Younggil [8p]: looks nice

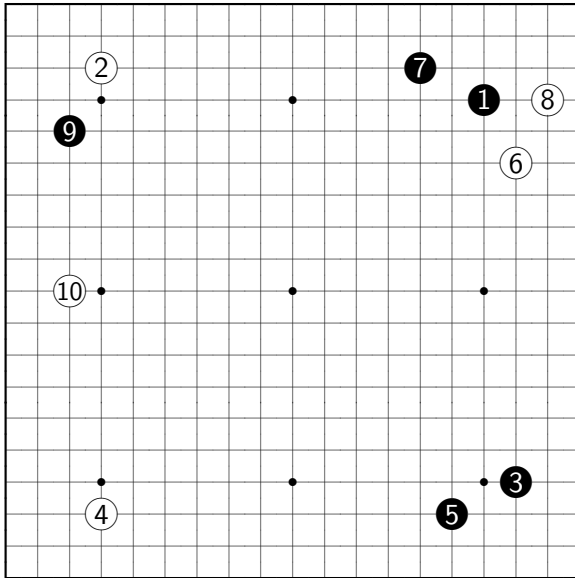

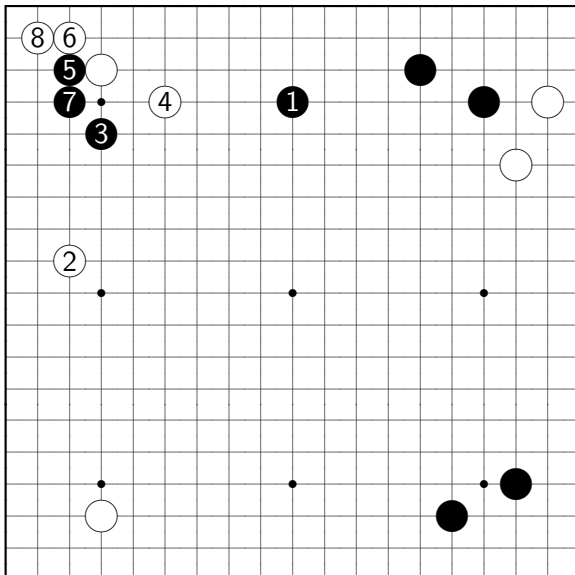

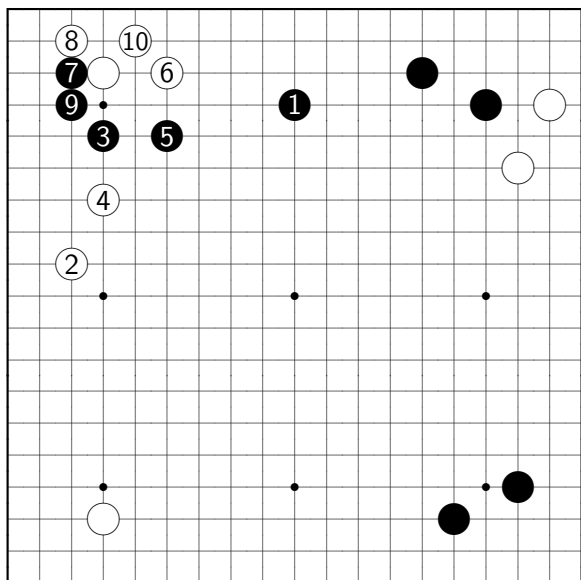

Diagram. 1
(Moves: 1-10)

Kashomon [1k]: It seems like W might be a little weak

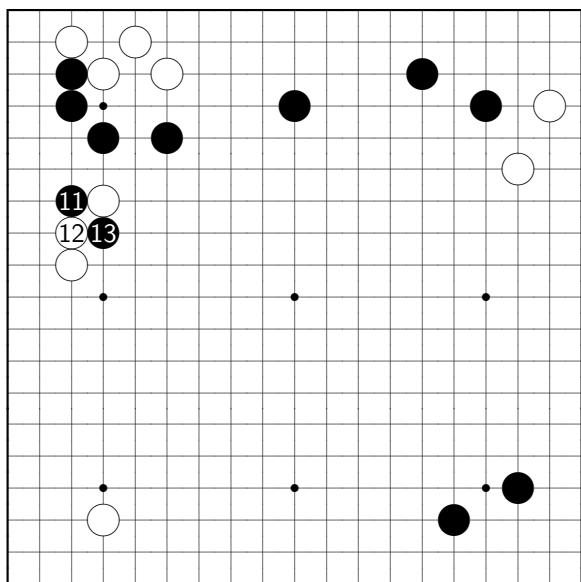

Variation. 1 from ⑧

Younggil [8p]: normally this extension is good
Younggil [8p]: but mostly only in this case

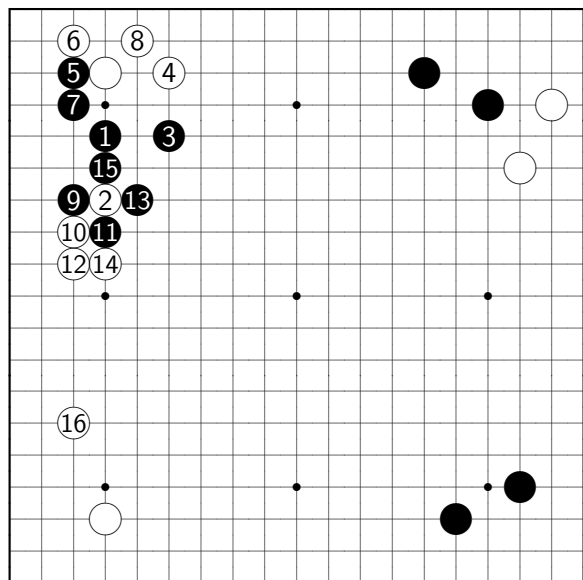

Variation. 2 from ⑧

Younggil [8p]: in this sort of case, E18 is better

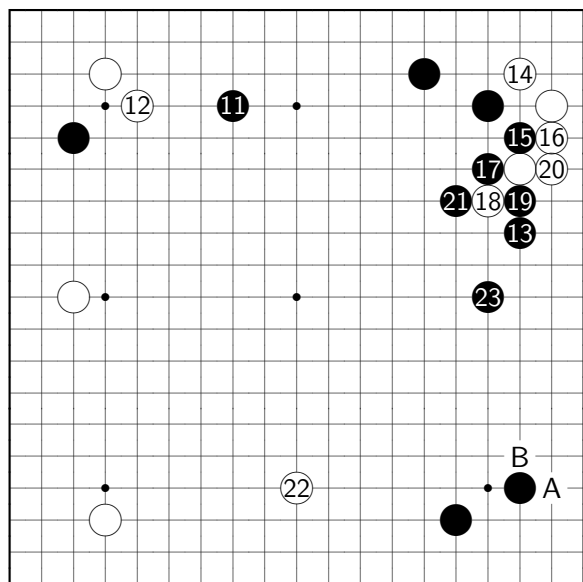

Variation. 3 from (8)

Kashomon [1k]: I see Younggil [8p]: this is another joseki

Variation. 4 from ⑧

Younggil [8p]: this is one of main variations
 Kashomon [1k]: Would black play like this
 Kashomon [1k]: in the variation we saw? Younggil [8p]: yea
 Kashomon [1k]: alright Kashomon [1k]: The F15 stone seems a little weirdly placed
 Kashomon [1k]: but White is low Younggil [8p]: right
 Younggil [8p]: that's why White chose this way
 Younggil [8p]: and Black's happy with sente Younggil [8p]: and this group is also completely settled
 Younggil [8p]: so ok for both :) Kashomon [1k]: thanks
 Younggil [8p]: you can see some more variations from the commentary played between Kim Jiseok and Lian Xiao
 Younggil [8p]: by the way

*Diagram. 2
 (Moves: 11-23)*

Younggil [8p]: so far so good Kashomon [1k]: This is a pause in the game
 Younggil [8p]: yea Kashomon [1k]: Is it a good time to play at A ?
 Younggil [8p]: hmm Younggil [8p]: White can normally attach at R5 in this position
 Younggil [8p]: so A isn't good time Kashomon [1k]: I see
 Kashomon [1k]: So would White play

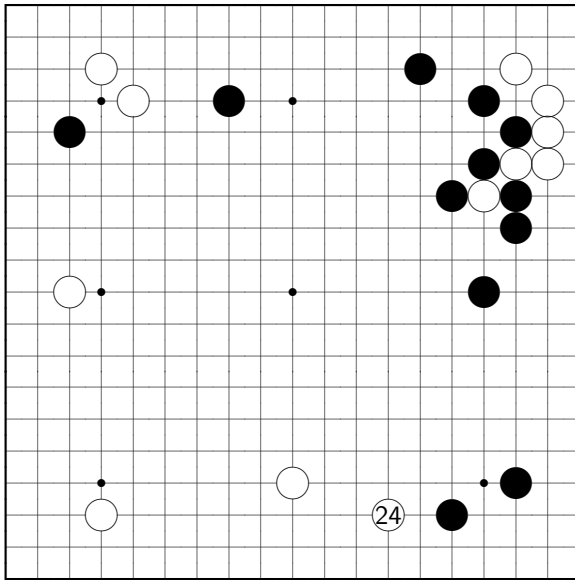

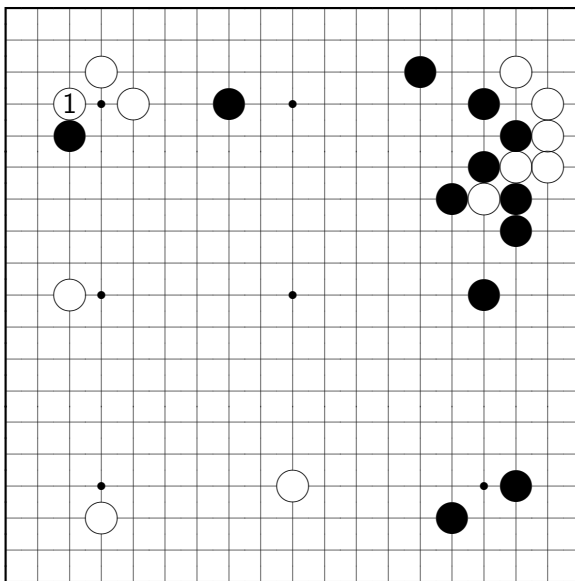

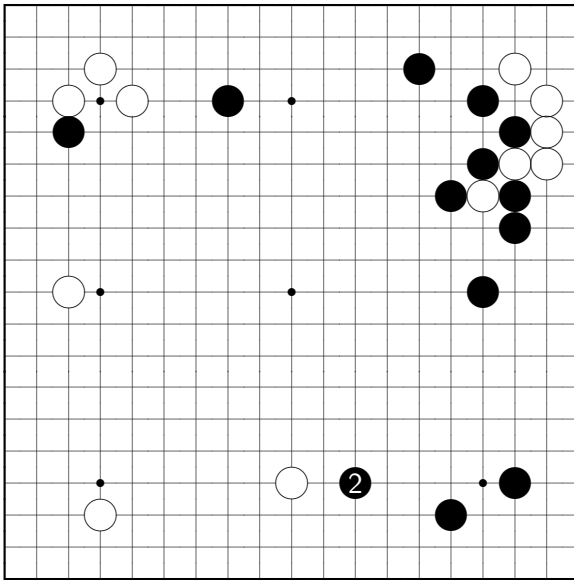

Diagram. 3
(Move: 24)

Kashomon [1k]: I regretted this move later Younggil [8p]: but this is also very big Younggil [8p]: i see Kashomon [1k]: one sec

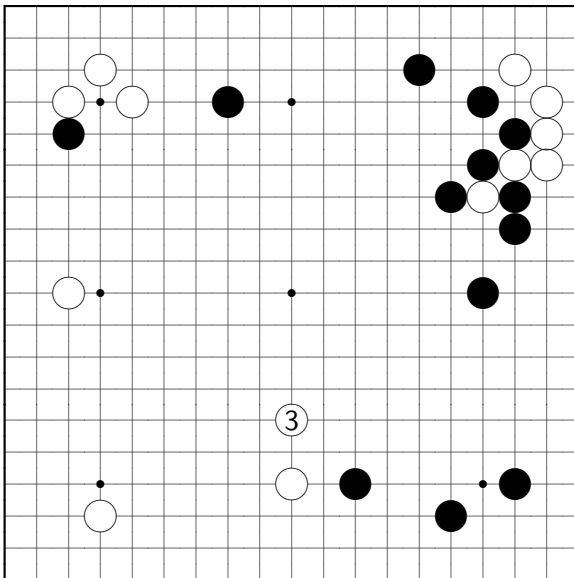

Variation. 5 from 23

Younggil [8p]: this is also big Younggil [8p]: this move is quite big, because Younggil [8p]: because that's hard for Black to move that single stone

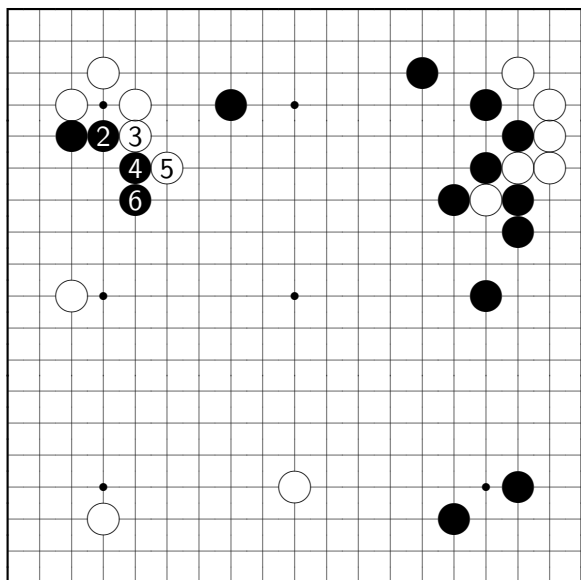

Variation. 6 from 23

Kashomon [1k]: Yeah, that would have been nice

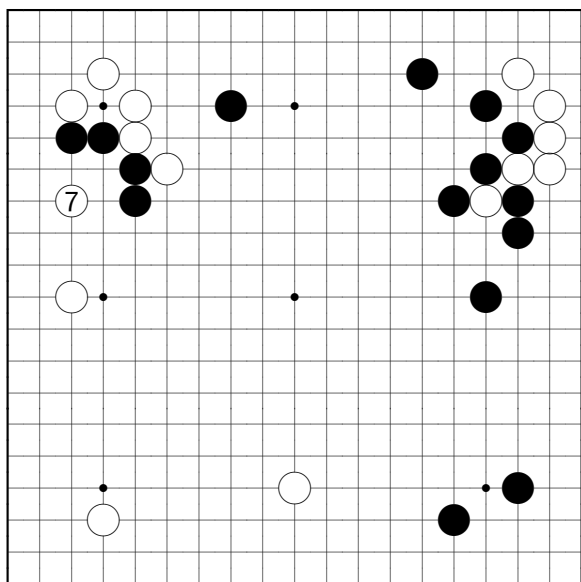

Variation. 7 from 23

Younggil [8p]: another game

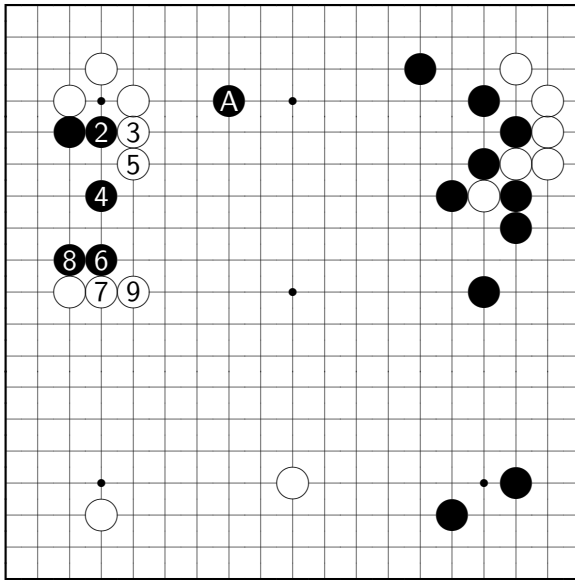

Kashomon [1k]: yeah

Variation. 8 from 23

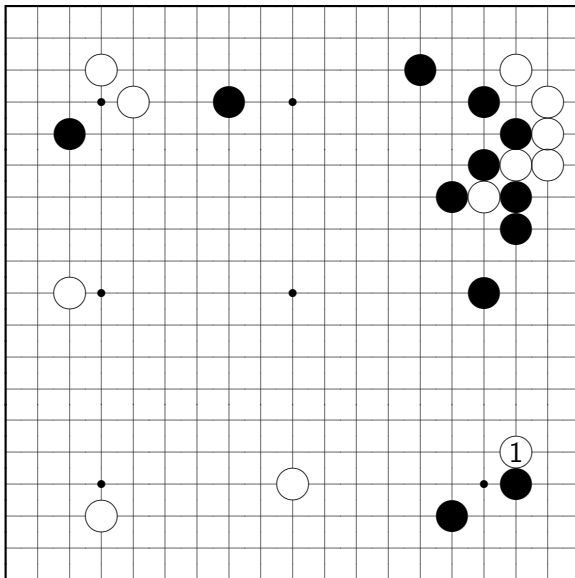

Younggil [8p]: this is bad for Black

Variation. 9 from 23

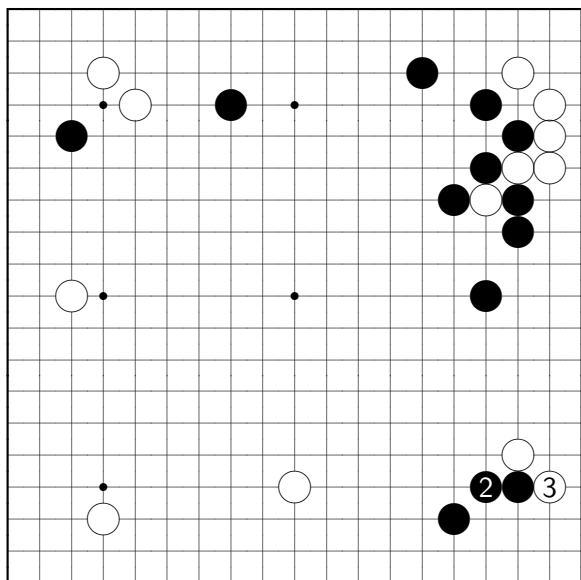

Variation. 10 from 23

Younggil [8p]: this is still ok for White Younggil [8p]:
and A becomes weak

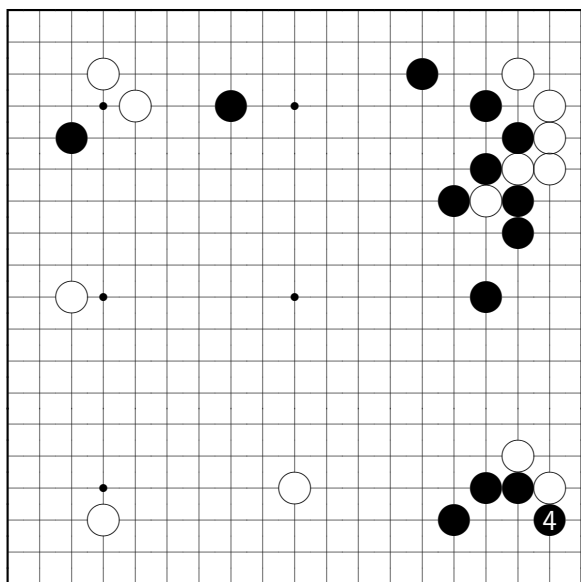

Variation. 11 from 23

Younggil [8p]: no worries

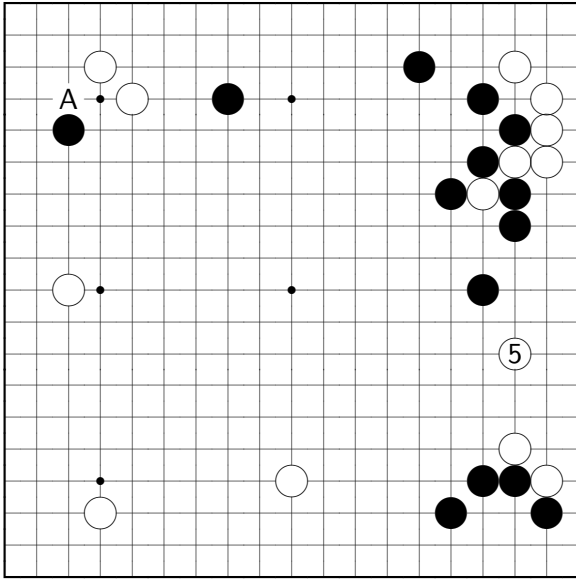

Variation. 12 from 23

Kashomon [1k]: I see, thanks

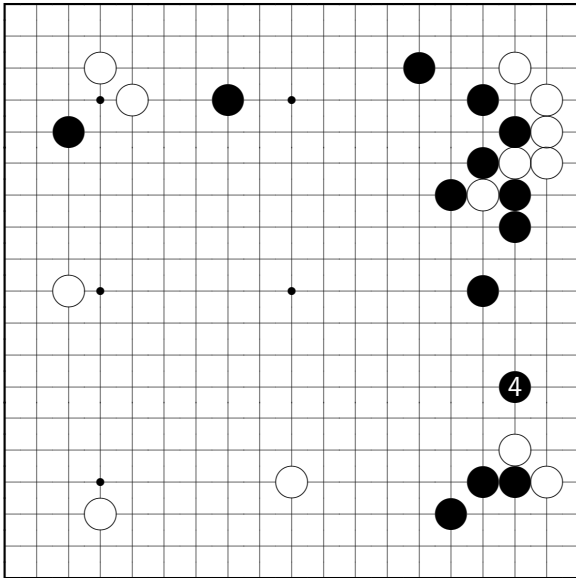

Variation. 13 from 23

Younggil [8p]: that's still possible though Younggil
[8p]: yes

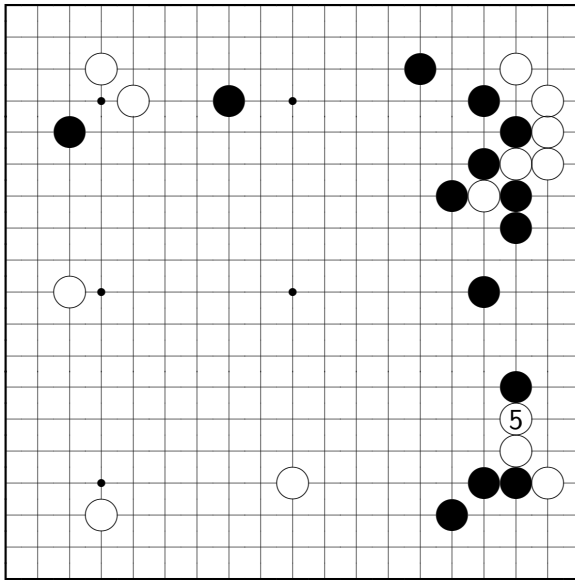

Variation. 14 from 23

Younggil [8p]: and R8 Younggil [8p]: right
Kashomon [1k]: I see Kashomon [1k]: is this possible for now? or is A more urgent? Younggil [8p]: A is more urgent Kashomon [1k]: Why? Younggil [8p]: after Black plays M3 or M4, white can still play like this Kashomon [1k]: I see Younggil [8p]: and after **C**17, that's hard to attack Kashomon [1k]: So this would be White's plan for black playing those moves Younggil [8p]: Black can simply settle Younggil [8p]: yes Kashomon [1k]: isn't there something...

