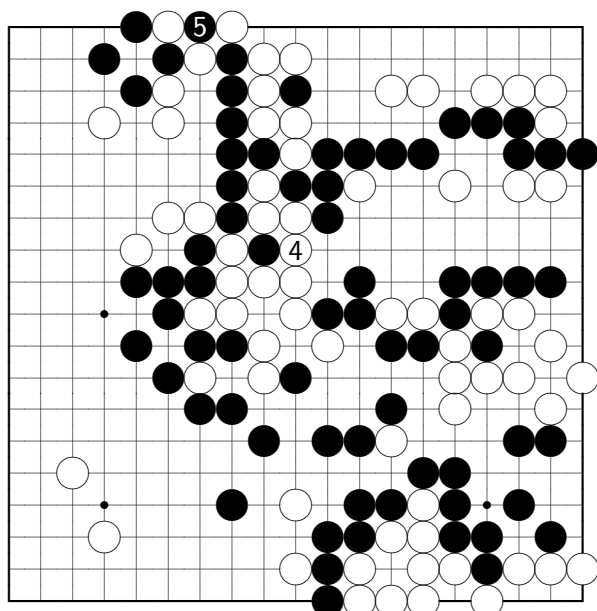

Variation. 96 from ⑭②

Younggil [8p]: black should answer here and

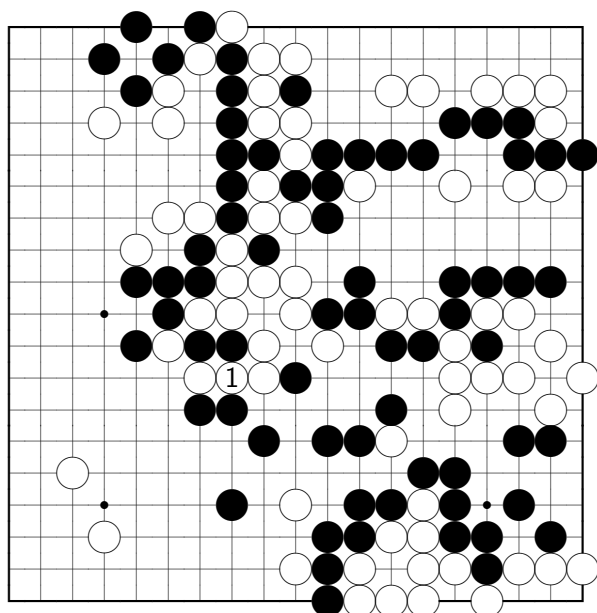

Variation. 97 from ⑭②

Kashomon [1k]: I'm not seeing it Younggil
[8p]: this one Kashomon [1k]: oh Kashomon
[1k]: sorry Younggil [8p]: no worries

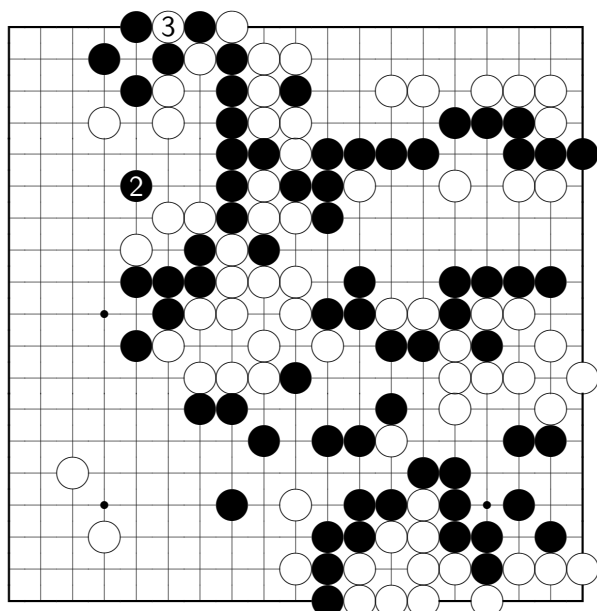

Variation. 98 from ⑭②

Kashomon [1k]: ah Younggil [8p]: Black has one more ko threat Younggil [8p]: and White doesn't have any Kashomon [1k]: which one?