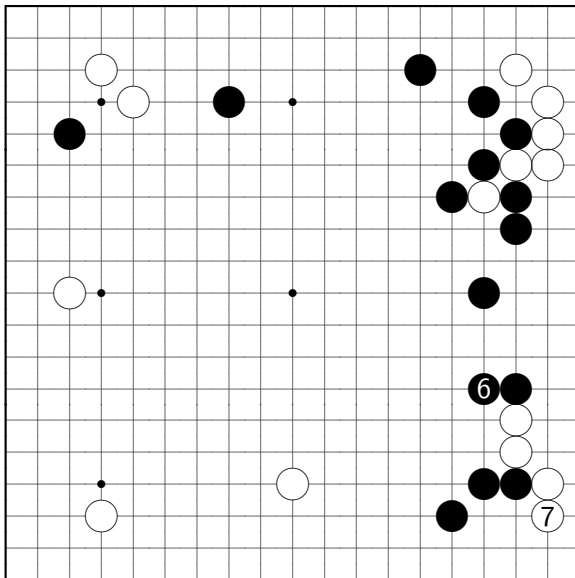

Variation. 15 from 23

Kashomon [1k]: like this? Younggil [8p]: where'd you play next then?

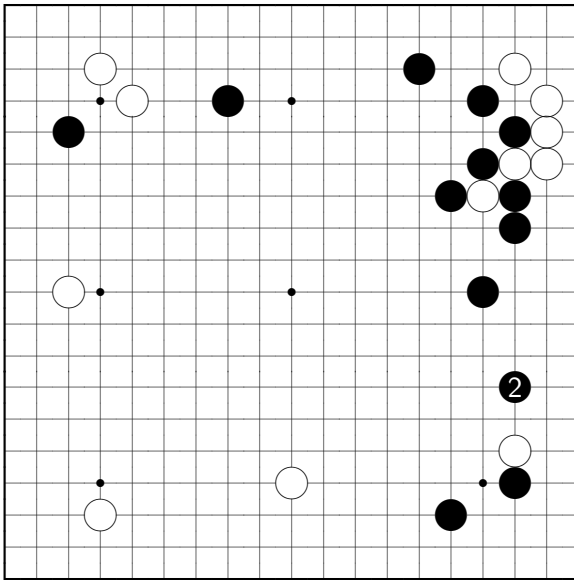

Variation. 16 from 23

Kashomon [1k]: maybe this Younggil [8p]: Q7

Variation. 17 from 23

Younggil [8p]: very good Kashomon [1k]: And then White probably needs to go into the corner Younggil [8p]: that's a very good idea Younggil [8p]: white can live easily Younggil [8p]: so Black should block at S3

Variation. 18 from 23

Younggil [8p]: that's possible Younggil [8p]: Park
Jugnhwan played here at the LG Cup final
Kashomon [1k]: And this – this is possible too. I be-
lieve you talked about this in a pro game Kashomon
[1k]: yeah Younggil [8p]: yes right :) Kashomon [1k]:
Anyway. Thanks. Younggil [8p]: you're welcome
Kashomon [1k]: Would you like to see another game?
Younggil [8p]: yes

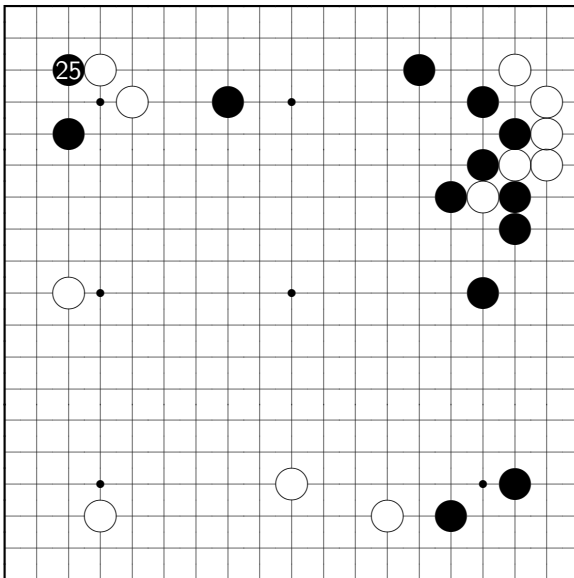

Diagram. 4
(Move: 25)

Younggil [8p]: because Black played here first?
 Younggil [8p]: ok Kashomon [1k]: Can you complete
 that joseki Kashomon [1k]: I'll take a look

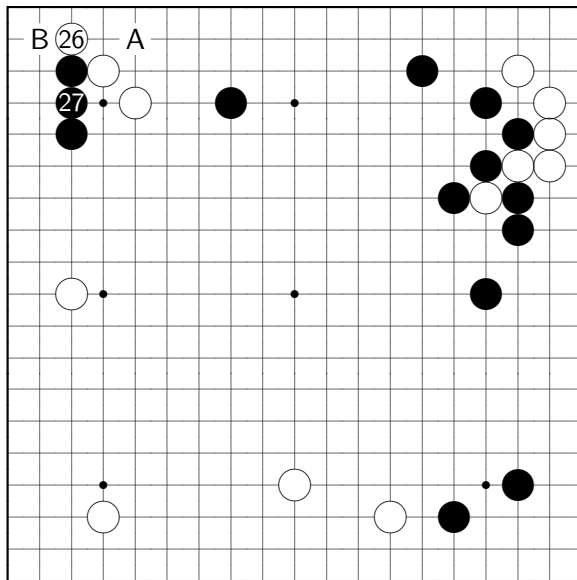

Diagram. 5
(Moves: 26-27)

Kashomon [1k]: this result doesn't look so good
 Younggil [8p]: if you play here again? Younggil
 [8p]: right Kashomon [1k]: E18 Younggil [8p]: good
 Younggil [8p]: there're two options in the corner
 Younggil [8p]: and mostly A is better

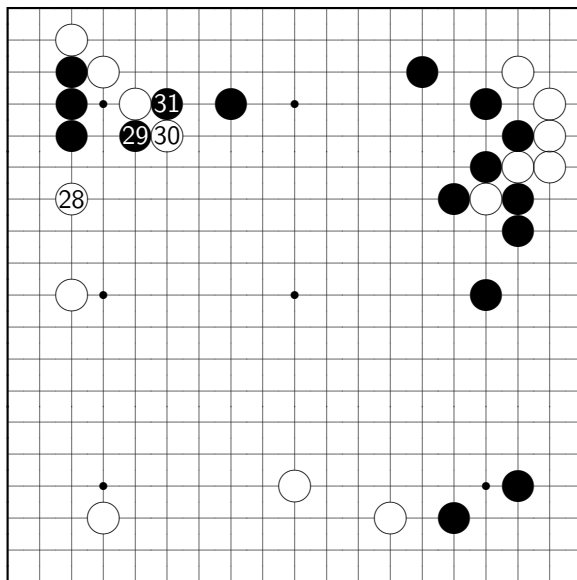

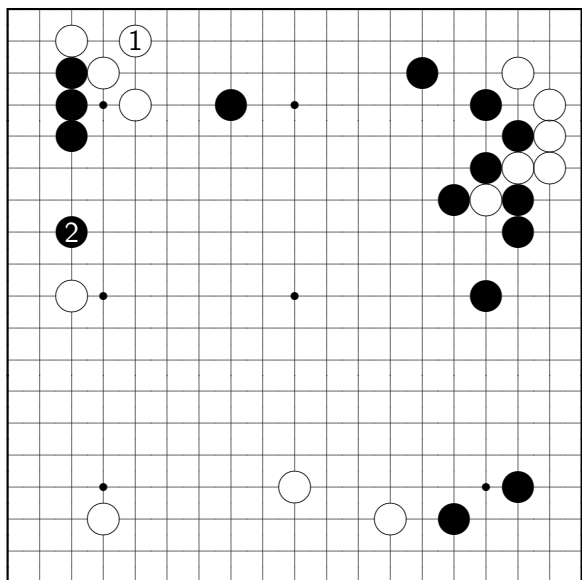

Diagram. 6
(Moves: 28-31)

Younggil [8p]: hmm

Variation. 19 from 27

Kashomon [1k]: oh hm. Is B18 possible?

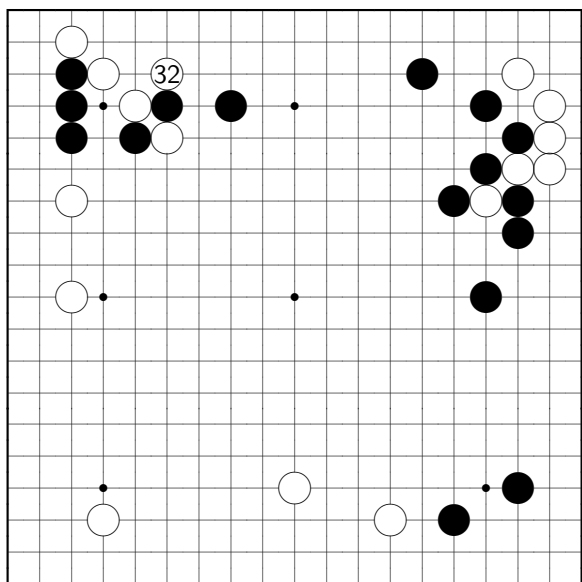

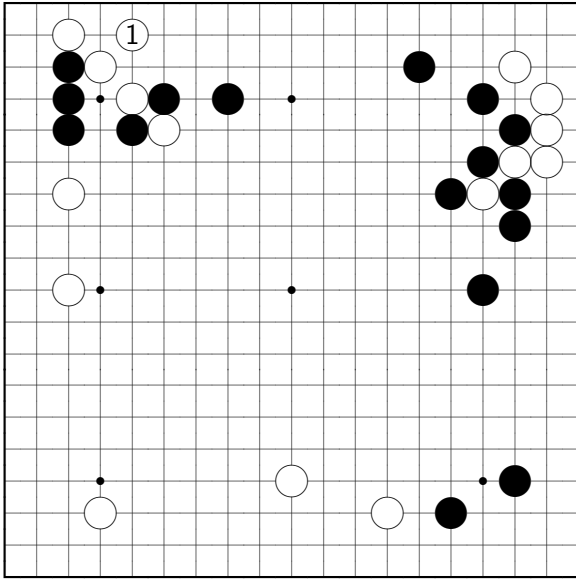

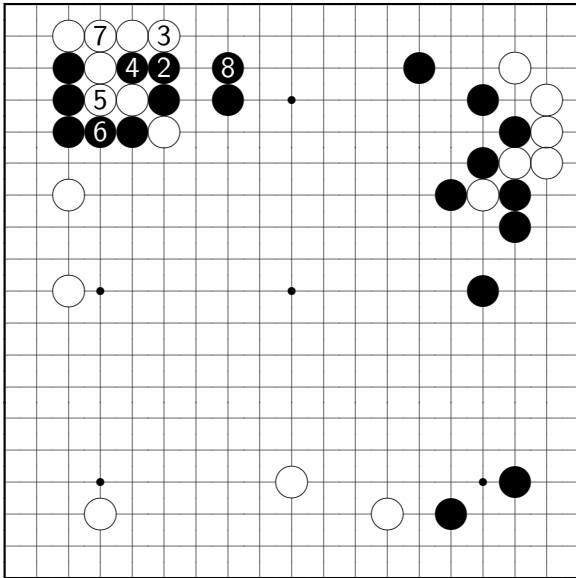

Diagram. 7
(Move: 32)

Younggil [8p]: if it's hard to fight here Kashomon
[1k]: yeah

Variation. 20 from **31**

Younggil [8p]: how about playing here? Kashomon
[1k]: hm Kashomon [1k]: Seems like Black will play
F17

Variation. 21 from 31

Younggil [8p]: something like this maybe? Younggil
[8p]: still not good for white

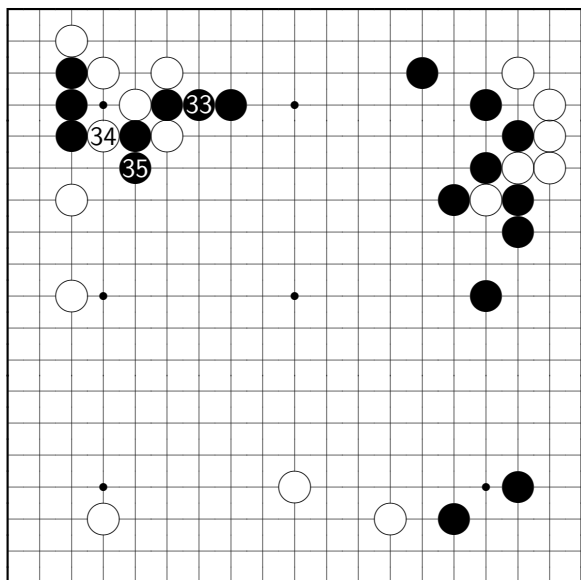

Diagram. 8
(Moves: 33-35)

Younggil [8p]: yes

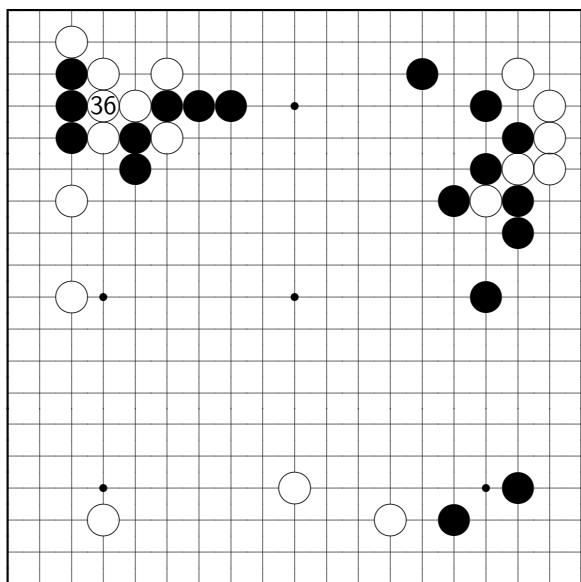

Diagram. 9
(Move: 36)

Kashomon [1k]: i think C13 was a mistake

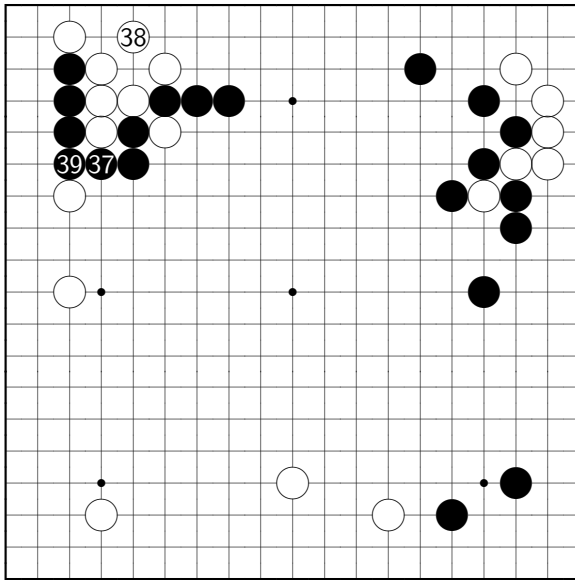

Diagram. 10
(Moves: 37-39)

Kashomon [1k]: painful Younggil [8p]: the result is good for Black

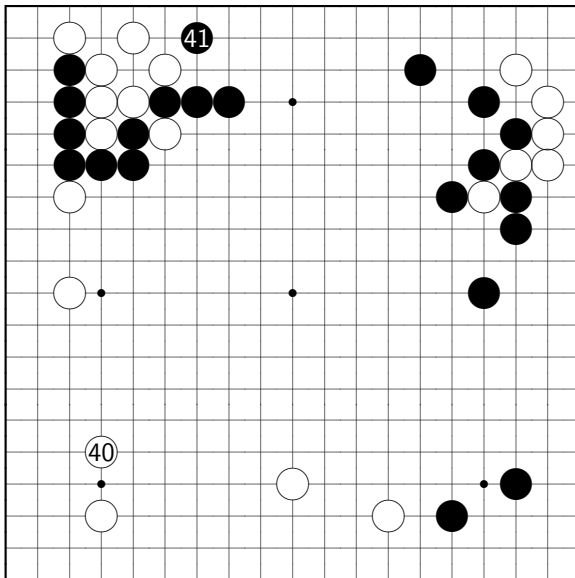

Diagram. 11
(Moves: 40-41)

Younggil [8p]: hmm

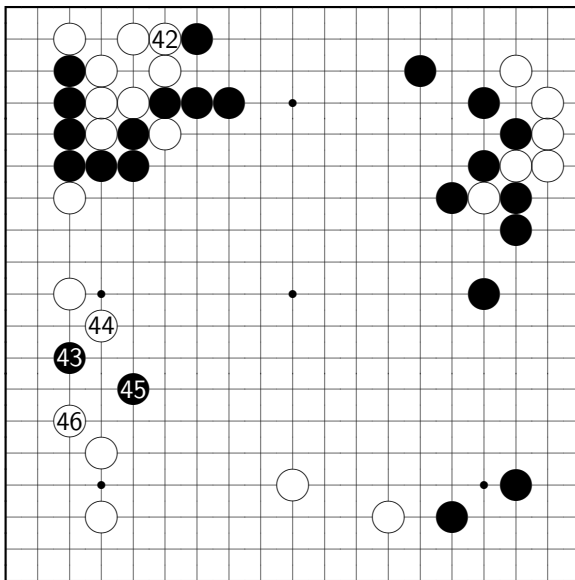

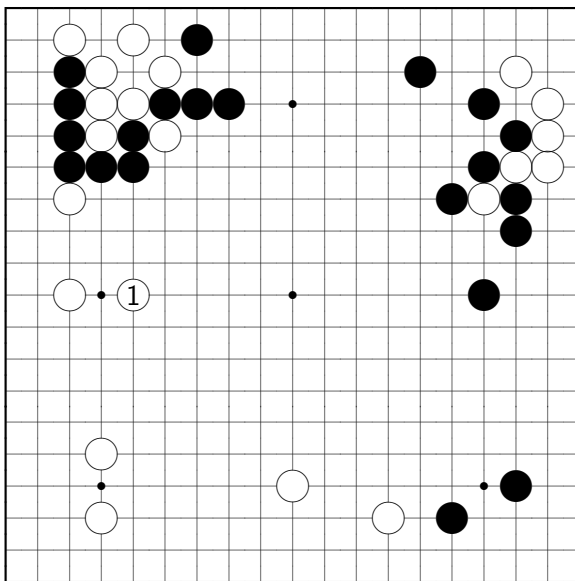

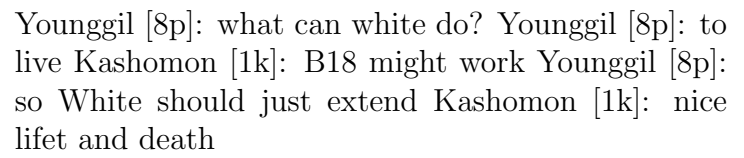

Diagram. 12
(Moves: 42-46)

Younggil [8p]: this move was calm and nice

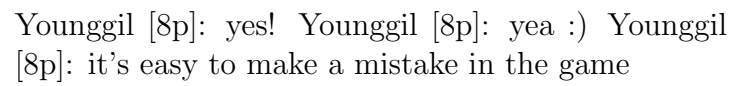

Variation. 22 from 41

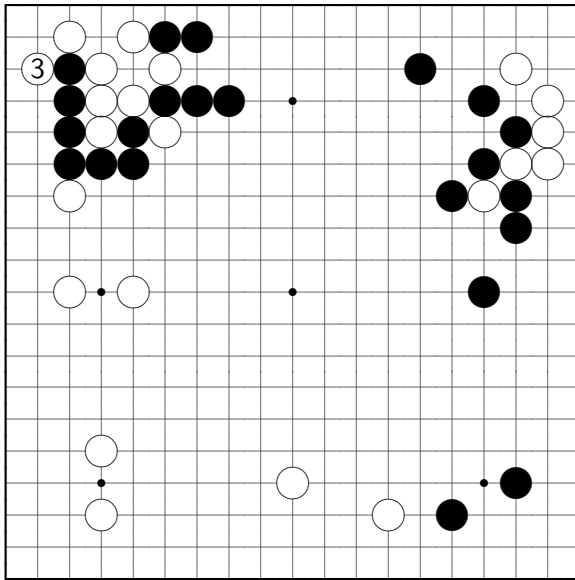

Kashomon [1k]: doesn't f18 kill? Younggil [8p]: what if White doesn't answer?

Variation. 23 from 41

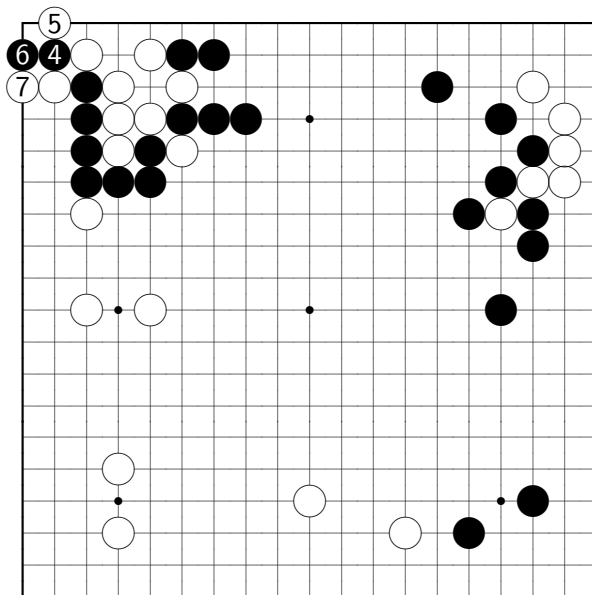

Variation. 24 from 41

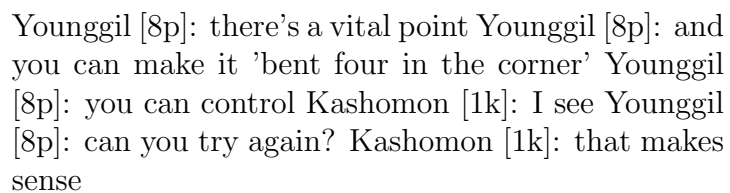

Variation. 25 from 41

Younggil [8p]: if White hane here? Kashomon [1k]: thinking... Kashomon [1k]: B18?

Variation. 26 from 41

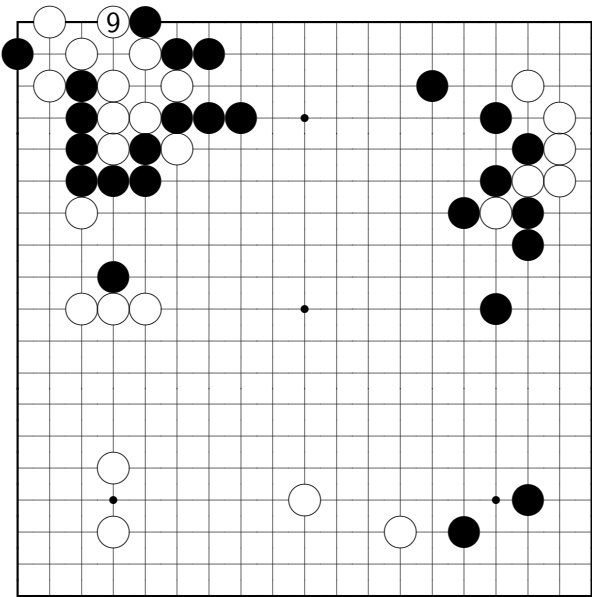

Younggil [8p]: white can live Younggil [8p]: so

Variation. 27 from **(41)**

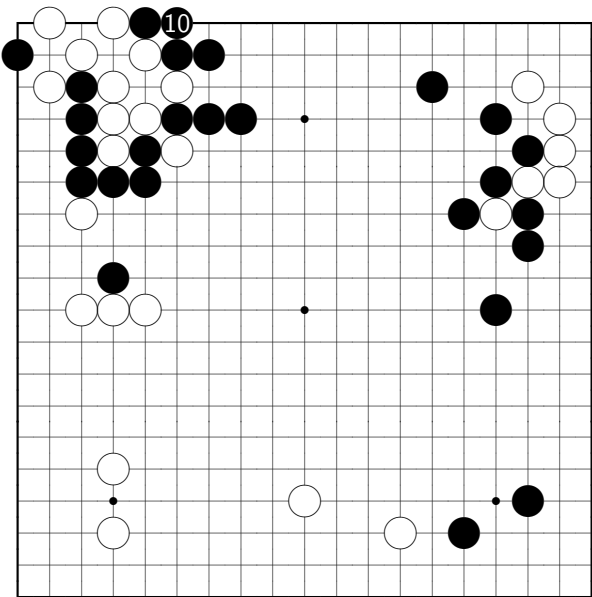

Variation. 28 from (41)

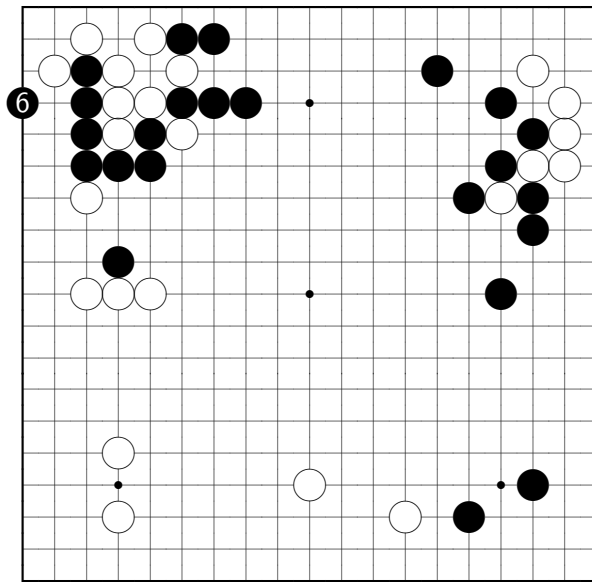

Younggil [8p]: yes

Variation. 29 from **41**

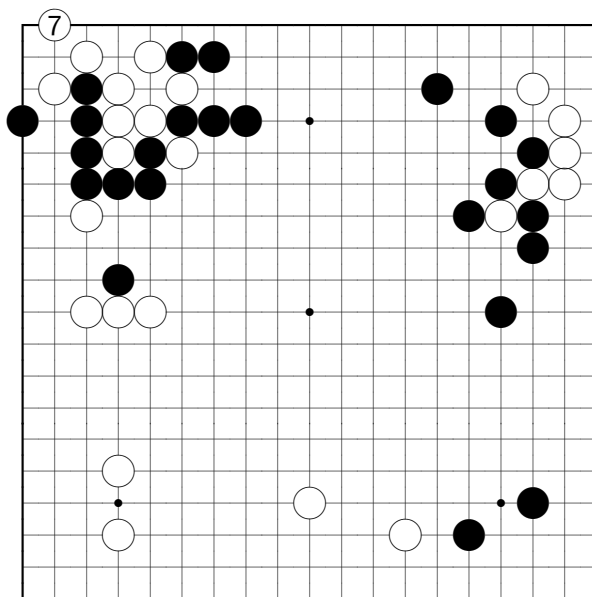

Younggil [8p]: it's alive

Variation. 30 from 41

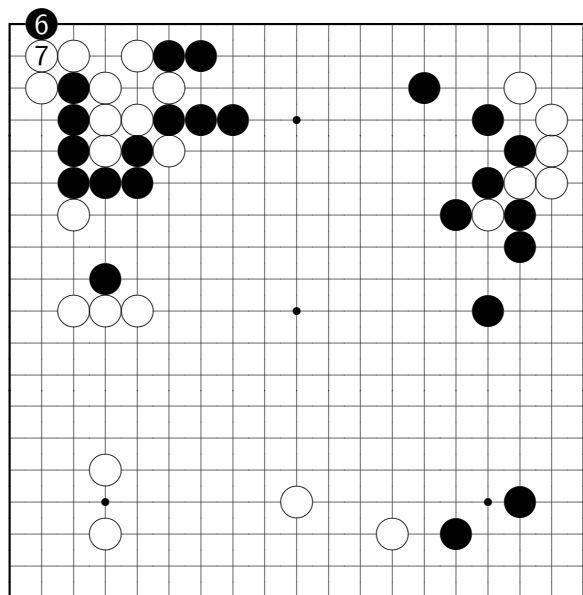

Variation. 31 from 41

Younggil [8p]: so before hane Younggil [8p]: there

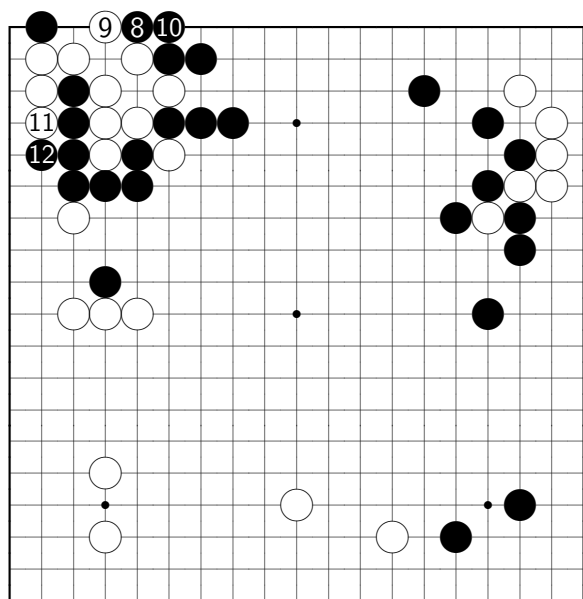

Variation. 32 from 41

Younggil [8p]: black can hit the vital point first
 Younggil [8p]: good for white Younggil [8p]: normally in the corner Kashomon [1k]: sorry, not seeing it Younggil [8p]: 2-1 is a well known vital point

Variation. 33 from 41

Younggil [8p]: yes right Younggil [8p]: and then?

Variation. 34 from 41

Younggil [8p]: great! Younggil [8p]: that's it

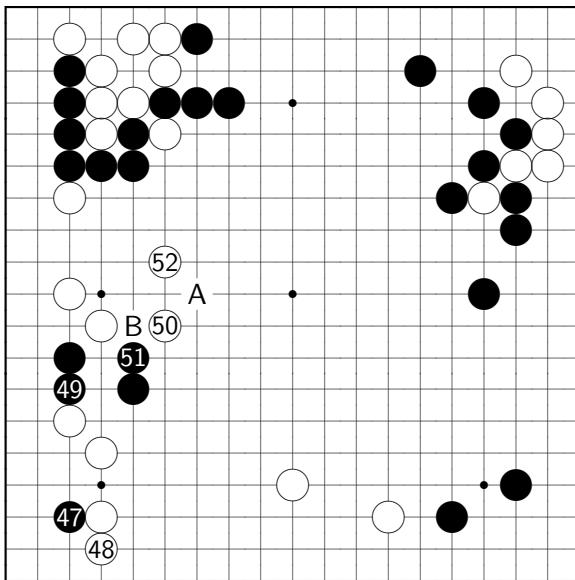

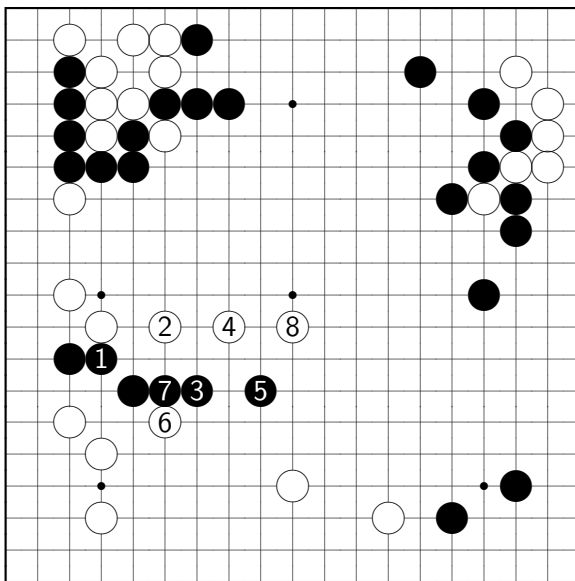

Diagram. 13
(Moves: 47-52)

Kashomon [1k]: Was this the right shape? Younggil [8p]: yes, good Kashomon [1k]: The other options I was considering Kashomon [1k]: were G10 Kashomon [1k]: and E9 Younggil [8p]: i see Younggil [8p]: G10 isn't a good shape Younggil [8p]: because of peep at F11 Kashomon [1k]: yea Younggil [8p]: and B is also slow Younggil [8p]: so this jump was good Kashomon [1k]: ok Younggil [8p]: and also this is good to reduce Black's top later

Variation. 35 from 46

Younggil [8p]: white can be alright to erase Black's potential

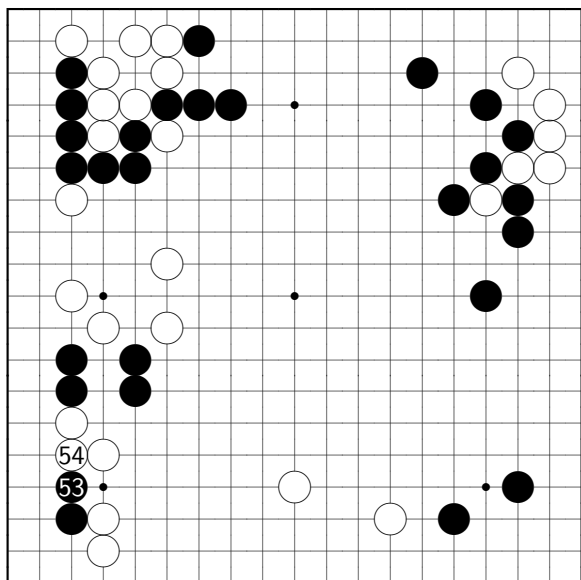

Diagram. 14
(Moves: 53-54)

Younggil [8p]: good

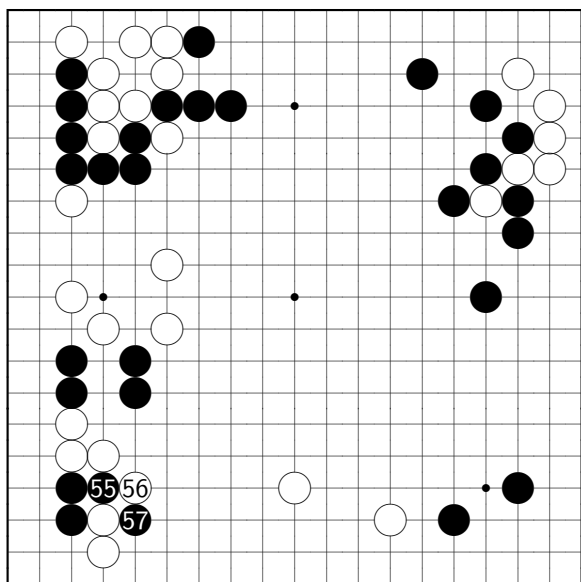

Diagram. 15
(Moves: 55-57)

jrhoak: Ho boy, I hope I'm reading this correctly

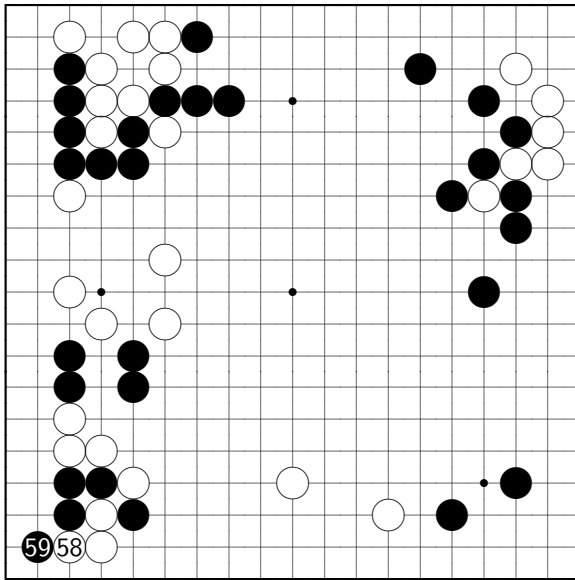

Diagram. 16
(Moves: 58-59)

Younggil [8p]: now Younggil [8p]: before extending at F4
 Younggil [8p]: White can exchange something useful
 Kashomon [1k]: should black B4? Kashomon [1k]: or maybe throw in?

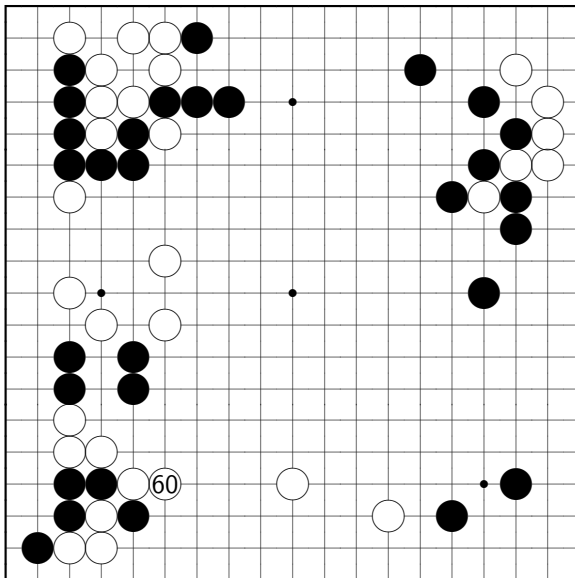

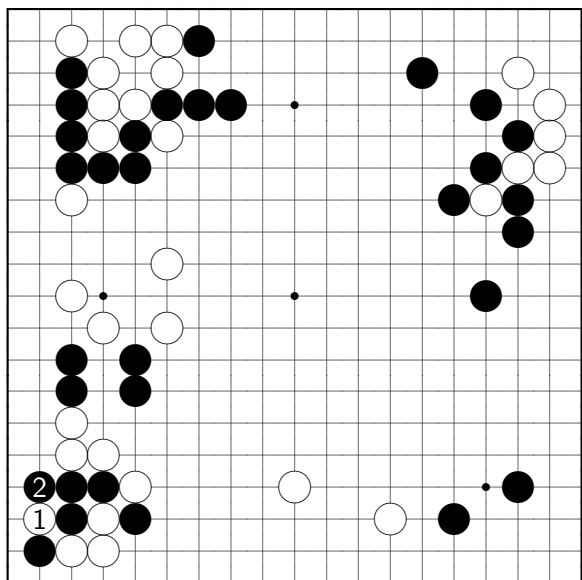

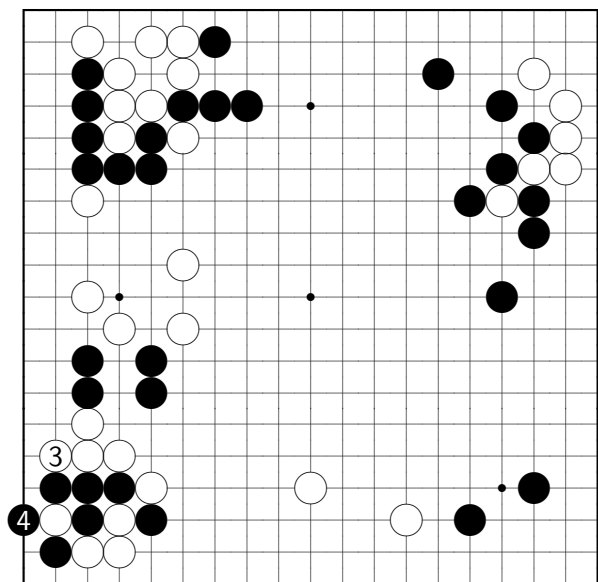

Diagram. 17
(Move: 60)

Younggil [8p]: i see

Variation. 36 from 59

Younggil [8p]: that doesn't help

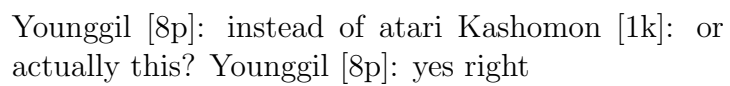

Variation. 37 from 59

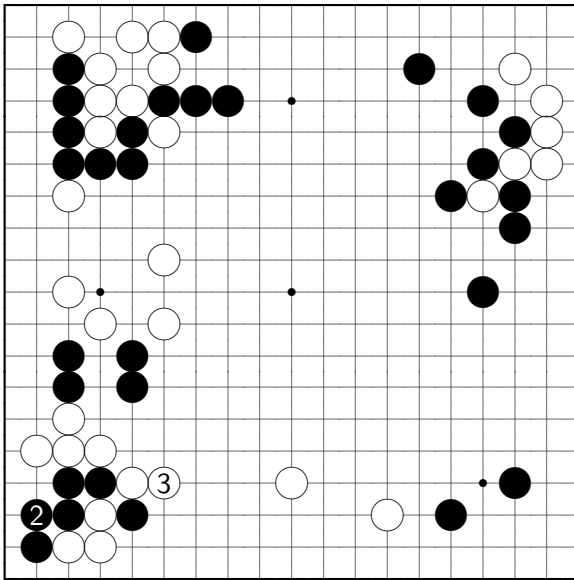

Younggil [8p]: no

Variation. 38 from 59

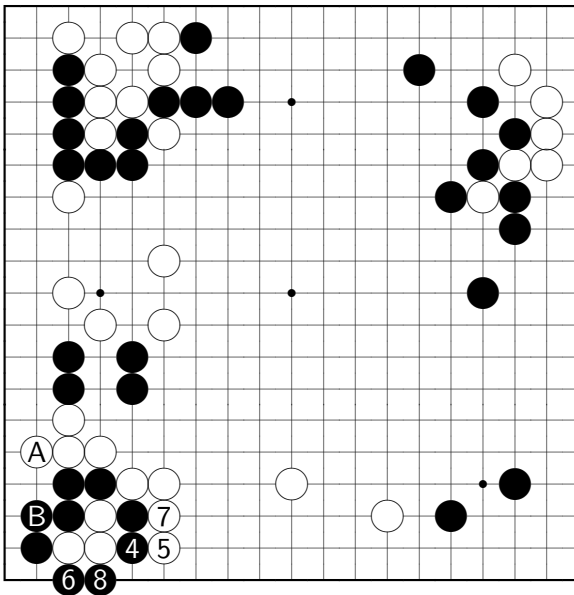

Variation. 39 from 59

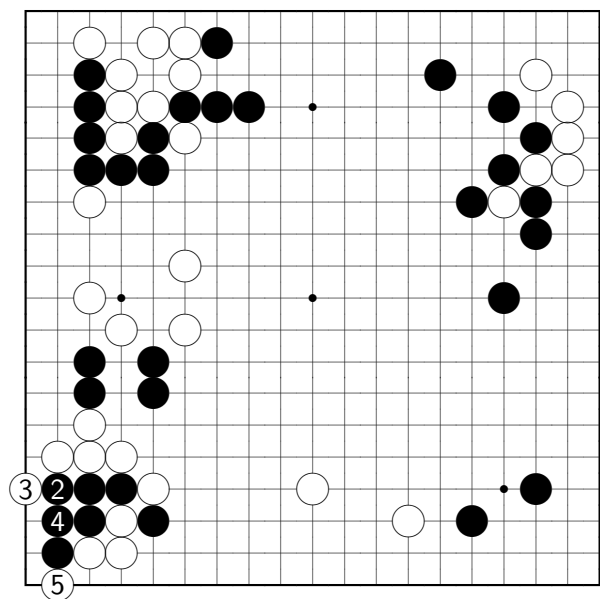

Variation. 40 from 59

Younggil [8p]: just moment Josh Kashomon [1k]:
no problem Younggil [8p]: I'll brb Kashomon [1k]:
ok, I'm going to get some tea Kashomon [1k]:
back Younggil [8p]: I'm back Younggil [8p]: sorry
about that Younggil [8p]: by the way, this is better
Kashomon [1k]: No worries.