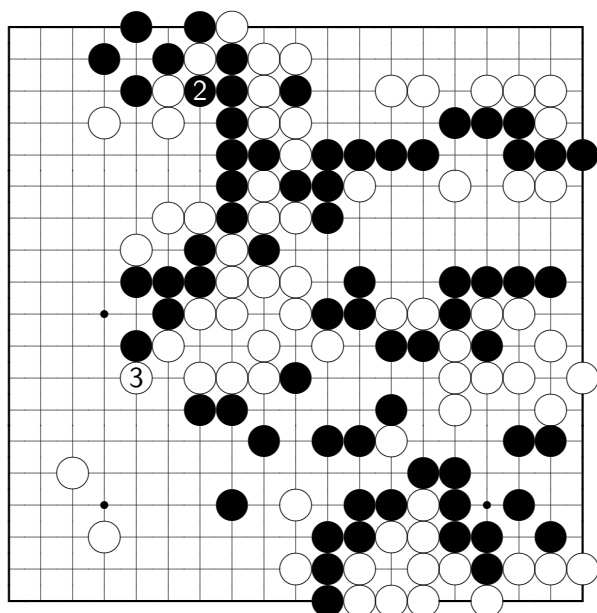

Variation. 99 from ⑭③

Younggil [8p]: White should just take here

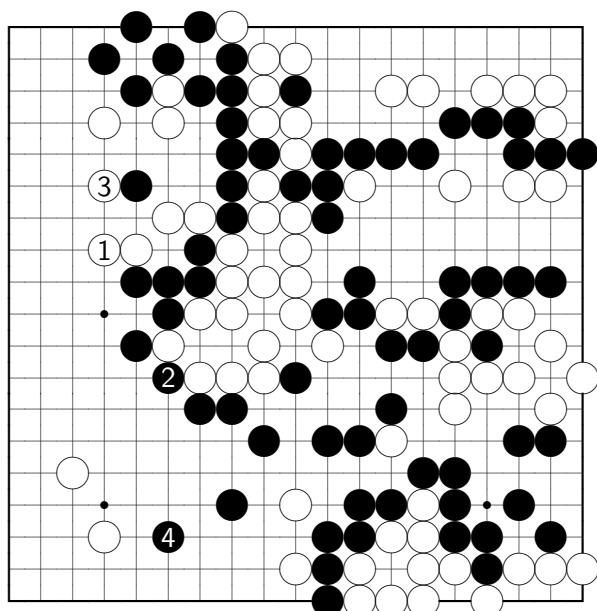

Variation. 100 from 143

Kashomon [1k]: ah Younggil [8p]: it would be quite different

Variation. 101 from 143

Younggil [8p]: because white can play one more move

Variation. 102 from 147

Younggil [8p]: now, Black is already winning
 Kashomon [1k]: yea Younggil [8p]: so hard for
 White to catch up Younggil [8p]: the game was
 quite interesting and exciting Kashomon [1k]:
 So, going back Younggil [8p]: especially from
 the middle game :) Kashomon [1k]: what was
 black's key mistake?

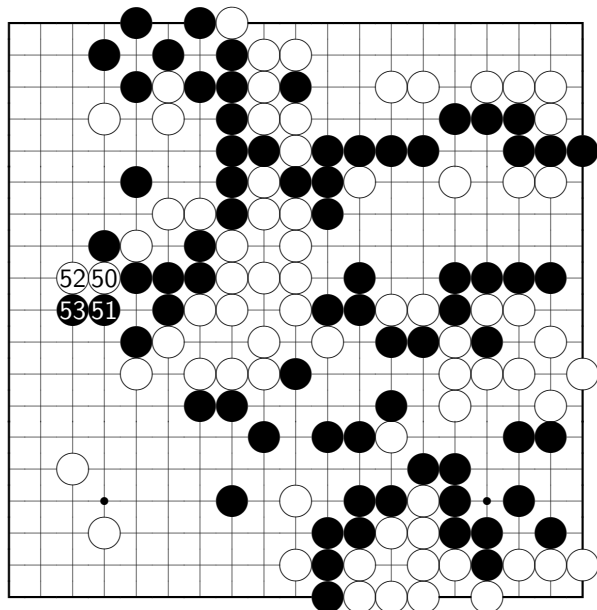

Diagram. 128
 (Moves: 150-153)

jarstar: Last ditch effort...

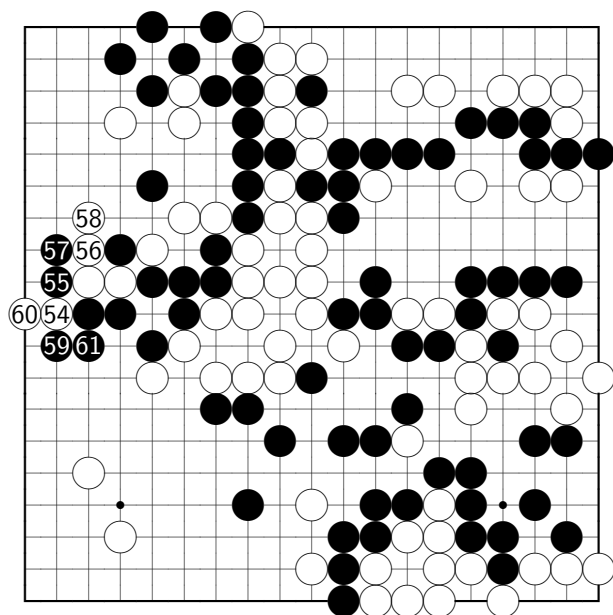

Diagram. 129
(Moves: 154-161)

jarstar: Thanks for the game! jarstar: Have you heard about some large tournament happening in Denver next month? jrhoak: Maybe..? jrhoak: By the way jrhoak: Congrats on winning the Kyu division jrhoak: you're gonna be dan in no time jarstar: Thanks! Yeah, tourney march 21 at Auraria campus (wherever that is)