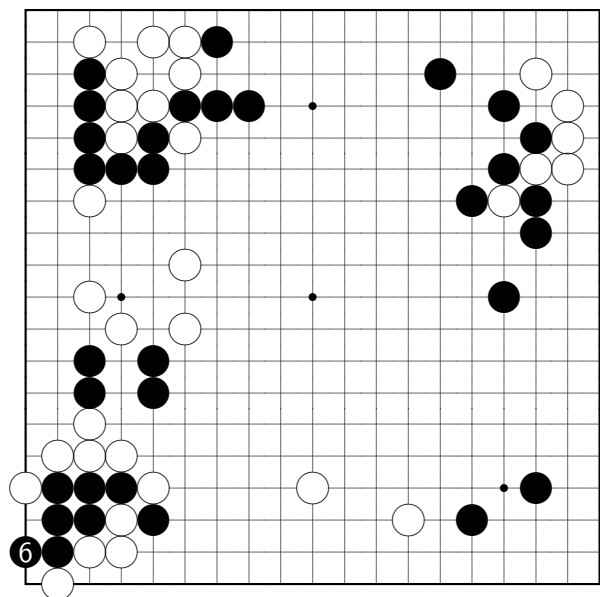

Variation. 41 from 59

Kashomon [1k]: Yes that makes sense Younggil [8p]:
A and B is beneficial

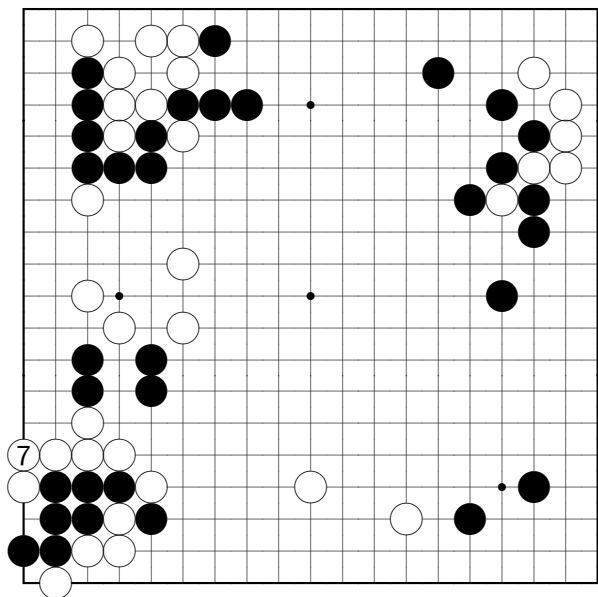

Variation. 42 from 59

Younggil [8p]: Black can't block, because of this

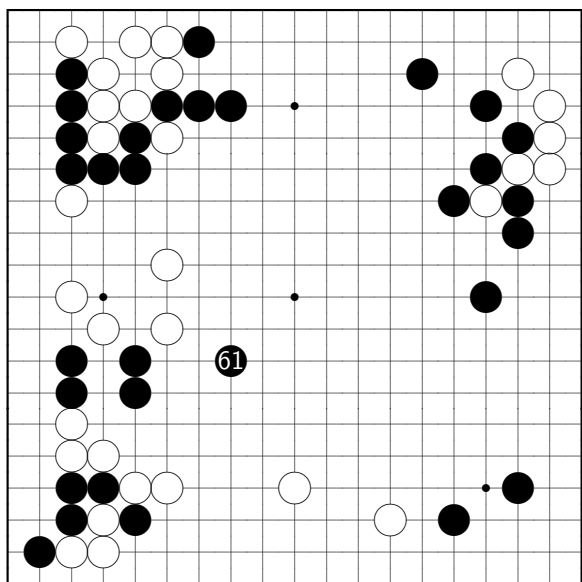

Variation. 43 from 59

Kashomon [1k]: nice

Variation. 44 from 59

Younggil [8p]: white can capture them all

*Diagram. 18
(Move: 61)*

autumnleaves: me too :)

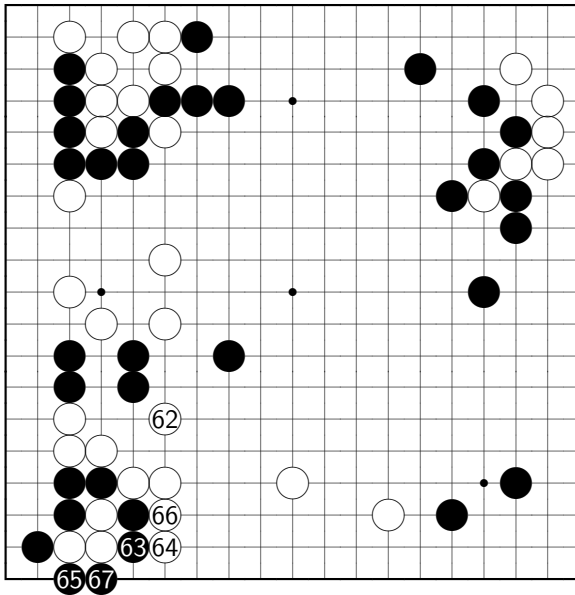

Diagram. 19
(Moves: 62-67)

Kashomon [1k]: Here I should have played at H16
Kashomon [1k]: err H10 Younggil [8p]: since Black
wasnts to sacrifice them all

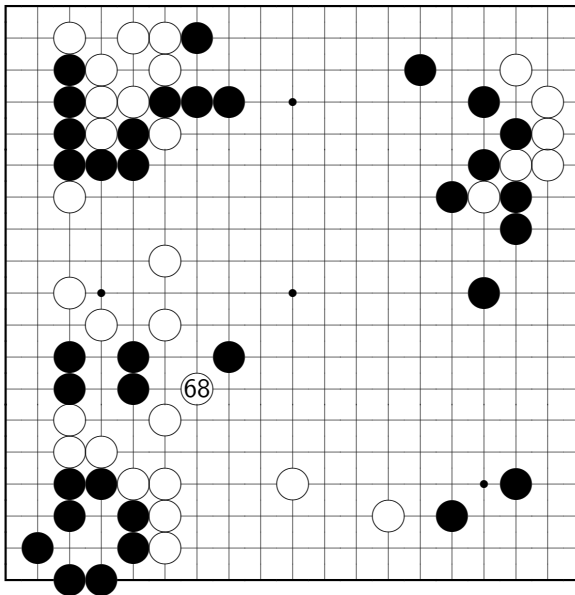

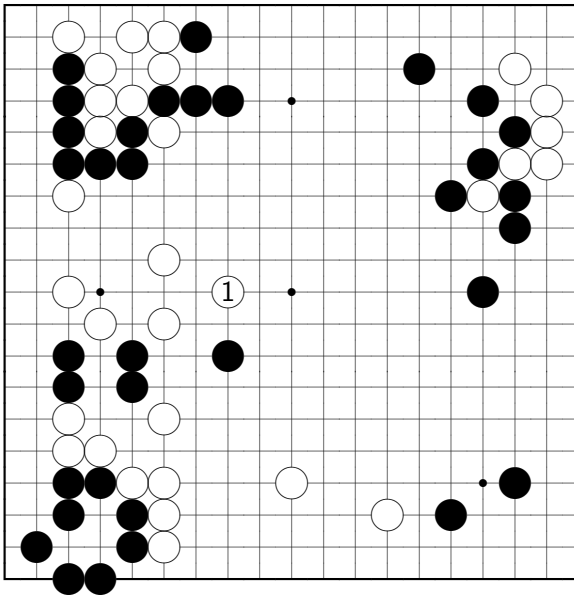

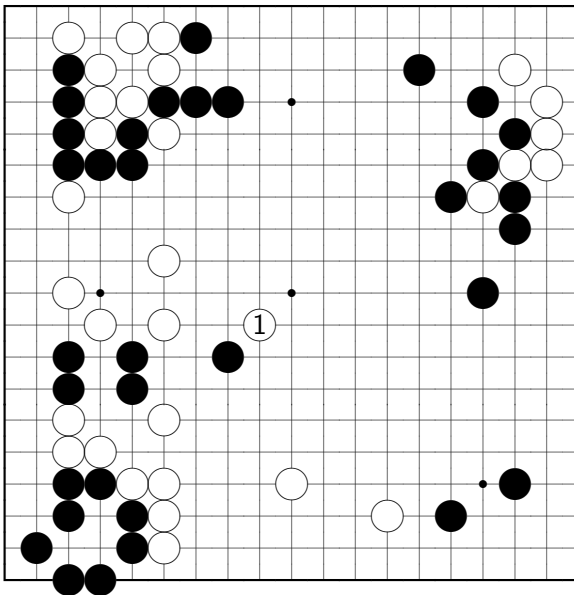

Diagram. 20
(Move: 68)

Younggil [8p]: i see Younggil [8p]: what did you feel
about the result? Kashomon [1k]: I thought it was
ok Kashomon [1k]: But I didn't realize black's plan
Younggil [8p]: i see Younggil [8p]: the game was still
better for Black Younggil [8p]: because of the top left
Kashomon [1k]: This felt like a losing move Young-
gil [8p]: so White'd better play more aggressively
Younggil [8p]: i see

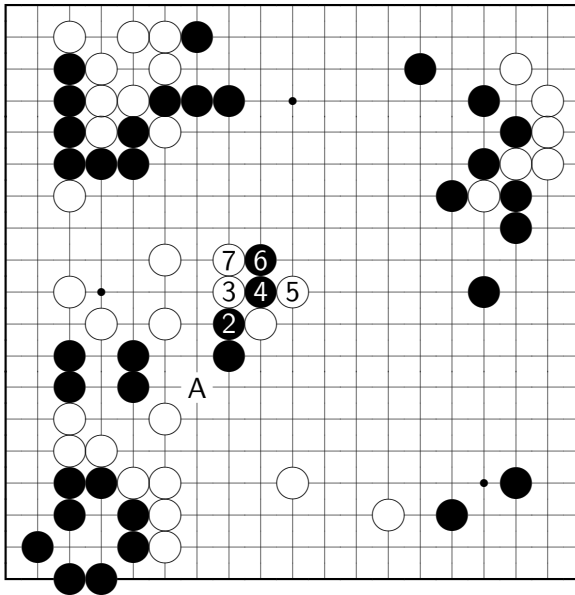

Variation. 45 from 67

Younggil [8p]: yes, good idea

Variation. 46 from 67

Younggil [8p]: or even here

Variation. 47 from 67

Younggil [8p]: white can fight like this Younggil [8p]:
and that's hard for Black to come back at A later

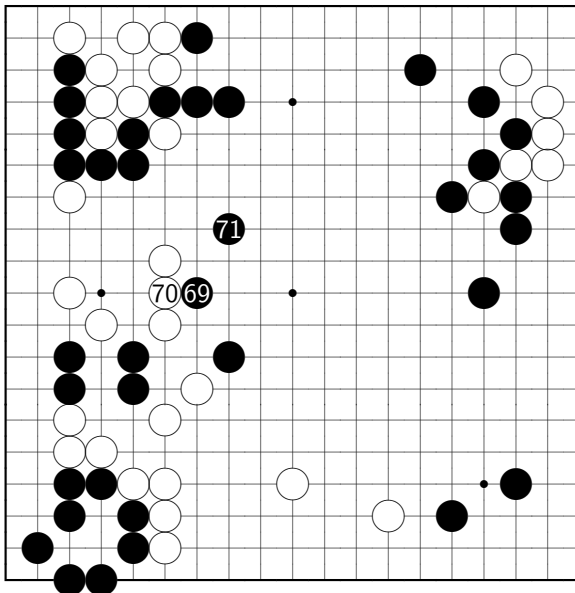

Diagram. 21
(Moves: 69-71)

jrhoak: Wow. jrhoak: The biggest moyo Kashomon
[1k]: I should have chased the stones Younggil [8p]:
to enlarge his area, you mean? Kashomon [1k]: Yes,
that's right Younggil [8p]: so Younggil [8p]: yea,
black's center becomes nice and large Kashomon [1k]:
I really didn't know how to handle the game once
black had a big moyo Younggil [8p]: so after this,
that's hard for White to do Kashomon [1k]: I agree
Younggil [8p]: normally

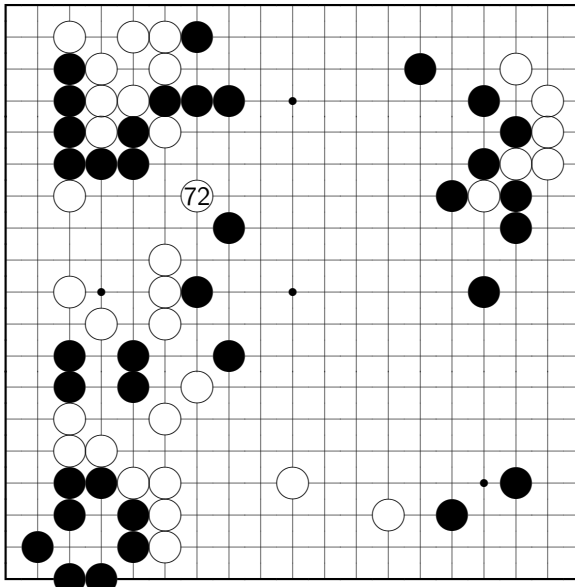

Diagram. 22
(Move: 72)

autumnleaves: still not sure if black should have played for a moyo earlier

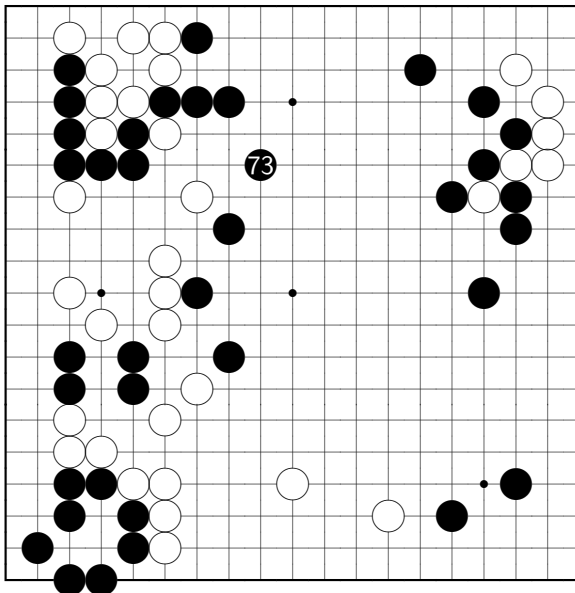

Diagram. 23
(Move: 73)

Kashomon [1k]: I spent many days thinking about this move

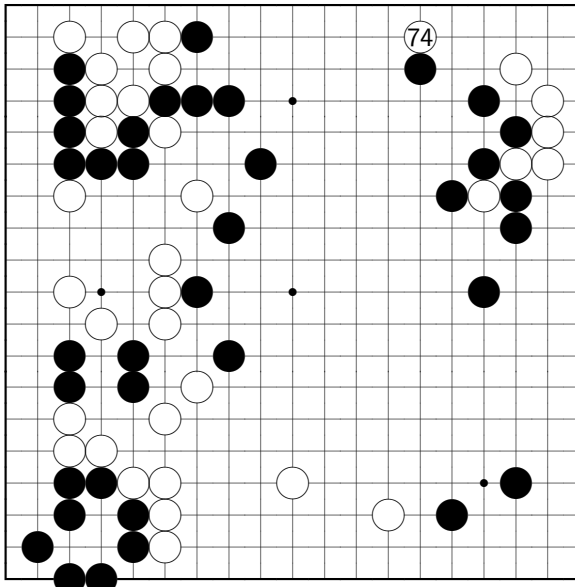

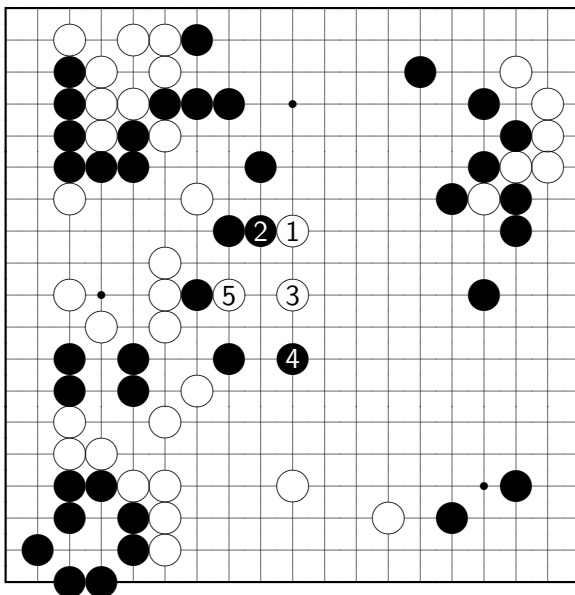

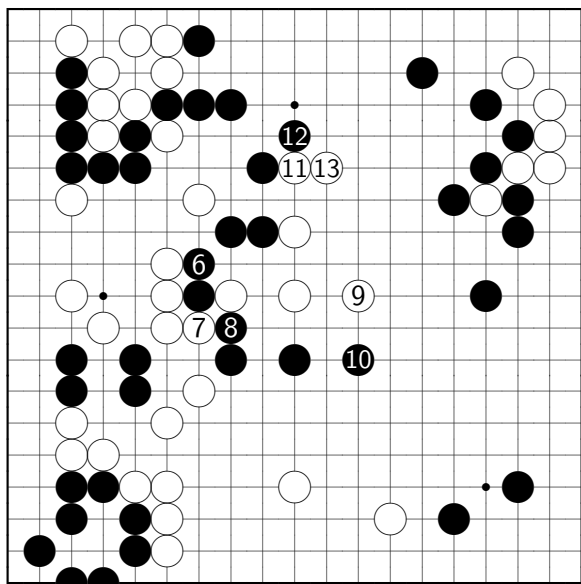

Diagram. 24
(Move: 74)

Younggil [8p]: oh, i see Kashomon [1k]: I couldn't find anything

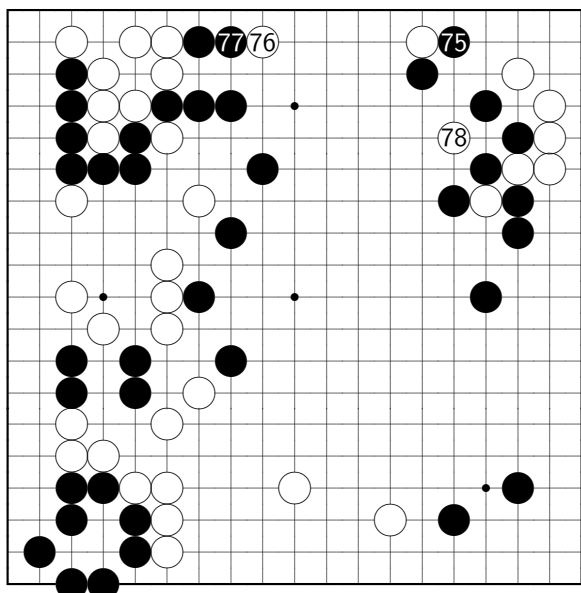

Variation. 48 from 73

Younggil [8p]: you can try to find Black's weakness
Younggil [8p]: probably around center area

Variation. 49 from 73

Younggil [8p]: try to fight, and live inside Younggil [8p]: that's still hard, but more possibilities
 Kashomon [1k]: hey younggil, I have to go for 5 mins. is that ok? Younggil [8p]: the game was already behind, so white should take a risk
 Younggil [8p]: oh, alright Younggil [8p]: any other questions quick Younggil [8p]: ? Younggil [8p]: before you go
 Younggil [8p]: Josh? Kashomon [1k]: Hello

*Diagram. 25
 (Moves: 75-78)*

xiaodai: thinking out loud. From move 34: D16 E14
 D18 E18 E17

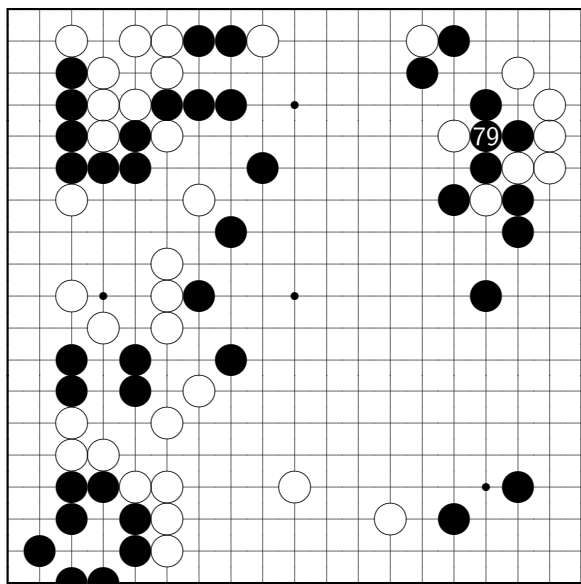

Diagram. 26
(Move: 79)

autumnleaves: whoops, I thought I was clicking back to game, but I clicked submit autumnleaves: maybe this move is ok though anyway

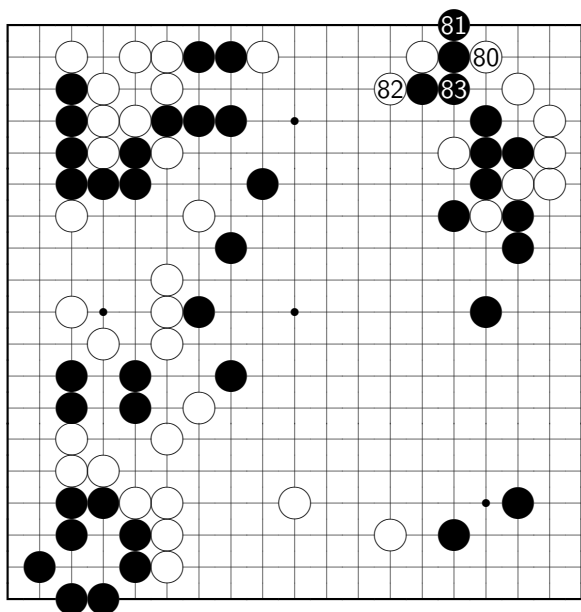

Diagram. 27
(Moves: 80-83)

autumnleaves: White's Daring Invasion jrhoak: there aren't any great options now jrhoak: your moyo is vast Kashomon [1k]: 117 Younggil [8p]: probably not easy to live inside Kashomon [1k]: no

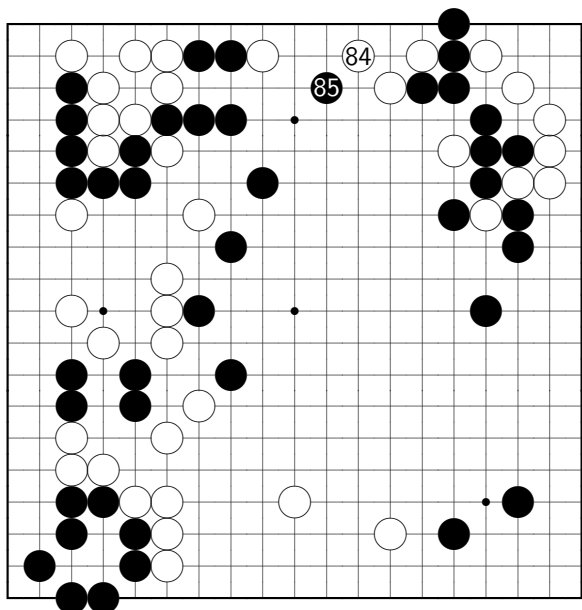

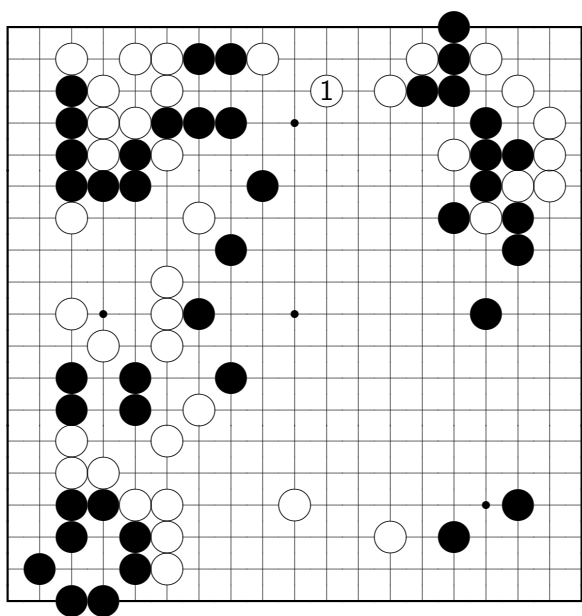

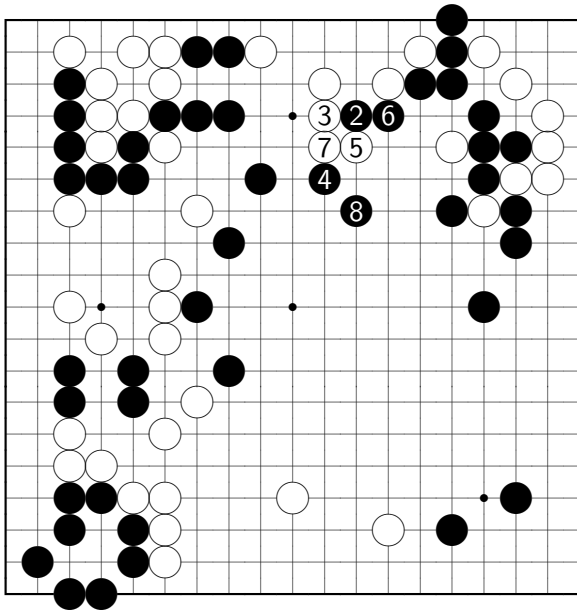

Diagram. 28
(Moves: 84-85)

Younggil [8p]: hard to live now

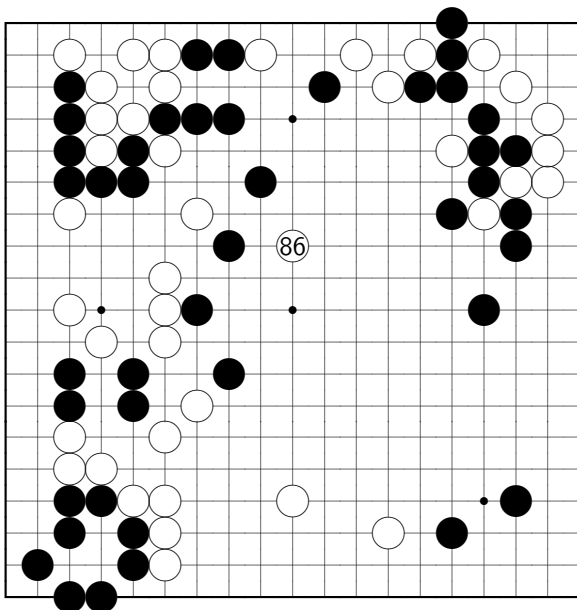

Variation. 50 from 83

Younggil [8p]: yes, I think so too

Variation. 51 from 83

Younggil [8p]: but still hard to live Kashomon [1k]:
yeah

*Diagram. 29
(Move: 86)*

Kashomon [1k]: but that would have been better
shape I think

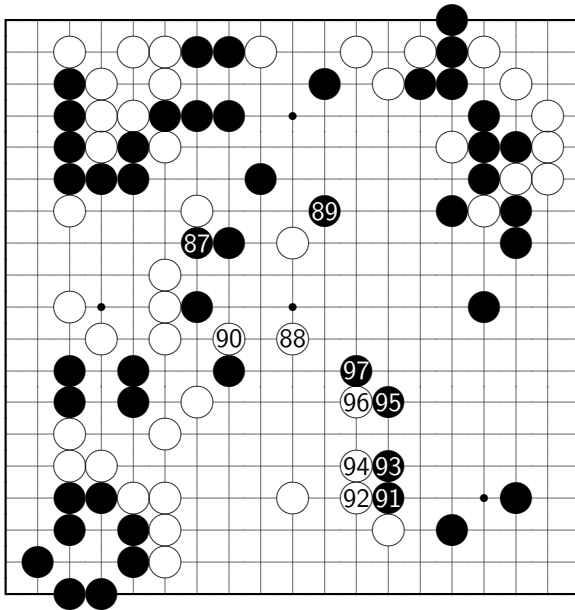

Diagram. 30
(Moves: 87-97)

Younggil [8p]: ok Younggil [8p]: good Kashomon
[1k]: I did have a couple of questions

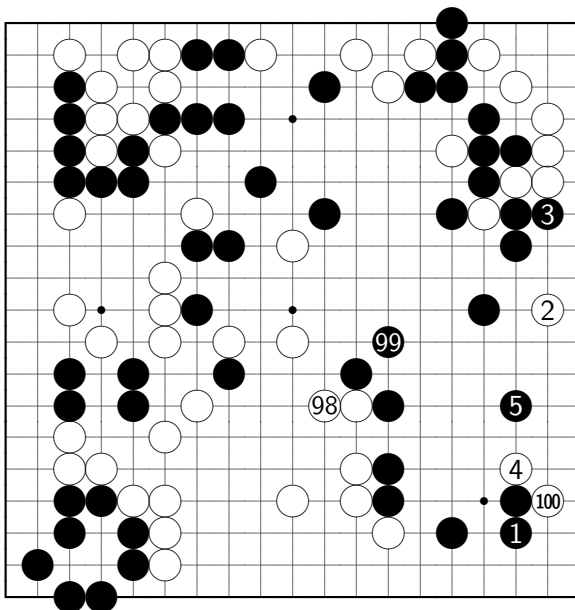

Diagram. 31
(Moves: 98-105)

Kashomon [1k]: Anyway, I resigned here Younggil
[8p]: yea

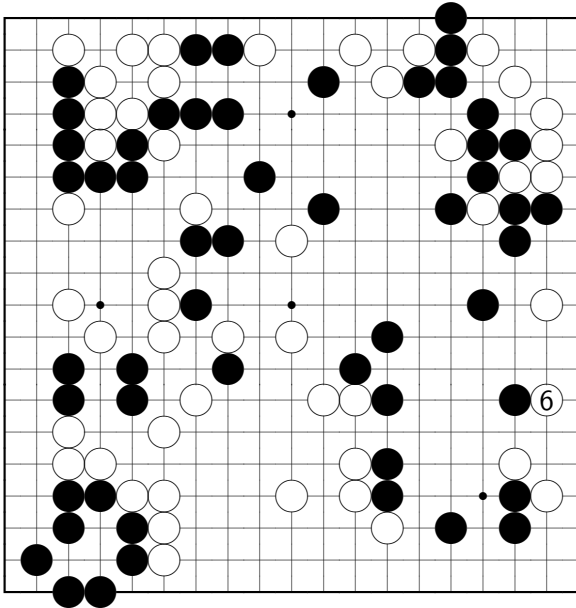

Diagram. 32
(Move: 106)

Kashomon [1k]: I was white in this game Kashomon
[1k]: just finished Kashomon [1k]: sorry for the delay

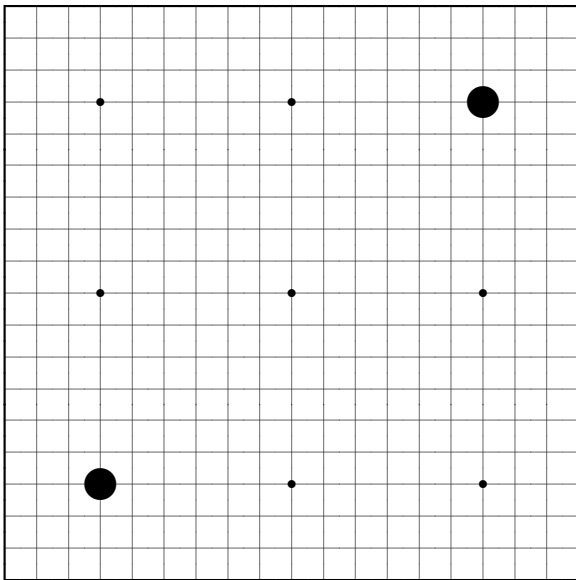

Diagram. 33
(Move: 1)

taqxyn [2d]: hi Kashomon [1k]: hi, gg

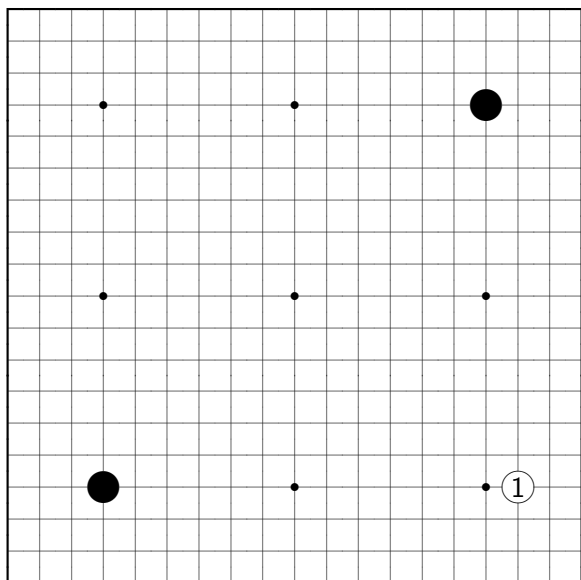

Diagram. 34
(Move: 1)

Younggil [8p]: let's have a look

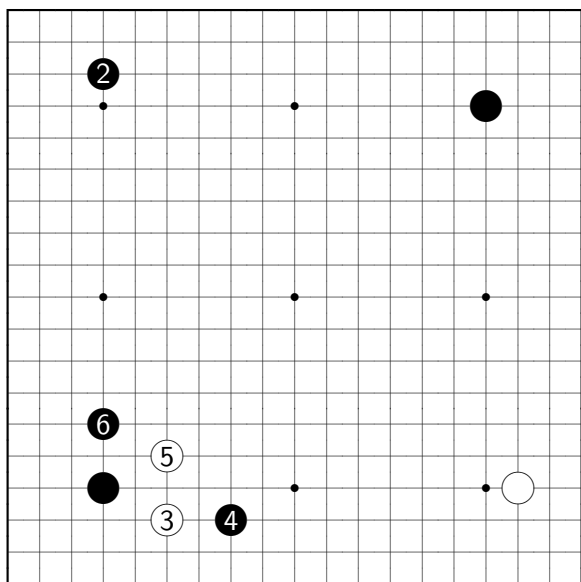

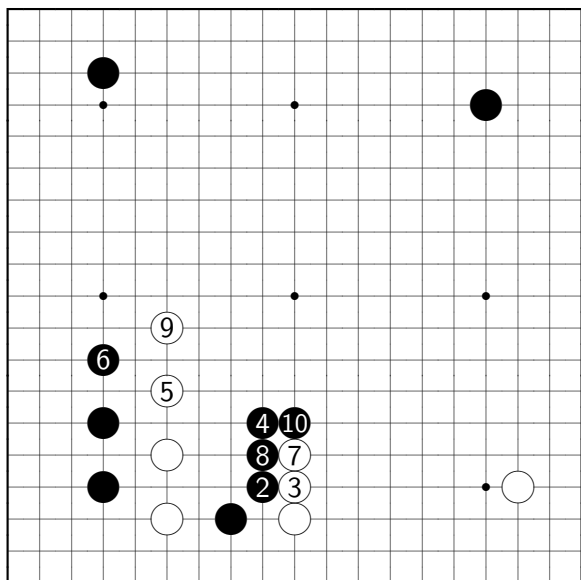

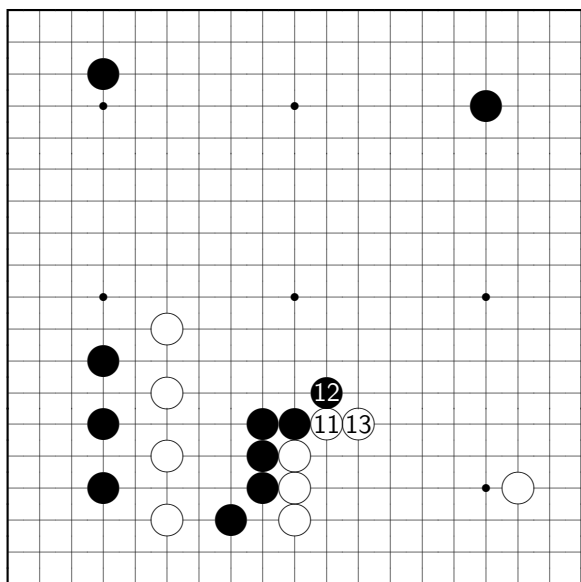

Diagram. 35
(Moves: 2-6)

Kashomon [1k]: pincer from the bottom? Younggil
[8p]: K3 or L3 instead

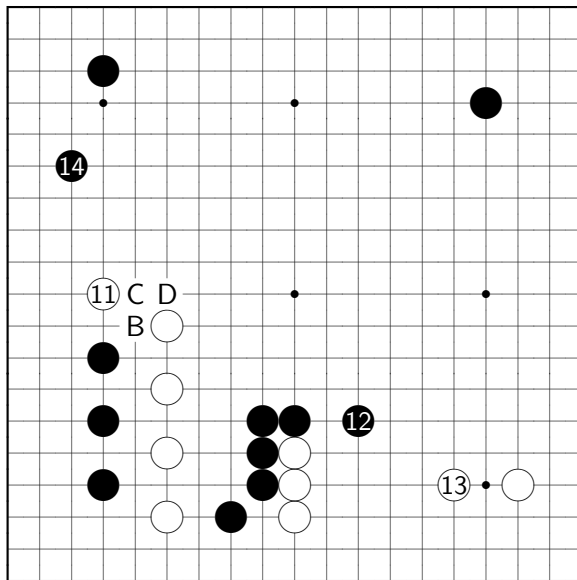

Variation. 53 from ⑥

Younggil [8p]: something like this Kashomon [1k]: Is this a handicap joseki? Younggil [8p]: hmm, no Younggil [8p]: just playable for both Kashomon [1k]: I see, thanks Younggil [8p]: in general, black's position is slightly better Younggil [8p]: this is better for the handicap game Younggil [8p]: black might feel uncomfortable or uneasy with the lower side group Younggil [8p]: because they're still weak and baseless Kashomon [1k]: Would White follow up with L6 or D10 here?

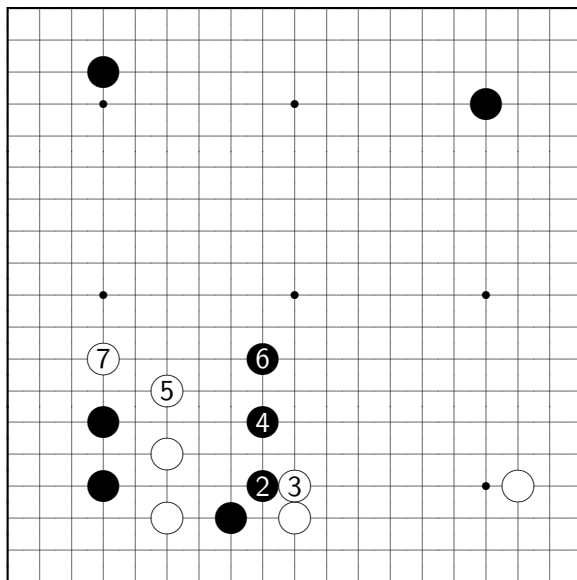

Variation. 54 from ⑥

Younggil [8p]: probably here

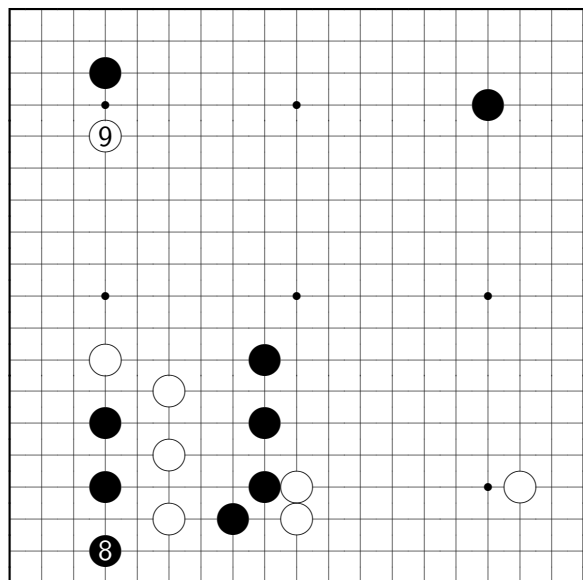

Variation. 55 from ⑥

Younggil [8p]: because there's nothing special after A Kashomon [1k]: I see Younggil [8p]: and Black can still cut off White with B to D later

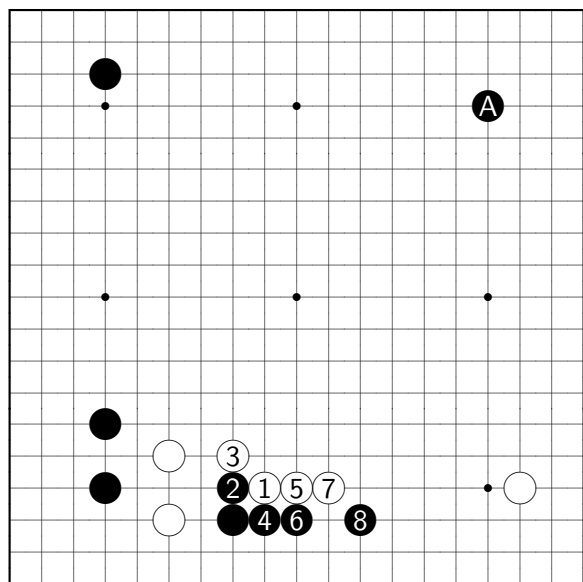

Variation. 56 from ⑥

Younggil [8p]: this is different

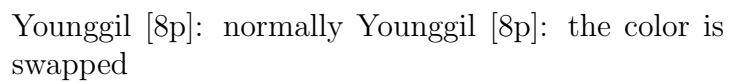

Variation. 57 from ⑥

Younggil [8p]: like this Kashomon [1k]: I see
 Kashomon [1k]: Well, I think that's all the questions
 from this game that I have Younggil [8p]: good, it
 was a nice game Younggil [8p]: you could get a better
 result in the opening though :)

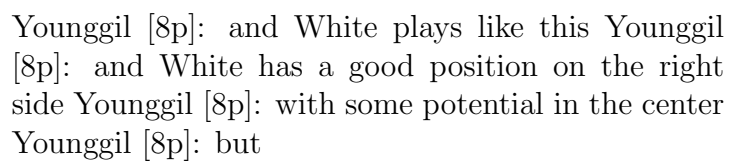

Variation. 58 from ⑥

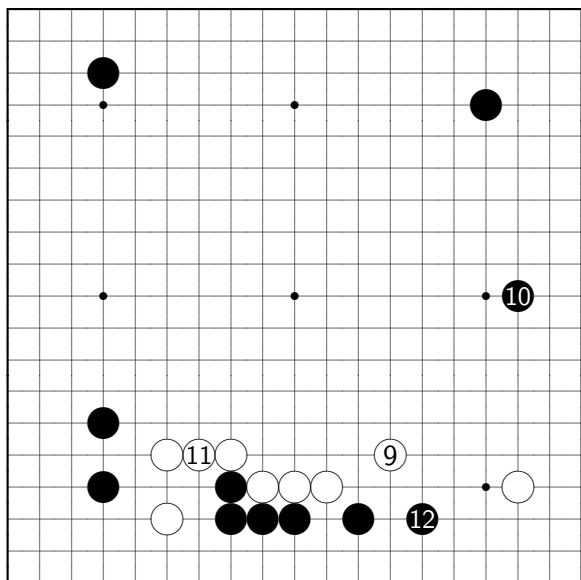

Kashomon [1k]: I've seen this many times Younggil
 [8p]: this is normal joseki, but that's bad in handicap
 games Kashomon [1k]: why? Younggil [8p]: now,
 because of A, White can't develop his right side easily

Variation. 59 from 6

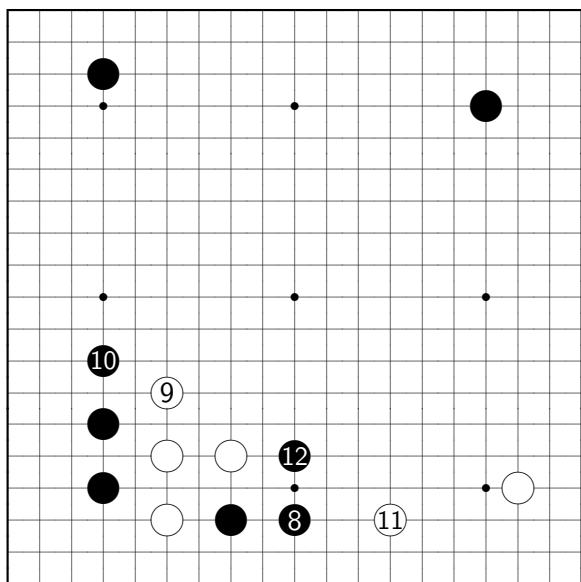

Variation. 60 from 6

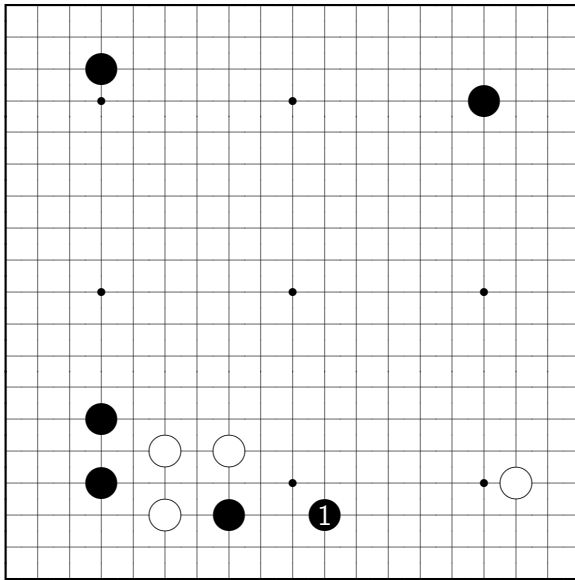

Variation. 61 from ⑥

Younggil [8p]: so, that's a bit too easy for Black
 Kashomon [1k]: ah

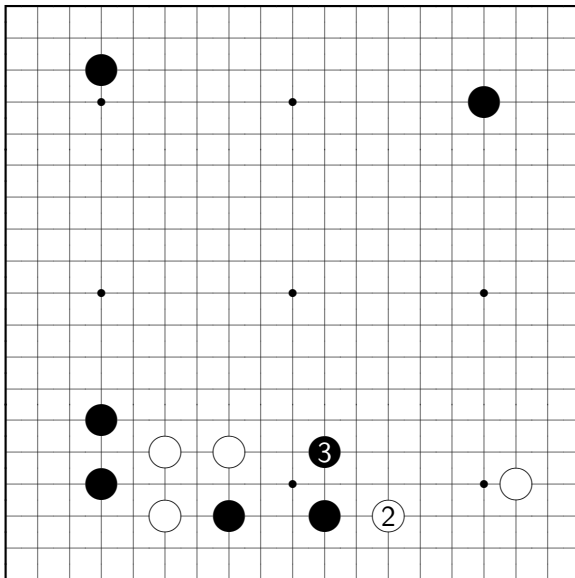

*Diagram. 37
 (Moves: 8-12)*

Younggil [8p]: good as well

Variation. 62 from ⑦

Younggil [8p]: this is also possible

Variation. 63 from ⑦

Kashomon [1k]: I was trying to avoid J2 Younggil [8p]: like this Younggil [8p]: i see Younggil [8p]: al-right

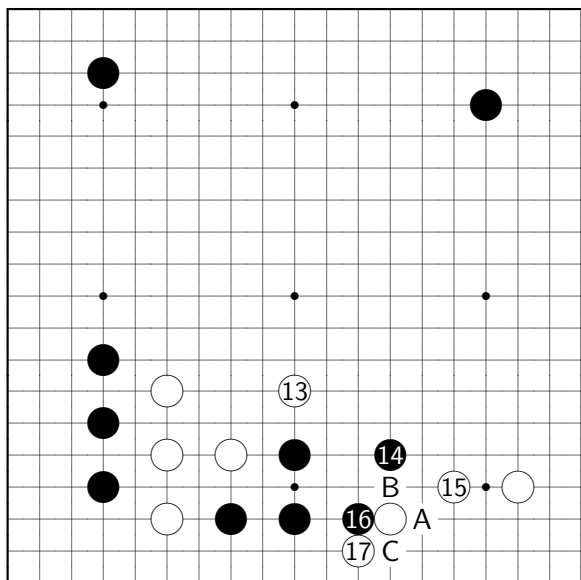

Diagram. 38
(Moves: 13-17)

Younggil [8p]: perfect so far Younggil [8p]: and there's a nice tesuji Younggil [8p]: what can black do now? Kashomon [1k]: Let's see Kashomon [1k]: The first think that comes to mind is C Younggil [8p]: ok, then? Kashomon [1k]: But I can't seem to make it work Younggil [8p]: you can control

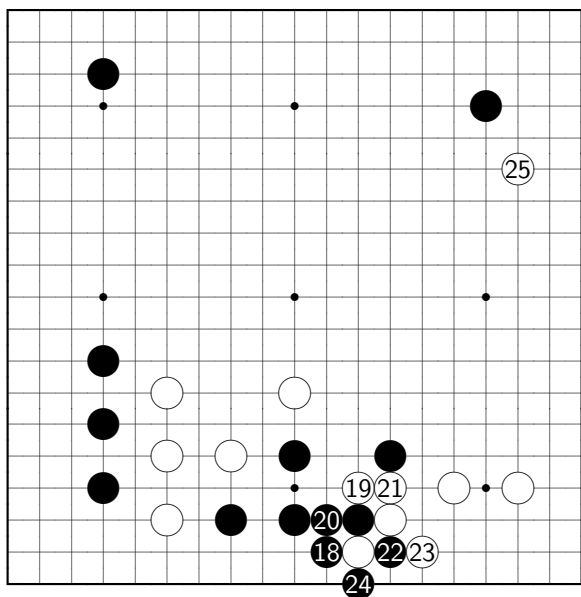

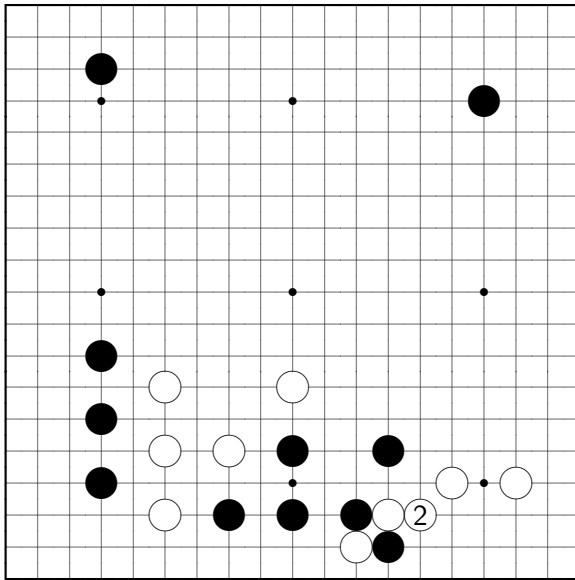

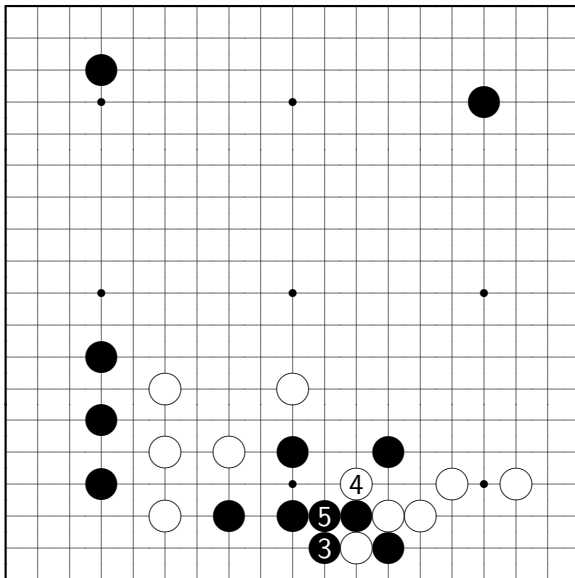

Diagram. 39
(Moves: 18-25)

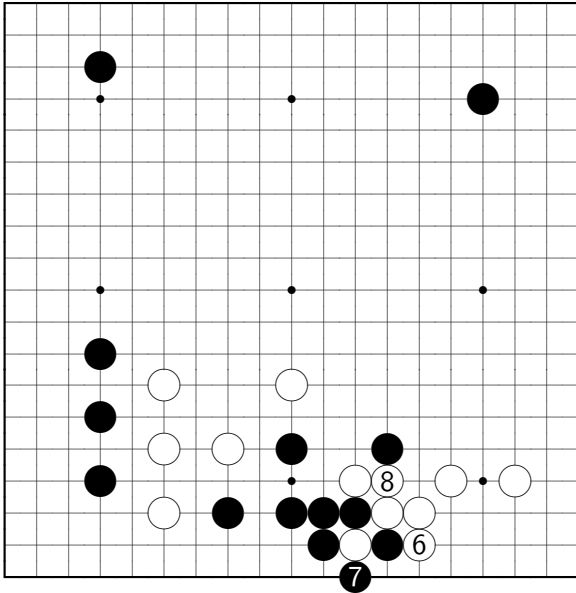

Younggil [8p]: ok Kashomon [1k]: oh Kashomon [1k]: It's not Younggil [8p]: white has sente now :) Kashomon [1k]: because White has a stone at O2 Kashomon [1k]: O31 Younggil [8p]: Not O3 Kashomon [1k]: yup, O3 Younggil [8p]: the result up to here was successful for White Younggil [8p]: black's still alright though

Variation. 66 from ⑪

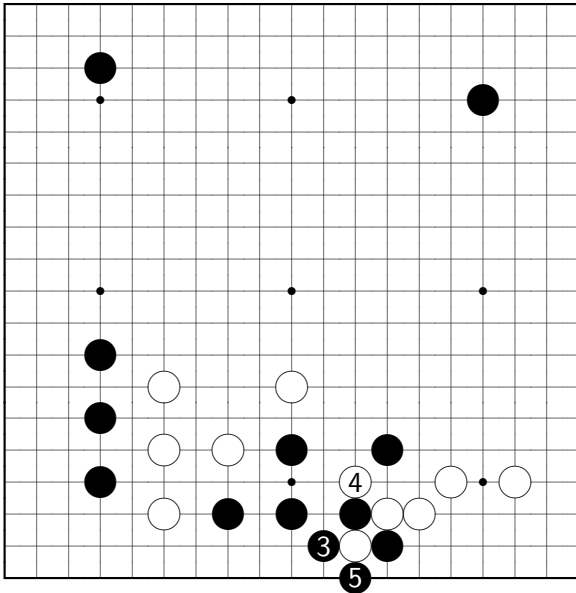

Younggil [8p]: capture the stone

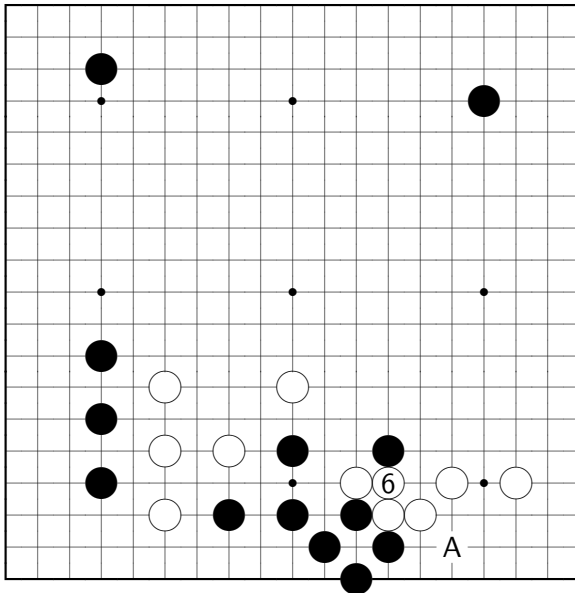

Variation. 68 from (17)

Younggil [8p]: black has sente Kashomon [1k]: hm
 Younggil [8p]: or Kashomon [1k]: this seems to be
 similar to the game Kashomon [1k]: In this variation
 I mean Younggil [8p]: when you're being attacked
 Younggil [8p]: cross cut is a good idea Kashomon
 [1k]: That's slick Younggil [8p]: can I control please?

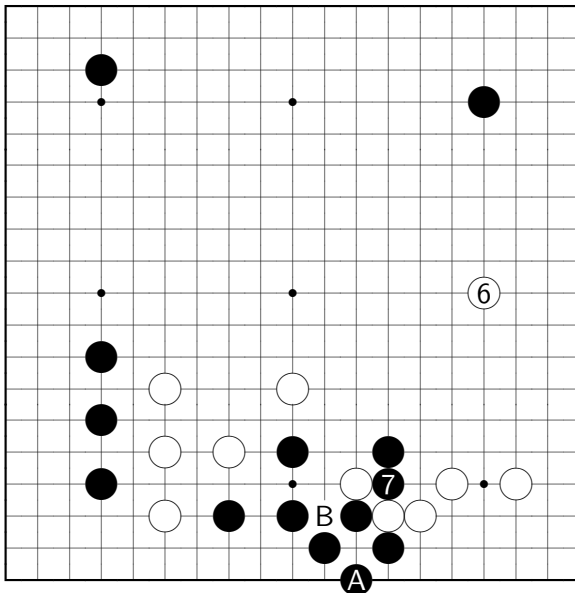

Variation. 69 from (17)

Younggil [8p]: black can even take it now

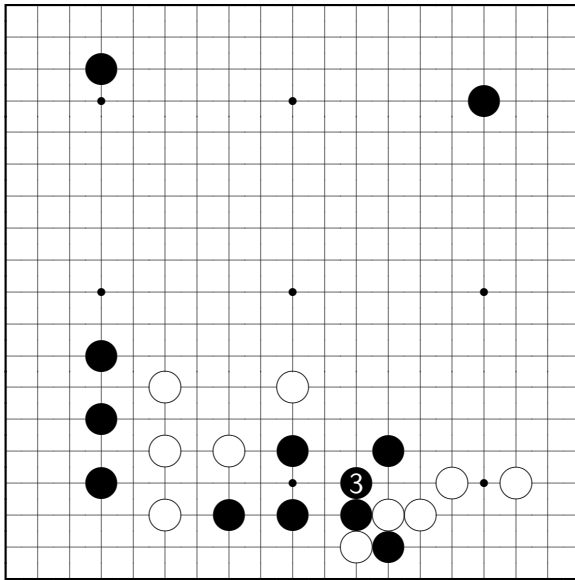

Variation. 70 from ⑪

Kashomon [1k]: White won't connect Younggil [8p]:
and that's better for the endgame

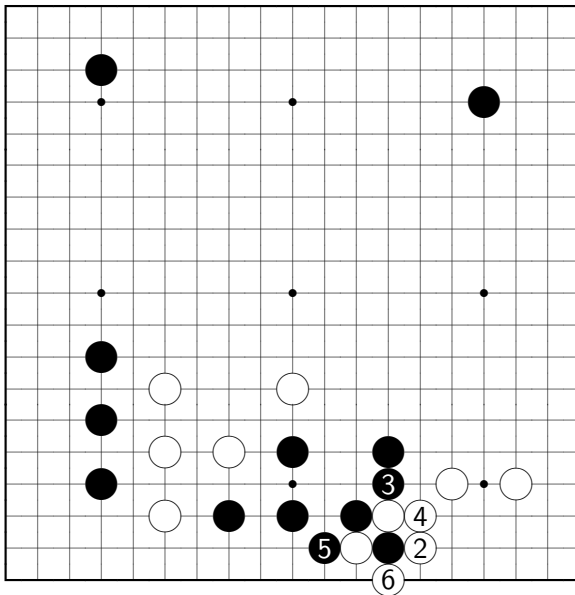

Variation. 71 from ⑪

Younggil [8p]: this is very good for Black Younggil
[8p]: and A is better than B anyway Kashomon [1k]:
I see

Variation. 72 from ⑪

Younggil [8p]: no

Variation. 73 from ⑪

Younggil [8p]: this is normal for White Younggil [8p]:
and Black has sente

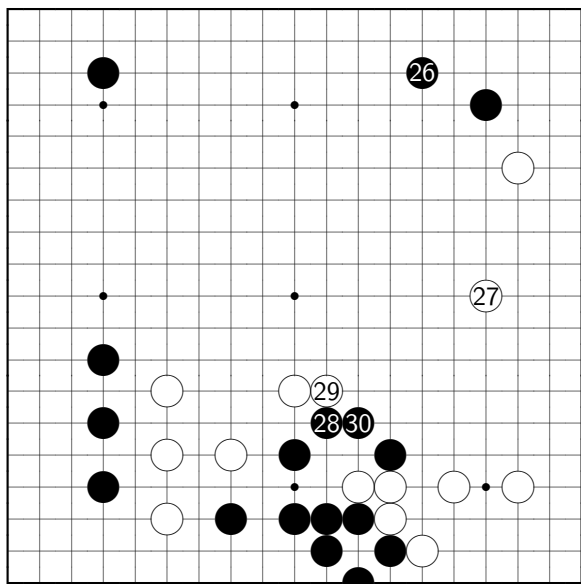

Diagram. 40
(Moves: 26-30)

Younggil [8p]: good moves!

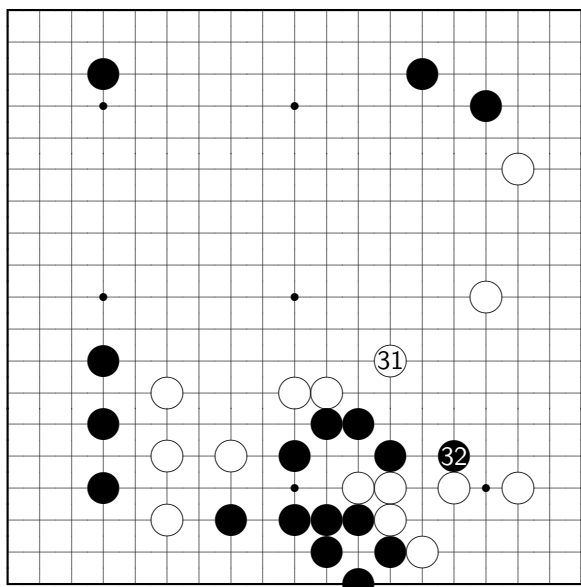

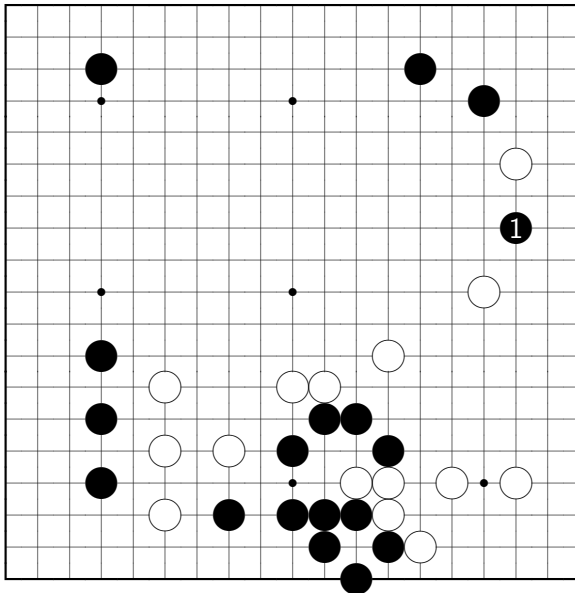

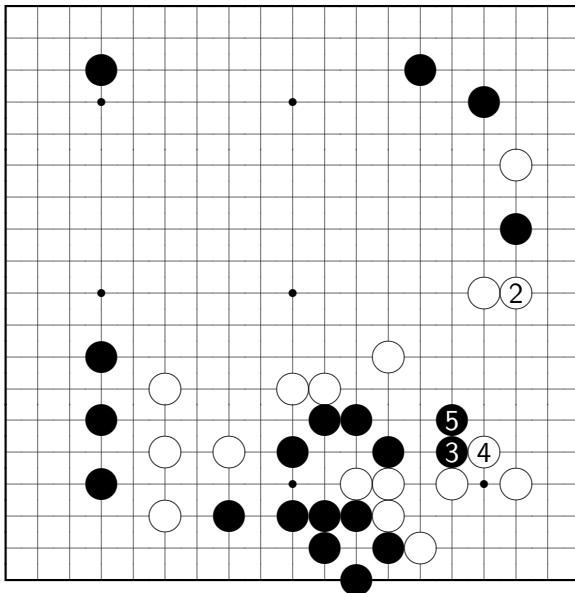

Diagram. 41
(Moves: 31-32)

Younggil [8p]: this was a bit too early

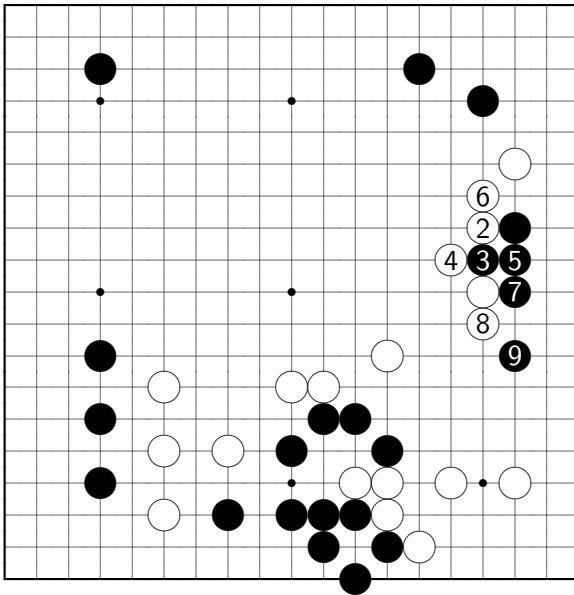

Variation. 74 from ③1

Younggil [8p]: how about invading here? Kashomon [1k]: Ah, that would be nice timing

Variation. 75 from ③1

Younggil [8p]: if white answers at R10, Black can still play here later

Variation. 76 from (31)

Kashomon [1k]: successful fol black Younggil [8p]:
black can live like this Younggil [8p]: yea

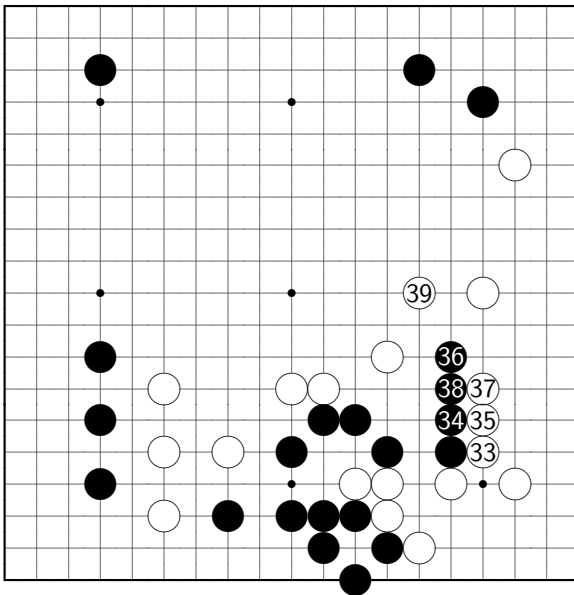

Diagram. 42
(Moves: 33-39)

Younggil [8p]: and white is happy with the territory on the right

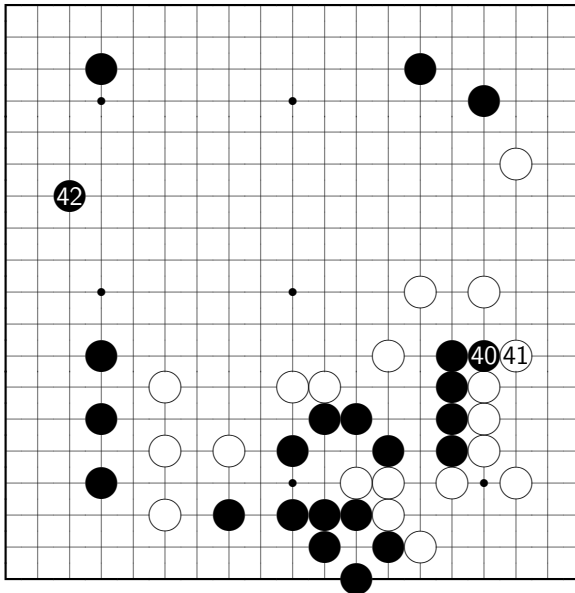

Diagram. 43
(Moves: 40-42)

Younggil [8p]: by the way, this move is interesting! Younggil [8p]: seems to be good balanced :)
Kashomon [1k]: thanks

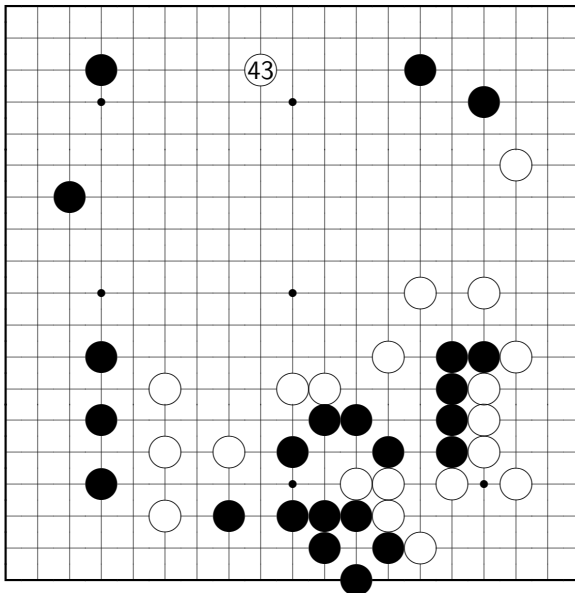

Diagram. 44
(Move: 43)

Kashomon [1k]: yes, the stones are on the 4th line
Younggil [8p]: yea

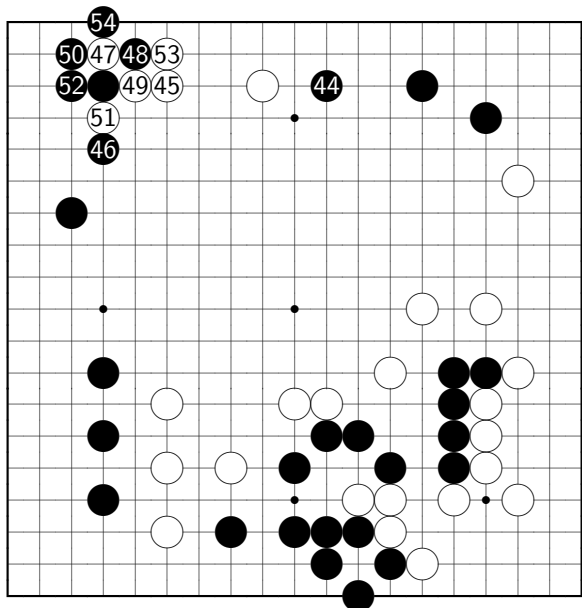

Diagram. 45
(Moves: 44-54)

Younggil [8p]: good

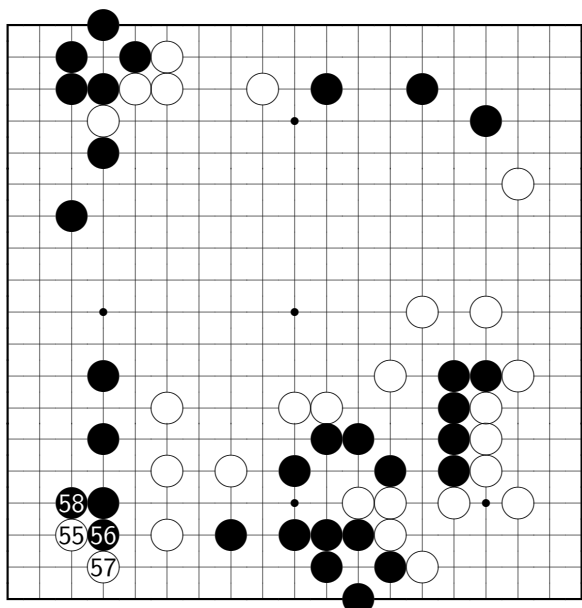

Diagram. 46
(Moves: 55-58)

Younggil [8p]: right direction

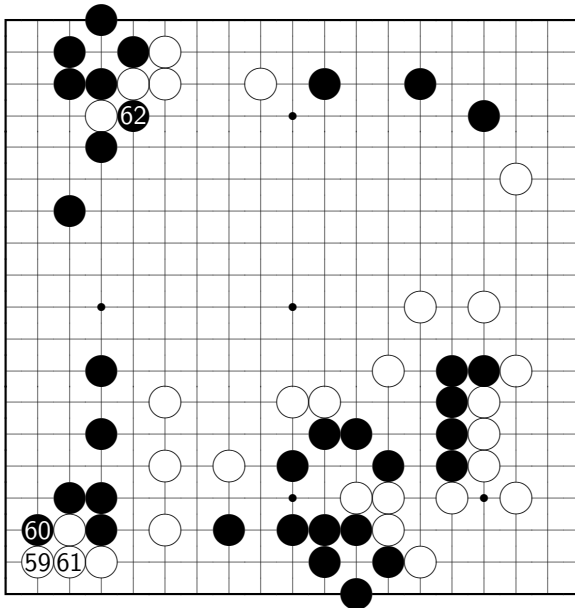

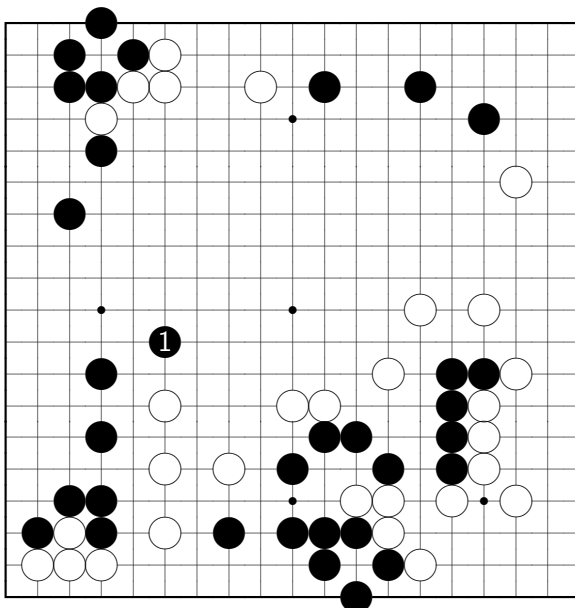

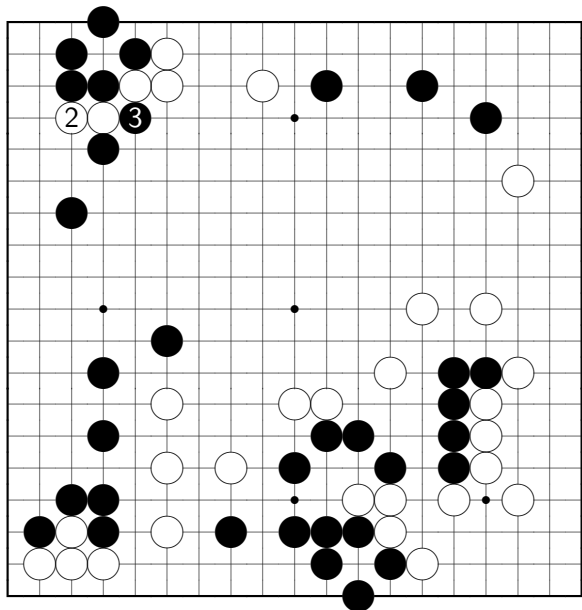

Diagram. 47
(Moves: 59-62)

Younggil [8p]: this is also thick and safe

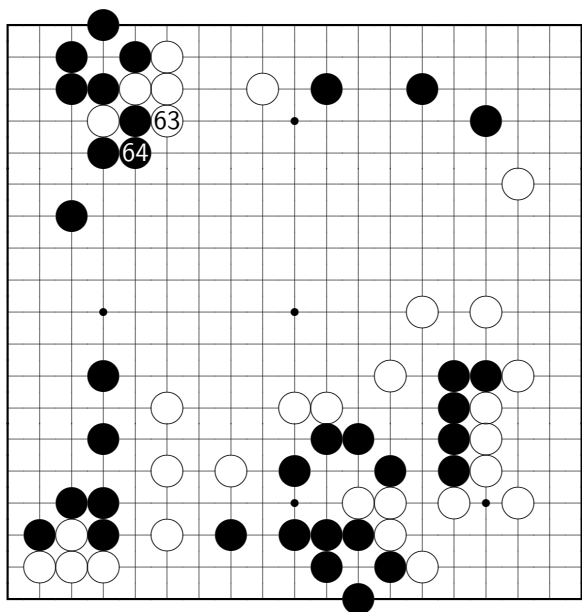

Variation. 77 from ⑥1

Younggil [8p]: this is also a good place

Variation. 78 from ⑥1

Younggil [8p]: and white can't fight like this

*Diagram. 48
(Moves: 63-64)*

Younggil [8p]: you thought the game was still good for you, right? Kashomon [1k]: Yes, I thought it was going alright Younggil [8p]: good Younggil [8p]: the game seems to be still better for Black

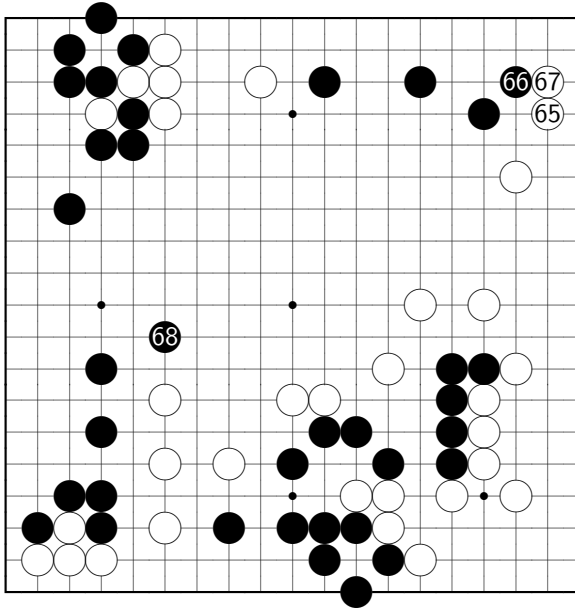

Diagram. 49
(Moves: 65-68)

Younggil [8p]: very good

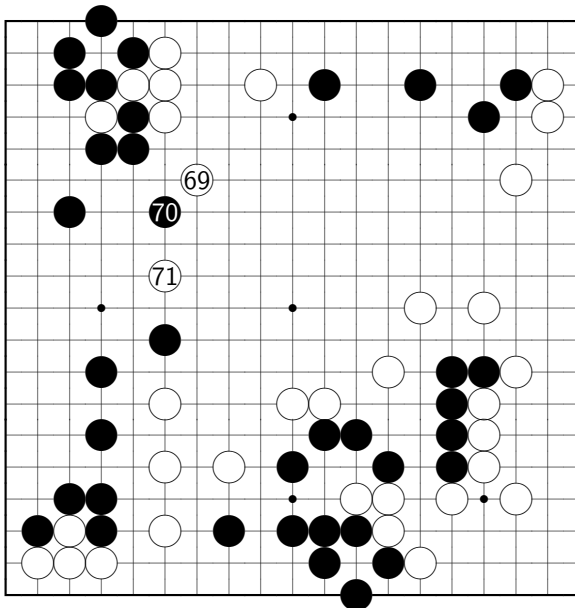

Diagram. 50
(Moves: 69-71)

Younggil [8p]: this is a good move to reduce black's area
Younggil [8p]: and Black should also try to gain some points for compensation

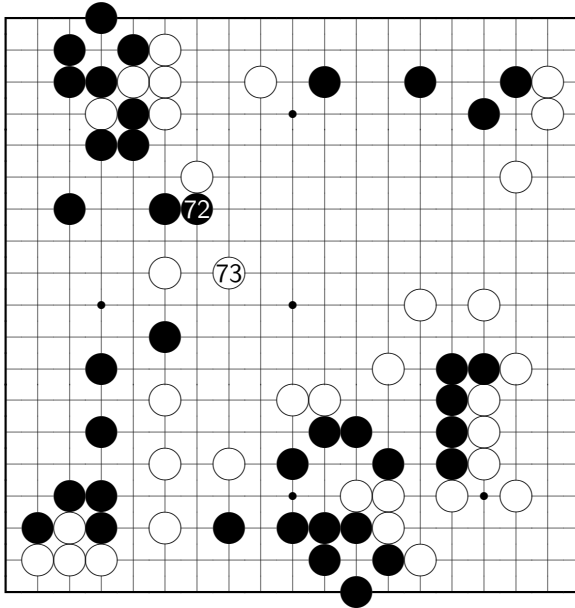

Diagram. 51
(Moves: 72-73)

Kashomon [1k]: yeah Kashomon [1k]: oh Younggil
[8p]: here? Kashomon [1k]: I mean

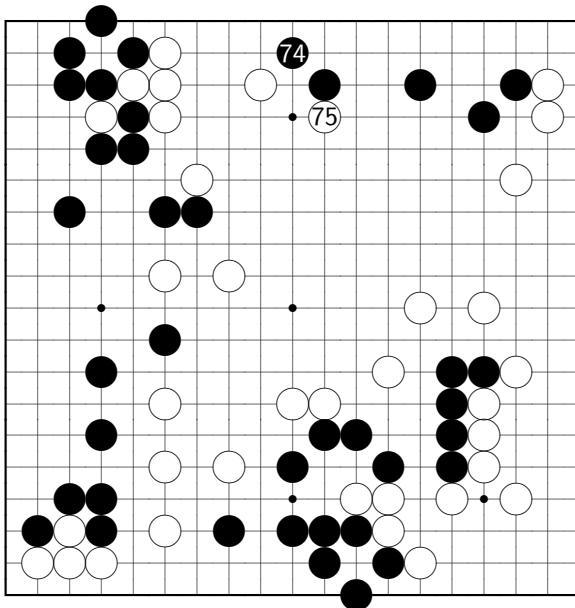

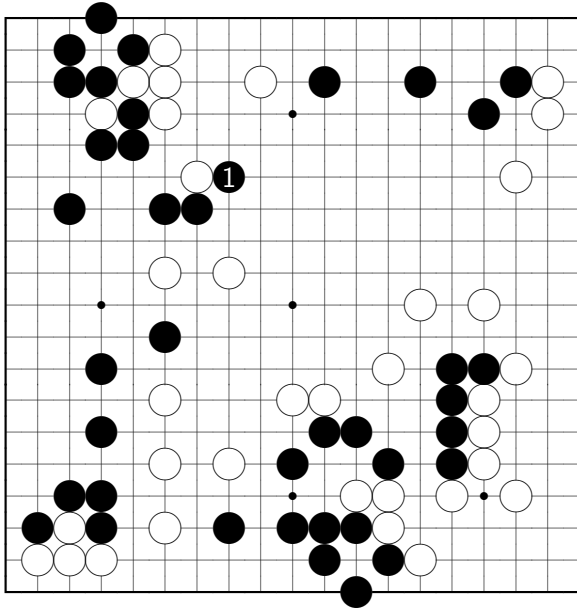

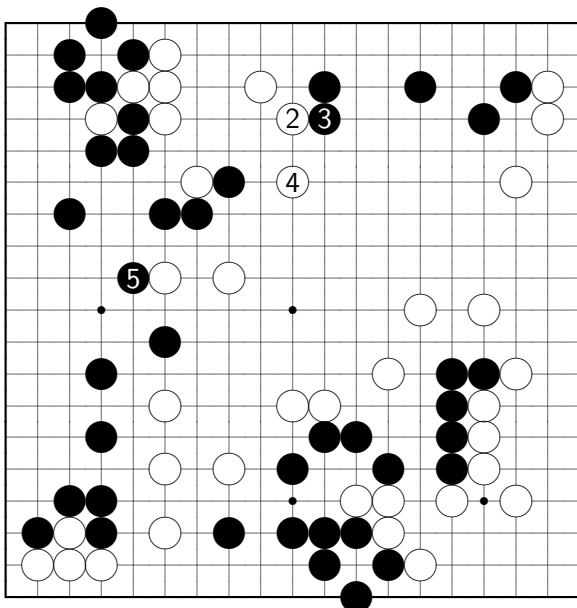

Diagram. 52
(Moves: 74-75)

Kashomon [1k]: too early for that Kashomon [1k]:
yeah

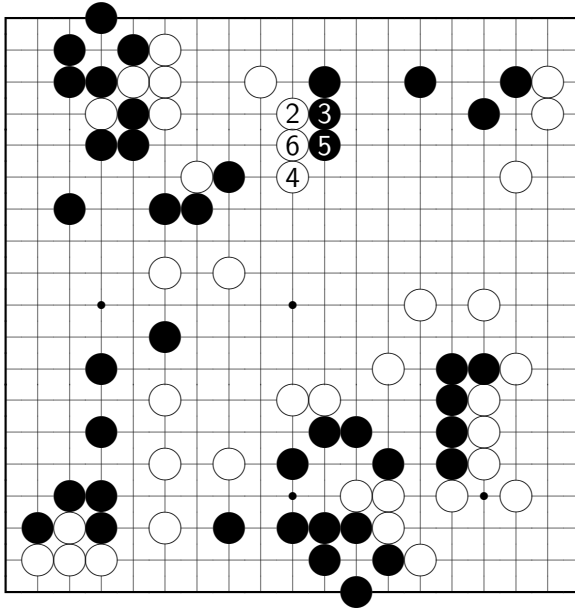

Variation. 79 from ⑦③

Younggil [8p]: this is also possible Kashomon [1k]:
Ah

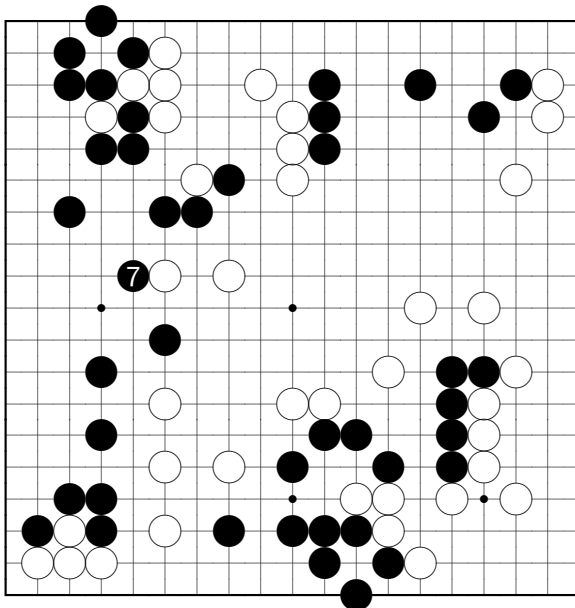

Variation. 80 from ⑦③

Younggil [8p]: like this Kashomon [1k]: I realized
at this stage that for White to win Kashomon [1k]:
White needed to make points in the center Younggil
[8p]: right Younggil [8p]: so black'd better reduce
the center

Variation. 81 from ⑦3

Younggil [8p]: this is good enough Younggil [8p]:
since black was already in the lead

Variation. 82 from ⑦3

Younggil [8p]: so this would be the best Younggil
[8p]: the game would still be close though Kashomon
[1k]: I see, that makes sense Younggil [8p]: any other
questions in this game? Kashomon [1k]: hm

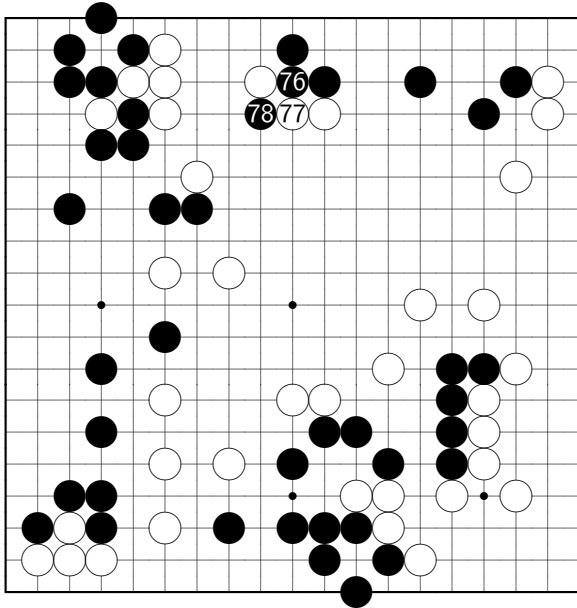

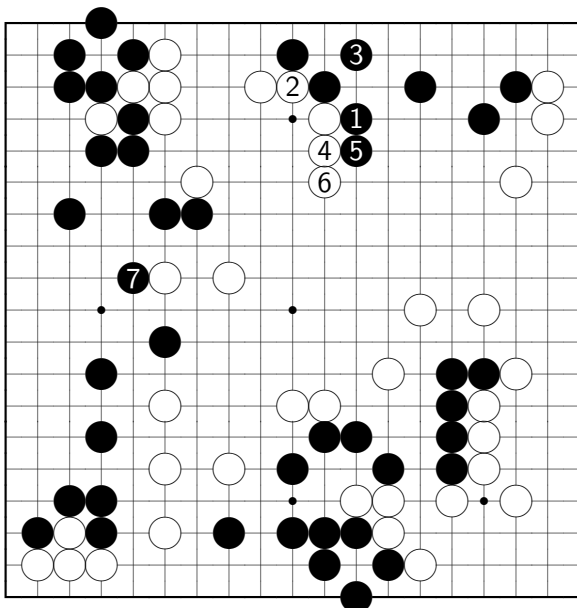

Diagram. 53
(Moves: 76-78)

Kashomon [1k]: this was a mistake Younggil [8p]:
wow Younggil [8p]: oh, because they are captured?

Variation. 83 from ⑦5

Kashomon [1k]: this would have been fine Younggil [8p]:
that'd be just ok with this

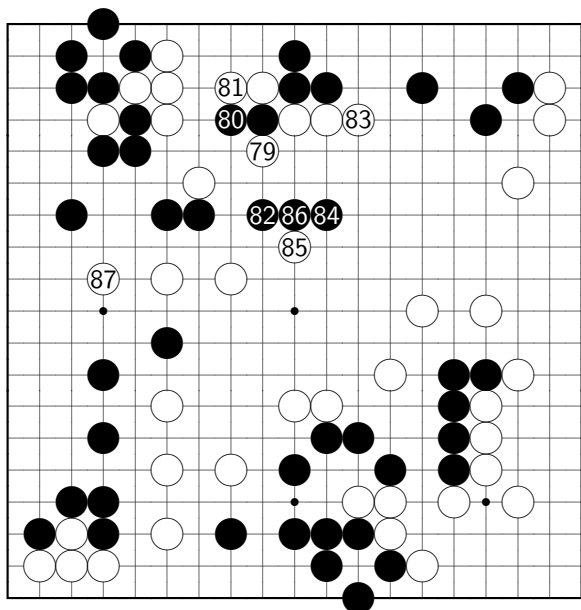

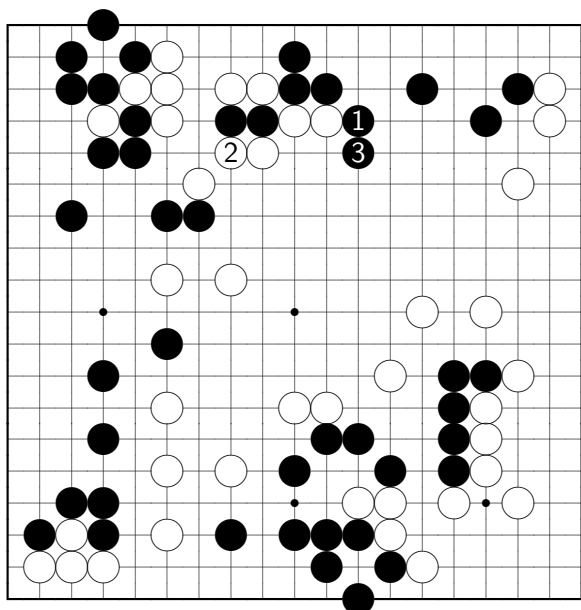

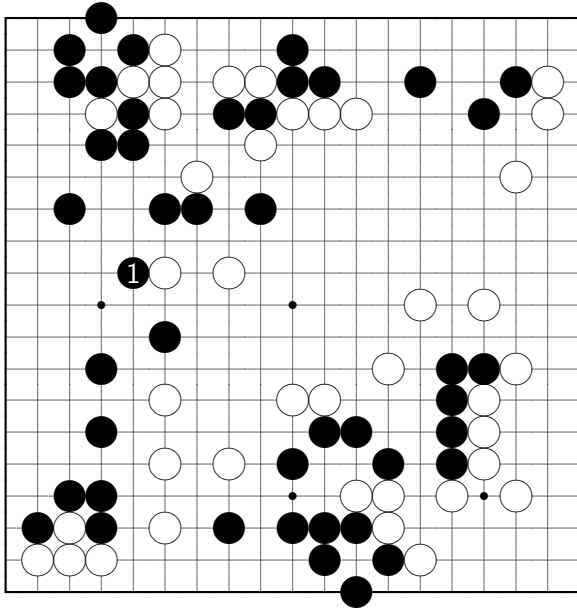

Diagram. 54
(Moves: 79-87)

Younggil [8p]: oh Younggil [8p]: black lost a lot of points here Kashomon [1k]: now the game is uncertain Younggil [8p]: right Younggil [8p]: so did you start to attack White's top group? Kashomon [1k]: yup =) Younggil [8p]: good :)

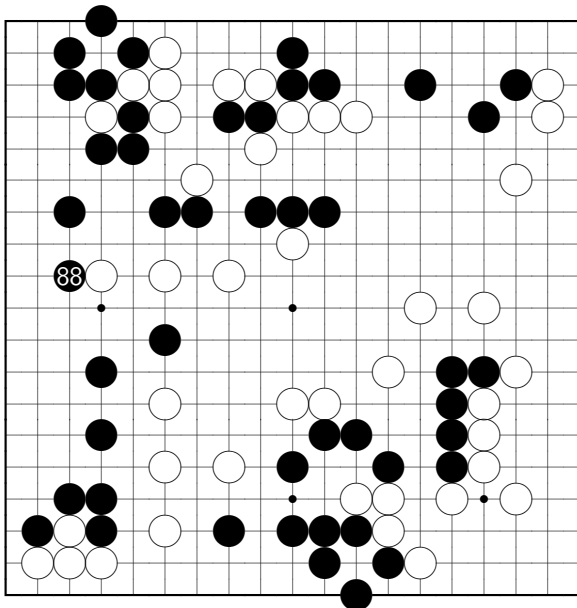

Variation. 84 from ⑧1

Younggil [8p]: this would be better still Kashomon [1k]: I guess at this stage E11 is still open Younggil [8p]: right

Variation. 85 from ⑧3

Younggil [8p]: black should block here by the way
 Younggil [8p]: that's very big Younggil [8p]: and
 White's center is still open Kashomon [1k]: that
 makes sense

*Diagram. 55
 (Move: 88)*

Kashomon [1k]: not yet

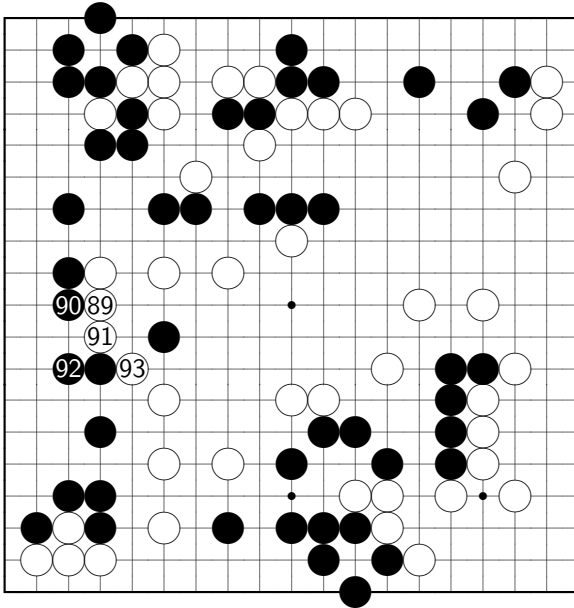

Diagram. 56
(*Moves: 89-93*)

Kashomon [1k]: now Younggil [8p]: i see Younggil [8p]: now you should do :) Younggil [8p]: not easy actually

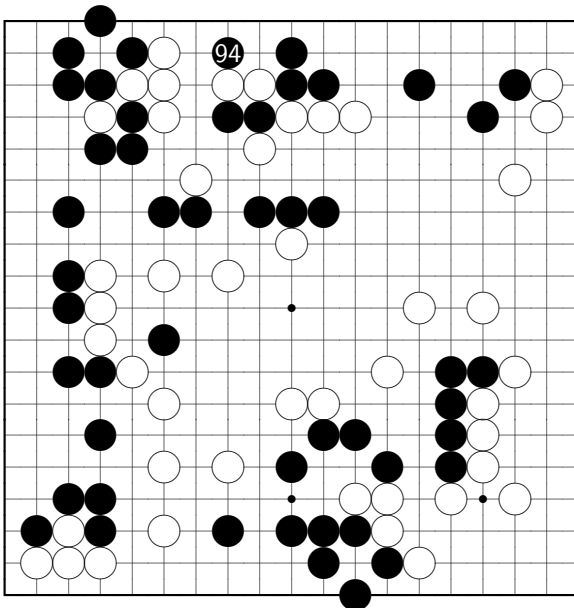

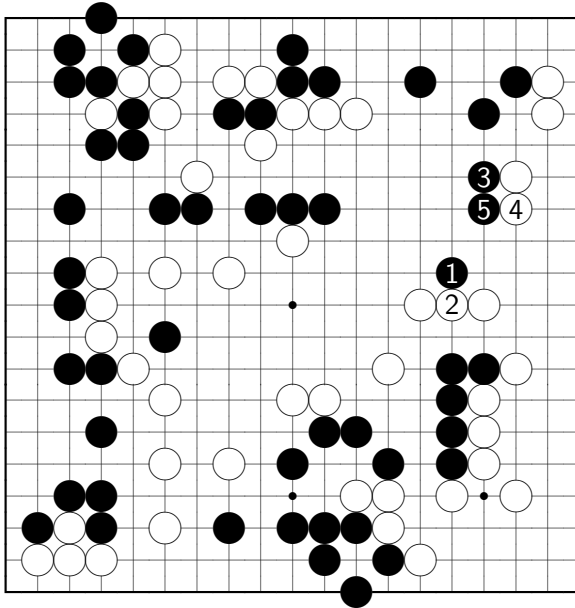

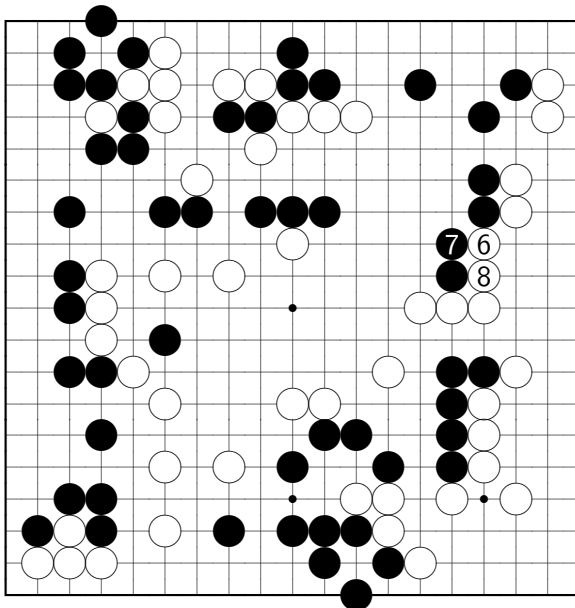

Diagram. 57
(Move: 94)

Younggil [8p]: if you were white, where'd you play?
 Kashomon [1k]: h15 Kashomon [1k]: after this
 Kashomon [1k]: instead of this? Younggil [8p]: hmm

Variation. 86 from ⑨3

Kashomon [1k]: giving up those two stones made things hard

Variation. 87 from ⑨3

Younggil [8p]: yes right Younggil [8p]: hard to capture the group

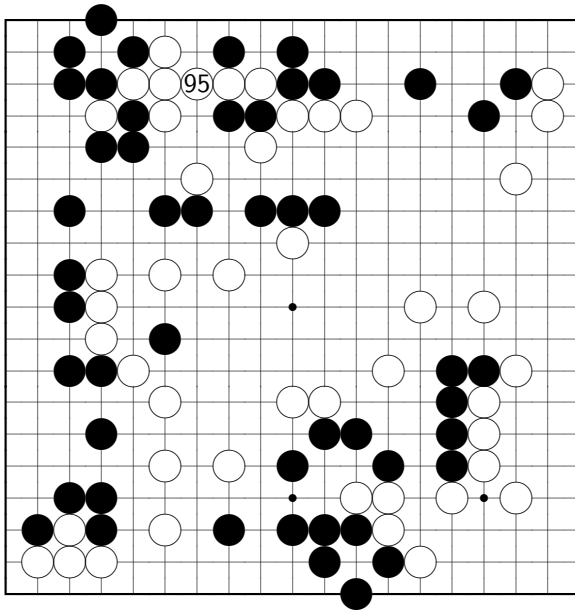

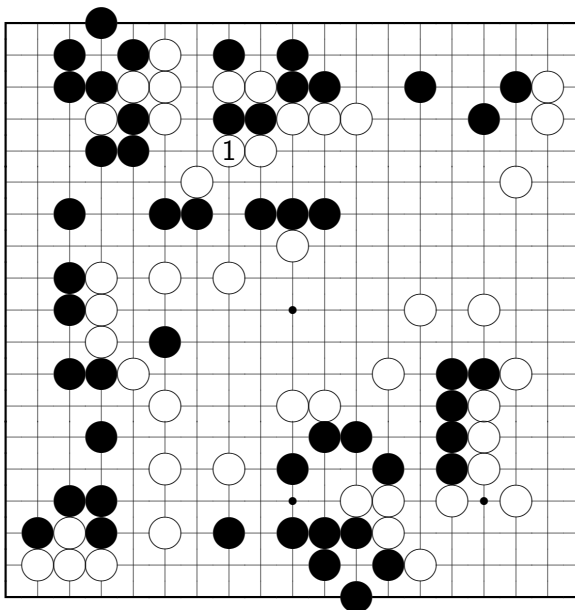

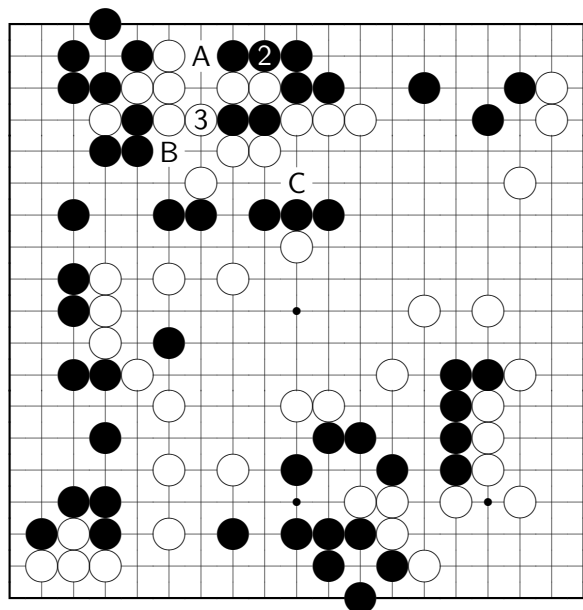

Diagram. 58
(Move: 95)

Kashomon [1k]: Here Younggil [8p]: now?

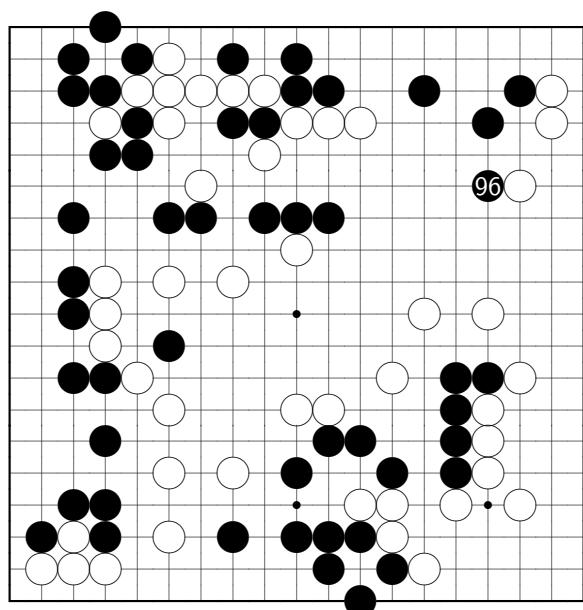

Variation. 88 from 94

Younggil [8p]: right, White's alive Younggil [8p]: and that's hard to chase Kashomon [1k]: hm Kashomon [1k]: really? Younggil [8p]: yea Kashomon [1k]: let's see Younggil [8p]: nearly

Variation. 89 from 94

Kashomon [1k]: oh yeah Younggil [8p]: yea :) Younggil [8p]: right Kashomon [1k]: because of Kashomon [1k]: hm Kashomon [1k]: oops Kashomon [1k]: haha Younggil [8p]: :), east to misread Younggil [8p]: easy*

*Diagram. 59
(Move: 96)*

Younggil [8p]: that attachment was a good time

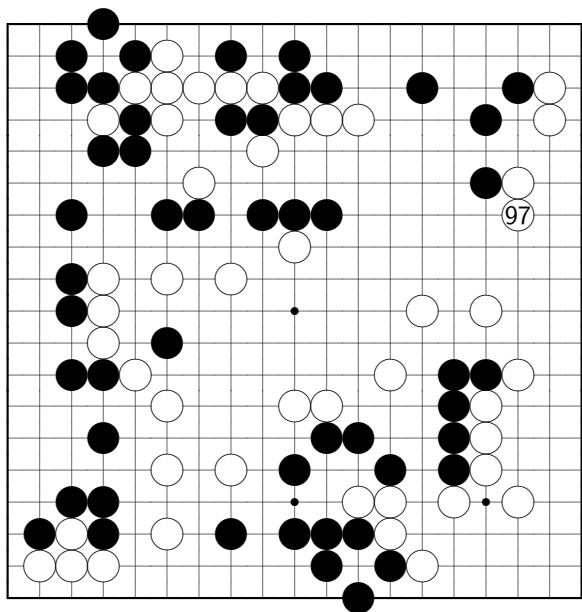

Diagram. 60
(Move: 97)

Kashomon [1k]: at black 94

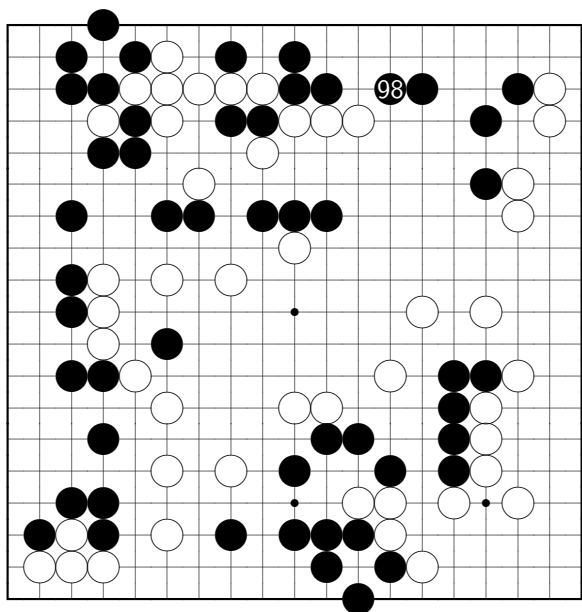

Diagram. 61
(Move: 98)

Younggil [8p]: good

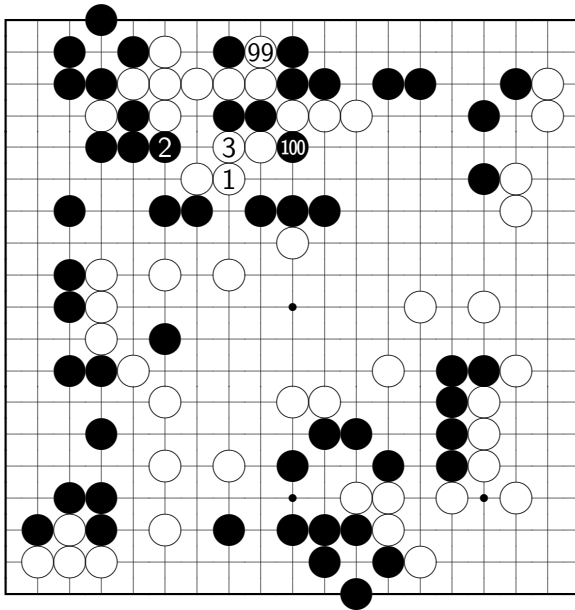

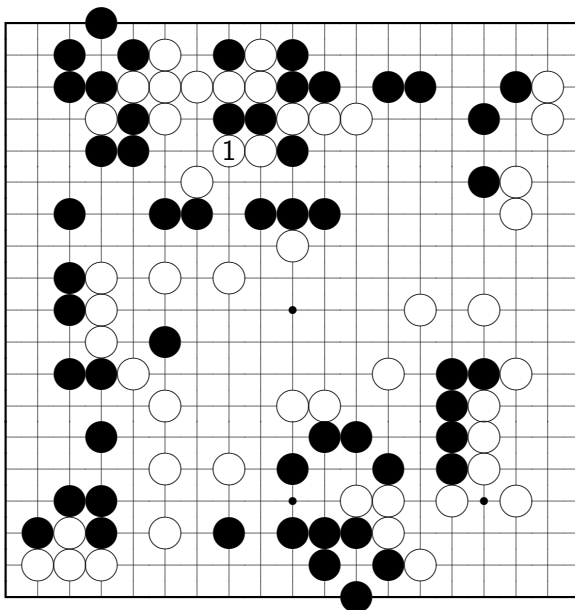

Diagram. 62
(Moves: 99-103)

Kashomon [1k]: farther

Variation. 90 from 100

Younggil [8p]: white should have atari here
Younggil [8p]: then White can still live

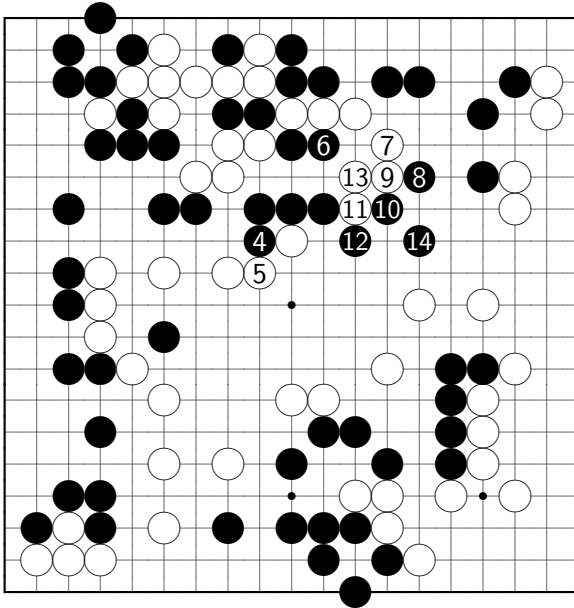

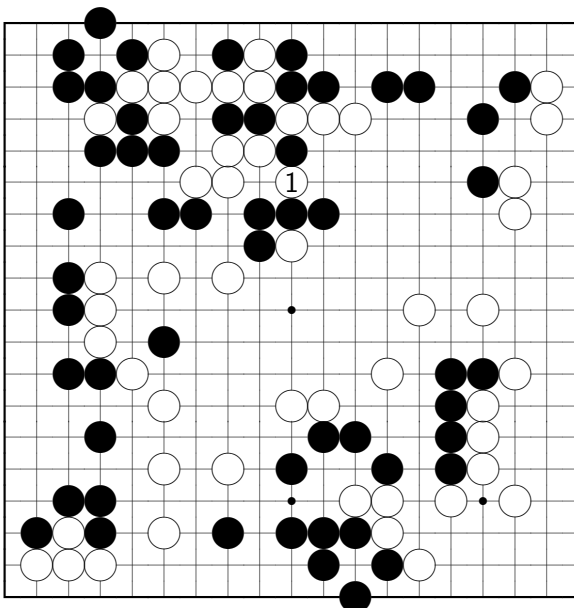

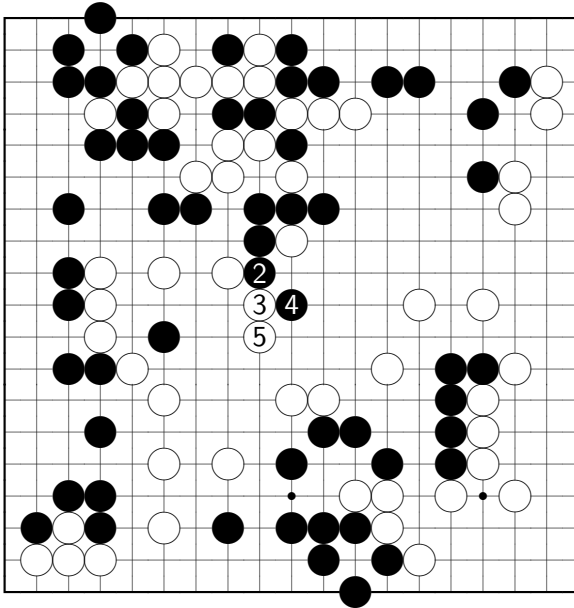

Diagram. 63
(Moves: 104-114)

Younggil [8p]: very good

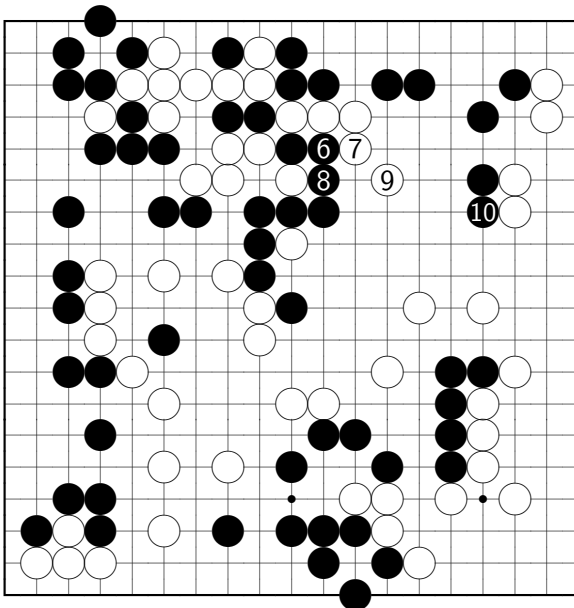

Variation. 91 from 104

Younggil [8p]: white has a last chance to live here
Kashomon [1k]: yeah

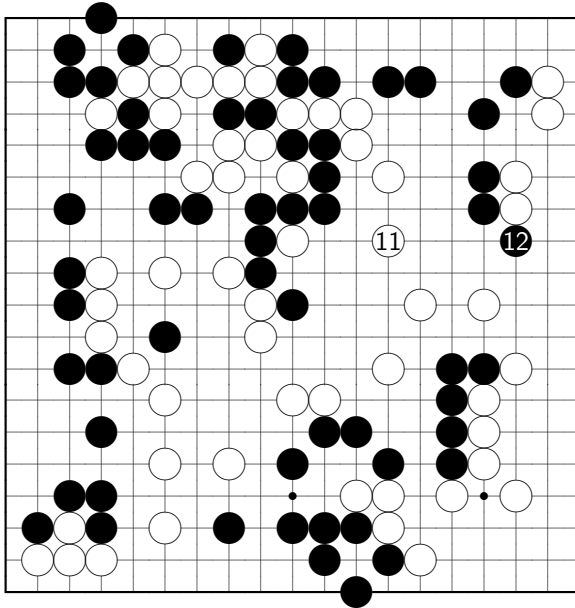

Variation. 92 from 104

Younggil [8p]: who's better now then? Kashomon [1k]: hm Kashomon [1k]: White has... maybe 70
 Younggil [8p]: yes Kashomon [1k]: Black has 60 or less Younggil [8p]: yes Kashomon [1k]: so much better for White Younggil [8p]: White's top isn't yet completely alive Younggil [8p]: so black can get some more points, but hard to reverse

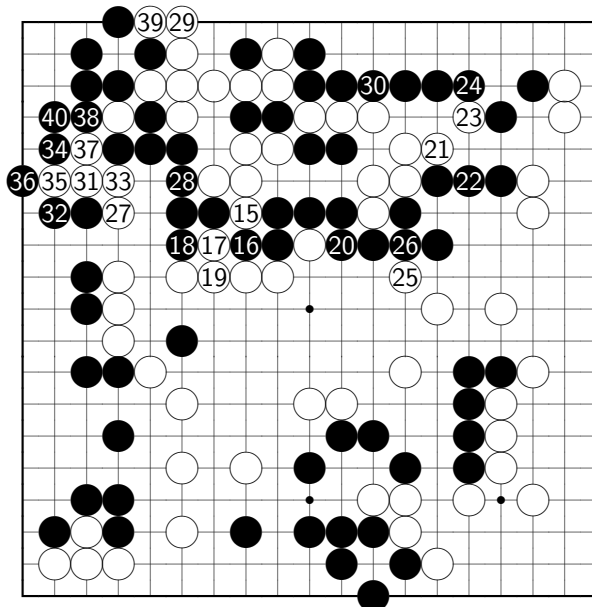

Variation. 93 from 104

Kashomon [1k]: Was there a better way to attack the white group?

Variation. 94 from 104

Younggil [8p]: hmm Younggil [8p]: at the beginning?

*Diagram. 64
(Moves: 115-140)*

Kashomon [1k]: thx Kashomon [1k]: I played this game yesterday on KGS Younggil [8p]: wow
